FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers for $340.00 per year, or $170.00 for 6 months, payable in advance. The charge for individual copies is $1.50 for each issue, or $1.50 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

There are no restrictions on the republication of material appearing in the **Federal Register.**

Title 3—

The President

Proclamation 5636 of April 23, 1987

National Defense Transportation Day and National Transportation Week, 1987

By the President of the United States of America

A Proclamation

Throughout our history, the building and improvement of transportation links have been vital to the exploration and settlement of our country and to the development of its commerce. We can all be grateful that these processes have never ceased and that the spirit of enterprise that motivated early American pioneers still thrives today.

During the early decades of our Republic, planners, engineers, and workmen built the Cumberland Road from western Maryland to central Illinois. This road started what was to become a vast, 42,000-mile network of interstate and defense highways across the United States.

Other notable undertakings illustrate the evolution of Americans' mobility. By 1825, the Erie Canal opened the Great Lakes to commerce; its success spurred a huge inland waterway system, including the St. Lawrence Seaway. By 1850, more than a thousand steamboats plied our rivers, and clipper ships came to dominate trade with China. By 1869, the transcontinental railroad was completed. Technological advances of the late 19th and early 20th centuries brought the automobile and the airplane, and further developments resulted in space flight.

Our land, water, and air transportation systems provide us with fast, efficient, and safe personal and commercial travel. They are vital not only to our economy and our personal mobility, but also to the defense of our Nation. Our ability to transport people and materials in time of emergency is a critical aspect of our national security.

In recognition of the importance of transportation and of the millions of Americans who serve and supply our transportation needs, the Congress has requested, by joint resolution approved May 16, 1957 (36 U.S.C. 160), that the third Friday in May of each year be designated as "National Defense Transportation Day"; and by joint resolution approved May 14, 1962 (36 U.S.C. 166), that the week in which that Friday falls be proclaimed "National Transportation Week."

NOW, THEREFORE, I, RONALD REGAN, President of the United States of America, do hereby proclaim Friday, May 15, 1987, as National Defense Transportation Day and the week of May 10 through May 16, 1987, as National Transportation Week. I urge the people of the United States to observe these occasions with appropriate ceremonies that will give full recognition to the importance of our transportation system to this country.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-third day of April, in the year of our Lord nineteen hundred and eighty-seven, and of the Independence of the United States of America the two hundred and eleventh.

Proclamation 5637 of April 23, 1987

Seventy-fifth Anniversary Year of the Department of Labor

By the President of the United States of America

A Proclamation

March 4, 1988, will be the seventy-fifth anniversary of President William Howard Taft's signing into law an act establishing the United States Department of Labor. In celebrating this milestone, we honor both the mandate of this ninth Executive department and the men and women who have made that mandate a reality through the years.

Recognition of the need for a Department of Labor began in the late 19th and early 20th centuries. Labor organizations such as the Knights of Labor and the American Federation of Labor (AFL) urged the creation of a Federal department to deal with matters affecting working people. A Bureau of Labor was established in the Department of the Interior in 1884. This Bureau was made an independent, but not Executive-rank, Department of Labor in 1888. When the Department of Commerce and Labor was created in 1903, the Department of Labor returned to bureau status within it. The famed labor leader Samuel Gompers and others then campaigned for a Cabinet-level Department of Labor.

That campaign bore fruit with President Taft's bill-signing in 1913. The mandate of the Department of Labor was "to foster, promote, and develop the welfare of the wage earners of the United States, to improve their working conditions and to advance their opportunities for profitable employment." That immense task has inspired the Department ever since.

The Department has fulfilled its duties during war and peace, during depression and prosperity. Through the years, the Department of Labor has improved the lives of working people and benefited all Americans through its contributions to the success of our economy.

Among other tasks, the Department helps workers find and train for jobs; monitors changes in employment, prices, and other economic measures; oversees the broad range of working conditions and safeguards working people's rights; assures and strengthens collective bargaining; and ensures freedom from discrimination. Seeking to help business and industry achieve economic growth and stability, the Department also promotes cooperative relationships between labor and management and encourages collaborative efforts with trade unions and employer organizations.

The Department has played a significant international role as well, cultivating understanding among labor organizations throughout the world and fostering free unions and efficient governmental labor institutions in other nations.

NOW, THEREFORE, I, RONALD REAGAN, President of the United States of America, do hereby proclaim the year 1988 as United States Department of Labor Seventy-fifth Anniversary Year. I call upon the people of the United States to observe this Anniversary Year with appropriate programs, ceremonies, and activities. In order to enhance participation in this important observance, I call upon the Secretary of Labor to establish an Honorary Committee for the Department of Labor Seventy-fifth Anniversary Year, and to invite all living former Secretaries of Labor and the Presidents of the AFL–CIO and the Chamber of Commerce to act as Co-Chairs of the Committee. I also call upon the Secretary to invite other distinguished persons to serve as Committee members, including representatives of the Congress, labor, management, and academia.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-third day of April, in the year of our Lord nineteen hundred and eighty-seven, and of the Independence of the United States of America the two hundred and eleventh.

DEPARTMENT OF AGRICULTURE

Food Safety and Inspection Service

9 CFR Part 335

[Docket No. 86-048I]

Meat and Poultry Inspection; Criminal Violations Proceedings; Request for Comments

AGENCY: Food Safety and Inspection Service, USDA.

ACTION: Interim rule with request for comments.

SUMMARY: This interim rule amends the Federal meat inspection regulations by adding a new Subpart E to Part 335, responding to a change made to the Federal Meat Inspection Act (FMIA) as part of the Processed Products Improvement Act of 1986 (Title IV of the Futures Trading Act of 1986). The amendment to the FMIA addressed by the interim rule provides that before a violation of the FMIA is reported by the Secretary to the Department of Justice for prosecution, the Secretary will give reasonable notice to the suspected violator that the Secretary intends to report the violation for prosecution and will give the suspected violator an opportunity to present the violator's views to the Secretary. This new provision also authorizes the Secretary to exempt by regulation certain kinds of criminal violations from the prior notice requirement.

This interim rule: (1) Acknowledges that notice and an opportunity to present views will be afforded suspected violators of the FMIA; and (2) outlines categories of criminal violations where prior notice of intended prosecution will not be given.

DATES: Interim rule effective April 27, 1987. Comments must be received on or before June 26, 1987.

ADDRESS: Written comments to: Policy Office, Attn: Linda Carey, FSIS Hearing Clerk, Room 3168, South Agriculture Building, Food Safety and Inspection Service, U.S. Department of Agriculture, Washington, DC 20250. (See also "Comments" under "Supplementary Information.")

FOR FURTHER INFORMATION CONTACT: Robert W. Gonter, Assistant Deputy Administrator, Compliance Program, Meat and Poultry Inspection Operations, Food Safety and Inspection Service, U.S. Department of Agriculture, Washington, DC 20250, (202) 447-7745.

SUPPLEMENTARY INFORMATION:

Executive Order 12291 and Effect on Small Entities

The Administrator of the Food Safety and Inspection Service (FSIS) has determined that immediate implementation of this rule, on an interim basis, is necessary since the notice and opportunity to present views provision is already in effect and affects criminal investigations that were in progress at the time the amendment was passed. The ability of the Department to protect the public by investigating and prosecuting suspected violators of the FMIA could be compromised in certain situations without publication of this interim rule.

The determinations required by Executive Order 12291 and the Regulatory Flexibility Act can not be practicably made at this time. The interim rule deals with criminal investigative and enforcement procedures and, as such, does not appear at this time to have the type of impact which is of concern under the Executive Order and the Regulatory Flexibility Act. In any event, the required determinations will be made prior to publication of the final rule.

Pursuant to the provisions for emergency rules in section 8 of the Executive Order and 5 U.S.C. 608, the Administrator has determined that there is an immediate need to publish this interim rule to protect ongoing criminal investigations.

Comments

Interested persons are invited to submit comments concerning this action. Written comments should be sent in duplicate to the Policy Office and should refer to the docket number located in the heading of this document. Comments submitted will be available for public inspection in the Policy Office between 9 a.m. and 4 p.m., Monday through Friday.

Background

Under the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601 *et seq.*), the Secretary has responsibility to assure consumers that meat and meat food products distributed to them are wholesome, not adulterated, and properly marked, labeled, and packaged.

In this regard, the FMIA provides that certain violations of the Act will subject persons, firms, and corporations to criminal sanctions unless, as provided by section 406(b) of the FMIA (21 U.S.C. 676(b)), the violations are minor and the Secretary determines that the public interest would be adequately served by a suitable written notice of warning.

Section 403(c)(2) of the Processed Products Improvement Act (Title IV of the Futures Trading Act of 1986 (Pub. L. 99-641)) added new section 406(c) to the FMIA. The new section requires that the Secretary give reasonable notice and an opportunity to present views to persons suspected of having violated the FMIA, prior to the Secretary's referral of charges to the Department of Justice for criminal prosecution. The new section also authorizes the Secretary to make exceptions by regulation to the prior notice requirement.

Because section 406(c) of the FMIA is already in effect, prompt issuance of regulations to implement it are essential in order to protect certain ongoing and future criminal investigations and cases. This is particularly important with regard to identifying the specific exceptions to the requirement of notice and opportunity to present views. Therefore, the Administrator of FSIS is amending Part 335 of the Code of Federal Regulations by adding a new Subpart E entitled "Criminal Violations."

Description of Interim Rule on Notice of Proceedings and Opportunity for Presentation of Views

The interim rule provides that persons, firms, and corporations suspected of violating the FMIA will be provided reasonable notice that USDA intends to report such violations to the Department of Justice for prosecution in a criminal proceeding, and that they have an opportunity to present to USDA views with respect to such proceeding. The notice will summarize the suspected violations and will inform the suspected violator that the violator has a specified number of days from receipt of the letter in which to respond, orally or in writing, to the Director, Evaluation and Enforcement Division, Compliance Program, FSIS. The notice will be sent by registered or certified mail. All views presented in response to and in accord with the notice will be considered before reporting the violations for prosecution, and all documentation of such views will be incorporated into the Department's official record in the matter.

The interim final rule also identifies five situations in which there are compelling public interests that preclude the giving of notice and an opportunity to present views prior to the reporting of suspected violations for criminal prosecution. Briefly, the five exceptions are:

(1) When there is the possibility for destruction or alteration of evidence, or where disclosure could result in injury to persons or property.

(2) When there is the possibility of flight of a suspected violator to avoid prosecution.

(3) When there is the possibility of the compromise of special investigative techniques, such as undercover or other covert operations.

(4) When the impending referral involves suspicion of bribery and related offenses, or clandestine slaughtering and/or processing operations.

(5) When the impending referral for prosecution is part of an investigation involving non-Act violations, and the Act and non-Act violations are jointly referred for prosecution.

These exceptions are limited to protecting life or property and are addressed to situations where giving notice would compromise certain investigations and negatively affect the Department's investigative and enforcement program.

PART 335—[AMENDED]

Part 335 is amended by adding a new Subpart E to read as follows:

Subpart E—Criminal Violations

Sec.

335.40 Opportunity for presentation of views before report of criminal violations.

Subpart E—Criminal Violations

Authority: Section 406, Pub. L. 99-641, 100 Stat. 3571; 21 U.S.C. 606 note.

§ 335.40 Opportunity for presentation of views before report of criminal violations.

(a) Except as provided in paragraphs (a)(1) through (5) of this section, before any violation of the Federal Meat Inspection Act is reported to the Department of Justice by the Secretary for criminal prosecution the Secretary must give reasonable notice to the suspected violator that the Secretary intends to report the violation for prosecution and give the suspected violator an opportunity to present the violator's views to the Secretary with respect to such proceeding.

(1) Notice and opportunity need not be provided if the Secretary has any reason to believe that providing such notice and opportunity could result in the alteration or destruction of evidence, or where disclosure could result in injury to persons or property.

(2) Notice and opportunity need not be provided if the Secretary has any reason to believe that providing such notice and opportunity could result in flight of a suspected violator to avoid prosecution.

(3) Notice and opportunity need not be provided if the Secretary has any reason to believe that providing such notice and opportunity could result in compromising special investigative techniques, such as undercover or other covert operations.

(4) Notice and opportunity need not be provided when the impending criminal referral involves suspicion of bribery and related offenses, or clandestine slaughtering and/or processing operations.

(5) Notice and opportunity need not be provided when the impending referral is part of an investigation involving non-Act violations, and the Act and non-Act violations are jointly referred for prosecution.

(b) A notice of opportunity to present views will be sent by registered or certified mail, summarize the violations that constitute the basis of the contemplated prosecution, and describe the procedures for presentation of views. Any information given by a respondent, orally or in writing, shall become part of the Department's official record concerning the matter. The Department is under no obligation to disclose evidence to the suspected violator.

International Trade Administration

15 CFR Part 399

[Docket No. 70361-7061]

Mercury-Cadmium-Telluride (HgCdTe) Detectors; Validated License Requirements

AGENCY: Export Administration, International Trade Administration, Commerce.

ACTION: Final rule.

SUMMARY: Export Administration maintains the Commodity Control List (CCL), which identifies those items subject to Department of Commerce export controls.

This rule amends the validated license controls on certain photosensitive components described in entry 1548A of the CCL in accordance with a finding of foreign availability under section 5(f) of the Export Administration Act of 1979, as amended.

Single-element, encapsulated mercury-cadmium-telluride (HgCdTe) uncooled (295 degrees K ambient temperature operation) photoelectro-magnetic (PEM) or photoconductive (PC) mode photo detectors with a peak sensitivity at a wavelength shorter than 11,000 nanometers no longer require a validated license for export except to destinations in Country Groups S and Z. Such detectors are now controlled under entry 6599G of the CCL.

Notice of the foreign availability determination on this equipment has been previously published (51 FR 37469, October 22, 1986). Regulations that eliminated the validated license requirements for exports and reexports of this equipment to free world destinations were published on November 5, 1986 (51 FR 40159).

EFFECTIVE DATE: This rule is effective April 27, 1987.

FOR FURTHER INFORMATION CONTACT: Robert Lerner, Office of Foreign Availability, Department of Commerce, Washington, DC 20230, Telephone: (202) 377–5953.

SUPPLEMENTARY INFORMATION:

Rulemaking Requirements

1. Because this rule concerns a foreign and military affairs function of the United States, it is not a rule or regulation within the meaning of section 1(a) of Executive Order 12291, and it is not subject to the requirements of that Order. Accordingly, no preliminary or final Regulatory Impact Analysis has been or will be prepared.

2. Section 13(a) of the Export Administration Act of 1979, as amended (50 U.S.C. App. 2412(a)), exempts this rule from all requirements of section 553 of the Administrative Procedure Act (APA) (5 U.S.C. 553), including those requiring publication of a notice of proposed rulemaking, an opportunity for public comment, and a delay in effective date. This rule also is exempt from these APA requirements because it involves a foreign and military affairs function of the United States. Further, no other law requires that a notice of proposed rulemaking and an opportunity for public comment be given for this rule. Accordingly, it is being issued in final form. However, as with other Department of Commerce rules, comments from the public are always welcome. Comments should be submitted to Vincent Greenwald, Office of Technology and Policy Analysis, Export Administration, U.S. Department of Commerce, P.O. Box 273, Washington, DC 20044.

3. Because a notice of proposed rulemaking and an opportunity for public comment are not required to be given for this rule by section 553 of the Administrative Procedure Act (5 U.S.C. 553), or by any other law, under sections 603(a) and 604(a) of the Regulatory Flexibility Act (5 U.S.C. 603(a) and 604(a)) no initial or final Regulatory Flexibility Analysis has to be or will be prepared.

4. This rule mentions a collection of information subject to the requirements of the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.*). This collection has been approved by the Office of Management and Budget under control number 0625–0001.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

29 CFR Part 1610

Availability of Records; Production or Disclosure Under 5 U.S.C. 552

AGENCY: Equal Employment Opportunity Commission.

ACTION: Interim rule with request for comments.

SUMMARY: The Equal Employment Opportunity Commission is publishing an Interim Final Rule amending its Freedom of Information Act regulation (29 CFR Part 1610) to implement certain provisions of the Freedom of Information Reform Act of 1986, Pub. L. No. 99–570. The amendment establishes FOIA fee schedules and guidelines for when FOIA fees shall be reduced or waived.

EFFECTIVE DATE: April 27, 1987. Written comments on the interim final rule must be received on or before May 27, 1987.

ADDRESS: Comments should be addressed to the Office of Executive Secretariat, Room 507, Equal Employment Opportunity Commission, 2401 E Street NW., Washington, DC 20507. Copies of comments submitted by the public will be available for review at the Commission's Library, Room 298, 2401 E Street NW., Washington, DC 20507, between the hours of 9:30 a.m. and 5:00 p.m.

FOR FURTHER INFORMATION CONTACT: Nicholas M. Inzeo, Assistant Legal Counsel or Kathleen Oram, Staff Attorney (202) 634–6690.

SUPPLEMENTARY INFORMATION: The Freedom of Information Reform Act of 1986, Pub. L. No. 99–570 was signed into law on October 27, 1986. The Act provides that amendments to the fee and fee waiver provisions become effective on April 27, 1987. In conformity with the Freedom of Information Reform Act the Commission amends Part 1610 of its regulations as follows: To revise the FOIA fee waiver standard, to provide for charging for the cost of review in certain instances, to prohibit charging fees if the costs of collecting and processing a fee are likely to equal or exceed the amount of the fee, to prohibit charging for the first two hours of search time and first 100 pages of duplication for certain noncommercial requests, to prohibit charging for any search or review time or the first 100 pages of duplication for requests made by educational or noncommercial scientific institutions or representatives of the news media, and to prohibit requiring advance payment of fees unless the requester has previously failed to pay fees in a timely fashion, or the EEOC has determined the fee will exceed $250. The amendments establish three categories of requests for the purpose of assessing fees: requests for commercial use, noncommercial requests made by educational or noncommercial scientific institutions or representatives of the news media and all other requests. In addition, Part 1610 is amended in accordance with the Office of Management and Budget's Guidelines, 52 FR 10012 (March 27, 1987) to provide that interest may be charged those requesters who fail to pay fees charged.

To accomplish these changes, the Commission amends §§ 1610.1, 1610.14, 1610.15 and 1610.16.

List of Subjects in 29 CFR Part 1610

Freedom of information.

Accordingly, Part 1610 is amended as follows.

For the Commission.

Clarence Thomas,

Chairman.

PART 1610—[AMENDED]

1. The authority citation is revised to read as follows:

Authority: Sec. 713(a), 78 Stat. 265, 42 U.S.C. 2000e–12(a), 5 U.S.C. 552, as amended by Pub. L. 93–502 and Pub. L. 99–570; for sec. 1610.15, nonsearch or copy portions are issued under 31 U.S.C. 483a.

2. Section 1610.1 is amended to add a new paragraph (d) as follows:

§ 1610.1 Definitions.

* * * * *

(d) "Commercial use" refers to a use or purpose by the requester of information for the information that furthers the requester's commercial, trade or profit interests. Requests for charge files by profit-making entities, other than educational and noncommercial scientific institutions and representatives of the new media, shall be considered for commercial use unless the request demonstrates a noncommercial use.

3. Section 1610.14 is revised to read as follows:

§ 1610.14 Waiver of user charges.

(a) Except as provided in paragraph (b) of this section the Deputy Legal Counsel or designee and regional attorneys shall assess fees where applicable in accordance with § 1610.15 for search, review and duplication of records requested. They shall also have authority to furnish documents without any charge or at a reduced charge if disclosure of the information is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in the commercial interest of the requester.

(b) District and area directors and the librarian are hereby authorized to collect fees where applicable in accordance with § 1610.15 for duplication of records which are to be made available for public inspection and copying in the district or area office, or in the headquarters library in accordance with § 1610.4(b). District and area directors and the librarian are hereby authorized to duplicate such records without charge, or at a reduced charge in accordance with the criteria of paragraph (a) of this section.

4. Section 1610.15 is revised as follows:

§ 1610.15 Schedule of fees and method of payment for services rendered.

(a) Fees shall be assessed in accordance with the fee schedule set forth in paragraph (c) of this section as follows:

(1) When records are requested for commercial use, the Commission shall charge the full amount of its direct costs for document search, review and duplication. The Commission shall not charge for review at the administrative appeal level of an exemption already applied.

(2) When records are not sought for commercial use and the request is made by an educational or noncommercial scientific institution, or a representative of the news media, the Commission shall charge the direct costs of document duplication after the first 100 pages. The first 100 pages of duplication under paragraph (a)(2) shall be provided without charge.

(3) For all other record requests not falling under paragraph (a) (1) or (2) of this section, the Commission shall charge the direct costs for document search time after the first two hours and the direct costs for document duplication after the first 100 pages. The first two hours of search time and the first 100 pages of duplication under paragraph (a)(3) shall be provided without charge.

(b) When the Commission reasonably believes that a requester or group of requesters is attempting to break a request down into a series of requests for the purpose of evading the assessment of fees, the Commission shall aggregate any such requests and charge accordingly.

(c) Except as otherwise provided, the following specific fees for direct costs shall be applicable with respect to services rendered to members of the public under this subpart:

(1) For actual search and review time by clerical personnel—at the rate of $7.00 per hour.

(2) For actual search and review time by professional personnel—at the rate of $17.00 per hour.

(3) For copies made by photocopying machine—$.15 per page (maximum of 10 copies).

(4) For attestation of such record as a true copy—$.75 per document.

(5) For certification of each record as a true copy, under the seal of the agency—$1.00.

(6) For each signed statement of negative result of search for record—$1.00.

(7) All other direct costs of search, review, duplication or delivery (other than normal mail), including computer search time, runs and operator salary shall be charged to the requester as appropriate in the same amount as incurred by the agency.

(d) The Commission shall not charge a fee if the costs of routine collection and processing of the fee are likely to equal or exceed the amount of the fee.

(e) The Commission shall charge interest at the rate prescribed in 31 U.S.C. 3717, accruing from the date of billing, to those requesters who fail to pay fees charged beginning on the 31st

day following the day on which the billing was sent.

(f) While the fees charged for search and copying will in no event exceed those specified in paragraph (c) of this section, the Commission reserves the right to limit the number of copies that will be provided of any document or to requrie that special arrangements for copying be made in the case of records or requests presenting unusual problems of reproduction or handling.

§ 1610.16 [Amended]

5. Section 1610.16(a) is amended by replacing the phrase "$50.00" with the phrase "$25.00" each time it occurs.

6. Section 1610.16(c) is revised to read as follows:

§ 1610.16 Payment of fees.

* * * * *

(c) The Commission shall require payment in full prior to the commencement or continuation of work on a request if:

(1) It estimates or determines that the allowable charges will exceed $250, unless the requester has a history of prompt payment of FOIA fees, in which case the Commission may obtain satisfactory assurance of prompt payment; or

(2) The requester has previously failed to pay fees within 30 days of the date of billing.

OCCUPATIONAL SAFETY AND HEALTH REVIEW COMMISSION

29 CFR Part 2200

Rules of Procedure; Correction

AGENCY: Occupational Safety and Health Review Commission (OSHRC).

ACTION: Final rule; correction.

SUMMARY: OSHRC is correcting errors in its revised Rules of Procedure, which appeared in the Federal Register on September 8, 1986 (51 FR 32002).

EFFECTIVE DATE: April 27, 1987.

FOR FURTHER INFORMATION CONTACT: Earl R. Ohman, Jr., General Counsel, (202) 634-4015.

SUPPLEMENTARY INFORMATION: OSHRC has completely revised Subparts A through G of Part 2200—*Rules of Procedure.* These are the rules that govern conventional proceedings before the Commission and its Administrative Law Judges. The final rules contained errors that are corrected by this notice. Only one of these corrections warrants any discussion. Paragraphs (b) and (d) of § 2200.8 are revised to make clear that filing by personal delivery is an acceptable alternative to filing by first class mail and that the date of personal delivery is the filing date.

The following corrections are made in the rules of procedure published in the Federal Register on September 8, 1987 (51 FR 32002):

PART 2200—[AMENDED]

1. Section 2200.108, as listed in the Table of Contents on page 32016, column 1, is revised to read as follows:

Coast Guard

33 CFR Parts 100 and 165

[CGD 87-028]

List of Temporary Safety and Security Zones

AGENCY: Coast Guard, DOT.

ACTION: Notice of Temporary Rules Issued.

SUMMARY: This document gives notice of temporary safety zones, security zones, and special local regulations. Periodically the Coast Guard must issue safety zones, security zones, and special local regulations for limited periods of time in limited areas. Safety Zones are established around areas where there has been a marine casualty or when a vessel carrying a particular hazardous cargo is transiting a restricted or congested area. Security zones are temporarily established in response to a risk to national security present in a particular area. Special local regulations are issued to assure the safety of participants and spectators of regattas and other marine events.

DATES: The following list includes safety zones, security zones, and special local regulations that were established between January 1, 1987 and March 31, 1987 and have since been terminated. Also included are several zones established earlier but inadvertently omitted from the last published list.

ADDRESS: The complete text of any temporary regulations may be examined at, and is available on request from, Executive Secretary, Marine Safety Council (G-CMC), U.S. Coast Guard Headquarters, 2100 Second Street, SW., Washington, DC 20593.

FOR FURTHER INFORMATION CONTACT: Mr. Bruce Novak, Deputy Executive Secretary, Marine Safety Council at (202) 267-1477.

SUPPLEMENTARY INFORMATION: The local Captain of the Port must be immediately responsive to the safety needs of the waters within his jurisdiction; therefore, he has been delegated the authority to issue these regulations. Since Marine events and emergencies usually take place without advance notice or warning, timely publication of notice in the **Federal Register** is often precluded. However, the affected public is informed through Local Notices to Mariners, press releases, and other means. Moreover, actual notification is frequently provided by Coast Guard patrol vessels enforcing the restrictions imposed in the

zone to keep the public informed of the regulatory activity. Because mariners are notified by Coast Guard officials on scene prior to enforcement action, Federal Register notice is not required to place the special local regulations, security zone, or safety zone in effect. However, the Coast Guard, by law, must publish in the Federal Register notice of substantive rules adopted. To discharge this legal obligation without imposing undue expense on the public, the Coast Guard publishes a periodic list of these temporary special local regulations, security zones, and safety zones. Permanent safety zones are not included in this list. Permanent zones are published in their entirety in the Federal Register just as any other rulemaking. Temporary zones are also published in their entirety if sufficient time is available to do so before they are placed in effect or terminated.

Non-major safety zones, special local regulations, and security zones have been exempted from review under E.O. 12291 because of their emergency nature and temporary effectiveness.

The following regulations were placed in effect temporarily during the period January 1, 1987 through March 31, 1987 unless otherwise indicated:

Patent and Trademark Office

37 CFR Part 1

[Docket No. 50103-7058]

Arbitration of Patent Interference Cases

AGENCY: Patent and Trademark Office, Commerce.

ACTION: Final rule.

SUMMARY: The Patent and Trademark Office is amending its rules to implement the arbitration provisions of section 105 of the Patent Law Amendments Act of 1984, Pub. L. 98-622.

EFFECTIVE DATE: May 27, 1987.

FOR FURTHER INFORMATION CONTACT: Ian A. Calvert or Michael Sofocleous by telephone at (703) 557-4000 or by mail marked to the attention of either and addressed to Box Interference, Commissioner of Patents and Trademarks, Washington, DC 20231.

SUPPLEMENTARY INFORMATION: Section 105 of the Patent Law Amendments Act of 1984, enacted on November 8, 1984, provides for the arbitration of patent interference cases. Section 105, codified as 35 U.S.C. 135(d), provides:

> Parties to a patent interference, within such time as may be specified by the Commissioner by regulation, may determine such contest or any aspect thereof by arbitration. Such arbitration shall be governed by the provisions of title 9 to the extent such title is not inconsistent with this section. The parties shall give notice of any arbitration award to the Commissioner, and such award shall, as between the parties to the arbitration, be dispositive of the issues to which it relates. The arbitration award shall be unenforceable until such notice is given. Nothing in this subsection shall preclude the Commissioner from determining patentability of the invention involved in the interference.

The Patent and Trademark Office (PTO) conducts interference proceedings to determine any question of patentability and priority of invention between two or more parties claiming the same patentable invention. An interference may be declared between two or more pending applications naming different inventors when, in the opinion of an examiner, the applications contain claims for the same patentable invention. An interference may be declared between one or more pending applications and one or more unexpired patents naming different inventors when, in the opinion of an examiner, any application and any unexpired patent contain claims for the same patentable invention. Patent interference cases can be quite expensive. Arbitration may prove useful to minimize expenses in interference cases. The arbitration rule applies to all pending interferences.

The PTO published an advance notice of rulemaking in the Federal Register of January 16, 1985 (50 FR 2294-2296). The notice was also published in the *Official Gazette* on February 12, 1985 (1051 O.G. 9-10). The notice also appeared in the Bureau of National Affairs' Patent, Trademark and Copyright Journal, Vol. 29, p. 310 (January 24, 1985), hereinafter "BNA." Five written comments were received in response to the advance notice.

A notice of proposed rulemaking was published in the Federal Register on September 15, 1986 (51 FR 32756-32762), in the *Official Gazette* on October 21, 1986 (1071 O.G. 25-31), and in BNA's Patent, Trademark and Copyright Journal, Vol. 32, pp. 552-558 (September 18, 1986). In response to the notice, three comments, two in writing and one by telephone, were received. These comments are discussed herein.

All written comments are available for public inspection in Room 10C01, Crystal Gateway 2, 1225 Jefferson Davis Highway, Arlington, VA.

Discussion of the Rule

Under § 1.690 the arbitrator can determine issues of patentability as between the parties but a determination by him or her that the subject matter is patentable would not be binding upon the PTO. If the arbitrator's award holds that a party's claims corresponding to the count are unpatentable over prior art or under 35 U.S.C. 112, that determination would be binding on that party vis-a-vis the party's opponent and would result in a judgment adverse to that party. The judgment, however, would not discharge the duty that each party has under 37 CFR 1.56 to bring to the attention of the examiner in charge of its respective application any prior art and/or reason relied upon by the arbitrator in the determination of unpatentability.

It is the longstanding practice of the PTO to favor the settlement of interferences and the PTO looks with favor on all proper efforts in that direction as being conducive to the termination of the proceeding. See 4 Revise and Caesar, *Interference Law and Practice*, section 861, p. 2956 (Michie Co. 1948) and the Commissioner's Notice of November 9, 1976, titled, "Extensions of Time and Filing of Papers in Interferences," 953 *Official Gazette* 2 (December 7, 1976). In this regard, the notice states that:

> * * * stipulations or motions for extensions of time under 37 CFR 1.245 will not henceforth be approved or granted, respectively, unless accompanied by a detailed showing of facts sufficient to establish that the action for which the extension is sought could not have been or cannot be taken or completed during the time previously set therefor, and that the entire extension appears necessary for the taking or completion of that action. Since the Office favors the amicable settlement of interferences, the foregoing requirement will be liberally applied in the case of a first request for extension of time for the purpose of negotiating settlement.

Consequently, the examiner-in-chief may give favorable consideration to a motion for an extension of time for purposes of settlement; however, a further motion for an extension for that purpose would not be granted unless it is accompanied by a schedule of specific dates showing that the parties will make a good faith effort to promptly terminate the proceeding. If preliminary motions under 37 CFR 1.633 have not been filed, the examiner-in-chief would not normally extend the time for their filing merely for purposes of settlement. In these circumstances, the examiner-in-chief would require that the preliminary motions be filed or that their filing be waived.

If the proceeding is in the testimony stage, the examiner-in-chief could grant the parties' motion to extend all the unexpired testimony times to close concurrently on the date the record is due provided they file a stipulation that any evidence to be submitted will be in one of the forms specified in 37 CFR 1.672 (e) and (f), i.e., affidavit testimony or a stipulation either as to what a particular witness would testify to if called or the facts in the case of any party.

Analogously, the aforesaid practice would apply to arbitration. Section 1.690 requires that parties who intend to arbitrate an interference notify the examiner-in-chief in writing of their intention to arbitrate and file a copy of the arbitration agreement within 20 days of its execution. Pursuant to 35 U.S.C. 135(c) an agreement to arbitrate is considered to be one "made in connection with and in contemplation of the termination of the interference". The agreement must be in writing a copy filed in the PTO within 20 days after its execution. The notification of intention to arbitrate must be made in a separate paper. Merely incorporating the notification in the agreement is not sufficient to comply with § 1.690(a). The parties also will be required to adhere to a time schedule approved by the examiner-in-chief such that the interference proceeding can be expeditiously resolved so as to prevent the unnecessary postponement of the beginning of the running of the term of any patent resulting from an application involved in the interference. *Pritchard* v. *Loughlin*, 361 F.2d 483, 149 USPQ 841 (CCPA 1966).

If the parties desire to arbitrate an interference prior to the close of the motion period, the examiner-in-chief will not normally grant an extension of time for the purpose. The parties will be required to file their preliminary motions under 37 CFR 1.633. After the motions are filed, the examiner-in-chief could grant an extension only upon compliance with 37 CFR 1.645 which requires a showing of "good cause." Such a "good cause" showing would normally include a schedule, agreed to by the parties, setting forth, *inter alia*, the dates for (1) executing the arbitration agreement, (2) determining priority and (3) terminating the interference.

Section 1.690(a) requires that an arbitration agreement include the following:

(1) The name of the arbitrator or a date certain (not more than 30 days after the execution of the agreement) for his or her selection.

(2) The issues to be decided by the arbitrator.

(3) A provision that the arbitrator's award is binding on the parties and that the Board can enter a judgment based thereon.

Section 1.690(c) requires that a copy of the arbitration award be filed within 20 days from the date of the award or by a date set by the examiner-in-chief.

If the proceeding is in the testimony stage and the parties desire to arbitrate, the examiner-in-chief could grant a reasonable extention for that purpose. A motion for a further extension for that purpose would not be granted unless it were accompanied by a schedule, agreed to by the parties, setting forth, *inter alia*, the dates for (1) executing the arbitration agreement, (2) determining priority, and (3) terminating the interference. If the parties are to submit the required schedule, a motion for a further extension could be granted. If the parties file a copy of the arbitration agreement and they agree that any evidence submitted in the proceeding will be in one of the forms specified by 37 CFR 1.672 (e) or (f), the examiner-in-chief could give favorable consideration to the parties' motion that all the unexpired times be extended to close concurrently on the date the record is due. By that date, the parties would be required to file the arbitrator's award and their records, if necessary for the resolution of any issue not decided by the arbitrator. If the award is not dispositive of all the issues in the interference, the examiner-in-chief would set brief times so that parties could explain their evidence relating to any issues which the arbitrator did not, or was unable to decide. For example, the award might be dispositive of the issue of priority between the parties and leave for the Board's determination the question of substituting a new count raised in a preliminary motion under 37 CFR 1.633.

The arbitration award, filed by the parties, would be in the nature of a final decision and should include the following:

(1) The style (e.g., *Jones* v. *Smith*), the number of the interference and the names of the real parties in interest.

(2) The subject matter in issue, i.e., the counts and a table of counts, if necessary, indicating the relationship of the parties' claims corresponding to each count and those claims not corresponding thereto.

(3) The issues for decision before the arbitrator.

(4) The arbitrator's decision. The decision may also include a statement of the grounds and reasoning in support thereof.

(5) A summary, if appropriate, indicating, inter alia, that judgment should be awarded to one of the parties.

Any party to the arbitration can attack the award only in the manner provided by 9 U.S.C. 10 and 11.

9 U.S.C. 10 reads as follows:

In either of the following cases the United States court in and for the district wherein the award was made may make an order vacating the award upon the application of any party to the arbitration—

(a) Where the award was procured by corruption, fraud, or undue means.

(b) Where there was evident partiality or corruption in the arbitrators, or either of them.

(c) Where the arbitrators were guilty of misconduct in refusing to postpone the hearing, upon sufficient cause shown, or in refusing to hear evidence pertinent and material to the controversy; or of any other misbehavior by which the rights of any party have been prejudiced.

(d) Where the arbitrators exceeded their powers, or so imperfectly execute them that a mutual, final, and definite award upon the subject matter submitted was not made.

(e) Where an award is vacated and the time within which the agreement required the award to be made has not expired the court may, in its discretion, direct a rehearing by the arbitrators.

9 U.S.C. 11 reads as follows:

In either of the following cases the United States court in and for the district wherein the award was made may make an order modifying or correcting the award upon the application of any party to the arbitration—

(a) Where there was an evident material miscalculation of figures or an evident material mistake in the description of any person, thing, or property referred to in the award.

(b) Where the arbitrators have awarded upon a matter not submitted to them, unless it is a matter not affecting the merits of the decision upon the matter submitted.

(c) Where the award is imperfect in matter of form not affecting the merits of the controversy.

The order may modify and correct the award, so as to effect the intent thereof and promote justice between the parties.

See, for example, *Fairchild and Co., Inc.* v. *Richmond, F. and P. R. Co.*, 516 F.Supp. 1305 (D.D.C. 1981). If such an attack were to be made by one of the parties while the interference is pending before the Board, the Board would not stay the interference. Rather, the Board would issue its judgment in accordance with the award. So long as the award is in compliance with § 1.690, it would carry the presumption that the arbitrator acted correctly in making his decision and accordingly, the party designated by the award as the prevailing party would be entitled *prima facie* to a judgment in its favor. If the dissatisfied party brings an action in an appropriate United States district court and if the court vacates, modifies or corrects the award, the Board would take action consistent with the court's findings. No action would lie in the PTO to vacate or correct an arbitration award, unless all parties agreed in writing.

The following examples illustrate the practice of the PTO concerning arbitration.

Example 1

Arbitration Practice—Preliminary Stage

An interference is declared on or after February 11, 1985. The examiner-in-chief sets a time in accordance with 37 CFR 1.611 for filing preliminary motions under 37 CFR 1.633 and preliminary statements. The parties decide to arbitrate the interference in accordance with § 1.690 and file a motion for an extension of time so that they can "freely" arbitrate the interference, but do not file a waiver of their right to file motions.

The examiner-in-chief would deny the motion because the parties' intention to arbitrate, in and of itself, does not constitute a showing of "good cause" within the meaning of 37 CFR 1.645(a). Even if the parties file an agreement to arbitrate, the PTO would not grant any extension of time to permit the parties to "freely" arbitrate an interference prior to the expiration of the time for filing preliminary motions.

Example 2

Arbitration Practice—Testimony Stage

An interference is declared on or after February 11, 1985. The examiner-in-chief sets a time in accordance with 37 CFR 1.611 for filing preliminary motions under 37 CFR 1.633. The parties file preliminary motions; the examiner-in-chief renders a decision thereon and sets the testimony times. The parties file a notice of intent to arbitrate the interference under § 1.690(a) and a motion for a one month extension of the testimony times. The examiner-in-chief could grant the motion, but would indicate that if the parties file another motion for an extension for that purpose, the motion must be accompanied by a schedule, agreed to by the parties, setting forth the dates for (1) executing the arbitration agreement, (2) determining priority and (3) terminating the interference.

The parties file a motion for an additional one month extension of time to permit the parties to arbitrate the interference. Accompanying the motion is a proposed schedule of times and a copy of the arbitration agreement which provides, inter alia, (i) the name of the arbitrator or a date certain for his selection, (ii) that the arbitrator's award will be binding on the parties, (iii) the issues to be decided by the arbitrator and (iv) that the award will be filed by the date the record is due. The parties also indicate that the evidence to be filed in the proceeding will be in one of the forms specified by 37 CFR 1.672 (e) or (f). The examiner-in-chief could grant the motion and indicate that he will give favorable consideration to a motion to extend all the unexpired times to close concurrently on the date the record is due should the parties request such.

On the date for filing the record, the parties file the arbitrator's award and their evidentiary records, if necessary. The award states (i) the style and number of the interference and the real parties in interest, (ii) the subject matter in issue and the parties' claims which correspond thereto and which do not correspond thereto, (iii) the issues for decision before the arbitrator, (iv) the arbitrator's decision (which may include a statement of the grounds and reasoning in support thereof) and (v) that judgment should be awarded to one of the parties. The examiner-in-chief examines the award to ensure that it complies with § 1.690 and is dispositive of the issues in the interference which can be decided by the arbitrator. If the award is otherwise acceptable, the Board would issue a judgment based on the award. If the award is not dispositive of all the issues in the interference, the examiner-in-chief would determine how the interference will proceed.

Example 3

Arbitration Practice—Award Decides Interference-in-Fact Issue and Junior Party Takes No Testimony

An interference is declared on or after February 11, 1985. The examiner-in-chief sets a time in accordance with 37 CFR 1.611 for filing preliminary motions under 37 CFR 1.633 and preliminary

statements. The junior party files a motion for judgment under 37 CFR 1.633(b) on the ground that there is no interference-in-fact between his claims corresponding to the count and his opponent's claims corresponding thereto. The examiner-in-chief denies the motion, examines the preliminary statements and sets the testimony times.

During the testimony period, the parties decide to arbitrate the interference, notify the examiner-in-chief of their intent to arbitrate and file an arbitration agreement which is approved by the examiner-in-chief. On the date for filing the record, the junior party files the award together with a motion requesting that the interference be terminated in view of the award. He does not file a record. In his award the arbitrator holds that no interference-in-fact exists between the parties' claims corresponding to the count.

The motion would be denied because the award decides a matter of patentability which would not result in a judgment adverse to one of the parties. Consequently, the junior party would be placed under an order to show cause why judgment under 37 CFR 1.652 should not be entered against him for his failure to file an evidentiary record by the time set therefore. In response to the order, the junior party requests final hearing to review the examiner-in-chief's denial of the motion for judgment and a testimony period to show no interference-in-fact. The examiner-in-chief would grant the junior party's request to the extent that final hearing is set and would deny the request for testimony because the junior party already had the opportunity to take testimony on the matter.

Example 4

Arbitration Practice—Cannot Decide Patentability

An interference is declared on or after February 11, 1985. The examiner-in-chief sets a time in accordance with 37 CFR 1.611 for filing preliminary motions under 37 CFR 1.633 and preliminary statements. The junior party files a motion for judgment under 37 CFR 1.633(a) on the ground that the claims corresponding to the count are unpatentable over prior art. In his decision on motions, the examiner-in-chief grants the motion and places both parties under an order pursuant to 37 CFR 1.640(d)(1) to show cause why judgment should not be entered against them as to the count. In response to the order, the senior party files a paper in accordance with 37 CFR 1.640(e) purportedly showing good cause why judgment should not be entered in accordance with the order and a motion requesting permission to aribitrate the patentability issue. The examiner-in-chief would deny the motion. The arbitrator is without authority to establish vis-a-vis the public that the subject matter of the court is patentable. Thus, the arbitration will serve no useful purpose. The Board would consider the senior party's paper and enter an appropriate order.

Example 5

Arbitration Practice—Award After Decision on Motions

An interference is declared on or after February 11, 1985. The examiner-in-chief sets a time in accordance with 37 CFR 1.611 for filing preliminary motions under 37 CFR 1.633 and preliminary statements. The junior party files a motion for judgment under 37 CFR 1.633(a) on the ground that the claims corresponding to counts 1 and 2 are unpatentable over prior art. In his decision on motions, the examiner-in-chief grants the motion with respect to count 1, denies the motion with respect to count 2 and places both parties under an order pursuant to 37 CFR 1.640(d)(1) to show cause why judgment should not be entered against them as to count 1. The senior party files a paper in accordance with 37 CFR 1.640(e); the junior party, a response thereto. The Board considers the paper and the response thereto and based on the record enters judgment adverse to both parties as to count 1. Thereafter, the examiner-in-chief examines the preliminary statements and sets dates for taking testimony and filing the record.

During the testimony period, the parties decide to arbitrate the interference, notify the examiner-in-chief of their intent to arbitrate and file an arbitration agreement which is approved by the examiner-in-chief. In his award, the arbitrator decides that judgment should be awarded to the junior party. On the date for filing the record, both parties file the award together with a motion requesting that the interference be terminated in view of the award. No record is filed.

The motion would be granted and accordingly it would be held that the senior party is not entitled to a patent containing his claims corresponding to count 2.

Example 6

Arbitration Practice—Award Decides Patentability

An interference is declared on or after February 11, 1985. The examiner-in-chief sets a time in accordance with 37 CFR 1.611 for filing preliminary motions under 37 CFR 1.633 and preliminary statements. No motions for judgment under 37 CFR 1.633 are filed and after the examination of the preliminary statements, the examiner-in-chief sets the testimony times.

During the testimony period, the parties decide to arbitrate the interference, notify the examiner-in-chief of their intent to arbitrate and file an arbitration agreement which is approved by the examiner-in-chief. In his award, the arbitrator finds (1) that the evidence is insufficient to establish a prior public use bar under 35 U.S.C. 102(b) against the junior party, (2) that the claims of the junior party corresponding to the count are patentable under 35 U.S.C. 103 over the prior art cited by the senior party to the junior party, and (3) that judgment on priority should be awarded to junior party. On the date for filing together with a motion requesting that the interference be terminated in view of the award.

The motion would ge granted and accordingly it would be held that the senior party is not entitled to a patent containing his claims corresponding to the count. After the termination of the proceeding, each party has the duty under 37 CFR 1.56 to bring before the primary examiner the evidence concerning the purported public use bar and the prior art cited by the senior party and/or considered by the arbitrator.

Example 7

Arbitration Practice—Award Grants Priority to Junior Party Contingent Upon Granting of Preliminary Motion Under 1.633(C)

An interference is declared on or after February 11, 1985. The examiner-in-chief sets a time in accordance with 37 CFR 1.611 for filing preliminary motions under 37 CFR 1.633 and preliminary statements. The junior party files a motion under 37 CFR 1.633(c)(1) to substitute another count. The examiner-in-chief denies the motion, examines the preliminary statements and sets the testimony times.

During the testimony period, the parties decide to arbitrate the interference, notify the examiner-in-chief of their intention to arbitrate and enter into an arbitration agreement which is approved by the examiner-in-chief. The agreement provides that any evidence to be submitted by the parties will be in the form of a stipulation under 37 CFR 1.672 (e) and (f). The parties file a motion requesting that all the

unexpired testimony times be extended to close concurrently on the date the record is due. The motion would be granted.

On the date for filing the record, the junior party files his record and the award. The award states, inter alia, that if the Board at final hearing should grant the junior party's motion under 37 CFR 1.633(c)(1) to substitute a new count, judgment should be awarded to the junior party based on the evidence. Otherwise, the award states that judgment should be awarded to the senior party.

The examiner-in-chief sets the brief times and after the filing thereof the interference would be set for final hearing so that the Board can review the examiner-in-chief's denial of the junior party's motion under 37 CFR 1.633(c) and issue an appropriate judgment based on the award.

Example 8

Arbitration Practice—Award Attacked

An interference is declared on or after February 11, 1985. The examiner-in-chief sets a time in accordance with 37 CFR 1.611 for filing preliminary motions under 37 CFR 1.633 and preliminary statements. No preliminary motions are filed. The examiner-in-chief examines the opreliminary statements and sets the testimony times.

During the testimony period, the parties decide to arbitrate the interference, notify the examiner-in-chief of their intention to arbitrate and file an arbitration agreement which is approved by the the examiner-in-chief.

On the date for filing the record, both parties file their records. The junior party files the award which states that judgment should be awarded to him and a motion for judgment based on that award. The senior party files an opposition to the motion for judgment on the grounds (i) that the award contains errors of law, (ii) that the award was procured by "corruption, fraud or undue means" in violation of 9 U.S.C. 10(a), and (iii) that the arbitrator exhibited "evident partiality" in violation of 9 U.S.C. 10(b) and was "guilty of misconduct * * * in refusing to hear evidence pertinent and material" to the interference, citing 9 U.S.C. 10(c).

The Board would grant the judgment based on the award, holding that the senior party is not entitled to a patent containing his claims corresponding to the count. So long as the award is in compliance with the provisions of § 1.690, it would carry a presumption that the arbitrator acted properly in all respects. Consequently, before the PTO the award is binding upon the parties and the junior party is *prima facie* entitled to a judgment in its favor. Thus, no action lies in the PTO as regards the matter raised by the senior party. The senior party's action lies in an appropriate United States district court and the PTO would take any action consistent with the court's decision.

Example 9

Arbitration Practice—Award Cannot Modify Board's Final Decision

An interference is declared on or after February 11, 1985. The examiner-in-chief sets a time in accordance with 37 CFR 1.611 for filing preliminary motions under 37 CFR 1.633 and preliminary statements. No motions are filed. The examiner-in-chief examines the preliminary statements and sets the testimony times.

During the testimony period, the parties decide to arbitrate the interference and enter into an arbitration agreement. Neither party notifies the examiner-in-chief of their intent to arbitrate nor do they file a copy of the agreement in the interference. Both parties timely file their records and briefs. Both waive oral agrument. The Board enters a final decision after consideration of the evidence in favor of the senior party.

The junior party requests reconsideration of the Board's final decision, submits a copy of the arbitration award and moves that the Board set aside its final decision and enter judgment in his favor based on the award. In support of its request, the junior party cites 9 U.S.C. 9, which provides that "any party to the arbitration may apply to the court so specified for an order confirming the award" and 35 U.S.C. 135(d) which provides that title 9 applies to interference arbitrations.

The Board would deny the motion to set aside. The parties did not comply with § 1.690(a), i.e., notify the examiner-in-chief in writing of their intention to arbitrate and file a copy of the arbitration agreement within twenty (20) days of its execution. The denial of the motion is an appropriate sanction under 37 CFR 1.616. Such action by the Board is considered consistent with long-standing interference practice. Cf. *Humphrey* v. *Fickert*, 1904 Dec. Comm'r. Pat. 447 (Comm'r. 1904) wherein the Board, after it had considered the evidence, refused to set aside its award of priority to Fickert and act upon the Fickert's concession of priority in favor of Humphrey, the losing party.

Example 10

Arbitration Award Filed With Record—No Notice to Examiner-In-Chief

An interference is declared on or after February 11, 1985. The examiner-in-chief sets a time in accordance with 37 CFR 1.611 for filing preliminary motions under 37 CFR 1.633 and preliminary statements. No motions are filed. The examiner-in-chief examines the preliminary statements and sets the testimony times.

During the testimony period, the parties decide to arbitrate the interference and enter into an arbitration agreement. Neither party notifies the examiner-in-chief of the agreement. The junior party timely files its record together with a copy of the arbitration award and a motion for judgment based on the award.

The motion would be denied. Under the provisions of 37 CFR 1.616, the examiner-in-chief would place both parties under an order to show cause why judgment should not be rendered against them for their failure to comply with 1.690(a), i.e., failing to notify him of their intent to arbitrate and file a copy of the arbitration agreement.

Discussion of Comments

One commentor suggested that the expression "An interference or any aspect thereof shall be arbitrated" in part (b) of proposed § 1.690 might be construed as going beyond the terms of the statute by authorizing an examiner-in-chief to require the parties to arbitrate an interference, and proposed that the quoted language be changed to "An arbitration proceeding under this section shall be conducted." To eliminate any possible misconstruction of the rule, this proposal has been adopted.

A second commentor suggested, by telephone, that a provision be added to proposed § 1.690 requiring that the arbitrator be familiar with United States interference practice, and that United States law be applied by the arbitrator in making the determination. He expressed the fear that a foreign arbitrator might reach a result contrary to established domestic law.

This suggestion has not been adopted. It is incumbent upon the parties to select the arbitrator, and to satisfy themselves as to his or her qualifications. Presumably if the arbitrator's decision is contrary to established law, any resulting patent would be subject to attack on that ground by a third party in subsequent litigation.

Another commentor stated that, with the arbitration rule, the PTO was

"attempting to apply a band-aid to a system which cannot be cured by application of a band-aid," and that the first-to-file system should be adopted in place of the first-to-invent system. This suggestion is obviously far beyond the scope of the rule change under consideration. The first-to-invent system is mandated by statute and could not be replaced merely by a change in the rules. The purpose of § 1.690 is to establish a specific procedure governing the optional arbitration of interferences provided by section 105 of Pub. L. 98–622.

Other Considerations

This rule does not have a significant impact on the quality of the human environment or the conservation of natural resources.

The rule is in conformity with the requirements of the Regulatory Flexibility Act (Pub. L. 96–354), Executive Order 12291, and the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 et seq.

The General Counsel of the Department of Commerce certified to the Small Business Administration that the rule will not have a significant adverse economic impact on a substantial number of small entities (Regulatory Flexibility Act. Pub. L. 96–354) because arbitration is intended to minimize expenses in interference cases.

The Patent and Trademark Office has determined that this rule is not a major rule under Executive Order 12291. The annual effects on the economy will be less than $100 million. There will be no major increase in costs or prices for consumers, individual industries, federal, state or local government agencies, or geographic regions. There will be no significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

The rule will not impose a burden under the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 et seq., since no record keeping or reporting requirements within the coverage of the Act are placed upon the public.

For the reasons set out in the preamble and under the authority given to the Commissioner of Patents and Trademarks by 35 U.S.C. 6 and 135, Part 1 of Title 37 CFR is amended as follows:

PART 1—RULES OF PRACTICE IN PATENT CASES

1. The authority citation for 37 CFR Part 1 would continue to read as follows:

Authority: 35 U.S.C. 6 unless otherwise noted.

2. New § 1.690 is added to Subpart E to read as follows:

§ 1.690 Arbitration of interferences.

(a) Parties to a patent interference may determine the interference or any aspect thereof by arbitration. Such arbitration shall be governed by the provisions of Title 9, United States Code. The parties must notify the Board in writing of their intention to arbitrate. An agreement to arbitrate must be in writing, specify the issues to be arbitrated, the name of the arbitrator or a date not more than thirty (30) days after the execution of the agreement for the selection of the arbitrator, and provide that the arbitrator's award shall be binding on the parties and that judgment thereon can be entered by the Board. A copy of the agreement must be filed within twenty (20) days after its execution. The parties shall be solely responsible for the selection of the arbitrator and the rules for conducting proceedings before the arbitrator. Issues not disposed of by arbitration will be resolved in accordance with the procedures established in 37 CFR, Subpart E of Part 1, as determined by the examiner-in-chief.

(b) An arbitration proceeding under this section shall be conducted within such time as may be authorized on a case-by-case basis by an examiner-in-chief.

(c) An arbitration award will be given no consideration unless it is binding on the parties, is in writing and states in a clear and definite manner (1) the issue or issues arbitrated and (2) the disposition of each issue. The award may also include a statement of the grounds and reasoning in support thereof. Unless otherwise ordered by an examiner-in-chief, the parties shall give notice to the Board of an arbitration award by filing within twenty (20) days from the date of the award a copy of the award signed by the arbitrator or arbitrators. When an award is timely filed, the award shall, as to the parties to the arbitration, be dispositive of the issue or issues to which it relates.

(d) An arbitration award shall not preclude the Office from determining patentability of any invention involved in the interference.

BILLING CODE 3510–16–M

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR PART 64

[Docket No. FEMA 6750]

Suspension of Community Eligibility

AGENCY: Federal Emergency Management Agency, FEMA.

ACTION: Final rule.

SUMMARY: This rule lists communities, where the sale of flood insurance has been authorized under the National Flood Insurance Program (NFIP), that are suspended on the effective dates listed within this rule because of noncompliance with the floodplain management requirements of the program. If FEMA receives documentation that the community has adopted the required floodplain management measures prior to the effective suspension date given in this rule, the suspension will be withdrawn by publication in the Federal Register.

EFFECTIVE DATE: The third date ("Susp.") listed in the fourth column.

FOR FURTHER INFORMATION CONTACT: Frank H. Thomas, Assistant Administrator, Office of Loss Reduction, Federal Insurance Administration, (202) 646–2717, Federal Center Plaza, 500 C Street, Southwest, Room 416, Washington, DC 20472.

SUPPLEMENTARY INFORMATION: The National Flood Insurance Program (NFIP), enables property owners to purchase flood insurance at rates made reasonable through a Federal subsidy. In return, communities agree to adopt and administer local floodplain management measures aimed at protecting lives and new construction from future flooding. Section 1315 of the National Flood Insurance Act of 1968, as amended (42 U.S.C. 4022), prohibits flood insurance coverage as authorized under the National Flood Insurance Program (42 U.S.C. 4001–4128) unless an appropriate public body shall have adopted adequate floodplain management measures with effective enforcement measures. The communities listed in this notice no longer meet that statutory requirement for compliance with program regulations (44 CFR Part 59 et seq.). Accordingly, the communities will

be suspended on the effective date in the fourth column. As of that date, flood insurance will no longer be available in the community. However, some of these communities may adopt and submit the required documentation of legally enforceable floodplain management measures after this rule is published but prior to the actual suspension date. These communities will not be suspended and will continue their eligibility for the sale of insurance. A notice withdrawing the suspension of the communities will be published in the **Federal Register.** In the interim, if you wish to determine if a particular community was suspended on the suspension date, contact the appropriate FEMA Regional Office or the NFIP servicing contractor.

In addition, the Federal Emergency Management Agency has identified the special flood hazard areas in these communities by publishing a Flood Hazard Boundary Map. The date of the flood map, if one has been published, is indicated in the fifth column of the table. No direct Federal financial assistance (except assistance pursuant to the Disaster Relief Act of 1974 not in connection with a flood) may legally be provided for construction or acquisition of buildings in the identified special flood hazard area of communities not participating in the NFIP and identified for more than a year, on the Federal Emergency Management Agency's initial flood insurance map of the community as having flood-prone areas. (section 202(a) of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), as amended). This prohibition against certain types of Federal assistance becomes effective for the communities listed on the date shown in the last column.

The Administrator finds that notice and public procedure under 5 U.S.C. 553(b) are impracticable and unnecessary because communities listed in this final rule have been adequately notified. Each community receives a 6-month, 90-day, and 30-day notification addressed to the Chief Executive Officer that the community will be suspended unless the required floodplain management measures are met prior to the effective suspension date. For the same reasons, this final rule may take effect within less than 30 days.

Pursuant to the provision of 5 U.S.C. 605(b), the Administrator, Federal Insurance Administration, FEMA, hereby certifies that this rule if promulgated will not have a significant economic impact on a substantial number of small entities. As stated in section 2 of the Flood Disaster Protection Act of 1973, the establishment of local floodplain management together with the availability of flood insurance decreases the economic impact of future flood losses to both the particular community and the nation as a whole. This rule in and of itself does not have a significant economic impact. Any economic impact results from the community's decision not to (adopt) (enforce) adequate floodplain management, thus placing itself in noncompliance of the Federal standards required for community participation. In each entry, a complete chronology of effective dates appears for each listed community.

Title 49 of the CFR is amended by revising Part 1138 to read as follows:

PART 1138—PROCEDURES FOR REQUESTING COSTS AND REVENUES FROM RAIL CARRIERS CANCELLING THE APPLICATION OF A JOINT RATE PURSUANT TO 49 U.S.C. SECTION 10705A(C)

Sec.

1138.1 Scope.

1138.2 Procedures.

Authority: 49 U.S.C. 10321, 10705a; 5 U.S.C. 553

§ 1138.1 Scope.

The provisions of this part apply to: (a) Rail carriers, subject to the jurisdiction of the Commission under subchapter 1 of Chapter 105 of Title 49, that cancel, under 49 U.S.C. 10705a(c) the application of a joint rate in which they participate; and (b) other rail carriers participating in the joint rate subject to the cancellation, shippers moving traffic over a route subject to the cancellation, affected ports, and State or local agencies representing these parties, that request the Commission to provide revenue and variable cost information about the joint rate pursuant to 49 U.S.C. 10705a(h).

§ 1138.2 Procedures.

(a) The cancelling rail carrier is required to provide a shipper, port, or carrier described in § 1138.1, or State or local agencies representing them, with its division of revenue for the joint rate subject to cancellation under 49 U.S.C. 10705a(c) within three working days of receipt of a request. The tariff page for a cancellation under 49 U.S.C. 10705a(c) shall contain the name and telephone number of a person to contact for this information.

(b) If the request is not timely honored, the tariff may be suspended and investigated by the Commission, and ultimately disapproved.

(c) The Commission will furnish within five working days of a request, made pursuant to 49 U.S.C. 10705a(h) determinations of the variable cost of service and revenue of a rail carrier cancelling the application of a joint rate. The request must be sent directly to: Section of Rail Costing, Bureau of Accounts, Interstate Commerce Commission, Washington, DC 20423. A request must be route-specific and must include for each route to be cancelled:

(1) The tariff minimum weight.

(2) The tariff rate applicable at the minimum weight, tariff reference, and applicable unit (e.g., per hundred weight).

(3) The relevant territorial division and the relevant intraterritorial sudivision (where applicable) as percentages. (Carriers must supply this information to requesting parties within three working days of the request as set forth in paragraph (a) of this section.

(4) The car or types in which the traffic normally moves.

(5) The commodity description—STCC code.

(6) The class of traffic.

(7) The number of intertrain and intratrain switches (if known).

(8) The origin, destination, interchanges, carriers used, and the short line distance on the cancelling carrier's line (from the published distance tables) from or to the interchange point(s) at which the traffic is tendered.

(d) Along with any request for variable cost and revenue information, shippers and ports, or State or local agencies representing them, must certify to the Commission that they have no feasible transportation alternatives to the cancelled routes.

(e) Unless a carrier specifically waives its confidentiality interest, division of revenue information shall be considered confidential. All pleadings containing divisions data must be filed pursuant to 49 CFR 1104.14, our rule concerning protective orders to maintain confidentiality. The confidential data shall be submitted in a separate package, clearly marked on the outside "confidential materials subject to a protective order." A request for a protective order shall be filed as a separate pleading.

Agricultural Marketing Service

7 CFR Part 923

[Washington Cherry Regulation 22; Amdt. 3]

Sweet Cherries Grown in Designated Counties of Washington; Amendment of Minimum Size Requirements

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This action, recommended by the Washington Cherry Marketing Committee, proposes to increase the minimum size of sweet cherries that can be shipped by handlers from 50/64 to 52/64 inch in diameter. Such an increase would provide fresh markets and consumers with slightly larger fruit. The change is intended to enhance the image of Washington sweet cherries and help improve sales and returns to growers. The marketing of undesirable sizes undermines buyer confidence in the fruit sold in the market and does not encourage repeat purchases. Hence, requiring handlers to market more desirable sizes of sweet cherries should have a positive effect on sales and industry returns. The committee works with the Department in administering the marketing order. The proposal, if adopted, would apply during the 1987 and subsequent seasons.

DATE: Comments must be received on or before May 12, 1987.

ADDRESS: All persons interested in commenting on this proposal should submit their comments in triplicate to the Docket Clerk, F&V, AMS, U.S. Department of Agriculture, Room 2085–S, Washington, DC 20250–1400. All written comments submitted will be made available for public inspection in the above office during regular business hours. Comments should reference the date and page of this issue of the **Federal Register.**

FOR FURTHER INFORMATION CONTACT: James M. Scanlon, Marketing Order Administration Branch, F&V, AMS, USDA, Washington, DC 20250, Telephone (202) 447–5697.

SUPPLEMENTARY INFORMATION: This proposed rule has been reviewed under Executive Order 12291 and Departmental Regulation 1512–1 and has been designated as "non-major" under criteria contained therein.

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA), the Administrator of the Agricultural Marketing Service (AMS) has determined that this action would not have a significant economic impact on a substantial number of small entities.

The purpose of the RFA is to fit regulatory actions to the scale of businesses subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (The Act, 7 U.S.C. 601–674), and rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

It is estimated that 62 Washington sweet cherry handlers will be subject to this regulation during the current season. In addition, there are approximately 1,100 producers in the production area. The majority of these handlers and producers may be classified as small entities as defined by the Small Businesses Administration (SBA). The SBA defines agricultural service firms as those whose gross annual receipts are less than $3.5 million and small agricultural producers as those having average annual gross revenues for the last three years of less than $100,000 (13 CFR 121.2).

This proposed rule is issued under Marketing Order No. 923 regulating the handling of sweet cherries produced within the counties of Okanogan, Chelan, Douglas, Grant, Yakima, and Benton within the State of Washington. It is based upon the unanimous recommendation and information submitted by the Washington Cherry Marketing Committee (WCMC) and upon other available information.

At its meeting on February 12, 1987, the WCMC recommended an increase in the smallest size allowed to be marketed under this regulation. The increase of 1/32 inch in diameter, from 50/64 to 52/64, would more accurately reflect the true cherry size designated as 13 row size. This change would improve the image of the 13 row size pack in the marketplace and provide buyers with slightly larger size fruit overall, thus encouraging repeat purchases and increasing cherry sales, shipments, and grower returns.

Approximately 79.32 million pounds of sweet cherries were shipped during the 1986 season. Shipments of fruit 50/64 inch in diameter normally account for less than two percent of total industry shipments. Approximately one percent of 1986 shipments consisted of fruit designated as 13 row size; that is, fruit generally measuring between 50/64 and 54/64 inch in diameter. The remaining shipments of 50/64 inch fruit consisted of containers marked with a minimum diameter. A 1/32 of an inch increase in the size of marketable sweet cherries grown in designated counties of Washington would have a negligible impact on industry supplies and should improve the overall fruit size and quality of the pack. In addition, immature cherries tend to occur in the smaller sizes.

Approximately 86 percent of the total shipments of 13 row size fruit were shipped during the first four weeks of the 1986 season. Initial offerings of sweet cherries set the market tone for the remainder of the season. Purchases of large, high quality fruit at the beginning of the season encourage consumers to make subsequent purchases, thus expanding and stabilizing market demand and increasing returns to growers and handlers.

It is the Department's view that this proposal would benefit growers and handlers if implemented. The anticipated increase in demand and grower returns would significantly offset the costs of compliance with the regulations. In addition, the WCMC believes that the proposed regulatory change is needed to improve returns to growers in the production area while consistently providing fresh markets with slightly larger, good quality sweet cherries.

A comment period of 15 days is provided and is deemed appropriate because the shipping season for the 1987 crop of Washington sweet cherries is expected to begin in early June. It is

desirable to implement the proposed change, if adopted, as soon as possible so that such change would apply during the entire shipping season. In addition, a prompt decision on this proposal is necessary so that handlers will have sufficient time to adjust and plan their operations prior to the beginning of the shipping season, in response to any changes that may result from this rulemaking action.

BILLING CODE 3410-02-M

FEDERAL DEPOSIT INSURANCE CORPORATION

12 CFR Part 309

Freedom of Information Act; Uniform Fee Schedule and Administrative Guidelines; Disclosure of Information

AGENCY: Federal Deposit Insurance Corporation.

ACTION: Notice of proposed rulemaking.

SUMMARY: The FDIC is proposing to amend its regulations to implement the provisions of the Freedom of Information Reform Act of 1986. Pub. L. 99–570, and the Uniform Freedom of Information Act Fee Schedule and Guidelines adopted by the Office of Management and Budget (52 FR 10012).

DATE: Comments on this proposal must be received by May 27, 1987.

ADDRESSES: Comments should be addressed to Hoyle L. Robinson, Executive Secretary, FDIC, 550 17th Street, NW., Washington, DC 20429, or hand-delivered to room 6108 at the same address. Comments are available for public inspection in room 6108, Monday-Friday, between 9:00 a.m. and 5:00 p.m.

FOR FURTHER INFORMATION CONTACT: Margaret M. Olsen, Deputy Executive Secretary, FDIC, 550 17th Street, NW., Washington, DC 20429, telephone (202) 898–3812.

SUPPLEMENTARY INFORMATION: The Freedom of Information Reform Act ("FOI Reform Act") created a new structure for agency fees which may be charged for processing Freedom of Information Act requests. The FOI Reform Act requires agencies to issue implementing regulations, pursuant to notice and receipt of public comment, which are to conform to guidelines established by the Office of Management and Budget ("OMB"). OMB's final guidelines, which were also pursuant to notice and public comment, were published in the **Federal Register** on March 27, 1987. These proposed amendments, thus, are based on and conform to OMB's guidelines.

As proposed, FDIC's amendments would permit the FDIC to recover the full direct costs incurred by it in searching for, reviewing and duplicating documents responsive to FOIA requests. The amendments would incorporate FDIC's existing schedule of fees but would classify requesters into categories for the purpose of assessing fees to be charged. Commercial use requesters would be charged search, review and duplication costs. Educational and non-commercial scientific institutions and representatives of the news media would be charged duplication costs, with the first 100 pages being without charge. All other requesters would be charged search and duplication costs, with the first two hours of search time and first 100 pages being without charge. As is presently, where billable costs are less than $25.00, no charges would be assessed. The fee provisions of the FOI Reform Act are effective April 25, 1987, and the FDIC will comply with those requirements pending completion of this rulemaking proceeding.

The FOI Reform Act also amended the exemptive provision relating to law enforcement records, 5 U.S.C. 552(b)(7), and conforming changes are proposed to FDIC's regulations at this time as well.

As the proposed amendments do not impose any recordkeeping or information collection requirements, the Paperwork Reduction Act does not apply. Also, the requirements of the Regulatory Flexibility Act are inapplicable as the amendments do not have a substantial economic impact on a significant number of small entities.

PART 309—[AMENDED]

The Board of Directors, therefore, proposes to amend Part 309 of its regulations as follows:

1. The authority citation for Part 309 continues to read as follows:

Authority: 12 U.S.C. 1819 "Seventh" and "Tenth"; 5 U.S.C. 552.

2. Section 309.5 is amended by revising paragraphs (a) introductory text, (b), and (c)(7) to read as follows:

§ 309.5 Information made available upon request.

(a) *Initial request.* (1) Except as provided in paragraphs (c), (g), and (h), of this section, the FDIC, upon request for any record in its possession, will make the record available to any person who agrees to pay the costs of searching, review and duplication as set forth in paragraph (b) of this section. The request must be in writing, provide information reasonably sufficient to enable the FDIC to identify the requested records and specify a dollar limit which the requester is willing to pay for the costs of searching, review and duplication, unless the costs are believed to be less than $25.00. Requests under this paragraph (a) should be addressed to the Office of the Executive Secretary, FDIC, 550–17th Street, NW., Washington, DC 20429.

* * * * *

(b) *Fees.*—(1) *Definitions.* (i) "Search" includes all time spent looking for material that is responsive to a request, including page-by-page or line-by-line identification of material within documents. The term includes the extraction of information from a computer using existing programming.

(ii) "Duplication" refers to the process of making a copy of a document necessary to respond to a request for disclosure of records or for inspection of original records that contain exempt material or that cannot otherwise be directly inspected.

(iii) "Review" refers to the process of examining documents responsive to a commercial use request to determine whether any portion of any document contains exempt material. It includes processing any document for disclosure, *e.g.* doing all that is necessary to excise them or otherwise prepare them for release.

(iv) "Commercial use request" refers to a request from or on behalf of a requester who seeks information for a use or purpose that furthers the commercial, trade or profit interests of the requester or the person on whose behalf the request is made.

(v) "Educational institution" refers to a school, an institution of higher education, an institution of professional education or an institution of vacational education, which operates a program or programs of scholarly research.

(vi) "Non-commercial scientific" institution refers to an institution that is not operated on a commercial basis and which is operated solely for the purpose fo conducting scientific research the results of which are not intended to promote any particular product or industry.

(vii) "Representative of the news media" refers to any person actively gathering news for an entity that is organized and operated to publish or broadcast news to the public.

(2) *General rules.* (i) Persons requesting records of the FDIC shall be charged for the direct costs of search, duplication and review as set forth in § 309.5(b)(3), unless such costs are less than $25.00.

(ii) Requesters will be charged for search and review costs even if responsive documents are not located and, if located, are determined to be exempt from disclosure.

(iii) Multiple requests seeking similar or related information from the same requester will be aggregated for the purposes of this section.

(iv) If the FDIC determines that the estimated costs of search, duplication or review of requested records will exceed the dollar amount specified in the request or if no dollar amount is specified, the FDIC will advise the requester of the estimated costs (if greater than $25.00). The requester must agree in writing to pay the costs of search, duplication and review.

(v) If FDIC estimates that its search, duplication and review costs will exceed $250.00, the requester must pay in advance an amount equal to 20 percent of the estimated costs.

(vi) Any requester who has previously failed to pay the charges under this section within 30 days of receipt of the invoice therefor must pay in advance the total estimated costs of search, duplication and review.

(vii) The time limit for FDIC to respond to a request will not begin to run until the FDIC has received the requester's written agreement under (iv) or advance payment under (v) or (vi).

(viii) As part of the initial request, a requester may ask that the FDIC waive or reduce fees if disclosure of the information is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in the commercial interest of the requester. Determinations as to a waiver or reduction of fees will be made by the Executive Secretary (or designee) and the requester will be notified in writing of his/her determination.

(3) *Chargeable fees by category of requester.* (i) Commercial use requesters shall be charged search, duplication and review costs.

(ii) Educational institutions, non-commercial scientific institutions and news media representatives shall be charged duplication costs, except for the first 100 pages.

(iii) Requesters not within scope of § 309.5(b)(3)(i) or (ii) shall be charged search and duplication costs, except for the first two hours of search time and first 100 pages of duplication.

(4) *Fee schedule.* The following fees apply:

Supervisory or professional staff.	$14.50/hour.
Clerical Staff	7.50/hour.
Duplication	0.10/page.
Computer Generated Documents	
Computer central processing unit (CPU).	0.021/CPU second.
Core (Main storage)	0.000023/1000 bytes/second.
Magnetic tape drive	0.17/1000 tape input/output operation.
Disk storage device	0.153/1000 disk input/output operation.
Computer paper printout	0.16/1000 lines.
Photocopy printed output	0.76/1000 lines.
Output on computer magnetic tape reel.	75.00.
Address labels	8.00/1000 labels.

(c) * * *

(7) Records or information compiled for law enforcement purposes, but only to the extent that the production of such law enforcement records or information:

(i) Could reasonably be expected to interfere with enforcement proceedings,

(ii) Would deprive a person of a right to a fair trail or an impartial adjudication,

(iii) Could reasonably be expected to constitute an unwarranted invasion of personal privacy,

(iv) Could reasonably be expected to disclose the identity of a confidential source, including a State, local or foreign agency or authority or any private institution which furnished information on a confidential basis,

(v) Would disclose techniques and procedures for law enforcement investigations or prosecutions, or would disclose guidelines for law enforcement investigations or prosecutions if such disclosure could reasonably be expected to risk circumvention of the law, or

(vi) Could reasonably be expected to endanger the life or physical safety of any individual.

BILLING CODE 6714-01-M

DEPARTMENT OF THE TREASURY

Bureau of Alcohol, Tobacco and Firearms

27 CFR Part 9

[Notice No. 629]

Proposed Establishment of Ben Lomond Mountain Viticultural Area

AGENCY: Bureau of Alcohol, Tobacco and Firearms (ATF), Treasury.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Bureau of Alcohol, Tobacco and Firearms (ATF) is considering the establishment of a viticultural area in Santa Cruz County, California, to be known as "Ben Lomond Mountain." This proposal is the result of a petition from Mr. Michael R. Holland. The establishment of viticultural areas and the subsequent use of viticultural area names in wine labeling and advertising will allow wineries to better designate the specific grape-growing area where their wines come from and will enable consumers to better identify wines they purchase.

DATE: Written comments must be received by June 11, 1987.

ADDRESS: Send written comments to: Chief, FAA, Wine and Beer Branch, Bureau of Alcohol, Tobacco and Firearms, P.O. Box 385, Washington, DC 20044-0385 (Attn: Notice No. 629).

Copies of the petition, the proposed regulations, the appropriate maps, and the written comments will be available for public inspection during normal business hours at:

ATF Reading Room, Office of Public Affairs and Disclosure, Room 4406, Ariel Rios Federal Building, 12th and Pennsylvania Avenue, NW., Washington, DC.

FOR FURTHER INFORMATION CONTACT: Robert L. White, FAA, Wine and Beer Branch, Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue

NW., Washington, DC 20226 (202–566–7626).

SUPPLEMENTARY INFORMATION:

Background

On August 23, 1978, ATF published Treasury Decision ATF–53 (43 FR 37673, 54624) revising regulations in 27 CFR Part 4. These regulations allow the establishment of definite viticultural areas. The regulations allow the name of an approved viticultural area to be used as an appellation of origin on wine labels and in wine advertisements. On October 2, 1979, ATF published Treasury Decision ATF–60 (44 FR 56692) which added a new Part 9 to 27 CFR, for the listing of approved American viticultural areas.

Section 4.25a(e)(1), Title 27, CFR, defines an American viticultural area as a delimited grape-growing region distinguishable by geographical features.

Section 4.25a(e)(2) outlines the procedure for proposing an American viticultural area. Any interested person may petition ATF to establish a grape-growing region as a viticultural area. The petition should include—

(a) Evidence that the name of the proposed viticultural area is locally and/or nationally known as referring to the area specified in the petition;

(b) Historical or current evidence that the boundaries of the viticultural area are as specified in the petition;

(c) Evidence relating to the geographical features (climate, soil, elevation, physical features, etc.) which distinguish the viticultural features of the proposed area from surrounding areas;

(d) A description of the specific boundaries of the viticultural area, based on the features which can be found on United States Geological Survey (U.S.G.S.) maps of the largest applicable scale; and

(e) Copies of the appropriate U.S.G.S. maps with the boundaries prominently marked.

Petition

ATF has received a petition from Mr. Michael R. Holland proposing an area in Santa Cruz County, California, as a viticultural area to be known as "Ben Lomond Mountain." This proposed viticultural area is located entirely in Santa Cruz County, California in the central part of the State near the coast. The viticultural area consists of approximately 38,400 acres. There are nine separate vineyard operations established in the area totaling approximately 69.5 acres of grapes. In addition, two other vineyards are in the development stages with a proposed planting of 330 acres. The petition provides the following information as evidence that the proposed area meets the regulatory requirements discussed above.

Viticultural Area Name

The name "Ben Lomond Mountain" can be found on all current U.S.G.S. maps of the mountain area northwest of the city of Santa Cruz, California (Santa Cruz and Davenport Quadrangles).

Historical/Current Evidence of Boundaries

According to the petitioner, Ben Lomond Mountain was first pioneered by Scotsman John Burns who gave the area its name in the 1860's. Burns was also the first grape grower in the area and made wine with little commercial success until the 1880's, setting the example for several other families.

Commercial winegrowing began in the Ben Lomond Mountain region in 1883 with the foundation of the Ben Lomond Wine Company by F.W. Billings. The Ben Lomond Wine Company, under the management of Billings' son-in-law, J.F. Coope, brought the Ben Lomond Mountain Wines out of the obscurity of the remote mountain area to stand with other quality wines in the State.

In 1887, Coope wrote . . . "Ben Lomond (Mountain) as a wine district is yet in its infancy and is struggling to establish a name for itself in that industry. The wine yield of 1886 (for the Ben Lomond Wine Company) was 28,000 gallons, chiefly Riesling, part of which was grown (by the Ben Lomond Wine Company), while a part was purchased (from neighboring vineyards)." By 1891, approximately 400 acres of vineyards were devoted to wine production on Ben Lomond Mountain.

Frona Eunice Waite Colburn, in her treaties "Wines and Vines of California" (1889), proclaimed the Ben Lomond Mountain region as a "future Chablis district" . . . "here the Ben Lomond Company makes a wine of the (Chablis) type which is unrivaled by any other product in the State, and is the only wine in California which has the thin, delicate, flinty dryness of a true Chablis. . . . It is a superior table wine; not heady or earthy in flavor and has the fine bouquet and exquisite flavor of a high-type mountain wine. It is sold under the classical name of Ben Lomond."

The Ben Lomond Mountain wine industry declined after the turn of the century. By the end of World War II, only the 75 acre Locatelli Ranch vineyard and the 40 acre Quistorff vineyard remained. Both had been abandoned by the mid-1960's.

During the 1970's Ben Lomond Mountain experienced a viticultural renaissance in and around the town of Bonny Doon. In 1972, the University of California Agricultural Extension Service released a study of climatologically prime growing areas for several commercial crops, including wine grapes. This study, entitled California's Central Coast: Its Terrain, Climate, and Agro-Climate Implications, established Ben Lomond Mountain as being a prime growing region for wine grape production. This report stirred the interest of several individuals in the region. Since then, nine separate vineyard operations have been established within the proposed Ben Lomond Mountain Viticultural Area.

Geographical/Climatological Features

The petitioner claims the proposed viticultural area is distinguished from surrounding areas by differences in topography, soils, and climate. The petitioner bases these claims on the following:

(a) *Topography.* Ben Lomond Mountain rises directly from the California coastline to an altitude of 2,630 feet above sea level. This mountain region is bordered by the Pacific Ocean to the west, the San Lorenzo River Basin to the east, the city of Santa Cruz (and river mouth of the San Lorenzo) to the south, and Scott Creek and Jamison Creek on the northwest and northeast sides, respectively. The proposed Ben Lomond Mountain Viticultural Area is approximately 15 miles long and an average of four miles wide, defined by its borders which generally coincide with the 800-foot elevation level.

(b) *Soils.* The geophysical boundaries of the Ben Lomond Mountain region become apparent when examining the geologic stratigraphy of the area. Ben Lomond Mountain is comprised of a large geologic structure known as a pluton, composed primarily of granitic rocks (quartz diorite), with some intrusions of metamorphic rocks (quartzite and pelitic schists). This plutonic structure distinguishes Ben Lomond Mountain from surrounding areas and is unique within viticulturally viable growing areas in the Santa Cruz Mountains. The bedrock formations are covered at the lower elevations and isolated tablelands by depositions of sandstone, primarily Santa Margarita sandstone and to a lesser extent Santa Cruz Mudstone. The combination of the granitic quartz diorite and metasedimentary rock structures with

the sandstone deposits and forest detritus forms a variety of soil complexes which are generally described as slightly acidic, sandy loams. The resultant topsoil complexes are well-drained and deep, lending themselves readily to successful viticulture as demonstrated by past and present vineyards in the area.

(c) *Climate.* (1) The Ben Lomond Mountain area is particularly distinguishable by climatological evidence. Ben Lomond Mountain presents the first major obstruction to marine weather patterns. Winter storms lose much of their moisture on the western slope of coastal hills and mountains where the warm, moisture-laden marine air is lifted and cools, precipitating in fogs or rainfall. As a result, Ben Lomond Mountain draws much of the precipitation from marine air that moves onshore between the city of Santa Cruz and Ano Nuevo point. Consequently, Ben Lomond Mountain receives the highest average amount of precipitation in Santa Cruz County at 60 inches.

(2) During the summer, the mountain forms a barrier against the low-lying fogs that inundate the shore and coastal valleys. This fogbelt generally rests between the 400- and 800-foot elevations along the western slope of Ben Lomond Mountain. Above this level, the marine air climate tends to give way to a low mountain climate where abundant sunshine is characteristic of the summer months.

(3) The 1972 University of California climatological study of prime growing areas for commercial crops demonstrates the suitability of the climate afforded by Ben Lomond Mountain for wine grape production. Of special interest is the delineation of a "premium wine grape production thermal" existing along the ridgeline of the mountain above 1,500 feet.

Proposed Boundaries

The boundaries of the proposed Ben Lomond Mountain viticultural area may be found on four U.S.G.S. maps. The maps are 7.5 minute series with a scale of 1:24000. The four maps are titled Davenport Quadrangle (1955, photorevised 1968), Big Basin Quadrangle (1955, photorevised 1973), Felton Quadrangle (1955, photorevised 1980) and Santa Cruz Quadrangle (1954, photorevised 1981). The specific description of the boundaries of the proposed viticultural area is found in the proposed regulations which immediately follow the preamble to this notice of proposed rulemaking.

Executive Order 12291

It has been determined that this proposal is not a "major rule" within the meaning of Executive Order 12291, 46 FR 13193 (February 17, 1981), because it will not have an annual effect on the economy of $100 million or more; it will not result in a major increase in costs or prices for consumers, individual industries, Federal, States, or local government agencies, or geographic regions; and it will not have significant adverse effects, on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Regulatory Flexibility Act

The provisions of the Regulatory Flexibility Act relating to an initial and final regulatory analysis (5 U.S.C. 603, 604) are not applicable to this notice because the proposal, if promulgated as a final rule, will not have a significant economic impact on a substantial number of small entities. The proposal will not impose, or otherwise cause, a significant increase in the reporting, recordkeeping, or other compliance burdens on a substantial number of small entities. The proposal is not expected to have significant secondary or incidental effects on a substantial number of small entities.

Accordingly, it is hereby certified under the provisions of section 3 of the Regulatory Flexibility Act (5 U.S.C. 605(b)) that this notice of proposed rulemaking, if promulgated as a final rule, will not have a significant economic impact on a substantial number of small entities.

Paperwork Reduction Act

The provisions of the Paperwork Reduction Act of 1980, Pub. L. 96-511, 44 U.S.C. Chapter 35, and its implementing regulations, 5 CFR Part 1320, do not apply to this notice because no requirement to collect information is proposed.

Public Participation—Written Comments

ATF requests comments concerning this proposed viticultural area from all interested persons. Comments received before the closing date will be carefully considered. Comments received after the closing date and too late for consideration will be treated as suggestions for future ATF action.

ATF will not recognize any material or comments as confidential. Comments may be disclosed to the public. Any material which the commenter considers to be confidential or inappropriate for disclosure to the public should not be included in the comment. The name of the person submitting a comment is not exempt from disclosure.

Any interested person who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his or her request, in writing, to the Director within the 45-day comment period. The request should include reasons why the commenter feels that a public hearing is necessary. The Director, however, reserves the right to determine, in light of all circumstances, whether a public hearing will be held.

Par. 3. Subpart C is amended by adding § 9.118 to read as follows:

Subpart C—Approved American Viticultural Areas

* * * * *

§ 9.118 Ben Lomond Mountain.

(a) *Name.* The name of the viticultural area described in this section is "Ben Lomond Mountain."

(b) *Approved maps.* The appropriate maps for determining the boundaries of

the Ben Lomond Mountain viticultural area are four 7.5 minute series U.S.G.S. maps. They are titled:

(1) Davenport Quadrangle (1955, photorevised 1968);

(2) Big Basin Quadrangle (1955, photorevised 1973);

(3) Felton Quadrangle (1955, photorevised 1980); and

(4) Santa Cruz Qaudrangle (1954, photorevised 1981).

(c) *Boundaries.* The Ben Lomond Mountain viticultural area is located entirely within Santa Cruz County, California, which is in the central part of the State near the coast. The beginning point is the intersection of Sections 25, 26, 35 and 36 (Davenport Quadrangle, T. 10S., R. 3W.) which coincides with the 800-foot contour line and is approximately .6 mile northwest of the top of Bald Mountain.

(1) From the beginning point, the boundary follows the 800-foot contour line in a meandering manner in a generally northesterly direction across Section 26 into Section 27 (T. 10S., R. 3W).

(2) Thence along the 800-foot contour line in an easterly and then generally a northweasterly direction through Section 27 and then back across the northwest corner of Section 26 and thence in a generally northwesterly direction along the 800-foot contour line across Sections 23, 22 and into Section 15.

(3) Thence along the 800-foot contour line in a northerly and then a southerly direction across Section 22 and eventually in a generally northwesterly direction into Section 20.

(4) Thence continuing along the 800-foot contour line in a generally northwesterly direction through Sections 20, 17, 16, 17, 16, 9, 8, 5, 8, 7 and 6 (T. 10S., R. 3W.).

(5) Thence continuing in a northerly direction across Sections 5 and 32 and thence in a southwesterly direction across Sections 31 and 6.

(6) Thence continuing in a generally northerly direction across Sections 1, 6, 31, 36, 31, 36 and 30 (T. 9S., R. 3W.) to the intersection of the 800-foot contour line and Scott Creek in section 19 (T. 9S., R. 3W.).

(7) Thence in a northeasterly direction along the south bank of Scott Creek through Sections 19, 20 and 17 to the intersection of Scott Creek with the 1,600-foot contour line in Section 16 (T. 9S., R. 3W.).

(8) Thence in a generally northweasterly and then southerly direction along the 1,600-foot contour line through Section 16 and then through the southeast and southwest corners of Sections 9 and 10 respectively to the intersection of the 1,600-foot contour line with Jamison Creek in Section 16 (T. 9S., R. 3W.).

(9) Thence in an easterly direction along the south bank of Jamison Creek across Sections 15 and 14 (T. 9S., R. 3W.) to the intersection of Jamison Creek and the 800-foot contour line in the southeast corner of Section 14 (T. 9S., R. 3W.).

(10) Thence in a southeasterly direction in a meandering manner along the 800-foot contour line across Sections 14, 23, 24, 25 (T. 9S., R. 3W.), Sections 30 and 31 (T. 9S., R. 2W.), and Sections 32, 5, 8, 9, 16, 17 and 21 (T. 10S., R. 2W.).

(11) Thence in a southwesterly, then generally a southeasterly and then a northwesterly direction along the 800-foot contour line in a meandering manner to Section 31 and then continuing on through Sections 31 and 30 (T. 10S., R. 2W.).

(12) Thence continuing along the 800-foot contour line in a generally southerly and then a generally northwesterly direction through Sections 25, 36, 31 and 36 to the point of beginning at the intersection of Sections 25, 26, 35 and 36 (T. 10S., R. 3W.).

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 117

[CGD7 87-06]

Drawbridge Operations Regulations; Sanibel Causeway, FL

AGENCY: Coast Guard, DOT.

ACTION: Proposed rule.

SUMMARY: At the request of the Lee County Department of Transportation, the Coast Guard is considering a change to the regulations governing the Sanibel Causeway bridge at Punta Rassa, Florida, by extending weekday opening restrictions by 30 minutes and by adding opening restrictions on weekend and holiday afternoons. This proposal is being made because of complaints about vehicular traffic dalays. This action should accommodate the needs of highway traffic and still provide for the reasonable needs of navigation.

DATE: Comments must be received on or before June 11, 1987.

ADDRESSES: Comments should be mailed to Commander (oan), Seventh Coast Guard District, 51 SW. 1st Avenue, Miami, Florida 33130-1608. The comments and other materials referenced in this notice will be available for inspection and copying at 51 SW. 1st Avenue, Room 816, Miami, Florida. Normal office hours are from 7:30 a.m. to 4 p.m., Monday through Friday, except holidays. Comments may also be hand-delivered to this address.

FOR FURTHER INFORMATION CONTACT: Mr. Wayne D. Lee, Chief, Bridge Section, Seventh Coast Guard District, telephone (305) 536-4103.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in this proposed rulemaking by submitting written views, comments, data, or arguments. Persons submitting comments should include their names and addresses, identify the bridge, and give reasons for concurrence with or any recommended change in the proposal.

The Commander, Seventh Coast Guard District, will evaluate all communications received and determine a course of final action on this proposal. The proposed regulations may be changed in light of comments received.

Drafting Information: The drafters of this notice are Mrs. Zonia C. Reyes, Bridge Administration Specialist, project officer, and Lieutenant Commander S.T. Fuger, Jr., project attorney.

Discussion of Proposed Regulations: The Sanibel Causeway bridge currently opens on signal, except that from 3:45 p.m. to 4:45 p.m., Monday through Friday, except Federal holidays, the draw is required to open only 4:15 p.m for the passage of vessels. Lee County has asked that the period of restricted opening be extended to 5:15 p.m., with an opening at 4:45 p.m., and that the restrictions apply seven days a week. Drawbridge operation records and traffic counts show that extending the weekday restrictions to 5:15 p.m. would have only minimal impacts on navigation and may improve the flow of vehicular traffic. Weekend and holiday highway traffic volume is smaller and the number of boats requiring bridge openings is greater. We believe that opening the bridge at 15-minute intervals on weekend and holiday afternoons would allow accumulated vehicular traffic to disperse between openings, while still providing for the reasonably prompt passage of vessels.

Economic Assessment and Certification: These proposed regulations are considered to be non-major under Executive Order 12291 on Federal Regulation and nonsignificant under the Department of Transportation

regulatory policies and procedures (44 FR 11034; February 26, 1979).

The economic impact of this proposal is expected to be so minimal that a full regulatory evaluation is unnecessary. We conclude this because the regulation allows for tugs with tows to pass at any time. Since the economic impact of this proposal is expected to be minimal, the Coast Guard certifies that, if adopted, it will not have a significant economic impact on a substantial number of small entities.

Proposed Regulations

In consideration of the foregoing, the Coast Guard proposes to amend Part 117 of Title 33, Code of Federal Regulations, as follows:

1. The authority citation for Part 117 continues to read as follows:

Authority: 33 U.S.C. 499; 49 CFR 1.46 and 33 CFR 1.05–1(g).

2. Section 117.317(k) is revised to read as follows:

PART 117—DRAWBRIDGE OPERATION REGULATIONS

§ 117.317 Okeechobee Waterway.

* * * * *

(k) *Sanibel Causeway.* The draw of the Sanibel Causeway bridge, mile 151.0, at Punta Rassa shall open on signal; except that from 3:45 p.m. to 5:15 p.m., Monday through Friday, except Federal holidays, the draw need open only at 4:15 p.m. and 4:45 p.m. On Saturdays, Sundays, and Federal holidays from 3:45 p.m. to 5:15 p.m., the draw need open only at 4 p.m., 4:15 p.m., 4:30 p.m., 4:45 p.m. and 5 p.m. Exempt vessels shall be passed at any time.

Dated: April 16, 1987.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 147

[FRL–3199–4]

State Underground Injection Control Programs; Illinois

AGENCY: U. S. Environmental Protection Agency (U.S. EPA).

ACTION: Notice of public hearing and public comment period.

SUMMARY: U.S. EPA announces a public hearing and public comment period regarding withdrawal of approval of Illionis' Class II Underground Injection Control (UIC) program administered by the Illinois Department of Mines and Minerals (IDMM). The State currently has primary enforcement responsibility for this program under section 1425 of the Safe Drinking Water Act (SDWA), as amended, 42 U.S.C. 300h–4. This action is the second step in the withdrawal process established in 40 CFR 145.34(b). Withdrawal of approval would, if completed, divest Illinois of primary enforcement responsibility under the SDWA to regulate Class II injection wells within the State, and U.S. EPA would then promulgate and administer an UIC program to regulate Class II injection wells in Illinois.

U.S. EPA is proceeding with a public hearing and public comment period to discuss withdrawal of the State's Class II UIC program, because Illinois has not demonstrated that it has a program which is in compliance with U.S. EPA's program requirements, or is presently effective in protecting underground sources of drinking water.

A public hearing, to discuss the Illinois Class II UIC program and the U.S. EPA action to proceed with withdrawal of approval of the program, will be held on July 8, 1987, at 10 a.m. to 3 p.m., at the following location: Rend Lake College Theater, Rend Lake College, RR #1, Ina, Illinois.

At the public hearing, all interested persons shall be given opportunity to make written or oral presentations on the State's 1425 program and the U.S. EPA action to withdraw approval of it. In addition, comments may be submitted as provided below.

DATES: Comments on the Illinois Class II UIC program on the U.S. EPA action to proceed with withdrawal of approval of the program must be received by August 7, 1987. As discssed above, a public hearing will be held on July 8, 1987.

ADDRESSES: Copies of documents regarding this action are available at the following addresses for review: (It is recommended that you telephone John Taylor, at (312) 886–4299, before visiting the Region V offices.)

Open: 9 a.m.–8 p.m. M–F, 11 a.m–5 p.m. Sat. 1 p.m.–5 p.m. Sunday.

As discussed above, a public hearing will be held at: Rend Lake College Theater, Rend Lake College, RR #1, Ina, Illinois.

Comments on U.S. EPA's proceeding to withdraw approval of the Illinois Class II UIC program, or on the State program itself, should be submitted at the public hearing or addressed to: (Please submit an original and three copies, if possible.) Mr. Edward P. Watters, Chief, Underground Injection Control Section (5WD–TUB–09), Safe Drinking Water Branch, U.S. Environmental Protection Agency, 230 South Dearborn Street, Chicago, Illinois 60604.

FOR FURTHER INFORMATION CONTACT: Mr. John Taylor, Safe Drinking Water Branch (5WD–TUB–09), U. S. Environmental Protection Agency, 230 South Dearborn Street, Chicago, Illinois 60604, (312) 886–4299.

SUPPLEMENTARY INFORMATION:

Background

On December 1, 1981, Illinois applied for primary enforcement responsibility (primacy) for the State's Class II UIC program under section 1425 of the SDWA. The SDWA established the Class II UIC program to protect underground sources of drinking water (USDW) from possible adverse impacts that could result from the improper injection of fluids associated with the production of oil and gas.

On February 1, 1984, the U.S. EPA granted primacy to Illinois. The State designated the IDMM as the implementing agency. This authorization of primacy is codified at 40 CFR 147.701. In approving Illinois' primacy, U.S. EPA also approved the State's program description, Memorandum of Agreement, and associated program commitments from the IDMM. These program commitments included implementing an effective program of regulations and enforcement to ensure that USDW would be protected.

In April 1985, the U.S. EPA conducted a routine evaluation of the State's Class II program administered by the IDMM. The evaluation raised a number of questions about the program; and, as a result, the U.S. EPA conducted a detailed, in-depth evaluation which culminated in the report entitled, *Evaluation of the Illinois Department of Mines and Minerals, Division of Oil and Gas, Class II Underground Injection Control Program Report.* This report outlined a number of concerns that the U.S. EPA had about the program and its ability to ensure protection of USDW. The report included corrective actions

that needed to be instituted by IDMM in order to achieve a program that would be effective in protecting USDW. This report was transmitted to the Director of the IDMM on December 13, 1985.

Since the initial evaluation, U.S. EPA has pursued negotiations with the IDMM and with the Governor's office. To date, the State has failed to make the appropriate and required program changes.

Illinois 1425 Program Deficiencies

The report, *Evaluation of the Illinois Department of Mines and Minerals, Division of Oil and Gas, Class II Underground Injection Control Program Report*, outlined and documented areas of the program that are deficient in ensuring that USDW would be protected. The deficiencies include the following:

- The IDMM has failed to ensure adequate protection of USDWs because of deficiencies in permits issued for injection wells. There has been no evidence to show that information on USDW, confining layers, and well logs, for example, is evaluated in making injection well permit determinations. Information concerning confining layers, locations of USDW, and well logs is not completed in permit applications. Since all permits are preprinted with the Director's signature, there is no way to verify that these permits have an adequate technical review, or that they are complete and valid permits. IDMM injection well permits contain no monitoring, reporting and recordkeeping requirements by which continuous compliance can be controlled.
- IDMM also has not effectively ensured that all Class II wells demonstrate mechanical integrity every 5 years. A well must have mechanical integrity in order to ensure that fluids are injected at the depth required in the permit. An estimated two-thirds of the State's Class II well operators have not complied with the mechanical integrity requirements.
- The IDMM has failed to require and/or enforce operator reporting requirements. Most operators do not report the results of their monitoring, as required in the State's regulations.
- IDMM does not operate an effective program to enforce against violations that endanger USDW. It has been left to the discretion of local field inspectors to initiate enforcement actions. U.S. EPA did not find any cases where such enforcement actions had occurred that involved injection activities, despite citizen complaints and widespread noncompliance.

Withdrawal Procedure

Section 1425 of the SDWA and the guidance published in connection therewith do not contain express procedures for the withdrawal of a section 1425 program. U.S. EPA has promulgated procedures for the analogous situation of withdrawing a section 1422 program at 40 CFR 145.34. In lieu of express provisions, U.S. EPA is following the 1422 procedures in considering withdrawal of the Illinois' 1425 program.

On December 12, 1986, the Administrator of the U.S. EPA notified the Governor of Illinois of his decision to initiate the process to withdraw approval of the Illinois 1425 program. The Administrator reached this decision after negotiations among U.S. EPA, IDMM, and the Governor's office failed to correct the identified program deficiencies.

The Administrator's notice to the Governor of Illinois constituted the first step in the withdrawal process; and, according to the procedures outlined in 40 CFR 145.34(b), the State was given 30 days after receipt of the notice to demonstrate that its 1425 program ensures that USDW are protected.

Illinois responded to the Administrator's notice in a letter dated January 14, 1987, and in a meeting with U.S. EPA officials on January 15, 1987. The State, however, has not demonstrated that the identified program deficiencies have been corrected or that the Illinois 1425 program ensures protection of USDW. Therefore, in accordance with 40 CFR 145.34(b)(2), the Administrator is soliciting comments on the withdrawal of the Class II UIC program from the IDMM. This constitutes the second step in the withdrawal process. Following the public hearing and public comment period, U.S. EPA will fully evaluate the record. If U.S. EPA finds that the State is not in compliance, the Administrator will notify the State that the Class II UIC program is being withdrawn. Within 90 days of receipt of that notification, Illinois must fully implement the necessary actions to ensure protection of USDW, or the Class II UIC program will be withdrawn.

Program approval will not be withdrawn if Illinois can demonstrate that it has an effective 1425 program, prior to a final determination to withdrawn approval of the program. If U.S. EPA does withdraw approval of the Illinois Class II program, it will propose, promulgate and implement a Federal program for Class II wells located in Illinois.

U.S. EPA is providing a public comment period regarding withdrawal of the Illinois Class II UIC program under section 1425 of the SDWA. Public comments received on or before August 7, 1987, will be considered in U.S. EPA's final evaluation of the ability of the Illinois 1425 program to ensure protection of USDW.

A public hearing will be held on July 8, 1987, at 10 a.m. to 3 p.m. at the following location: Rend Lake College Threater, Rend Lake College, RR #1, Ina, Illinois.

The hearing will be an administrative hearing to accept comments regarding the Illinois Class II UIC program and the U.S. EPA action to proceed with withdrawal of approval of the program.

Authority: 42 U.S.C. 300f-300j.

Dated: April 16, 1987.

Radio Broadcasting Services; Laughlin, NV

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This document requests comments on a petition by Saguaro Broadcasting to allocate Channel 300C1 to Laughlin, Nevada, as the community's first local FM service. Channel 300C1 can be allocated in compliance with the Commission's minimum distance separation requirements without the imposition of a site restriction. However, since Laughlin is not listed in the 1980 U.S. Census, petitioner is requested to provide further information to show that the area is a "community" for allocation purposes. Absent such a showing, the allotment may not be made.

DATES: Comments must be filed on or before June 8, 1987, and reply comments on or before June 23, 1987.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554. In addition to filing comments with the FCC, interested parties should serve the petitioner, or its counsel or consultant, as follows: Eugene L. Burke, Esq., Burke & Burke, P.O. Box 439, Falls Church, Virginia 22046.

FOR FURTHER INFORMATION CONTACT: Leslie K. Shapiro, Mass Media Bureau, (202) 634–6530.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Notice of Proposed Rule Making, MM Docket No. 87–97, adopted March 27, 1987, and released April 17, 1987. Parts and Accessories Necessary for Safe Operation; Inspection, Repair, and Maintenance

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Extension of comment periods.

SUMMARY: The FHWA issued two notices of proposed rulemaking (NPRM) which were published in the **Federal Register** on February 26. Both comment periods are scheduled to close on April 27. The FHWA has received four formal requests for extensions of these comment periods and has been advised that additional requests will be forthcoming. The comment period is, therefore, being extended 60 days. No

further requests for extension will be considered on either of these rulemaking actions.

DATE: Comments must be received on or before June 29, 1987.

ADDRESS: All comments should refer to the docket number which appears at the top of this document and must be submitted (preferably in triplicate) to Room 3404, Office of Motor Carrier Standards, Federal Highway Administration, Department of Transportation, 400 Seventh Street, SW., Washington, DC 20590. All comments received will be available for examination, at the above address from 7:45 a.m. to 4:15 p.m. ET, Monday through Friday, except legal holidays.

FOR FURTHER INFORMATION CONTACT: Mr. Neill L. Thomas, Office of Motor Carrier Standards, (202) 366–2999; or Mrs. Kathleen S. Markman, Office of the Chief Counsel, (202) 366–1352, Federal Highway Administration, Department of Transportation, 400 Seventh Street, SW., Washington, DC 20590. Office hours are from 7:45 a.m. to 4:15 p.m. ET, Monday through Friday.

SUPPLEMENTARY INFORMATION: The American Trucking Association, Inc., has requested a 62-day extension. The Commercial Vehicle Safety Alliance and the Tank Truck Manufacturers Association have requested a 90-day extension. The National Association of Regulatory Utility Commissioners asked for a one-week extension of time. All petitioners cited the complexity and controversial nature of the rulemakings as the reasons for needing additional time to prepare substantive responses. The FHWA anticipates receiving similar requests from other organizations in the transportation industry.

These rulemaking actions encompass approximately 51 percent of the present Federal Motor Carrier Safety Regulations and address more than 75 separate items of subject matter. The FHWA, therefore, concludes that requests to extend the comment periods have merit. Accordingly, the comment periods for both dockets are being extended until Monday, June 29, 1987.

[Docket No. 87-003N]

Exemption for Retail Stores; Adjustment of Dollar Limitations

AGENCY: Food Safety and Inspection Service, USDA.

ACTION: Notice.

SUMMARY: This notice announces that the dollar limitations currently in effect on the annual sales of meat and poultry products that can be sold by retail stores exempt from Federal inspection requirements to consumers other than household consumers, such as hotels, restaurants and similar institutions, have been adjusted to conform with price changes for meat and poultry products as indicated by the Consumer Price Index. The dollar limitation for meat products increases from $28,800 to $30,500 for calendar year 1987 and the dollar limitation for poultry products increases from $28,200 to $31,000 for calendar year 1987.

EFFECTIVE DATE: April 27, 1987.

FOR FURTHER INFORMATION CONTACT: Mr. Ralph Stafko, Director, Policy Office, Policy and Planning Staff, Food Safety and Inspection Service, U.S. Department of Agriculture, Washington, DC 20250, (202) 447-8168.

Background

Federal inspection of meat and poultry products prepared for sale or distribution in commerce or in States designated under section 301(c) of the Federal Meat Inspection Act (FMIA) (21 U.S.C. 661(c)) and section 5(c) of the Poultry Products Inspection Act (PPIA) (21 U.S.C. 454(c)) is required by law and administered by the Food Safety and Inspection Service (FSIS). However, section 301(c)(2) of the Federal Meat Inspection Act (21 U.S.C. 661(c)(2)) and section 5(c)(2) of the Poultry Products Inspection Act (21 U.S.C. 454(c)(2)) state that the general requirement of routine Federal inspection ". . . shall not apply to operations of types traditionally and usually conducted at retail stores . . . when conducted at any retail store . . . for sale in normal retail quantities . . . to consumers. . . ."

FSIS regulations (9 CFR 303.1(d) and 381.10(d)) define retail stores that qualify for exemption from routine Federal inspection under the FMIA or PPIA. Whether or not FSIS deems an establishment to be an exempt retail establishment depends, in part, upon the percentage and volume of its trade with consumers other than household consumers, such as hotels, restaurants and similar institutions. Accordingly, the Federal meat and poultry products inspection regulations state in terms of dollars the maximum amount of meat and poultry products which may be sold to nonhousehold consumers if the establishment is to remain an exempt retail establishment. During calendar year 1986, the maximum amount for meat products, was $28,800; for poultry products, the amount was $28,200.

The Federal meat and poultry products inspection regulations (9 CFR 303.1(d)(2)(iii)(*b*) and 381.10(d)(2)(iii)(*b*) further provide that the dollar limitation on product sales by retail stores to consumers other than household consumers will be automatically adjusted during the first quarter of each calendar year whenever the Consumer Price Index, published by the Bureau of Labor Statistics (BLS), Department of Labor, indicates a change during the previous year in the price of the same volume of product exceeding $500, upward or downward. The regulations also require that notice of the adjusted dollar limitation be published in the **Federal Register.**

The BLS Consumer Price Index for 1986 indicates a price increase in meat products of 6.0 percent and a price increase in poultry products of 9.8 percent. As a percentage of the existing dollar limitation, a change in excess of $500 is indicated for both meat and poultry products. When rounded off to the nearest $100, the price increase for meat products amounts to $1,700 and the price increase for poultry products amounts to $2,800.

Accordingly, FSIS, in accordance with §§ 303.1(d)(2)(iii)(*b*) and 381.10(d)(2)(iii)(*b*) of the regulations, has automatically increased the dollar limitations on product sales to consumers other than household consumers by establishments operating as retail establishments exempt from Federal inspection requirements. Therefore, the dollar limitations for 1986 have been adjusted to $30,500 for meat products and $31,000 for poultry products.

Done at Washington, DC, on: April 22, 1987.

Final Determination of Sales at Less Than Fair Value; Malleable Cast Iron Pipe Fittings From Japan

AGENCY: Import Administration, International Trade Administration, Commerce.

ACTION: Notice.

SUMMARY: We have determined that certain malleable cast iron pipe fittings from Japan (pipe fittings) are being, or are likely to be, sold in the United States at less than fair value, and have notified the U.S. International Trade Commission (ITC) of our determination. We have also directed the U.S. Customs Service to continue to suspend liquidation of all entries of pipe fittings from Japan that are entered, or withdrawn from warehouse, for consumption, on or after the date of publication of this notice, and to require a cash deposit or bond for each entry in an amount equal to the estimated dumping margin as described in the "Continuation of Suspension of Liquidation" section of this notice.

EFFECTIVE DATE: April 27, 1987.

FOR FURTHER INFORMATION CONTACT: Steven Lim or Charles Wilson, Office of Investigations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone (202) 377-5332 or 377-5288.

SUPPLEMENTARY INFORMATION:

Final Determination

We have determined that pipe fittings from Japan are being, or are likely to be, sold in the United States at less than fair value, as provided in section 735(a) of the Tariff Act of 1930, as amended (the Act) (19 U.S.C. 1673d(a)). We made fair value comparisons on sales of the class or kind of merchandise to the United States by Hitachi Metals Limited (Hitachi) during the period of investigation, March 1, 1986 through August 31, 1986. Comparisons were based on United States price and foreign market value, which was based on home market prices. The weighted-average margins are listed in the "Continuation of Suspension of Liquidation" section of this notice.

Case History

On August 29, 1986, we received a petition filed in proper form by the Cast Iron Pipe Fittings Committee on behalf of the domestic manufacturers of pipe fittings. In compliance with the filing requirements of § 353.36 of the Commerce Regulations (19 CFR 353.36), the petition alleged that imports of the subject merchandise from Japan are being, or are likely to be, sold in the United States at less than fair value within the meaning of section 731 of the Act, and that these imports are materially injuring, or threaten material injury to, a U.S. industry.

We determined that the petition contained sufficient grounds upon which to initiate an antidumping duty investigation. We initiated such an investigation on September 18, 1986 (51 FR 34110, September 25, 1986), and notified the ITC of our action. On October 14, 1986, the ITC found that there is a reasonable indication that imports of pipe fittings from Japan are materally injuring a U.S. industry (USITC Pub. No. 1900).

On October 16, 1986, we presented an antidumping duty questionnaire to Hitachi. We requested a response in 30 days. On October 30, 1986, respondent requested an extension of the due date for the questionnaire response. We granted a two-week extension. We received a response on December 8, 1986. On December 24, 1986, the Department requested supplemental information. A supplemental response was received on January 8, 1987.

On January 15 and February 9, 1987, we requested further information from Hitachi. On February 20, 1987, supplemental responses were received from that company. On February 5, 1987, we made an affirmative preliminary determination (52 FR 4635, February 13, 1987).

As required by the Act, we afforded interested parties an opportunity to submit oral and written comments addressing the issues arising in this investigation. A public hearing was scheduled on April 3, 1987, as requested by the respondent. On March 26, 1987, respondent withdrew its request for a public hearing. Written comments on the issues arising in this investigation were submitted by both interested parties.

Scope of Investigation

The products covered by this investigation are malleable cast iron pipe fittings, advanced in condition by operations or processes subsequent to the casting process other than with grooves, or not advanced, of cast iron other than alloy cast iron, as currently provided for in items 610.7000 and 610.7400 of the *Tariff Schedules of the United States Annotated* (TSUSA).

Fair Value Comparisons

In order to determine whether sales of the subject merchandise to the United States were made at less than fair value, we compared the United States purchase price and exporter's sales price with the foreign market value, based on home market prices.

United States Price

As provided in section 772(b) of the Act, we used the purchase price of the subject merchandise to represent the United States price for certain sales since the merchandise was purchased by the unrelated U.S. customer directly from the foreign manufacturer prior to importation. As provided in section 772(c) of the Act, we used the exporter's sales price of the subject merchandise to represent the United States price when the merchandise was imported into the U.S. by a party related to the exporter and subsequently sold to unrelated purchasers in the United States.

We calculated purchase price based on the packed, c.i.f. delivered, duty paid, prices to unrelated purchasers in the United States. We made deductions, where appropriate, for foreign inland freight, ocean freight, marine insurance, brokerage, U.S. duty, and U.S. inland freight. We calculated exporter's sales price by deducting, where appropriate, foreign inland freight, ocean freight, marine insurance, Japanese brokerage, U.S. duty, U.S. brokerage, U.S. inland freight and discounts. We also made a deduction for credit expenses and other selling expenses.

Foreign Market Value

In accordance with section 773(a) of the Act, we used home market delivered prices of such or similar merchandise to determine foreign market value. Hitachi had made a small portion of sales to its related firm in Japan. We found the prices between Hitachi and its related purchaser to be "comparable" to prices to its unrelated purchasers. Accordingly, we based our calculation of foreign market value on delivered, packed, prices to all purchasers. When comparing purchase price to foreign market value, we made deductions, where appropriate, for discounts, rebates, and inland freight. We made an adjustment for differences in circumstances of sales in accordance with § 353.15 of our regulations for differences in advertising and credit expenses between the two markets. Where sales involved unrelated party commissions, indirect selling expenses were granted as an offset for the cost of the U.S. commission expenses in accordance with § 353.15(c) of the Commerce Regulations.

When comparing exporter's sales price to the home market price, we made deductions, where appropriate, for discounts, rebates, and inland freight. We also deducted advertising, credit expenses and indirect selling expenses from the home market price but limited the deduction for home market indirect selling expenses to the amount of the U.S. indirect selling expenses.

For those pipe fittings where there were no identical products in the home market with which to compare products sold to the United States, we made adjustments to similar merchandise to account for differences in the physical characteristics of the merchandise, in accordance with section 773(a)(4)(C) of the Act. These adjustments were based on differences in the costs of materials, direct labor and directly related factory overhead.

Hitachi claimed an adjustment for the cost of pre- and post-sale loading of the merchandise at the warehouse. We do not allow adjustments for pre-sale costs of loading merchandise into the warehouse as this is viewed as an indirect expense which occurs prior to sale. Accordingly, since we would only allow the post-sale loading charge from the warehouse as an adjustment, and because Hitachi was unable to separate that portion of the overall costs associated with this loading, we have not allowed this claim. Respondent has withdrawn the claim for an adjustment for other warehousing expenses.

We did not allow a claim for Hitachi's liability insurance premium expense as a circumstance of sale adjustment because the claimed costs were not directly related to sales as required by § 353.15 of the Commerce Regulations.

We deducted home market packing costs and added the packing costs incurred on sales to the United States.

Currency Conversion

For comparisons involving purchase price transactions, when calculating foreign market value, we made currency conversions from Japanese yen to U.S. dollars in accordance with § 353.15(a)(1) of our regulations. For comparisons involving exporter's sales price transactions, we used the official certified Federal Reserve exchange rate on the date of sale to the first unrelated purchaser pursuant to section 615 of the Trade and Tariff Act of 1984 (the 1984 Act). We followed section 615 of the 1984 Act rather than § 353.56(a)(2) of our regulations, as it supersedes that section of the regulations.

Verification

As provided in section 776(a) of the Act, we verified all information provided by the respondent, using standard verification procedures, including examination of accounting records and original source documents containing relevant information on selected sales.

Petitioner's Comments

Comment. The petitioner urges the Department to use the monthly average packing cost instead of the average cost for the entire investigative period. Also, since the contractor who performs packing is related to Hitachi, it is not clear whether the packing costs are derived from "arm's length transactions."

DOC Position. It is our usual practice to use the verified average packing cost for the period of investigation. We verified that the slightly higher cost for domestic packing is due to increased labor costs, since domestic cartons are larger and there is greater automation in export packing.

Comment 2. The petitioner urges the Department to correct the errors on the credit cost and discounts found during the verification before making its final determination.

DOC Position. We agree and have made these corrections.

Respondent's Comments

Comment 1. Hitachi argues that, for converting the yen to dollars in calculating exporter's sales price (ESP), the Department should use the exchange rate on the date of exportation of the merchandise. The respondent argues that the Department should follow § 353.56(a)(2) of the regulations to govern the currency conversion rather than section 615 of the 1984 Act because the Department has not changed its regulation to comply with the 1984 Act.

Moreover, Commerce cannot modify its practice without following the notice and comment requirements of the Administrative Procedure Act (APA).

DOC Position. We disagree. Section 615 of the 1984 Act has superseded 19 CFR 353.56(a)(2). Section 615 requires us to use a comparison home market price at the time of the ESP sale to an unrelated purchaser. Respondent would have us apply the exchange rate in effect on the date of export to a home market sale transaction made at a much later date. This result could not have been intended by Congress. Since the effective date of the 1984 Act, the Department has consistently followed section 615 in order to give effect to Congressional intent. In accordance with the APA, the Department has proposed an amendment to 19 CFR 353.56(a)(2) to bring it into compliance with section 615 (Proposed 353.60, 51 FR 29046, 29074, August 13, 1986).

Comment 2. Hitachi claims that the Department should apply § 353.56(b) of the Regulations, the "special rule" for temporary exchange rate fluctuation.

DOC Position. The period of investigation was characterized by a substantial depreciation of the dollar against the yen. Indeed, this trend was apparent for at least several months prior to the period of investigation. The dollar/yen exchange rate was clearly subject to a sustained change during the period of investigation. The regulation provides that respondents "will be expected to act within a reasonable period of time to take into account price differences resulting from sustained changes in prevailing exchange rates." The Department will consider lagging the exchange rates used in fair value investigations when respondents can show that they have acted within a reasonable period of time to adjust their prices in response to the change. In this case, application of the "special rule" is not warranted because the respondent failed to adjust its prices.

Because respondent has alleged that the period of investigation was characterized by temporary exchange rate fluctuations, we have also considered the second part of § 353.56(b) which provides that "no differences between the prices being compared resulting solely from such [temporary] exchange rate fluctuations will be taken into account in fair value investigations." We have determined that the margins in this investigation did not result solely from any temporary fluctuations. (We have considered temporary exchange rate fluctuations to have taken place on any day on which the exchange rate varied by five percent or more from the quarterly rate.)

Comment 3. Respondent argues that since sales are made under confirmed orders in U.S. dollars between Hitachi Metals, Ltd (HML) in Japan and its importer, Hitachi Metals International (HMI) in the United States, the only exchange rares that would be relevant would be the rates in effect on the date of order and the date of payment.

DOC Position. We disagree. Section 615 of the 1984 Act requires us to determine foreign market value by reference to the home market price at the time of the sale in the United States to the first unrelated purchaser. Since HMI is a wholly-owned subsidiary of HML, HMI is a related party to the exporter, and we must use the date of sale to the first unrelated purchaser as the date for comparison with home market sales. For the reasons explained in response to respondent's Comment 2, we used the exchange rate in effect on the date of the home market comparison sale.

Comment 4. Respondent argues that we should allow a "stock distribution discount" because the sales agreement shows this discount was verified.

DOC Position. We agree.

Comment 5. Hitachi argues that the charge for unloading merchandise at the warehouse and the charge for loading merchandise onto delivery trucks should be allowed as adjustments because they are both direct selling expenses, especially the loading charge which is a post-sale expense included in the delivered price charged to customers.

DOC Position. We disagree. The unloading charge is not a direct selling expense, since it is incurred whether the sale is made or not. We cannot grant an adjustment for the loading expense because respondent's submission combined unloading and loading charges, and we have no way to identify the amount attributable to loading charges.

Continuation of Suspension of Liquidation

We are directing the U.S. Customs Service to continue to suspend liquidation of all entries of pipe fittings from Japan that are entered, or withdrawn from warehouse, for consumption, on or after the date of publication of this notice in the Federal Register, in accordance with section 733(d) of the Act. The United States Customs Service shall require a cash deposit or the posting of a bond on all

such entries equal to the estimated weighted-average amount by which the foreign market value of the merchandise subject to this investigation exceeds the United States price. The suspension of liquidation will remain in effect until further notice. The margins are as follows:

Manufacturer/seller/exporter	Weighted-average margins (percentage)
Hitachi	57.39
All Others	57.39

ITC Notification

In accordance with section 735(d) of the Act, we have notified the ITC of our determination. In addition, we are making available to the ITC all nonprivileged and nonproprietary information relating to this investigation. We will allow the ITC access to all privileged and business proprietary information in our files, provided the ITC confirms in writing that it will not disclose such information either publicly or under an administrative protective order without the written consent of the Deputy Assistant Secretary for Import Administration. The ITC will determine whether these imports materially injure, or threaten material injury to, a U.S. industry within 45 days of the publication of this notice. If the ITC determines that material injury or threat of material injury does not exist, this proceeding will be terminated and all securities posted as a result of the suspension of liquidation will be refunded or cancelled. However, if the ITC determines that such injury does exist, we will issue an antidumping duty order directing Customs officers to assess an antidumping duty on pipe fittings from Japan entered, or withdrawn from warehouse, for consumption on or after the suspension or liquidation, equal to the amount by which the foreign market value exceeds the United States price.

This determination is being published pursuant to section 735(d) of the Act (19 U.S.C. 1673d(d)).

Lee W. Mercer,

Acting Assistant Secretary for Trade Administration.

BILLING CODE 3510-DS-M

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Establishment of Import Limits for Certain Cotton, Wool, Man-Made Fiber and Other Vegetable Fiber Textiles and Textile Products From Jamaica

April 21, 1987.

The Chairman of the Committee for the Implementation of Textile Agreements (CITA), under the authority contained in E.O. 11651 of March 3, 1972, as amended, has issued the directive published below to the Commissioner of Customs to be effective on April 28, 1987. For further information contact Janet Heinzen, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202)377-4212. For information on the quota status of these limits, please refer to the Quota Status Reports which are posted on the bulletin boards of each Customs port. For information on embargoes and quota re-openings, please call (202) 377-3715.

Background

During recent consultations between the Governments of the United States and Jamaica, under the terms of the Bilateral Cotton, Wool, Man-Made Fiber, Silk Blend and Other Vegetable Fiber Textile Agreement of August 27, 1986, as amended, agreement was reached to further amend the bilateral textile agreement to establish specific limits for cotton, wool, man-made fiber and other vegetable fiber textiles and textile products in Categories 341/641, 345/845 and 445/446, produced or manufactured in Jamaica and exported during the twelve-month period which began on January 1, 1987 and extends through December 31, 1987. Charges will be made to these limits as they become available. In addition, designated consultation levels were established for cotton and man-made fiber textile products in Categories 352/652 and 632, produced or manufactured in Jamaica and exported during the seven-month period which begins on June 1, 1987 and extends through December 31, 1987.

Accordingly, in the letter published below the Chairman of the Committee for the Implementation of Textile Agreements directs the Commissioner of Customs to control imports of cotton, wool, man-made fiber and other vegetable fiber textiles and textile products in Categories 341/641, 345/845, 352/652, 445/446 and 632 at the designated levels.

A description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on December 13, 1982 (47 FR 55709), as amended on April 7, 1983 (48 FR 15175), May 3, 1983 (48 FR 19924), December 14, 1983, (48 FR 55607), December 30, 1983 (48 FR 57584), April 4, 1984 (49 FR 13397), June 28, 1984 (49 FR 26622), July 16, 1984 (49 FR 28754), November 9, 1984 (49 FR 44782), July 14, 1986 (51 FR 25386), July 29, 1986 (51 FR 27068) and in Statistical Headnote 5, Schedule 3 of the Tariff Schedules of the United States Annotated (1987).

This letter and the actions taken pursuant to it are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist only in the implementation of certain of its provisions.

Donald R. Foote,

Acting Chairman, Committee for the Implementation of Textile Agreements.

April 21, 1987.

Committee for the Implementation of Textile Agreements

Commissioner of Customs,
Department of the Treasury, Washington, DC 20229

Dear Mr. Commissioner: Under the terms of section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854), and the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as further extended on July 31, 1986; pursuant to the Bilateral Cotton, Wool, Man-Made Fiber, Silk Blend and Other Vegetable Fiber Textile Agreement of August 27, 1986, as amended, between the Governments of the United States and Jamaica; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended, you are directed to prohibit, effective on April 28, 1987, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton, wool, man-made fiber and other vegetable fiber textiles and textile products in Categories 341/641, 345/845, 352/652, 445/446 and 632, produced or manufactured in Jamaica and exported during the indicated periods, in excess of the following restraint limits:

Category	12-mo restraint limit[1] Jan. 1—Dec. 31, 1987
341/641	385,000 doz.
345/845	95,000 doz.
445/446	47,000 doz.

[1] The limits have not been adjusted to account for any imports exported after December 31, 1986.

Category	7-mo restraint limit, June 1—Dec. 31, 1987
352/652	58,333 doz.
632	58,333 doz. pairs.

Textile products in the foregoing categories which have been exported to the United States. prior to January 1, 1987, in the case of Categories 341/641, 345/845 and 445/446; and June 1, 1987, in the case of Categories 352/652 and 632 shall not be subject to this directive.

Textile products in the foregoing categories which have been released from the custody of the U.S. Customs Service under the provisions of 19 U.S.C. 1448(b) or 1484(a)(1)(A) prior to the effective date of this directive shall not be denied entry under this directive.

A description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on December 13, 1982 (47 FR 55709), as amended on April 7, 1983 (48 FR 15175), May 3, 1983 (48 FR 19924), December 14, 1983, (48 FR 55607), December 30, 1983 (48 FR 57584), April 4, 1984 (49 FR 13397), June 28, 1984 (49 FR 26622), July 16, 1984 (49 FR 28754), November 9, 1984 (49 FR 44782), July 14, 1986 (51 FR 25386), July 29, 1986 (51 FR 27068) and in Statistical Headnote 5, Schedule 3 of the Tariff Schedules of the United States Annotated (1987).

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553.

Sincerely,

Donald R. Foote,

Acting Chairman, Committee for the Implementation of Textile Agreements.

DEPARTMENT OF ENERGY

Economic Regulatory Administration

[ERA Docket No. 87-04-NG]

Order Granting Blanket Authorization To Import Natural Gas From Canada; Home Oil Resources Ltd.

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Notice of order granting blanket authorization to import natural gas from Canada.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) gives notice that it has issued an order granting Home Oil Resources Ltd. (Home Oil) blanket authorization to import natural gas from Canada. The order issued in ERA Docket No. 87-04-NG authorizes Home Oil to import up to a maximum quantity of 73 Bcf over a two-year period for sale in the domestic spot market.

A copy of this order is available for inspection and copying in the Natural Gas Division Docket Room, GA-076, Forrestal Building, 1000 Independence Avenue SW., Washington, DC, 20585, (202) 586-9478. The docket room is open between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays.

Issued in Washington, DC, April 17, 1987.

BILLING CODE 6450-01-M

[Docket No. ERA-C&E-87-23; OFP Case No. 55118-9352-03-12]

Order Granting an Exemption Pursuant to the Powerplant and Industrial Fuel Use Act of 1978 to General Electric Co.

AGENCY: Economic Regulatory Administration, DOE.

ACTION: Order granting exemption.

SUMMARY: On December 23, 1986, General Electric Company (GE or petitioner), filed a petition with the Economic Regulatory Administration (ERA) of the Department of Energy (DOE) requesting a permanent exemption from the provisions of the Powerplant and Industrial Fuel Use Act of 1978 ("FUA" or "the Act") (42 U.S.C. 8301 *et seq.*) for its proposed new boiler house No. II, boiler #3 at its plant located in Mt. Vernon, Indiana. Title II of the Act prohibits the use of petroleum or natural gas as a primary energy source in a new major fuel burning installation or powerplant and prohibits the construction of a new powerplant without the capability to use an alternate fuel as a primary energy source. The exemption petition was based on lack of an alternate fuel supply at a cost which does not substantially exceed the cost of using imported petroleum. The final rule containing the criteria and procedures for petitioning for exemptions from the prohibitions of Title II of FUA are found in 10 CFR Parts 500, 501 and 503. Final rules setting forth criteria and procedures for petitioning for this type exemption are found in 10 CFR 503.32.

Pursuant to section 212(g) of the Act and 10 CFR 503.32, ERA hereby issues this order granting a permanent exemption from the prohibitions of FUA for the proposed MFBI at the aforementioned installation.

The basis for ERA's order is provided in the **SUPPLEMENTARY INFORMATION** section below.

DATES: In accordance with section 702(a) of FUA, this order and its provisions shall take effect on June 26, 1987.

FOR FURTHER INFORMATION CONTACT:

Frank Duchaine, Coal and Electricity Division, Office of Fuels Programs, Economic Regulatory Administration, 1000 Independence Avenue, SW., Room GA-093, Washington, DC. 20585, Telephone (202) 586-8233

Steven E. Ferguson, Esq., Office of General Counsel, Department of Energy, 1000 Independence Avenue SW., Room 6A-113, Washington, DC 20585, Telephone (202) 586-6947.

The public file containing a copy of this order and other documents and supporting materials on this proceeding is available upon request from DOE, Freedom of Information Reading Room, 1000 Independence Avenue SW., Room 1E-190, Washington, DC 20585, Monday through Friday, 9:00 a.m. to 4:00 p.m., except Federal holidays.

SUPPLEMENTARY INFORMATION: FUA prohibits the use of natural gas or petroleum in certain new MFBIs unless an exemption for such use has been granted by ERA. The petitioner has filed a petition for a permanent exemption to use natural gas or oil as a primary energy source in its facility located in Mt. Vernon, Indiana.

NEPA Compliance

After review of the petitioner's environmental impact analysis, together with other relevant information, ERA has determined that the granting of the requested exemption does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of section 102(2)(C) of the National Environmental Policy Act (NEPA).

Procedural Requirements

In accordance with the procedural requirements of FUA and 10 CFR 501.3(d), ERA published its Notice of Acceptance of Petition for Exemption and Availability of Certification relating to this petition in the **Federal Register** on February 3, 1987 (51 FR 3331), commencing a 45-day public comment period pursuant to section 701(c) of FUA.

Copies of the petition were provided to the Environmental Protection Agency as required by section 701(f). During the comment period, interested persons were afforded an opportunity to request a public hearing. The comment period closed on March 20, 1987; no comments were received and no hearing was requested.

Order Granting Permanent Exemption

Based upon the entire record of this proceeding, ERA has determined that the petitioner has satisfied all of the eligibility requirements for the requested exemption as set forth in 10 CFR 503.32, and pursuant to section 212(g) of FUA, ERA hereby grants the petitioner's permanent exemption for the MFBI to be installed at its facility in Mt. Vernon, Indiana permitting the use of natural gas or oil as a primary energy source in the unit.

Pursuant to section 702(c) of the Act and 10 CFR 501.69 any person aggrieved by this order may petition for judicial review at any time before the 60th day following the publication of this order in the **Federal Register.**

Issued in Washington, DC on April 16, 1987.

Director, Office of Fuels Programs, Economic Regulatory Administration.

BILLING CODE 6450-01-M

[Docket No. ERA C&E-87-49; OFP Case No. 64016-9361-20-24]

Powerplant and Industrial Fuel Use; Acceptance of Petition for Exemption and Availability of Certification by Live Oak Cogen, Inc.

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Notice of acceptance.

SUMMARY: On March 16, 1987, Live Oak Cogen, Inc, (Live Oak or petitioner) filed a petition with the Economic Regulatory Administration (ERA) of the Department of Energy (DOE) requesting a permanent exemption from the provisions of the Powerplant and Industrial Fuel Use Act of 1978 ("FUA" or "the Act") (42 U.S.C. 8301 *et seq.*) for one gas-fired combined cycle powerplant to be located in Kern County, California.

Title II of the Act prohibits the use of petroleum or natural gas as a primary energy source in a new powerplant and prohibits the construction of any such facility without the capability to use an alternate fuel as a primary energy source. The exemption petition was based on cogeneration. Final rules containing the criteria and procedures for petitioning for exemptions from the prohibitions of Title II of FUA are found in 10 CFR Parts 500, 501, and 503. Final rules setting forth criteria and procedures were revised on June 25, 1982 (47 FR 29209, July 6, 1982), and are found at 10 CFR 503.37.

ERA has determined that the petition appears to include sufficient evidence to support an ERA determination on the exemption request and it is therefore accepted pursuant to 10 CFR 501.3. A review of the petition is provided in the **SUPPLEMENTARY INFORMATION** section below.

As provided for in sections 701(c) and (d) of FUA and 10 CFR 501.31 and 501.33, interested persons are invited to submit written comments in regard to this petition and any interested person may submit a written request that ERA convene a public hearing.

The public file containing a copy of this Notice of Acceptance and availability of Certification as well as other documents and supporting materials on this proceeding is available upon request through DOE, Freedom of Information Reading Room, 1000 Independence Avenue SW., Room 1E-190, Washington DC, 20585, from 9:00 a.m. to 4:00 p.m., Monday through Friday, except Federal holidays.

ERA will issue a final order granting or denying the petition for exemption from the prohibitions of the Act within six months after the end of the period for public comment and hearing, unless ERA extends such period. Notice of any such extension, together with a statement of reasons therefor, would be published in the **Federal Register.**

DATES: Written comments are due on or before June 11, 1987. A request for a public hearing must be made within this same 45-day period.

ADDRESSES: Fifteen copies of written comments or a request for a public hearing shall be submitted to: Case Control Unit, Office of Fuels Programs, Room GA-093, Forrestal Building, 1000 Independence Ave. SW., Washington, DC 20585.

Docket No. ERA C&E-87-49 should be printed on the outside of the envelope and the document contained therein.

FOR FURTHER INFORMATION CONTACT:

Ellen Russell, Coal of Electricity Division, Office of Fuels Programs, Economic Regulatory Administration, 1000 Independence Avenue SW., Room GA-093, Washington, DC 20585. Telephone (202) 586-9624

Washington, DC 20585. Telephone (202) 586–6947

SUPPLEMENTARY INFORMATION: The proposed 45 megawatt unit is a gas-fired combined cycle unit consisting of a gas turbine and a waste heat recovery boiler. All of the electricity will be sold to Pacific Gas and Electric and the steam will be used in an enhanced oil recovery operation.

Section 212(c) of the Act and 10 CFR 503.37 provides for a permanent cogeneration exemption from the prohibitions of Title II of FUA. In accordance with the requirements of § 503.37(a)(1), the petitioner has certified to ERA that:

1. The oil or gas to be consumed by the cogeneration facility will be less than that which would otherwise be consumed in the absence of the proposed powerplant, where the calculation of savings is in accordance with 10 CFR 503.35(b); and

2. The use of a mixture of petroleum or natural gas and an alternate fuel in the cogeneration facility, for which an exemption under 10 CFR 503.38 would be available, would not be economically or technically feasible.

On May 22, 1986, DOE published in the **Federal Register** (51 FR 18866) a notice of the amendment to its guidelines for compliance with the National Environmental Policy Act of 1969 (NEPA). Pursuant to the amended guidelines, the grant or denial of a permanent cogeneration exemption from FUA is among the classes of actions that DOE has categorically excluded from the requirement to prepare an Environmental Impact Statement or an Environmental Assessment pursuant to NEPA (categorical exclusion).

This classification raises a rebuttable presumption that the grant or denial of the exemption will not significantly affect the quality of the human environment. The petitioner has certified that it will secure all applicable permits and approvals prior to commencement of operation of the new unit under exemption.

DOE's Office of Environment, in consultation with the Office of General Counsel, will review the completed environmental checklist submitted by the petitioner pursuant to 10 CFR 503.13, together with other relevant information. Unless it appears during the proceeding on the petitioner's petition that the grant or denial of exemption will significantly affect the quality of the human environment, it is expected that no additional environmental review will be required.

The acceptance of the petition by ERA does not constitute a determination that the petitioner is entitled to the exemption requested. That determination will be based on the entire record of this proceeding, including any comments received during the public comment period provided for in this notice.

[Docket No. ERA C&E–87–46; OFP Case No. 66024–9363–20–24]

Powerplant and Industrial Fuel Use; Acceptance of Petition for Exemption and Availability of Certification by Peter J. Pitchess Honor Rancho

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Notice of acceptance.

SUMMARY: On March 23, 1987, Peter J. Pitchess Honor Rancho (Peter J. Pitchess or petitioner) filed a petition with the Economic Regulatory Administration (ERA) of the Department of Energy (DOE) requesting a permanent exemption from the provisions of the Powerplant and Industrial Fuel Use Act of 1978 ("FUA" or "the Act") (42 U.S.C. 8301 *et seq.*) for a combined-cycle, natural gas fired cogeneration plant to be located in Saugus, California. Title II of the Act prohibits the use of petroleum or natural gas as a primary energy source in a new powerplant and prohibits the construction of any such facility without the capability to use an alternate fuel as a primary energy source. The exemption petition was based on cogeneration. Final rules containing the criteria and procedures for petitioning for exemptions from the prohibitions of Title II of FUA are found in 10 CFR Parts 500, 501, and 503. Final rules setting forth criteria and procedures were revised on June 25, 1982 (47 FR 29209, July 6, 1982), and are found at 10 CFR 503.37.

ERA has determined that the petition appears to include sufficient evidence to support an ERA determination on the exemption request and it is therefore accepted pursuant to 10 CFR 501.3. A review of the petition is provided in the **SUPPLEMENTARY INFORMATION** section below.

As provided for in sections 701 (c) and (d) of FUA and 10 CFR 501.31 and 501.33, interested persons are invited to submit written comments in regard to this petition and any interested person may submit a written request that ERA convene a public hearing.

The public file containing a copy of this Notice of Acceptance and Availability of Certification as well as other documents and supporting materials on this proceeding is available upon request through DOE, Freedom of Information Reading Room, 1000 Independence Avenue SW., Room 1E–190, Washington, DC 20585, from 9:00 a.m. to 4:00 p.m., Monday through Friday, except Federal holidays.

ERA will issue a final order granting or denying the petition for exemption from the prohibitions of the Act within six months after the end of the period for public comment and hearing, unless ERA extends such period. Notice of any such extension, together with a statement of reasons therefor, would be published in the **Federal Register.**

DATES: Written comments are due on or before June 11, 1987. A request for a public hearing must be made within this same 45-day period.

ADDRESSES: Fifteen copies of written comments or a request for a public hearing shall be submitted to: Case Control Unit, Office of Fuels Programs, Room GA–093, Forrestal Building, 1000 Independence Avenue SW., Washington, DC 20585.

Docket No. ERA C&E–87–46 should be printed on the outside of the envelope and the document contained therein.

FOR FURTHER INFORMATION CONTACT:

Myra Couch, Coal & Electricity Division, Office of Fuels Programs, Economic Regulatory Administration, 1000 Independence Avenue SW., Room GA–093, Washington, DC 20585, Telephone (202) 586–6769.

Steven E. Ferguson, Esq., Office of General Counsel, Department of Energy, Forrestal Building, Room 6A–113, 1000 Independence Avenue SW., Washington, DC 20585, Telephone (202) 586–6947.

SUPPLEMENTARY INFORMATION: The cogeneration equipment includes a gas turbine, a heat recovery generator and a steam turbine. The unit will have an electrical generating capacity of 25 MWs. The steam produced will be used in the institution to serve the laundry, air conditioning, hot water and produce electricity. More than 50% of electricity produced will be sold to Southern California Edison Company.

Section 212(c) of the Act and 10 CFR 503.37 provide for a permanent cogeneration exemption from the prohibitions of Title II of FUA. In accordance with the requirements of § 503.37(a)(1), the petitioner has certified to ERA that:

1. The oil or gas to be consumed by the cogeneration facility will be less than that which would otherwise be consumed in the absence of the proposed powerplant, where the calculation of savings is in accordance with 10 CFR 503.37(b); and

2. The use of a mixture of petroleum or natural gas and an alternate fuel in the cogeneration facility, for which an exemption under 10 CFR 503.38 would be available, would not be economically or technically feasible.

On May 22, 1986, DOE published in the **Federal Register** (51 FR 18866) a notice of the amendment to its guidelines for compliance with the National Environmental Policy Act of 1969 (NEPA). Pursuant to the amended guidelines, the grant or denial of a cogeneration FUA permanent exemption, is among the classes of actions that DOE has categorically excluded from the requirement to prepare an Environmental Impact Statement or an Environmental Assessment pursuant to NEPA (categorical exclusion).

This classification raises a rebuttable presumption that the grant or denial of the exemption will not significantly affect the quality of the human environment. The petitioner has certified that it will secure all applicable permits and approvals prior to commencement of operation of the new unit under exemption.

DOE's Office of Environment, in consultation with the Office of General Counsel, will review the completed environmental checklist submitted by the petitioner pursuant to 10 CFR 503.13, together with other relevant information. Unless it appears during the proceeding on the petitioner's petition that the grant or denial of exemption will significantly affect the quality of the human environment, it is expected that no additional environmental review will be required.

The acceptance of the petition by ERA does not constitute a determination that the petitioner is entitled to the exemption requested. That determination will be based on the entire record of this proceeding, including any comments received during the public comment period provided for in this notice.

Issued in Washington, DC on April 16, 1987.

Energy Research Advisory Board; Open Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770), notice is hereby given of the following meeting:

Name: Energy Research Advisory Board (ERAB).

Date and Time: May 13, 1987—8:30 a.m.–5:30 p.m., May 14, 1987—9:00 a.m.–12:00 Noon.

Place: Department of Energy, 1000 Independence Avenue, SW., Room 8E-089, Washington, DC 20585.

Contact: John E. Metzler, Department of Energy, Office of Energy Research, ER-6, 1000 Independence Avenue, SW., Washington, DC 20585, Telephone: 202/586-5444.

Purpose of the Board: To advise the Department of Energy (DOE) on the overall research and development conducted in DOE and to provide long-range guidance in these areas to the Department.

Tentative Agenda: The specific agenda items and times are subject to last minute changes. Visitors planning to attend for a specific topic should confirm the time prior to and during the day of the meeting.

Tentative Agenda

May 13, 1986

8:30 a.m.—Discussion of the Energy Security Report to the President
9:30 a.m.—Business Items
—Approval of February Meeting Minutes
—Schedule of ERAB Meetings for 1988
—Follow-up to Recent ERAB Reports
10:00 a.m.—Break
10:30 a.m.—Status of ERAB Study on R&D Initiatives for Energy Competitiveness
12:00 Noon—Lunch
1:00 p.m.—Discussions with Representatives from U.S. Industry, such as the Gas Research Institute and the Electric Power Research Institute on Energy R&D and U.S. Competitiveness
3:30 p.m.—Break
4:00 p.m.—Continuation of Discussions on Energy R&D and U.S. Competitiveness
5:20 p.m.—Public Comment (10 minute rule)

[Project No. 8464-001]

Shawano Hydro Associates; Surrender of Preliminary Permit

April 20, 1987.

Take notice that Shawano Hydro Associates, permittee for the proposed Hayman Falls Project No. 8464, has requested that its preliminary permit be terminated. The preliminary permit was issued on October 31, 1985, and would have expired on September 30, 1988. The project would have been located on Embarrass River in Shawano County, Wisconsin. The permittee states that the project would not be economically feasible to develop at this time.

The permittee filed the request on April 7, 1987, and the preliminary permit for Project No. 8464 shall remain in effect through the thirtieth day after issuance of this notice unless that day is a Saturday, Sunday, or holiday as described in 18 CFR 385.2007, in which case the permit shall remain in effect through the first business day following that day. New applications involving this project site, to the extent provided for under 18 CFR Part 4, may be filed on the next business day.

[Docket Nos. CI87-401-000 and CI87-416-000]

Consolidated Gas Transmission Corp.; Applications on Behalf of Producer-Suppliers

April 20, 1987.

Take notice that on March 30, 1987, Consolidated Gas Transmission Corporation (Consolidated), 445 West Main Street, Clarksburg, West Virginia 26301, filed applications pursuant to section 7 of the Natural Gas Act, as amended, (NGA) and the Commission's Rules and Regulations thereunder, on behalf of its producer-suppliers currently selling natural gas that is subject to the Commission's jurisdiction under the NGA, for an order (1) authorizing in Docket No. CI87-416-000 the limited-term abandonment, on a blanket basis, of sales of such gas to Consolidated, to the extent such gas is released, and (2) issuing in Docket No. CI87-401-000 a blanket certificate of public convenience and necessity authorizing the sale for resale of such gas in interstate commerce with pregranted abandonment. Consolidated requests such authorization for the period of May 1, 1987, through February 28, 1989. The applications also request, on behalf of Consolidated's producer-suppliers, that the abandonment and certificate authorizations be considered on an expedited basis in accordance with § 2.77 of the Commission's Regulations, all as more fully set forth in the applications which are on file with the Commission and open to public inspection.

Consolidated states that all jurisdictional gas purchased from its producer-suppliers in West Virginia, Pennsylvania, New York, Virginia, Louisiana, and the Gulf of Mexico is eligible for this program, and that the participation of any producer is strictly voluntary. According to Consolidated, the specific terms of any release will be agreed upon by it and each participating producer-supplier.

The applications state that, as a general rule, Consolidated will require that the weighted average cost of the gas released from any one producer be no less than the arithmetical average of the commodity rates available from Consolidated's three pipeline suppliers. The applications also state that Consolidated anticipates that most releases will be for three to six-month periods that correspond to the shut-in period for such gas. The applications also state that producers are free to negotiate for other terms and conditions and that Consolidated will consider any release proposal in good faith on a case-by-case basis. Consolidated's application further states that the program will be administered on a non-discriminatory basis.

According to Consolidated, the requested abandonment and certificate authorizations are eligible for consideration on an expedited basis because most of Consolidated's producers are, by contract, subject to shut-ins without payment. The applications state that Consolidated is currently experiencing surplus deliverability and will shut-in gas where contractually permitted. Consolidated therefore requests that the Commission follow the procedures for expedited consideration set forth in § 2.77(b) of the Commission's Regulations.

Consistent with the Commission's orders in *ANR Pipeline Company, et al.*[1] and *Pennzoil Producing Company,*[2] Consolidated states it will file quarterly reports specifying for all gas released:

(1) The FERC gas rate schedule for the applicable current sale to Consolidated, where applicable;

(2) The corresponding producing field(s) for any released gas in Louisiana and the Gulf of Mexico, and the corresponding state for any released gas in the Appalachian Basin;

(3) The NGPA category of such gas released by Consolidated;

(4) The contract price to Consolidated of such released gas ($/MMBtu);

(5) The volumes, by NGPA category, of gas released by Consolidated; and

(6) The amount of take-or-pay relief, if applicable, credited to Consolidated for each release, by NGPA price category.

Consolidated requests that the Commission obtain directly from the producers involved any desired information regarding the name of any new purchasers; the volume, by NGPA price category, of gas sold to each such new purchaser (MMBtu); and the price paid by each new purchaser for all such volumes, including a weighted average of all such prices. Because the collection and possession of such information could conceivably give rise to antitrust claims in some circumstances or allegations of improper use of sensitive information, Consolidated states that it prefers not to gather such data. Rather, Consolidated will condition its releases upon its producers supplying such information to the Commission on a quarterly basis.

Consolidated states it seeks no transportation authority by its applications. Consolidated anticipates that any transportation of released volumes will be performed under a blanket certificate issued on February 13, 1987, in Docket No. CP86-311-000, pursuant to § 284.221 of the Commission's Regulations or by individual certificate authorization in accordance with section 7(c) of the NGA.

Consoldiated states it is currently experiencing excess deliverability, and that the authorizations requested herein would provide an interim solution to this problem by permitting producers to market this surplus gas elsewhere. The blanket abandonment and sales authorizations would also assist Consolidated in negotiations with producers. In exchange for contract concessions such as price relief, Consolidated states it could agree to temporarily release surplus volumes and allow the producer-suppliers to seek alternative markets, particularly during shut-in periods. Furthermore, Consolidated states that its customers would be protected because the proposed release is temporary, and the reserves would remain dedicated to Consolidated for the long term. Consolidated's customers would also realize the benefit of having access to these released supplies. For these reasons, Consolidated submits that the instant proposals are required by the present and future public convenience and necessity. Finally, Consolidated requests that the Commission waive, to the extent necessary, its General Rules and Regulations applicable to this filing

[1] 38 FERC ¶61,046 (1987).

[2] 34 FERC ¶61,318 (1986).

in order to grant promptly the authorization and relief requested.

The circumstances presented in the applications meet the criteria for consideration on an expedited basis, pursuant to § 2.77 of the Commission's rules as promulgated by Order No. 436 and 436–A, issued October 9, and December 12, 1985, respectively, in Docket No. RM85–1–000, all as more fully described in the applications which are on file with the Commission and open to public inspection.

Accordingly, any person desiring to be heard or to make any protest with reference to said applications should on or before 15 days after the date of publication of this notice in the **Federal Register**, file with the Federal Energy Regulatory Commission, Washington, DC 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to the proceeding herein must file a petition to intervene in accordance with the Commission's Rules.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or to be represented at the hearing.

Acting Secretary.

BILLING CODE 6717–01–M

[Docket No. FA84–46–001]

Iowa-Illinois Gas and Electric Co.; Order Approving Uncontested Settlement

Issued April 24, 1987.

Before Commissioners: Martha O. Hesse, Chairman; Anthony G. Sousa, Charles G. Stalon, Charles A. Trabandt and C. M. Naeve.

On October 23, 1986, the Iowa-Illinois Gas and Electric Company (Iowa-Illinois) filed an uncontested offer of settlement that woudl resolve a contested accounting matter. At issue is Iowa-Illinois' collection of estimated spent nuclear fuel disposal costs (SNFDC) through its fuel adjustment clause (FAC) without prior Commission approval.[1] On November 3, 1986, staff submitted comments in support of the offer of settlement. On Nobember 24, 1986, the presiding Administrative Law Judge certified the uncontested offer of settlement to the Commission.

Discussion

The proposed settlement agreement provides that Iowa-Illinois is not required to make refunds of the improperly collected amounts. The provisions of the settlement were evaluated on the basis of a four-part test designed to ensure that the company is not unjustly enriched by the improper collection. Under that test, Iowa-Illinois:

(1) Expressly conceded the impropriety of its collection of estimated SNFDC without specific prior Commission authorization in the form of a waiver of the FAC regulations;

(2) Demonstrated that it did not double-recover SNFDC by including the amounts in its base rates as well as in its FAC;

(3) Refunded to its customers its overcollection of SNFDC amounts owed to the Department of Energy (DOE) for fuel burned before April 7, 1983; and

(4) Demonstrated that it has reduced its rate base for computing rates paid by its wholesale customers for any time in which it held SNFDC collected before payment to DOE.

The Commission finds that the proposed offer of settlement represents a reasonable resolution of the issues and is in the public interest. Accordingly, we shall accept and approve the settlement agreement.

Our action is without prejudice to any findings or orders that have been made or may hereafter be made by the Commission, and is without prejudice to any contention that may be made by the Commission, its staff, or any other party or person affected by this order in proceedings now pending or hereinafter instituted by or against Iowa-Illinois or any other person or party. Our approval of this settlement does not constitute approval of, or precedent regarding, any principle or issue in this proceeding.

We are aware that there may be other instances in which utilities have, without prior Commission approval,[2] included SNFDC in wholesale FAC computations.[3] Therefore, we take this opportunity to provide guidance to utilities, their customers, and our staff concerning how these other cases may be satisfactorily resolved without the need to resort to extensive and costly litigation.

The Commission has determined that the application of the four-part test discussed above should in most cases result in a just and reasonable resolution of this issue. A utility that has included SNFDC in its wholesale FAC calculations without prior Commission approval should advise the Commission of this fact within 60 days of the date of issuance of this order. The utility may propose a settlement of this issue demonstrating that the utility satisfies the four-part test. We will notice the filing. If there is no opposition from the utility's affected customers, the Commission will consider the utility's filing to be an uncontested settlement and will approve it if we find that the four-part test is met and that the settlement is no otherwise contrary to the public interest.[4]

This procedure is not intended to foreclose arguments by the utility's customers that the utility has not satisfied the four-part test or that application of the four-part test in the particular circumstances presented would not result in a just and reasonable resolution of the SNFDC issue. If objections are raised, the Commission will dispose of the SNFDC issue pursuant to the procedures set forth in Part 41 of the Commission's regulations. 18 CFR Part 41 (1986).

Further, the suggested procedure should not be interpreted as a change in the Commission's intention to insure compliance with our FAC regulations. The procedure will be limited strictly to SNFDC for permanent storage under the Nuclear Waste Policy Act of 1982. In general, any utility that has collected SNFDC through its FAC without prior approval and that does not propose a settlement within 60 days will be required to make refunds of the improperly collected SNFDC.

The Commission orders:

(A) The uncontested settlement in this docket is hereby approved.

(B) Docket No. FA84–46–001 is hereby terminated.

---

[1] Iowa-Illinois Gas & Electric Company, 35 FERC ¶ 61,185 (1986).

[2] Commission approval would be in the form of an explict and specific statement by the Commission authorizing the billing of SNFDC in the FAC clause.

[3] The Iowa Electric Light and Power Company and the Bangor Hydro-Electric Company have submitted settlement agreements similar to that submitted by Iowa-Illinois. Orders will be issued concerning these proposals.

[4] This does not preclude our consideration of settlements that are based terms other than meeting the four-part test. We are simply informing utilities that if they demonstrate that the four-part test is met and their customers do not object, we shall approve the settlement, absent a showing the settlement is otherwise contrary to the public interest.

(C) The Secretary shall publish a copy of this order in the **Federal Register.**

By the Commission.

Acting Secretary.

BILLING CODE 6717-01-M

[Docket No. CP87-287-000]

Mid Louisiana Gas Co.; Request Under Blanket Authorization

April 15, 1987.

Take notice that on April 14, 1987, Mid Louisiana Gas Company (Mid-La), P.O. Box 2511, Houston, Texas 77252, filed in Docket No. CP87-287-000 a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authority to transport natural gas for the Manville Sales Corporation (Manville), under Mid-La's blanket certificate issued in Docket No. CP86-214-000 pursuant to section 7 of the NGA, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Mid-La proposes to transport up to 5,000 MMBtu of natural gas per day for Manville on an interruptible basis. The gas would be transported from the tailgate of the Celeron Gas Processing Plant located in Irene Field, East Baton Rouge Parish, Louisiana, to an existing interconnection between Mid-La's and Manville's facilities in Natche, Adams County, Mississippi. Mid-La stated it would charge Manville a transportation rate of 16.58 cents per Mcf as currently found in Mid-La's Rate Schedule T-1 of its FERC Gas Tariff less 3 percent of the gas received for transportation for use by Mid-La. The transportation service is for a term of one year commencing on the date of initial deliveries and continuing year to year therefter. Mid-La commenced the transportation service on January 1, 1987, pursuant to § 284.223(a)(1) of the Commission's Regulations, on a self-implementing basis for a 120-day period that will expire April 30, 1987.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's procedural rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the Natural Gas Act.

Secretary.

[Docket No. IN87-1-000]

Pioneer Production Corp.; Order Initiating Show Cause Proceeding

Issued: April 22, 1987.

Before Commissioners: Martha O. Hesse, Chairman; Anthony G. Sousa, Charles G. Stalon, Charles A. Trabandt and C.M. Naeve.

I

During a Commission staff audit in 1980, information became available which indicated that Pioneer Production Corporation (Pioneer) may have engaged in acts and transactions which constitute violations of the Natural Gas Act, 15 U.S.C. 717 *et seq.* (NGA), and the Commission regulations thereunder. Because of the nature of this information, the Enforcement section of the Office of the General Counsel has conducted an investigation of these acts and transactions pursuant to section 1b.6 of the Commission's Rules Relating to Investigations, 18 CFR Part 1b, § 1b.6, and pursuant to the Commission's November 17, 1983, Order Instituting Formal Private investigation.

II

As a result of the investigation, the following information has been reported to the Commission:

1. Pan American Production Company (Pan American), a predecessor-in-interest to Amoco Production Company (Amoco), executed a contract dated October 7, 1968, to sell "gas well gas" in interstate commerce to United Gas Pipe Line Company (United), from acreage in Jefferson Davis Parish, Louisiana (the Amoco/United Contract).

2. The Amoco/United Contract defined "gas well gas" to include, among other things, "gas produced in its natural state from a well which, if classified under the laws and rulings of the regulatory body having jurisdiction of production allowables of the state in which such well is located, is not classified an oil well. . . ."

3. On February 14, 1969, pursuant to section 7(c) of the NGA, the Federal Power Commission, the predecessor of the Federal Energy Regulatory Commission (both of which are hereinafter referred to as "Commission"), issued a certificate of public convenience and necessity in Docket No. CI69-491 covering the sale of gas by Amoco to United pursuant to the Amoco/United Contract. That certificate became effective on March 10, 1969.

4. In March 1969, Pan American commenced deliveries to United of gas produced from the South Jennings Field pursuant to the Amoco/United Contract.

5. Effective February 1, 1971, Pan American reorganized and changed its name to Amoco Production Company.

6. Amoco, by lease dated August 10, 1973, granted certain oil and gas rights in a portion of the acreage located in the Jefferson Davis Parish and covered by the Amoco/United Contract to D. D. Harrington (the Harrington Acreage).

7. D. D. Harrington assigned part of his interest in the Harrington Acreage to Pioneer in 1973.

8. In 1974 the acreage containing the Harrington Acreage was named "the Jennings Townsite Field."

9. Pioneer executed a contract dated April 1, 1974, to sell in intrastate commerce to Continental Oil Company, a predecessor-in-interest to Conoco Inc. (both of which are hereinafter referred to as "Conoco"), gas produced from certain acreage in the Jennings Townsite Field, including the Harrington Acreage (the Pioneer/Conoco Contract).

10. Pioneer notified Amoco, by letter dated May 22, 1974, of the terms of the Pioneer/Conoco Contract.

11. Amoco, by letter dated June 20, 1974, informed Pioneer that it was Amoco's position that the Harrington Acreage was dedicated to interstate commerce by virtue of the Amoco/United Contract and the certificate issued in 1969 by the Commission in Docket no. CI69-491.

12. Amoco also informed Pioneer, by letter dated June 20, 1974, that before any sales could be made to Conoco, the Commission would have to authorize Pioneer to abandon service to United and that, since United was in a curtailment situation, the Commission would not likely grant abandonment.

13. Pioneer, without seeking or obtaining prior Commission approval pursuant to section 7(b) of the NGA, 15 U.S.C. 717f(b), for the abandonment of service to United, commenced selling gas to Conoco from the Jennings Townsite Field in September 1974.

14. At the time Pioneer commenced deliveries, the Louisiana Department of Conservation (LDC), the regulatory body having jurisdiction over production allowables in the State of Louisiana, had classified the following five formations

in the Jennings Townside Field as gas units: Cam 1 Sand; Can 3 Sand; Hayes Sand; Marg Vag Sand; and Marg Howei Sand (referred to collectively as the "Five Units"). Later the LDC also classified the lower Marg Vag Sand as a gas unit. Each of the six units contained Harrington Acreage.

15. United, by letter dated October 23, 1974, informed Pioneer that gas being sold to Conoco attributable to the Harrington Acreage was dedicated to United and that United was claiming its right to the gas.

16. Between September 1974 and November 1976, Pioneer sold to Conoco all gas well gas produced from the Five Units.

17. From September 1974 through November 1976 Pioneer charged and collected a higher rate for gas sold from the Five Units to Conoco than Pioneer would have have permitted to collect under the Amoco/United Contract.

18. On April 28, 1976, Pioneer executed a contract to sell to United gas produced from, among other areas, the Harrington Acreage (the Pioneer/United Contract).

19. The Pioneer/United Contract stated that the acreage covered by the contract was subject to the Amoco/United Contract of October 7, 1968, and that the prior contract was thereby superseded to the extent of Pioneer's interest in the acreage.

20. On June 14, 1976, Pioneer filed an application with the Commission in Docket No. CI76–603 for a certificate of public convenience and necessity pursuant to section 7(c) of the NGA covering the sale by Pioneer to United under the Pioneer/United Contract.

21. Pioneer stated in its certificate application in Docket No. CI76–603 that it was seeking authorization for initial service.

22. Pioneer also stated in its application that no predecessor-in-interest of Pioneer had any interest in or made any sale of the gas covered by the application.

23. Although the Pioneer/United Contract, which made reference to the Amoco/United Contract, was attached to its application, Pioneer did not state in the body of its application that the acreage was covered by a contract which had previously been certificated by the Commission in Docket No. CI69–491.

24. Pioneer did not tell the Commission in 1976 that it was going to repay United for volumes of gas produced from the Harrington Acreage which Pioneer had sold to Conoco from September 1974 to November 1976.

25. On August 27, 1976, the Commission, in Docket No. C176–603, issued a certificate of public convenience and necessity to Pioneer for the sale of gas under the Pioneer/United Contract. That certificate became effective on September 13, 1976.

26. From December 1976 to the present, Pioneer has continued to sell gas from three of the six units, but has sold none of the gas produced from those units to United.

27. On information and belief, Pioneer has sold the gas produced from the three units described in ¶ 26 at prices which have exceeded the rates and prices which Pioneer would have been permitted to collect from United under the Amoco/United Contract.

28. Pioneer has not at any time sought or received Commission authority to abandon sales of gas to United from any of the six units.

III

The Commission neither makes findings of fact nor reaches conclusions of law with regard to the foregoing acts and practices. However, the facts set forth in section II of this order, if true, indicate that Pioneer may have committed the following violations.

A. By selling to purchasers other than United, gas production attributable to the Harrington Acreage without first obtaining abandonment authorization, Pioneer may have violated section 7(b) of the NGA.

B. By selling gas production attributable to the Harrington Acreage through November 30, 1978, at rates higher than it would have been able to collect for the gas under the Amoco/United Contract, Pioneer may have violated section 4(a) of the NGA, 15 U.S.C. 717c(a).

C. By selling gas production attributable to the Harrington Acreage since December 1, 1978, at prices higher than those it would have been permitted to collect under the Amoco/United Contract, Pioneer may have violated section 504(a)(1) of the Natural Gas Policy Act of 1978 (NGPA), 15 U.S.C. 3414(a)(1).

The Commission finds:

Good cause exists for requiring, and the public interest in administering the NGA and the NGPA demand, that Pioneer show cause as to the following: Why Pioneer should not be found to have violated sections 4(a) and 7(b) of the NGA, section 504(a) of the NGPA, and the Commission's regulations thereunder, as a result of the acts and transactions described herein; why the Commission should not order any or all appropriate remedies; and why Pioneer should not be required to seek abandonment authorization with respect to sales of gas from units reclassified by the LDC for gas to oil.

The Commission orders:

(A) Pursuant to § § 385.209(a)(2) and 385.502(a) of the Commission's rules of practice and procedure, 18 CFR 385.209(a)(2) and 385.502(a), Pioneer shall show cause why it should not be found to have violated sections 4(a) and 7(b) of the NGA, and section 504(a) of the NGPA, and the Commission's regulations thereunder, as a result of the acts and transactions described herein and why the Commission should not order any or all appropriate remedies.

(B) Pioneer's answer to this order shall be filed pursuant to Rule 213 of the Commission's rules of practice and procedure, 18 CFR 385.213, in writing and under oath on or before 30 days after the date of this order. Accordingly, Pioneer shall admit or deny, specifically and in detail, each allegation set forth in section II of this order and shall set forth every defense relied upon. Pioneer shall serve a copy of its answer directly on Enforcement staff simultaneously with its filing with the Commission.

(C) Pursuant to sections 4, 7, 15 and 16 of the NGA, sections 501, 502 and 504 of the NGPA and Rule 601 of the Commission's Rules of Practice and Procedure, 18 CFR 385.601, a prehearing conference shall be convened in this proceeding in a hearing room of the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC. 20426, at a date and time to be established by the Chief Administrative Law Judge. Respondents should be fully prepared, as set forth in Rule 601(b) of the Commission's rules of practice, 18 CFR 385.601(b), to discuss any and all matters to be considered at the conference.

(D) A Presiding Administrative Law Judge, to be designated by the Chief Administrative Law Judge, shall preside at the prehearing conference in this proceeding, with authority to establish the hearing date, to establish and change procedural dates and to rule on motions, all as provided for in the Commission's rules of practice and procedure, 18 CFR Part 385. The designated Administrative Law Judge shall conduct the hearing pursuant to 18 CFR 385.501 *et seq.*, shall have all authority delegated by 18 CFR 385.504, and shall render a decision pursuant to 18 CFR 385.708.

(E) Petitions for intervention shall be filed no later than 35 days after the date of this order.

(F) Since many of the facts pertinent to the issues in this case are within the particular knowledge of Pioneer, Amoco

and/or United and/or their employees and agents, Enforcement staff shall be permitted liberal discovery in this proceeding.

(G) For the purposes of this order:

(1) "Documents" refers to the originals of all writings and records of every type in the possession, control, or custody, of the person from whom the documents are requested, including but not limited to: Testimony and exhibits, memoranda, correspondence, letters, reports (including drafts, preliminary, interemdiate, and final reports), surveys, analyses, studies (including economic and market studies), summaries comparisons tabulations, charts, books, pamphlets, photographs, maps, sheets, ledgers, transcripts, microfilm, microfiche, computer data, computer files, computer tapes, computer inputs, computer outputs and printouts, vouchers, accounting statements, budgets, workpapers, engineering diagrams (including "one-line" diagrams), mechanical and electrical recordings, telephone and telegraphic communications, speeches, and all other records, written, electrical mechanical, or otherwise and drafts, attachments or appendices of any of the above;

(2) "Documents" includes copies of documents, where the originals are not in the possession, custody, or control of the person from whom the documents are requested;

(3) "Documents" includes every copy of a document which contains handwritten or other notations or which otherwise does not duplicate the original or any other copies;

(4) If any information or documents requested is withheld by reason of a claim of privilege or any other reason, please state the basis upon which the document or information is withheld and provide the following information with respect to each document or piece of information withheld:

(a) Identify the document or information;

(b) If a document is involved, identify such document in accordance with (7)(a) below, and identify those persons who saw the document in accordance with (7)(b) below; and

(c) Indicate the date of the document or information.

(5) If the attorney-client privilege is claimed:

(a) Identify the attorney and client involved (if the client is not a natural person, identify the person(s) sending or receiving each document or piece of information on behalf of the client);

(b) Indicate whether the communication (as defined in (6) below) claimed to be privileged was made by the attorney or by the client;

(c) Indicate who was present when the communication was made, and, if a document is involved, where and how it is filed within the attorney's and client's offices;

(d) Indicate whether the document or information has been communicated to any person othe than the attorney and client involved (if yes, identify such third person by name and relationship to the client and the attorney, and indicate the date of such communication);

(e) If the privileged portion of the document or information is capable of being excised, so that the remainder is no longer privileged, then produce the non-privileged portion(s) of the document or information;

(f) Indicate whether a retainer agreement between the client existed at the time of the communication, and if yes, the date of such agreement; and

(g) Indicate the period of time during which the attorney-client relationship existed.

(6) "Communication(s)" includes all verbal and written communications of every kind, including but not limited to telephone calls, conferences, and correspondence, and all memoranda concerning the requested communication.

(7) "Identification", "identify" and "identity":

(a) When used with respect to a document, includes (but is not limited to) stating the nature of the document (*e.g.*, letter, memorandum, corporate minutes), the date, if known, on which the document was prepared, the title of the document, the general subject matter of the document, the number of pages in the document, the identity of each person who wrote, dictated, or otherwise participated in the preparation of the document, the identity of each person who signed or initialed the document, the identity of each person to whom the document was addressed, the location of the document, and the identity of the person having possession, custody, or control of the document. Identification of a document includes identifying all documents known or believed to exist whether or not they are in the custody of the person to whom the request is made;

(b) When used with respect to a person, includes stating (i) his, her or its full name, (ii) his, her or its present title and position, (iii) his, her, or its present address (including zip code) and telephone number (including area code), if the present address and/or telephone number are unknown, the last known address and telephone number; (iv) his, her or its present and prior connections or associations with the person to whom the request is made; (v) the capacity of the person (whether individual, partnership, corporation or otherwise); and (vi) if such person is a corporation or a partnership, and if such information is known or within the possession or control, of the person to whom the request is made, the identity of every current partner, joint venturer, stockholder, director, or officer;

(8) Identify the person responsible (whether directly or indirectly) for preparing and providing each response. In addition, identify the person from whom the information or documents were obtained, the files searched in responding to each request, and the person who reviewed the response; and

(9) The responses should be accompanied by a sworn affidavit in which an authorized official of the person to whom the request is made certifies that the information and documents provided constitute a complete and accurate response to all requests.

(H) Pioneer shall, within 45 days after the date of this order, produce to Enforcement staff:

1. Documents sufficient to show when and how it acquired rights to the Harrington Acreage sufficient for it to drill wells in, and to sell natural gas from that acreage in 1974, and the nature of the rights which Pioneer acquired.

2. Documentation of the assignment of oil and gas interests from D.D. Harrington to Pioneer dated sometime in 1973.

3. The spud dates(s) and vintages of each well from which gas was sold to Conoco from the Harrington Acreage from 1974 to 1976.

4. Documents sufficient to show the small producer/large producer split for the Harrington Acreage dedicated to United for the period 1974 to 1976.

5. Documents sufficient to show the amount paid per MMBtu, with break outs for any adjustments such as Btu, taxes, etc., by Pioneer to Amoco, by month, for the gas Pioneer sold to Conoco from 1974 to 1976.

6. All documents provided to United during a November 21, 1974, meeting between Pioneer and United to discuss resolution of the dedication issue.

7. The Louisiana Department of Conservation orders which changed the classifications set forth in Louisiana Department of Conservation Order Nos. 929–A and 929–E.

8. A copy of the abandonment application filed by Pioneer to request authorization to abandon service to United resulting from the reclassification of the gas units.

9. Produce and identify the following documents:

(a) Supplemental Tract Freeze Agreement, Cam 2 RA SUA, dated July 8, 1975, by and between Amoco Production Corporation and Pioneer Production Corporation, *et al.*

(b) Amendment to Gas Purchase Contract dated August 19, 1975, by and between Continental Oil Company and Pioneer Production Corporation, *et al.*

(c) Letter Agreement dated June 26, 1975, between Amoco Production Company and Pioneer Production Corporation, *et al.* (re: classification of oil and gas reservoirs).

(d) Letter Agreement dated June 26, 1975, between Amoco Production Company (re: dedication under United Contract).

(e) Letter Agreement dated July 7, 1975, between Amoco Production Corporation, *et al.* (re: dedication of gas to United Contract and recognition of ownership of Hayes Sand under Amoco tract).

(f) Unit Agreement dated September 1, 1974, between Pioneer Production Corporation *et al.* unitizing the Cam 2 Sand, Reservoir A.

(g) Unit Agreement dated, 5–1–75 between Pioneer Production Corporation, *et al.*, unitizing the Marg Vag Sand, RA, Lower Marg Vag Sand RA, Marg Howei Sand RA, Cam 1 Sand RA, Cam 3 Sand RA.

(h) Letter Agreement dated December 6, 1973, between D.D. Harrington and Amoco Production Company amending lease dated August 10, 1973.

(i) Recording Supplement to Gas Purchase Contract dated April 28, 1976, between United Gas Pipe Line Company and Pioneer Production Corporation.

(j) Joint Operating Agreement dated May 15, 1974, between Pioneer Production Corporation and Amoco, *et al.* (pertaining to operating the Marg Howei Unit).

(k) Joint Operating Agreement dated May 15, 1974, between Pioneer Production Corporation and Amoco, *et al.* (pertaining to operating the Cam 1 RA Unit).

(l) Joint Operating Agreement dated May 15, 1974, between Pioneer Production Corporation and Amoco, *et al.* (pertaining to operating the Camerina III Unit).

(m) Joint Operating Agreement dated July 9, 1974, between Pioneer Production Corporation and Amoco, *et al.* (pertaining to operating Marg Vag Unit).

(n) Joint Operating Agreement dated July 9, 1974, between Pioneer Production Corporation and Amoco, *et al.* (pertaining to operating the Hayes Sand RA).

(o) Joint Operating Agreement dated December 6, 1974, between Pioneer Production Corporation and partners (pertaining to operating the Camerina 2 Unit).

(p) Joint Operating Agreement dated April 1, 1975, between Pioneer Production Corporation and Amoco, *et al.* (pertaining to operating the Lower Hayes Unit).

(q) Joint Operating Agreement dated September 1, 1975, between Pioneer Production Corporation and Amoco, *et al.* (pertaining to operating the Marg Vag; Lower Marg Vag; Marg Howei, Camerina 1 and Camerina 3 Units).

(r) Joint Operating Agreement dated February 1, 1976, between Pioneer Production Corporation and partners (pertaining to operating the Cib Haz Unit).

(s) Surface Lease and Right-of-Way Agreement dated May 23, 1974, between Amoco Production Company and Pioneer Production Corporation.

10. Documents sufficient to show the volumes delivered and the amounts paid to Pioneer, by MMBtu, with break outs for any adjustments such as Btu, taxes, etc. by Conoco, or any other intrastate purchaser, for gas sold from each of the three reclassified units, by month, from 1976 to the present.

11. Documents sufficient to show the percentage of each of the seven units as of each classification or reclassification, which Amoco's fee acreage comprised of the whole acreage in the unit.

12. The spud dates and vintages of each well on each of the reclassified units from 1976 to the present.

(I) Docket No. IN84–2–000 is hereby terminated.

By the Commission.

Western Gas Supply Company et al.; Extension Reports

April 15, 1987.

The companies listed below have filed extension reports pursuant to section 311 of the Natural Gas Policy Act of 1978 (NGPA) and Part 284 of the Commission's regulations giving notice of their intention to continue sales of natural gas for an additional term of up to 2 years.[1]

The table below lists the name and addresses of each company selling pursuant to Part 284; the party receiving the gas; the date that the extension report was filed; and the effective date of the extension. A "D" indicates a sale by an intrastate pipeline extended under § 284.146.

Any person desiring to be heard or to make any protest with reference to said extension reports should on or before May 1, 1987, file with the Federal Energy Regulatory Commission, Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 or 385.214). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants party to a proceeding. Any peson wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Kenneth F. Plumb,

Secretary.

[Project No. 3449-006]

City of North Little Rock, AR; Application To Amend License

April 20, 1987.

Take notice that the City of North Little Rock, Arkansas requested on June 23, 1986, that the Commission approve amendment of its license to allow realignment of the primary transmission line for the Murray Lock and Dam Project No. 3449. The approved 115-kV transmission line alignment from the project site would cross the Arkansas River to an existing Arkansas Power and Light Company 115-kV line. The revised transmission line alignment would consist of a line 5.9 miles long from the project site through a portion of Burns Park, private property, federal property, and the City of North Little Rock, connecting directly to one of the City's delivery points.

The license for Project No. 3449 was issued on August 17, 1983, and would expire on July 31, 2023. The project is located on the Arkansas River in Pulaski County, Arkansas.

Correspondence with the applicant should be directed to: Mayor Terry C. Hartwick, City of North Little Rock, P.O. Box 5757, North Little Rock, Arkansas 72119. Phone: (501) 374-2233.

Comments, Protests, or Motions To Intervene—Anyone may file comments, a protest, or a motion to intervene in accordance with the requirements of Rule 211 or 214, 18 CFR 385.211 or 385.214, 47 FR 19025-26 (1982). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests or motion to intervene must be filed on or before May 20, 1987.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "PROTEST, OR "MOTION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426. An additional copy must be sent to: William C. Wakefield II, Acting Director, Division of Project Management, Office of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any motion to intervene must also be served upon each representative of the applicant specified in the third paragraph of this notice.

Northern Natural Gas Co., Division of Enron Corp.; Tariff Filing

April 20, 1987.

Take notice that on April 15, 1987, Northern Natural Gas Company, Division of Enron Corp. (Northern) tendered for filing to become a part of its FERC Gas Tariff, Third Revised Volume No. 1:

Sixth Revised Sheet No. 17
Second Revised Sheet No. 24b

These pages consist of revisions to Paragraph 6.23 of Northern's CD-1 and CDO-1 Rate Schedules to allow for group billing of the commodity rate at the rate zone in which the excess volumes are delivered rather than the rate zone in which the excess volumes originated.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 214 and 211 of the Commission's Rules of Practice and Procedure. All such motions or protests should be filed on or before April 27, 1987. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Snyder Oil Co.; Application for Permanent Abandonment With Pregranted Abandonment for Sales Under Small Producer Certificate

April 20, 1987.

Take Notice that on April 13, 1987, Snyder Oil Company (Applicant), whose address is SOCO Plaza, 7th Floor, 1800 Glenarm Place, Denver, Colorado 80802, filed an application pursuant to section 7(b) of the Natural Gas Act, § 157.30 of the Regulations, and section 2.77 of the Statements of Policy, for authorization to permanently abandon the sale to Northwest Pipeline Corporation (Northwest) of NGPA section 104 post-1974, biennium, and replacement contract gas and 109 gas from Carbon and Sweetwater Counties, Wyoming, which production had been dedicated to Northwest by Applicants' predecessors-in-interest under a contract dated April 1, 1983. As grounds for the requested abandonment, Applicant states that

production from the affected wells (ten in number, having a total daily deliverability of about 1,750 Mmbtu's) has been substantially reduced without payment. Applicant also requests pregranted abandonment authority for a period of three (3) years for any sales for resale in interstate commerce of this gas which Applicant may make following abandonment of the sale to Northwest. Applicant proposes to market said gas in the spot market at a price that does not exceed the maximum lawful price. Jurisdictional sales will be made by Applicant under its existing small producer blanket certificate in Docket No. CS73–80.

The circumstances presented in this application meet the criteria for consideration on an, expedited basis, pursuant to section 2.77 of the Commission's Rules as promulgated by Order Nos. 436 and 436–A, issued October 9 and December 12, 1985, respectively, in Docket No. RM85–1–000, all as more fully described in the application which is on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said application should on or before 15 days after the date of publication of this notice in the **Federal Register**, file with the Commission a petition to intervene or, a protest in accordance with the requirements of the Commission s Rules of Practice and Procedure (18 CFR 385.211, 385.214). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to the proceeding herein must file a petition to intervene in accordance with the Commission's rules.

Under the procedures herein provided for, it will be unnecessary for Applicant to appear or be represented at the hearing.

Texaco, Inc. and Texaco Gas Marketing Co. and Texas Gas Transmission Corp.; Informal Technical Conference

Issued: April 20, 1987.

Take notice that an informal technical conference will be held at the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, on April 30, 1987, at 10:00 a.m. in the above captioned matters. In Docket No. CI87–247–000, Texaco, Inc. (Texaco) filed pursuant to section 7(b) of the Natural Gas Act (NGA), for permanent abandonment of certain gas dedicated to Texas Gas Transmission Corporation (Texas Gas). In Docket No. CI87–248–000 Texaco and Texaco Gas Marketing Company (TGMC) applied, pursuant to section 7(c) of the NGA, for a limited-term blanket sales certificate with pre-granted abandonment for the gas abandoned by Texaco. Finally, Texas Gas is seeking, in Docket No. CP87–178–000, a certificate of public convenience and necessity, pursuant to section 7(c) of the NGA, to transport gas for Texaco and its subsidiaries on terms negotiated by Texaco and Texas Gas as part of a settlement agreement. Any issue associated with the applications can be discussed. Particular attention should be given to those issues raised by the intervenors who requested the technical conference.

All parties to this proceeding, the Commission staff, and interested members of the public are invited to attend. However, mere attendance at the conference will not confer party status. Any person wishing to become a party to this proceeding must file a motion to intervene in accordance with Rule 214 of the Commission's rules of practice and procedure.[1]

Western Transmission Corp.; Compliance Filing

April 20, 1987.

Take notice that on April 13, 1987, Western Transmission Corporation (Western) tendered for filing to its FERC Gas Tariff, Original Volume No. 1, the following tariff sheets pursuant to the Commission's order issued March 20, 1987 in the above-referenced proceeding:

First Revised Original Sheet No. 1 Original Sheet No. 1A
First Revised Original Sheet No. 4–B
First Revised Original Sheet No. 18 Original Sheet No. 18AA
Original Sheet Nos. 94 through 119

The March 20, 1987 order required Western to file (1) tariff sheets setting forth operating terms and conditions governing its transportation service and (2) a revised tariff sheet OAT–1 eliminating the use-or-lose provision.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 214 and 211 of the Commission's Rules of Practice and Procedure. All such motions or protests should be filed on or before April 27, 1987. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. CI87–395–000]

Williams Natural Gas Co.; Application To Abandon Purchases

April 21, 1987.

Take notice that on March 26, 1987, Williams Natural Gas Company (Applicant), formerly Northwest Central Pipeline Corporation, P.O. Box 3288, Tulsa, Oklahoma 74101, filed in Docket No. CI87–395–000 an application pursuant to section 7(b) of the Natural Gas Act for an order permitting and approving abandonment of certain gas subject to the Natural Gas Act purchased from Hamm Production Company, Metro-Crane, Inc., J. S. Aviation, Inc. and Farrar Oil Company (Hamm Interest), located in Garfield, Kingfisher, Major and Blaine Counties, Oklahoma, all as more fully set forth in the application which is on file with the Commission and open to public inspection. Applicant states that the Hamm Interest was obtained through an assignment of certain interests in acreage covered by three gas purchase contracts with Applicant dated August

[1] 18 CFR 385.214 (1986).

4, 1967, September 19, 1969, and March 10, 1971.

Applicant recently terminated its gas purchase contracts with the Hamm Interest as a result of the Hamm Interest's refusal to accept the price proposed by Applicant pursuant to the "economic out" provision in the gas purchase contracts. The abandonment of gas subject to the Commission's Natural Gas Act jurisdiction will permit the Hamm Interest's gas to be sold to other parties. Applicant states that each of the subject contracts has been amended from time to time with the latest amendment being dated November 21, 1979. The amended "Term" section of the November 21, 1979, Amendment reads as follows:

This Agreement shall remain in full force and effect from the date of final execution of the aforementioned Gas Purchase Contracts and shall extend for a period of twenty years from the date of first delivery of gas thereunder and as long thereafter as gas can be delivered in commercial quantities. *Buyer shall not be obligated to continue purchasing gas when such purchases are determined to be uneconomical in Buyer's sole judgment. (Emphasis added.)*

In 1986, Applicant states it notified the Hamm Interest of the price which it could economically pay for the gas it purchased and, further that unless the Hamm Interest would agree to reduce the purchase price of gas covered by the contracts to Applicant's economic price per MMBtu, then pursuant to Applicant's contractual rights and powers, Applicant would cease purchasing the gas and terminate the contracts as to the Hamm Interest on November 23, 1986. Applicant states that despite numerous discussions and meetings, Applicant and the Hamm Interest were unable to agree on a price which was economical to Applicant and, therefore, Applicant notified the Hamm Interest that effective November 23, 1986, it was electing to cease purchases of gas (except that gas requiring abandonment authorization from the FERC would be purchased until such abandonment authorization was granted) and terminate the contracts as to the Hamm Interest. On November 20, 1986, Applicant states it filed a petition against the Hamm Interest in Oklahoma State District Court seeking a declaration of its contractual right to cease uneconomic purchases of natural gas and to terminate contracts as to the Hamm Interest. Applicant states it has represented to the Court that pending the outcome of the abandonment proceedings pursuant to the Natural Gas Act Applicant will continue to take the gas at issue and will pay the highest price compatible with the economic operation of Applicant's pipeline.

Applicant further states that the Commission has the authority to grant to Applicant the abandonment of Applicant's purchases of gas from the Hamm Interest. See *United Gas Pipe Line Company v. Federal Power Commission*, 385 U.S. 83 (1966) and *Panhandle Eastern Pipe Line Company v. Federal Energy Regulatory Commission*, 803 F.2d 726 (D.C. Circuit, 1986). Applicant also states that the present and predicted connected deliverability of Applicant's gas suppliers substantially exceeds Applicant's projected market for gas. See *Northwest Central Pipeline Corporation*, Docket Nos. CI86-594-000 and CI86-596-000 issued on February 20, 1987. Furthermore, Applicant states that its purchases of gas from the Hamm Interest in calendar year 1986 amounted to only 947,467 Mcf (approximately 2,596 Mcf per day). Applicant further states that it is not seeking to abandon any facilities in this application, thus there are no reclaim costs associated with the abandonment. Facilities are being retained so that the Hamm Interest's gas may be gathered and transported to or for other purchasers after the abandonment of Applicant's purchase of the Hamm Interest gas is granted.

Based on the foregoing considerations, Applicant submits that this proposal is reasonable and required by the present and future public convenience and necessity and should be approved.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 5, 1987, file with the Federal Energy Regulatory Commission, Washington, DC 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party in any proceeding herein must file a petition to intervene in accordance with the Commission's rules.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or to be represented at the hearing.

Lois D. Cashell,

Acting Secretary.

EXPORT-IMPORT BANK OF THE UNITED STATES

[Public Notice]

Agency Forms Submitted for OMB Review

AGENCY: Export-Import Bank of the United States.

ACTION: In accordance with the provisions of the Paperwork Reduction Act of 1980, Eximbank has submitted a proposed application to be used under the Bank's medium and long terms loans and guarantee programs.

Purpose: The proposed application is to be used by applicants when applying for Eximbank's services under its medium and long term loans and guarantees programs. The application will serve as a mechanism by which Eximbank can evaluate creditworthiness of applicants, to find reasonable assurance of repayment, and to assure that relevant statutory programs and requirements are met. Affected public could be a commercial bank, provider of commercial credit or other public or private creditor. Form 87-14 replaces 73-1 and 73-2.

SUMMARY: The following summarizes the information collection submitted to OMB:

(1) Type of request: revised.
(2) Number of forms submitted: One.
(3) Form number: EIB 87–14.
(4) Title of information collection: Medium- and Long-Term Export Loans and Guarantees Application.
(5) Frequency of use: Submission of application.
(6) Respondents: commercial banks, providers of commercial credit or other public or private creditors.
(7) Estimated total number of annual responses: 500.
(8) Estimated total number of hours needed to fill out the form: 250.

Additional Information or Comments

Copies of the proposed application may be obtained from Helene Wall, Agency Clearance Officer (202) 566–8111. Comments and questions should be directed to Francine Picoult, Office of Management and Budget, Information and Regulatory Affairs, Room 3235, New Executive Office Building, Washington, DC 20503, (202) 395–7340. All comments should be submitted within two weeks of this notice; if you intend to submit comments but are unable to meet this deadline, please advise Francine Picoult by telephone that comments will be submitted late.

Date: April 20, 1987.

FEDERAL EMERGENCY MANAGEMENT AGENCY

[FEMA–790–DR]

Major Disaster and Related Determinations; Massachusetts

AGENCY: Federal Emergency Management Agency.

ACTION: Notice.

SUMMARY: This notice amends the notice of a major disaster for the Commonwealth of Massachusetts (FEMA–790–DR), dated April 18, 1987 and related determinations.

DATED: April 18, 1987.

FOR FURTHER INFORMATION CONTACT: Sewall H.E. Johnson, Disaster Assistance Programs, Federal Emergency Management Agency, Washington, DC 20472, (202) 646–3616.

Notice

Notice is hereby given that, in a letter of April 18, 1987, the President declared a major disaster under the authority of the Disaster Relief Act of 1974, as amended (42 U.S.C. 5121 *et seq.*, Pub. L. 93–288), as follows:

I have determined that the damage in certain areas of the Commonwealth of Massachusetts resulting from severe storms and flooding beginning on or about April 2, 1987, is of sufficient severity and magnitude to warrant a major-disaster declaration under Pub. L. 93–288. I therefore declare that such a major disaster exists in the Commonwealth of Massachusetts.

In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes, such amounts as you find necessary for Federal disaster assistance and administrative expenses. Consistent with the requirement that Federal assistance be supplemental, any Federal funds provided under Pub. L. 93–288 for Public Assistance will be limited to 75 percent of total eligible costs in the designated area.

The time period prescribed for the implementation of section 313(a), priority to certain applications for public facility and public housing assistance, shall be for a period not to exceed six months after the date of this declaration.

Notice is hereby given that pursuant to the authority vested in the Director of the Federal Emergency Management Agency under Executive Order 12148, I hereby appoint Mr. Warren Pugh of the Federal Emergency Management Agency to act as the Federal Coordinating Officer for this declared disaster.

I do hereby determine the following areas of the Commonwealth of Massachusetts to have been affected adversely by this declared major disaster and are designated eligible as follows:

Berkshire, Essex, Franklin, Hampshire, Middlesex, Norfolk, and Worchester Counties for Individual Assistance.

Berkshire, Franklin, and Hampshire Counties as well as the specific communities of Fitchburg, Ashburnham, Templeton, and Leominster in Worcester County; Lawrence, Haverhill, Groveland, and Andover in Essex County ; and Chelmsford and Tyngsborough in Middlesex County for Public Assistance.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

Federal Claims Collection; Interest Rate on Overdue Debts

Section 30.13 of the Department of Health and Human Service's claims collection regulation (45 CFR Part 30) provides that the Secretary shall charge an annual rate of interest as fixed by the Secretary of the Treasury after taking into consideration private consumer rates of interest prevailing on the date that HHS becomes entitled to recovery. The rate generally cannot be lower than the Department of Treasury's current value of funds rate or the applicable rate determined from the "Schedule of Certified Interest Rates with Range of Maturities." This rate may be revised quarterly by the Secretary of the Treasury and shall be published quarterly by the Department of Health and Human Services in the **Federal Register.**

The Secretary of the Treasury has certified a rate of 14.125% for the quarter

ended March 31, 1987. This interest rate will remain in effect until such time as the Secretary of the Treasury notifies HHS of any change.

Dated: April 22, 1987.

Health Care Financing Administration

Medicare Program; Inclusion of Labor/Delivery Room Days in the Calculation of Inpatient Days

AGENCY: Health Care Financing Administration (HCFA), HHS.

ACTION: Notice of HCFA ruling.

SUMMARY: This notice announces a Ruling concerning the disposition of provider claims pending in court or that could be filed within the jurisdictions of the courts of appeals for the Sixth, Eighth, Ninth, and District of Columbia Circuits with respect to the treatment of labor/delivery room days in the apportionment of general routine services costs. Since all providers ordinarily can obtain judicial review in the District of Columbia, this ruling has broad application.

EFFECTIVE DATE: This Ruling is effective April 9, 1987.

FOR FURTHER INFORMATION CONTACT:

Paul Trimble, Cost Apportionment, (301) 594-9343.

Charles Schreibeis, Cost Report Settlement, (301) 594-8431.

SUPPLEMENTARY INFORMATION: We compile and publish all HCFA Rulings and index them for citation purposes. Since July 1986, Rulings are distributed by HCFA in loose leaf format directly to Federal and State employees who administer or are involved in appeals under Medicare or Medicaid, and to the contractors who implement the programs. In addition, as provided by 42 CFR 401.108, HCFA Rulings may be published in the **Federal Register** as notices. This Ruling has been designated as HCFAR 87-3. The text of the Ruling is as follows:

Validity of Provider Reimbursement Manual Section 2345 Relating to the Inclusion of Labor/Delivery Room Days in the Calculation of Inpatient Days

Purpose: This Ruling announces HCFA's determination to follow the holdings of the courts of appeals for the Sixth, Eighth, Ninth, and District of Columbia Circuits with respect to claims that have been filed or could be filed within the jurisdiction of those circuits with respect to the validity of the labor/delivery room policy.

Citations: Section 1861(v) of the Social Security Act (42 U.S.C. 1395x(v)); 42 CFR 413.53; Provider Reimbursement Manual section 2345.

Pertinent History: The labor/delivery room policy, which it set forth in section 2345 of the Provider Reimbursement Manual, has been the subject of a substantial amount of litigation. This policy required that patients in a hospital's labor or delivery room at the census-taking hour be included in the inpatient count used to determine Medicare reimbursement for a hospital's general routine costs. The apportionment for general routine services is arrived at by multiplying the number of Medicare patient-days by the average per diem cost for all general routine services. The per diem figure is, in turn, computed by dividing total allowable routine costs by total inpatient days for the fiscal year. 42 CFR 413.53. Manual section 2345 clarifies this calculation by requiring that patients located in a hospital's labor or delivery room, or in any other ancillary area, at the midnight census-taking hour be included in the count of total inpatient days for purposes of calculating the per diem cost of routine care.

Viewed in isolation, the policy of counting patients in labor and delivery rooms as inpatients advantages Medicare because of the relatively small number of maternity patients who are Medicare beneficiaries. Other accounting and allocation conventions disadvantage Medicare, however, because of different patient and cost distributions. These variations tend to average out and in the aggregate result in a proper allocation of Medicare and non-Medicare costs. The issue in the litigation has been the extent to which these general averaging principles authorize the labor/delivery room policy.

The validity of the policy has been considered by the courts of appeals in eight judicial circuits. In each of the cases the court declined to uphold the policy based on the evidence in the record before it. The courts did, however, offer HCFA the opportunity to justify the policy with additional evidence demonstrating that the advantages to Medicare from the labor/delivery room policy were offset by disadvantages from other allocation policies. The courts divided into two groups on what the additional evidence would have to show.

Half of the courts established a strict test that the additional evidence would have to meet to validate the labor/delivery room policy. These courts—the Sixth, Eighth, Ninth, and District of Columbia Circuits—held that the additional evidence necessary to justify the policy would have to identify cost distortions disadvantaging Medicare in other hospital ancillary areas that offset the advantage to Medicare resulting from the labor/delivery room policy.[1]

HCFA cannot adduce evidence that meets the strict test established by these courts.

The other courts of appeals that considered the labor/delivery room policy allowed the agency much broader latitude to prove through additional evidence that there are cost allocation distortions adverse to Medicare that offset the effects of the labor/delivery room policy.[2]

Accordingly, HCFA has introduced evidence in new cases at the administrative level that demonstrates such an effect.

The initial decision in the District of Columbia Circuit, which adopted the strict test of what the additional evidence would have to prove, was ambiguous. The decision was not clear as to whether adoption of the strict test was based on the failure to raise the issue at the administrative level in that particular case, or whether the court was announcing a general principle that would apply in all cases. Recently the district court for the District of Columbia has interpreted the court of appeals' decision as intended to apply the strict test in all cases.[3]

We have determined to accept the district court's interpretation of the D.C. Circuit's prior holding. Consequently, there are four circuits in which the courts have established an evidentiary standard with respect to the validity of the labor/delivery room policy that we are unable to satisfy. The purpose of this Ruling is to announce our acquiescence in those decisions within the jurisdiction of the relevant circuits. We will dispose of claims pending in those circuits, or that could be filed in those circuits, by

excluding labor/delivery room days from the calculation of inpatient days for the hospitals and cost years affected. Since all providers can ordinarily obtain judicial review in the District of Columbia, this policy applies to all claims still at the administrative level, unless a court remand order or statutory provision necessitates that judicial review be sought elsewhere than in one of the four affected circuits, or unless the provider states that it intends to seek judicial review elsewehere.[4]

Pursuant to this Ruling, Medicare fiscal intermediaries will determine the amounts due and make appropriate payments through normal procedures. Claims, must, of course, meet all other applicable requirements. This includes the requirement for data adequate to document the claimed costs. As the intermediaries may require, hospitals must furnish appropriate documentation to substantiate the number of days claimed (see section 1815(a) of the Social Security Act and 42 CFR 413.20, 413.24(a), (c)). Claims that are not disclosed on the cost report or an accompanying document (claims based on so-called "self-disallowed" costs) are not eligible for payment and remain ineligible under this Ruling.[5]

Ruling: In the case of otherwise proper claims made by providers that can obtain judicial review of those claims in the Sixth, Eighth, Ninth, or District of Columbia Circuits, the labor/delivery room policy set forth in section 2345 of the Provider Reimbursement Manual will not apply, and reimbursement will be determined by excluding labor/delivery room days from the calculation of inpatient days.

Medicare Program; Provider Reimbursement Review Board Jurisdiction Over Challenge to Apportionment of Malpractice Insurance Costs

AGENCY: Health Care Financing Administration (HCFA), HHS.

ACTION: Notice of HCFA ruling.

SUMMARY: This notice announces a HCFA Ruling relating to the jurisdiction of the Provider Reimbursement Review Board (PRRB) over challenges to the application or validity of our regulations concerning apportionment of malpractice insurance costs under the Medicare program. A related HCFA Ruling, 86-2, was issued on this matter on July 2, 1986. This Ruling announces that providers may request consideration by PRRB of appeals where a Notice of Program Reimbursement (NPR) has not yet been issued.

EFFECTIVE DATE: This Ruling is effective April 9, 1987.

FOR FURTHER INFORMATION CONTACT: Paul Trimble, (301) 594-8640.

SUPPLEMENTARY INFORMATION: We compile and publish all HCFA Rulings and index them for citation purposes. Since July 1986, Rulings are distributed by HCFA in looseleaf format directly to Federal and State employees who administer or are involved in appeals under Medicare of Medicaid, and to the contractors who implement the programs. In addition, as provided by 42 CFR 401.108, HCFA Rulings may be published in the **Federal Register** as notices. This Ruling has been designated as HCFAR 87-2. The text of the Ruling is as follows:

Provider Reimbursement Review Board Jurisdiction Over Challenges to the Application or the Validity of the Medicare Regulation Governing Apportionment of Malpractice Insurance Costs (42 CFR 413.56)

Purposes: This Ruling states HCFA policy that the Provider Reimbursement Review Board now has jurisdiction to hear a provider's challenge to the application or validity of 42 CFR 413.56 even if the provider has not received a Notice of Program Reimbursement (NPR). Other jurisdictional prerequisties would continue to apply.

Citations: Section 1878 of the Social Security Act (42 U.S.C. 1395oo); 42 CFR Part 405, Subpart R.

Pertinent History: On April 1, 1986, a new regulation governing the allocation of malpractice insurance costs was published (51 FR 11142) to supersede a regulation on the same subject that had been issued in 1979. The new regulation (42 CFR 413.56 as redesignated at 51 FR 34790, 34808) applies to cost reporting periods beginning on or after July 1, 1979. The public was offered an opportunity to comment on the 1986 regulation. A response to those comments was published on March 27, 1987 (52 FR 9833).

The new regulation generally results in reimbursement to providers that is greater than under the superseded rule. Medicare's fiscal intermediaries have implemented the new regulation on an interim basis with respect to many providers by paying them the estimated amount that will be owed when a final determination is made. The intermediaries, however, have not yet made final determinations, and thus have not issued revised NPRs, in the case of most providers.

In HCFA Ruling 86-2, dated July 2, 1986, it was held that the Board had no jurisdiction to grant a hearing to a provider that wishes to challenge the application or the validity of the 1986 regulation with respect to a cost reporting period until such time as the intermediary issues to the provider an NPR or revised NPR reflecting application of that regulation. This Ruling reflected the provision of section 1878(a)(1)(A) of the Act, which requires receipt of the NPR before the Board has jurisdiction to consider a provider's appeal.

At the time that HCFA Ruling 86-2 was issued, it was anticipated that many providers would receive NPRs soon afterwards. Principally because of unexpected delays in issuing the final response to the many complex comments on the April regulation, however, the process of issuing revised NPRs also has been delayed.

A number of providers have indicated through court filings that they desire to challenge the validity of the 1986 regulation but have been frustrated in doing so by the absence of an NPR. It was not HCFA's intention to delay the availability of review. Nevertheless, we recognize that the unanticipated delays in issuing NPRs have made review unavailable.

Under section 1878(a)(1)(B) of the Act, a provider may obtain a Board hearing prior to receiving an NPR if it has not received the NPR "on a timely basis." Our regulations (42 CFR 405.1835(c)) define timeliness as receipt of an NPR within 12 months after the provider has submitted its cost report. Since we are not requiring the submission of an amended cost report in the case of the 1986 regulation, this regulation may not literally apply. Nevertheless, it has now

been 12 months since issuance of the 1986 regulation, and the timeliness considerations reflected in the statute and regulation should govern. We conclude that, under the circumstances present here, providers desiring to challenge the 1986 regulation have not received an NPR on a timely basis within the meaning of section 1878(a)(1)(B) if they have not already received one. Accordingly, the Board has jurisdiction to hear such cases if the other prerequisites for review have been satisfied. A provider may, of course, at its option await receipt of its NPR before seeking Board review.

Ruling: It is held that any provider seeking to challenge the 1986 malpractice rule has not received an NPR on a timely basis if an NPR has not yet been issued. Accordingly, the jurisdictional requirement of section 1878(a)(1) of the Act for Board review is satisfied.

Dated: April 9, 1987.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Secretary

[Docket No. D-87-830; FR-2303]

Delegation of Authority Regarding Liquidated Damages Under the Contract Work Hours and Safety Standards Act; Correction

AGENCY: Office of the Secretary, HUD.

ACTION: Correction of notice of delegation of authority.

SUMMARY: This notice corrects the authority cited for a delegation of authority regarding liquidated damages under the Contract Work Hours and Safety Standards Act published on January 9, 1987.

EFFECTIVE DATE: December 31, 1986.

FOR FURTHER INFORMATION CONTACT: Justin L. Logsdon, Assistant to the Secretary for Labor Relations, Office of the Secretary, Room 4110, 451 Seventh Street, SW., Washington, DC 20410, telephone (202) 755-5370. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: On January 9, 1987, HUD published a delegation of authority from the Secretary of Housing and Urban Development to the Assistant to the Secretary for Labor Relations with respect to certain functions under the Contract Work Hours and Safety Standards Act (CWHSSA). 52 FR 868. The authority cited for that delegation requires correction.

Accordingly, the delegation of authority is corrected as follow:

1. In the third column on 52 FR 868, the first paragraph contained in the Supplementary Information is corrected to read as follows:

This delegation of authority is being published under (1) 29 CFR 5.8(d), which delegates from the Secretary of Labor to the Secretary of Housing and Urban Development the authority to waive or reduce liquidated damages of $500 or less against contractors and subcontractors for violations of the Contact Work Hours and Safety Standards Act (CWHSSA), and (2) section 104(c) of CWHSSA and 29 CFR 5.8(b), which give the Secretary of Housing and Urban Development the authority to (i) issue a final order affirming a determination of liquidated damages under CWHSSA and (ii) recommend to the Secretary of Labor a waiver or reduction of such liquidated damages where appropriate under 29 CFR 5.8(b).

2. In the first column on 52 FR 869, in the first full paragraph, the words "contained in 29 CFR 5.8(d)" are removed.

3. In the first column on 52 FR 869, in the last line of Section A, the words "29 CFR 5.8(d)" are corrected to read "29 CFR 5.8(b)".

4. In the first column of 52 FR 869, the citation of authority is corrected to read as follows:

Authority: 29 CFR 5.8 (b) and (d); Sec. 104(c), Contract Work Hours and Safety Standards Act, 40 U.S.C. 330(c); Sec. 7(d), Department of Housing and Urban Development Act, 42 U.S.C. 3535(d).

Office of Administration

[Docket No. N-87-1696]

Submission of Proposed Information Collections to OMB

AGENCY: Office of Administration, HUD.

ACTION: Notice.

SUMMARY: The proposed information collection requirements described below have been submitted to the Office of Management and Budget (OMB) for review, as requred by the Paperwork Reduction Act. The Department is soliciting public comments on the subject proposals.

ACTION: Interested persons are invited to submit comments regarding these proposals. Comments should refer to the proposal by name and should be sent to: John Allison, OMB Desk Officer, Office of Management and Budget, New Executive Office Building, Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: David S. Cristy, Reports Management Officer, Department of Housing and Urban Development, 451 7th Street, SW., Washington, DC 20410, telephone (202) 755-6050. This is not a toll-free number.

SUPPLEMENTARY INFORMATION: The Department has submitted the proposal described below for the collection of information to OMB for review, as required by the Paperwork Reduction Act (44 U.S.C. Chapter 35).

The Notice lists following information: (1) The title of the information collection proposal; (2) the office of the agency to collect the information; (3) the description of the need for the information and its proposed use; (4) the agency form number, if applicable; (5) what members of the public will be affected by the proposal; (6) how frequently information submissions will

be required; (7) an estimate of the total number of hours needed to prepare the information submission; (8) whether the proposal is new, an extension, reinstatement, or revision of an information collection requirement, or revision of an information collection requirement; and (9) the names and telephone numbers of an agency official familiar with the proposal and of the OMB Desk Officer for the Department.

Copies of the proposed forms and other available documents submitted to OMB may be obtained from David S. Cristy, Report Management Officer for the Department. His address and telephone number are listed above. Comments regarding the proposal should be sent to the OMB Desk Officer at the address listed above.

The proposed information collection requirement is described as follows:

Notices of Submission of Proposed Information Collection to OMB

Proposal: Statement and Voucher for Basic Annual Contribution-Leased Housing.
Office: Public and Indian Housing.
Description of the need for the information and its proposed use: The form provides essential information on the operations of PHAs which is used for multiple purposes by HUD, including identification of debts owed to the Department of HUD.
Form Number: HUD–52981.
Respondents: State or Local Governments and Non-Profit Institutions.
Frequency of Response: Annually.
Estimated Burden Hours: 389.
Status: Reinstatement.
Contact: Stephen Sprague, HUD, (202) 426–1872; John Allison, OMB, (202) 395–6880.

Proposal: PHA Utility Consumption Data; Water and Sewage Disposal Data.
Office: Public and Indian Housing.
Description of the need for the information and it proposed use: Most PHAs purchase utility service through master meters. These form are used by PHAs for compiling, by housing project and utility service, utility consumptions and costs for a calendar year. HUD engineers use the information in making reviews of PHA's utility operations. The purpose of these reviews is to determine whether PHAs are controlling utility costs.
Form number: HUD–51466a, 51466b, and 51466c.
Respondents: State or Local Governments and Non-Profit Institutions.
Frequency of respondents: Other.
Estimated burden hours: 12,000.
Status: Reinstatement.
Contact: Charles R. Ashmore, HUD, (202) 755–6640; John Allison, OMB, (202) 395–6880.

Proposal: Request for Payment of Subsidies for Operations.
Office: Public and Indian Housing.
Description of the need for the information and its proposed use: This form is used by HUD-assisted projects to request payment of operating subsidy. These data are needed by HUD field offices to review for accuracy of operating subsidies.
Form number: HUD–53087.
Respondents: State or Local Governments.
Frequency of response: Annually.
Estimated burden hours: 107.
Status: Extension.
Contact: Joanne D. Farmer, (202) 426–1872; John Allison, OMB, (202) 395–6880.

Proposal: Lenders Request for Termination of Home Mortgage Insurance.
Office: Administration.
Description of the need for the information and its proposed use: This report notifies HUD whenever a mortgage is paid in full, voluntarily terminated, or that a property will not be conveyed to HUD for insurance benefits. Information collected is used to delete a case from the insurance-in-force files and to discontinue billing the mortgagor for insurance premiums.
Form number: HUD–2344.
Respondents: Businesses or Other for-Profit.
Frequency of response: On Occasion.
Estimated burden hours: 235,495.
Status: Reinstatement.
Contact: Doris J. Neubert, HUD, (202) 755–0467; John Allison, OMB, (202) 395–6880.

Proposal: Contract and Subcontract Activity Report for Public and Indian Housing Programs.
Office: Public and Indian Housing.
Description of the need for the information and its proposed use: HUD is required to collect data on the dollar volume and type of Minority Business Enterprise (MBE) participation in HUD programs. The information submitted is mandated by Executive Orders 11625 and 12432 and will also be used to develop an annual report to the President.
Form number: HUD–2516.
Respondents: State or Local Governments, Businesses or Other For-Profit, and Small Businesses or Organizations.
Frequency of submission: Semi-annually.
Estimated burden hours: 3,400.
Status: Reinstatement.
Contact: Patricia G. Hampton, HUD, (202) 755–5383; John Allison, OMB, (202) 395–6880.

Proposal: PHA Tenant Selection Policies, 24 CFR 860.204.
Office: Public and Indian Housing.
Description of the need for the information and its proposed use: PHAs are required to develop policies and procedures which take into consideration both the needs of an individual applicant for low-income public housing and the needs of the community for a financially and socially sound housing program.
Form number: None.
Respondents: State or Local Governments.
Frequency or response: Recordkeeping.
Estimated burden hours: 20,100.
Status: Extension.
Contact: Edward C. Whipple, HUD, (202) 426–0744; John F. Morrall, OMB, (202) 395–6880.

Proposal: Public Housing Agency Personnel Practices Handbook, Comparability Survey, Appendix I.
Office: Public and Indian Housing.
Description of the need for the information and its proposed use: PHA Administrative staff salaries are required to be comparable to local public practice. PHAs may use Appendix I in conducting salary comparability surveys.
Form number None.
Respondents: State or Local Government.
Frequency of response: Recordkeeping.
Estimated burden hours: 1,875.
Status: New.
Contact: James H. Andrews, HUD, (202) 755–7970; John Allsion, OMB, (202) 395–6880.

Proposal: Survey of Self-Insured Property/Casualty Losses and Set Aside Reserve Funds.
Office: Public and Indian Housing.
Description of the need for the information and its proposed use: This information is essential for HUD's assessment of the self-insured property/casualty losses and set aside reserve funds of uninsured public housing agencies (PHAs). This will be accomplished by comparing the set aside reserve account to the total of the incurred losses and loss adjustment expense for all uninsured losses that occurred during the waiver period of Section 305 of the Annual Contributions Contract (ACC).
Form number None.
Respondents: State of Local Governments and Non-Profit Institutions.

Frequency of response: Annually.
Estimated burden hours: 88.
Status: New.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[ES–970–07–4121–14–2410; ES 36413]

Request for Public Comment on Fair Market Value, Maximum Economic Recovery and Environmental Assessment; Emergency Coal Lease Application; Alabama

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Public Comment.

SUMMARY: The Bureau of Land Management requests public comment on the fair market value, maximum economic recovery and environmental assessment of certain coal resources it proposes to offer for competitive lease sale.

The lands included in Emergency Coal Lease Application ES 36413 are located in Fayette and Tuscaloosa Counties, Alabama and are described as follows:

Sandy Point Tract

T. 17 S., R. 10 W., Huntsville Meridian
Sec. 17, SW¼SW¼;
T. 17 S., R. 11 W., Huntsville Meridian
Sec. 12, SE¼SW¼;
Sec. 13, E½NW¼.
Containing 120 Acres.

The Sandy Point Tract represents the continuation of an existing underground mining operation. The coal resource being offered is to be mined from the existing mine.

Approximately 1.2 million tons of coal are expected to be mined from the tract, which contains approximately 850 thousand tons of recoverable coal from the Pratt Seam of the Pratt Group. On average, the Pratt coal is medium-volatile B bituminous in rank, ranges from 30 to 75 inches in thickness, has a parting thickness of 2 to 12 inches, and is an excellent coking coal that contains relatively little ash and sulfur. The indicators of quality for Pratt coal on the tract are 2.5% moisture, 8.2% ash, 1.8% sulfur, and an average of 13,833 BTU/lb.

The public is invited to submit written comments on the fair market value and the maximum economic recovery of the tract.

In addition, notice is given that a public hearing will be held on June 3, 1987, on the environmental assessment, the proposed sale, the fair market value, and maximum economic recovery of the proposed lease tract.

DATES: Comments must be received on or before May 19, 1987.

ADDRESSES: For more complete data on this tract, please contact Mr. Henry Beauchamp at (601) 965–4405, or at the Jackson District Office, Bureau of Land Management, 300 Woodrow Wilson Drive, Suite 326, Jackson, Mississippi 39213.

The public hearing will be held on June 3, 1987 at 10:00 a.m. in the Conference Room, U.S. Geological Survey, Water Resources Division, 520 19th Avenue, Tuscaloosa, Alabama 35401.

FOR FURTHER INFORMATION CONTACT: Ms. Janet Hale at (703) 274–0225.

SUPPLEMENTARY INFORMATION: In accordance with the Federal coal management regulations 43 CFR Parts 3422 and 3425, not less than 30 days prior to the publication of a notice of sale, the Secretary shall solicit public comments on fair market value appraisal and maximum economic recovery and on factors that may affect these two determinations. Proprietary data marked as confidential may be submitted to the Bureau of Land Management, Jackson District Office, 300 Woodrow Wilson Drive, Suite 326, Jackson, Mississippi 39213 in response to this solicitation of public comments. Data so marked shall be treated in accordance with the laws and regulations governing the confidentiality of such information. A copy of the comments submitted by the public on fair market value and maximum economic recovery, except those portions identified as proprietary by the author and meeting exemptions stated in the Freedom of Information Act, will be available for public inspection at the Bureau of Land Management, Eastern States Office, 350 South Pickett Street, Alexandria, Virginia 22304 during regular business hours (7:30 a.m. to 4:00 p.m.) Monday through Friday.

Comments should be sent to the Bureau of Land Management, Jackson District Office, 300 Woodrow Wilson Drive, Suite 326, Jackson, Mississippi 39213 and should address, but not necessarily be limited to, the following information:

1. The method of mining to be employed in order to obtain maximum economic recovery of the coal;
2. The impact that mining the coal in the proposed leasehold may have on the area, including, but not limited to, impacts on the environment; and
3. Methods of determining the fair market value of the coal to be offered.

The coal characteristics given above may or may not change as a result of comments received from the public and changes in market conditions that occur between now and the time at which final economic evaluations are completed.

R. Gale Wilson,

Acting State Director.

SUPPLEMENTARY INFORMATION: During the week of January 13, 1986, the following described public land was sold and purchase monies paid under section 203(a) of the Federal Land Policy and Management Act of October 21, 1976, 90 Stat. 2750, 43 U.S.C. 1713:

Gila and Salt River Meridian, Arizona

T. 19 N., R. 20 W.
Sec. 14, lot 12
Sec. 23, lots 11 to 14, incl., lots 16 and 17;
The area described aggregates approximately 5.37 acres of public land in Mohave County.

The land is involved in the lawsuit of National Wildlife Federation vs. Robert F. Burford et al., Civil Action 85–2238. On February 10, 1986, a court injunction prohibited the Bureau of Land Management from issuing patent even though purchase monies had been

received. The purpose of the notice is to protect the land until the lawsuit is resolved and patents transferring title to the purchasers can be issued.

Environmental Impact Statement; Honeoye Creek Wetland Project, NY

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

FOR FURTHER INFORMATION CONTACT: Ralph W. Abele, U.S. Fish and Wildlife Service, One Gateway Center, Suite 700, Newton Corner, Massachusetts 02158, (617) 965-5100, Extension 382.

Summary

Pursuant to the New York State Environmental Quality Review Act (SEQRA), the National Environmental Policy Act (NEPA), and implementing regulations, the New York State Department of Environmental Conservation (the "Department") and the United States Fish and Wildlife Service (the "Service") jointly issue this Record of Decision/Statement of Findings upon consideration of the Final Environmental Impact Statement (FEIS) on the Honeoye Creek Wetland Project.

The Department and the Service have evaluated and considered the alternatives for the long range conservation and management of the Honeoye Creek Wetland presented in the FEIS and have reviewed the public comments. Based on that evaluation and review, the Department and the Service have selected the Proposed Action Alternative described in the FEIS for implementation. This determination was based on a thorough analysis of environmental, social, economic and other essential considerations.

Background

The Honeoye Creek Wetland was selected as a candidate for public acquisition and management with State Funds under the 1972 Environmental Quality Bond Act and Federal Funds under the Pittman-Robertson Act. The wetland consists of approximately 800 acres of emergent marsh and wooded swamp located in the Town of Richmond, Ontario County, New York, just north of the hamlet of Honeoye. Surrounding the wetland is an area of productive agricultural land and other uplands totaling an additional 1300 acres that have been proposed for acquisition and management to provide access to the wetland and to serve as a buffer zone for the wetland.

The primary goals of the Department in this area are the long term preservation of the wetlands, the fostering of public use and enjoyment of the area, and the management of habitat in the wetland and adjoining uplands to enhance wildlife populations.

The public participation process on this proposal began in 1978 with contacts to determine landowner interest in the acquisition program. Since that time extensive public input has occurred including public information meetings, civic and environmental organization presentations, formal hearings, and public comment periods.

The Selected Alternative

The selected alternative is the Proposed Action described in the FEIS. This alternative was developed by a committee comprised of representatives of the landowners, the Town of Richmond, the Department, and former State Assemblyman Richard Wesley. The committee was formed in 1985 to explore means of compatibly resolving the concerns of local residents and the goals of the Department. The committee held a lengthy series of meetings, during which the elements of the Proposed Action alternative were developed.

This alternative involves the execution and implementation of voluntary cooperative agreements between the landowners and the Department, as authorized by section 24-0901 of the Environmental Conservation Law. These agreements may apply to lands within the "Project Area" (the wetland and a 100 foot buffer area) or the "Optional Cooperative/Purchase Agreement Area" (uplands surrounding the "Project Area"), or both (see attached map). The agreements will contain certain common provisions, but will be individually negotiated and reasonably tailored to each landowner's needs and desires. The basic purpose of the agreements will be to limit land uses and developments that are incompatible with wetland preservation and to provide for certain public uses of lands subject to the agreements. In addition, the agreements may provide for management activities such as planting

of designated grasses, shrubs and trees, special mowing practices, and construction of ponds.

This alternative provides great flexibility to the landowner. He may choose to sell land to the Department, sell a less-than-fee interest, enter into a cooperative agreement, sell to another private individual or retain full ownership and control. At the same time, the alternative meets the Department's basic objectives of wetland preservation and public use and enhancement. Construction of access sites, trails, water areas, boundary and informational signs, and the establishment and maintenance of wildlife food, cover, and nesting areas would be accomplished on the area over time.

Maintenance of viable agricultural activity by private parties is included in the alternative both on lands purchased by the Department and on lands under cooperative agreements. Agricultural uses on public lands would be conducted pursuant to special permits that include certain conditions to protect the wetland. The Department's experience with special permits in other wetland areas demonstrates that these conditions do not unreasonably impede agricultural activities. Few, if any, agricultural restrictions would be imposed on lands under cooperative agreements, other than a limitation on drainage of wetland for conversion to agricultural use.

As it proceeds to implement this project, the Department will continue to meet with two existing committees that are concerned about certain aspects of the project. The committee of local landowners and Town of Richmond representatives will meet as appropriate to discuss the form and content of the cooperative agreements, the Department's timetable for project implementation and other matters of local concern. Concurrently, the Department will work with a committee of agricultural experts, including representatives of the Department of Agriculture and Markets, to develop guidelines for agricultural practices on lands within the Honeoye Creek Wetland Project area and similar areas (agricultural practicies on lands purchased with Federal assistance funding must be of benefit to wildlife resources on those lands).

Other Alternatives Considered

Five reasonable alternatives were presented in the FEIS in addition to the Proposed Action. The no action proposal would involve the Department only to the extent of implementing existing environmental laws and regulations within the project area. Current trends of land use would continue as regulated by local governments. Increased residential and commercial development would likely occur, resulting in losses of wetland and wildlife habitat. The natural and human-expedited processes of eutrophication and succession in the wetland could reduce its size and value over time. Unpredicted land uses could occur that would detrimentally affect the conservation of the area's natural resources.

The Full Potential Alternative would involve State acquisition of lands and property rights within the entire 2100-acre area. After acquisition, development of public use facilities, a large waterfowl impoundment, smaller water, areas, and other measures to benefit wildlife would occur. Some agricultural land would be converted to public uses. Regulated public recreational uses would be permitted on all lands acquired. This alternative would be the most expensive, is the most controversial due to the real and perceived environmental, social and economic impacts, but would have best met the Department's goals for this area.

The Reduced Impoundment Alternative also envisioned the acquisition of lands and real property interests within the entire 2100-acre area, but less would be needed in fee. Development of public use facilities, a smaller impoundment, water areas and habitat management activities would occur. Regulated public recreational uses would be permitted, and some loss of agricultural land would occur. The environmental, social and economic impacts would be considerable, though somewhat less than the Full Potential Alternative. Moreover, this alternative is controversial in the local community and it would be expensive to implement.

The Wetland Preservation Alternative discussed the purchase of only the wetland, a minimal buffer area around it, selected access sites, and lands of the Nature Conservancy at the north end of the area. This action would serve to eliminate direct loss of the wetland, but would not address indirect losses due to eutrophication and succession. Limited public access and use would result. Environmental, social and economic impacts were identified as being less than the Reduced Impoundment Alternative, and some looal support for this alternative was evident. However, this alternative would not have met some of the Department's goals and it remained quite controversial in the local community.

The Nature Conservancy Alternative involved the transfer of ownership of approximately 635 acres of land, including about 25 acres of the Honeoye Creek Wetland proper, to the Department. No wetland enhancement would be done, but public access and use of these lands would be permitted and some upland management to complement the wetland would have been performed. Social, economic and environmental impacts would have been minimal with this alternative, but the Department's goals for the nearby wetland area would have remained largely unsatisfied.

The Minimization of Impacts and Public Concerns

The Proposed Action alternative incorporates measures to minimize the adverse environmental, social and economic impacts as much as practicable. Through the exhaustive public participation process, the means to accomplish the goals and objectives of the landowners, the Town and the Department were identified, discussed, and modified to the point where major issues of controversy have been substantially resolved. Continued public participation during project implementation will further reduce real or perceived impacts on social and natural resources. The specific measures to minimize impacts of and public concerns about the selected alternative are identified in the Findings and Decision section of this document.

Findings and Decisions

Having reviewed and considered the FEIS for the Honeoye Creek Wetland Project and the public comments thereon, the Department and the Service find as follows:

1. The requirements of SEQRA, NEPA and implementing regulations have been satisfied; and

2. Statutory authority for the project exists under Articles 3, 11, 24 and 51 of the Environmental Conservation Law and implementing regulations; and

3. Statutory authority for the Service's funding of the project exists under the Pittman-Robertson Act, 16 U.S.C. 669–669i; and

4. The Proposed Action alternative represents the best balance between the Department's goals and objectives and the public concerns identified through the public participation process; and

5. Consistent with social, economic and other essential considerations from among the reasonable alternatives thereto, the Proposed Action alternative is one which minimizes or avoids adverse environmental effects to the maximum extent practicable, including the effects disclosed in the FEIS; and

6. Consistent with the social, economic and other essential considerations, to the maximum extent practicable, adverse environmental effects revealed in the environmental impact statement process will be minimized or avoided by incorporating as conditions to the decision those mitigative measures which were identified as practicable.

Having made the above findings, the Service and the Department have decided to proceed, as funding permits, with implementation of the Proposed Action alternative, including the development, negotiation and execution of cooperative agreements; the transfer of lands from the Nature Conservancy to the Department; the purchase of lands from willing sellers within the Project Area and the Optional Cooperative/Purchase Agreement Area; and the implementation of development and management measures on lands acquired by the Department or subject to cooperative agreements. The decision to implement this alternative is subject to the following conditions that will minimize or avoid the environmental impacts and public concerns identified during the environmental impact statement process:

a. The Department will continue to meet with the committee of local landowners and Town of Richmond representatives to discuss the form and content of cooperative agreements, plans for implementation of the project, and other matters of public concern.

b. The Department will participate on a committee of agricultural experts and representatives to develop guidelines for agricultural practices on lands owned by the Department, or subject to cooperative agreements with the Department (agricultural practices on land purchases with Federal assistance funding must be of benefit to wildlife resources on those lands).

c. In connection with this project, the Department will exercise the power of eminent domain within the Project Area and the Optional Cooperative/Purchase Agreement Area only after complying with the requirement of the Eminent Domain Procedures Law and in the following circumstances:

(1) A landowner consents to appropriation in order to clear title to his land, resolve a disagreement over the value of his land, or for other reasons.

(2) An imminent land use or development threatens the wetland and/or its benefits and the threat cannot be resolved by other means.

d. Small impoundments may be created in the project area and in the optional/purchase agreement area by the construction of dikes provided that the impoundment has been demonstrated to have no significant adverse effects on any adjacent properties. DEC will prepare a plan for the development of all such impoundments and shall provide notice of the completion of the plan to all project area landowners and the Town of Richmond at or prior to the time that the first application for necessary regulatory approval of an impoundment is filed. In addition, notice of the proposed construction of each impoundment will be provided by DEC to all project area landowners at the time the first application for regulatory approval of the impoundment is filed. All applicable regulatory requirements and approvals including the Federal Flood Insurance and Corps of Engineers requirements and ECL Article 8, Environmental Quality Review; Article 15, Stream disturbance and dam construction; and Article 24, Wetlands; will be satisfied or obtained.

e. Construction-related impacts on wildlife, such as noise, soil disturbance, and human activity, will be minimized by timing these activities to occur in mid-summer and early fall when wildlife would be least disturbed.

f. Construction-related erosion and siltation will be controlled by seeding and other conservation measures.

This Statement of Findings/Record of Decision will serve as the written facts and conclusions relied upon in reaching this decision. This statement of Findings/Record of Decision was approved by Henry G. Williams, Commissioner of the New York State Department of Environmental Conservation.

Dated: April 14, 1987.

Receipt of Application for Permit

The public is invited to comment on the following application for a permit to conduct certain activities with marine mammals. The application was submitted to satisfy requirements of the Marine Mammal Protection Act of 1972, *as amended* (16 U.S.C. 1361 *et seq.*, the Endangered Species Act of 1973, *as amended* (16 U.S.C. 1531, *et seq.*) and the regulations governing marine mammals and endangered species (50 CFR Parts 17 and 18).

Applicant: Name: Natural History Museum of Los Angeles County, 900 Exposition Blvd., Los Angeles, California 90007, File No. PRT-717015.

Type of Permit: Scientific Research.

Name of Animals: All species of Cetacea (whales, porpoises, and dolphins), all species of Pinnipedia (seals and walrus), all species of Sirenia

(manatees and dugongs), sea otters and marine otters.

Summary of Activity to be Authorized: The applicant proposes to import these animals for research on species distribution and for disposition in the Mammal Collection.

Source of Marine Mammals for Research: Specimens to be salvaged from naturally occurring strandings or salvaged as a result of fishing boat incidental takes, mortalities due to research or management programs or from specimens killed by subsistance users.

Period of Activity: 5 years.

Concurrent with the publication of this notice in the Federal Register, the Federal Wildlife Permit Office is forwarding copies of this application to the Marine Mammal Commission and the Committee of Scientific Advisors for their review.

Written data or comments, requests for copies of the complete application, or requests for a public hearing on this application should be submitted to the Director, U.S. Fish and Wildlife Service (FWPO), 1000 North Glebe Road, Room 611, Arlington, Virginia 22201, within 30 days of the publication of this notice. Anyone requesting a hearing should give specific reasons why a hearing would be appropriate. The holding of such hearing is at the discretion of the Director.

Documents submitted in connection with the above application are available for review during normal business hours (7:45 am to 4:15 pm) in Room 601 N. Glebe Road, Arlington, Virginia.

Advisory Committee on Water Data for Public Use; Meeting

Pursuant to Pub. L. 92-463, effective January 5, 1973, notice is hereby given that an open meeting of the Advisory Committee on Water Data for Public Use (ACWDPU) will be held May 19-21, 1987, at the Omni Charlottesville Hotel, 235 West Main Street, Charlottesville, Virginia. This Committee will meet in conjunction with its Federal counterpart, the Interagency Advisory Committee on Water Data (IACWD), and jointly discuss the status of the Nation's water-quality information activities. Other topics of discussion will be nationwide water-quality data collection and analysis activities and ways of improving water-quality information.

The ACWDPU consists of individuals and representatives of water resources-oriented groups, including national, State, and regional organizations, professional and technical societies, and the academic community. Its principal responsibility is to represent the interests of the non-Federal community in plans, policies, and procedures related to water data programs. The Director of the U.S. Geological Survey (USGS) is Chairman of the Committee.

The IACWD represents the interests of Federal agencies involved in the acquisition or use of water data. It has a continuous responsibility to advise the Department of the Interior, through USGS, on activities pursuant to the coordination of Federal water data activities. The Chief Hydrologist of the Water Resources Division, USGS, is Chairman of the Committee.

The meeting will convene at 8 a.m. on Tuesday, May 19, 1987. Specific items on the agenda include reports from numerous Federal agencies concerning their water-quality activities. Agencies reporting include the U.S. Army Corps of Engineers, the Environmental Protection Agency, the Soil Conservation Service, and USGS. A panel will discuss nationwide water-quality analysis activities, and work groups will address problems that may be identified. The meeting will adjourn at 11:45 a.m. on Thursday, May 21, 1987.

The meeting will be open to the public, and anyone wishing to attend or desiring additional information should contact Donald K. Leifeste, Acting Chief, Office of Water Data Coordination, U.S. Geological Survey, 417 National Center, Reston, Virginia 22092. His telephone number is (703) 648-5016. A report summarizing the meeting will be available approximately 4 weeks after the meeting.

Dated: April 17, 1987.

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 303-TA-18 (Final) and 731-TA-332 and 333 (Final)]

Certain Fresh Cut Flowers From Peru, Kenya, and Mexico

Determinations

On the basis of the record [1] developed in its countervailing duty investigation, the Commission has made its determinations pursuant to section 303(a) of the Tariff Act of 1930 (19 U.S.C. 1303), as amended (the "Act"). In the tabulation of the Commission's determinations which follows, a determination of "affirmative" indicates that the Commission determines that an industry in the United States is materially injured by reason of imports of certain fresh cut flowers,[2] provided for in items 192.17 and 192.21 of the Tariff Schedules of the United States (TSUS),[3] which have been found by the U.S. Department of Commerce to be subsidized by the government of Peru:

Country	Investigation No.	Product	Determination
Peru	303-TA-18 (Final)	Miniature carnations	Negative [1]
		Pompom chrysanthemums	Affirmative [2]
		Gypsophila	Negative

[1] Commissioners Eckers and Rohr find threat of material injury. They would not have found material injury by reason of the imports but for suspension of liquidation of that merchandise.
[2] Chairman Liebeler and Vice Chairman Brunsdale dissenting.

On the basis of the record developed in its antidumping investigations, the Commission has made its determinations pursuant to section 735(b) of the Act (19 U.S.C. 1673d(b)). In the tabulation of the Commission's determinations which follows, a determination of "affirmative" indicates that the Commission determines that an industry in the United States is materially injured by reason of imports of certain fresh cut flowers,[2] provided for in items 192.17 and 192.21 of the TSUS, which have been found by the U.S. Department of Commerce to be sold in the United States at less than fair value:

Country	Investigation No.	Product	Determination
Kenya	731-TA-332 (Final)	Standard carnations	Affirmative [1]
		Miniature carnations	Negative
Mexico	731-TA-333 (Final)	Standard carnations	Affirmative [1]
		Standard chrysanthemums	Affirmative [1]
		Pompom chrysanthemums	Affirmative [1]

[1] Chairman Liebeler and Vice Chairman Brunsdale dissenting.

[1] The record is defined in sec. 207.2(i) of the Commission's rules of practice and procedure (19 CFR 207.2(i)).

[2] A determination of "negative" indicates that the Commission determines that an industry in the United States is not materially injured, nor threatened with material injury, nor is the establishment of an industry in the United States materially retarded, by reason of imports of certain fresh cut flowers.

[3] Miniature carnations are provided for in item 192.17 of the Tariff Schedules of the United States (TSUS). All other fresh cut flowers subject to these investigations are provided for in item 192.21 of the TSUS.

Background

On October 27, 1986, the U.S. Department of Commerce published its preliminary determination that benefits which constitute bounties or grants are being provided to producers of exporters of certain fresh cut flowers in Peru. On November 3, 1986, Commerce published its preliminary determinations that certain fresh cut flowers from Kenya and Mexico are being, or are likely to be, sold in the United States at less than fair value. Accordingly, effective October 27, 1986, the U.S. International Trade Commission instituted final investigations under the applicable provisions of the Tariff Act of 1930 to determine whether an industry in the United States is materially injured, or is threatened with material injury, or the establishment of an industry in the United States is materially retarded by reason of imports of the subject products into the United States.

Notice of the institution of the Commission's investigations and of a public hearing to be held in connection therewith was given by posting copies of notices in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing notices in the **Federal Register** of November 19, 1986 (51 FR 41840), and January 7, 1987 (52 FR 610). The Commission's hearing was held in Washington, DC, on February 2, 1987, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission transmitted its determinations in these investigations to the Secretary of Commerce on April 9, 1987. The views of the Commission are contained in USITC Publication 1968 (April 1987), entitled "Certain Fresh Cut Flowers from Peru, Kenya, and Mexico: Determinations of the Commission in Investigations Nos. 303–TA–18 (Final) and 731–TA–332 and 333 (Final) Under the Tariff Act of 1930, Together with the Information Obtained in the Investigations."

By order of the Commission.

Issued: April 13, 1987.

Kenneth R. Mason,

Secretary.

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

Importation of Controlled Substances; Application; Sigma Chemical Co.

Pursuant to section 1008 of the Controlled Substances Import and Export Act (21 U.S.C. 958(i)), prior to issuing a registration under this section to a bulk manufacturer of a controlled substance in Schedule I or II, and prior to issuing a regulation under section 1002(a) authorizing the importation of such a substance, the Attorney General shall provide manufacturers holding registrations for the bulk manufacture of the substance an opportunity for a hearing.

Therefore, in accordance with § 1311.42 of Title 21, Code of Federal Regulations (CFR), notice is hereby given that on February 23, 1987, Sigma Chemical Company, 3500 Dekalb Street, St. Louis, Missouri 63118, made application to the Drug Enforcement Administration to be registered as an importer of the basic classes of controlled substances listed below:

Drug	Schedule
Methaqualone (2565)	I
Ibogaine (7260)	I
Lysergic acid diethylamide (7315)	I
Marihuana (7360)	I
Tetrahydrocannabinols (7370)	I
Mescaline (7381)	I
3,4-methylenedioxymethamphetamine (MDMA), its optical, positional and geometric isomers, salts and salts of isomers (7405).	I
Bufotenine (7433)	I
Diethyltryptamine (7434)	I
Dimethyltryptamine (7435)	I
Psilocyn (7438)	I
Heroin (9200)	I
Amphetamine, its salts, optical isomers, and salts of its optical isomers (1100).	II
Methamphetamine, its salts, isomers, and salts of its isomers (1105).	II
Secobarbital (2315)	II
Phencyclidine (7471)	II
Anileridine (9020)	II
Cocaine (9041)	II
Codeine (9050)	II
Benzoylecgonine (9180)	II
Morphine-3-Glucuronide (9329)	II

A maximum of 25 grams for each of the above listed substances will be imported annually and will be utilized in researcher or analytical studies.

Any manufacturer holding, or applying for, registration as a bulk manufacturer of these basic classes of controlled substance may file written comments on or objections to the application described above and may, at the same time, file a written request for a hearing on such application in accordance with 21 CFR 1301.54 in such form as prescribed by 21 CFR 1316.47.

Any such comments, objections or requests for a hearing may be addressed to the Deputy Assistant Administrator, Drug Enforcement Administration, United States Department of Justice, 1405 I Street NW., Washington, DC 20537, Attention: DEA Federal Register Representative (Room 1112), and must be filed no later than May 27, 1987.

This procedure is to be conducted simultaneously with and independent of the procedures described in 21 CFR 1311.42 (b), (c), (d), (e) and (f). As noted in a previous notice at 40 FR 43745–46 (September 23, 1975), all applicants for registration to import a basic class of any controlled substance in Schedule I or II are and will continue to be required to demonstrate to the Deputy Assistant Administrator of the Drug Enforcement Administration that the requirements for such registration pursuant to 21 U.S.C. 958(a), 21 U.S.C. 823(a), and 21 CFR 1311.42 (a), (b), (c), (d), (e) and (f) are satisfied.

Dated: April 21, 1987.

Gene R. Haislip,

Deputy Assistant Administrator, Office of Diversion Control, Drug Enforcement Administration.

BILLING CODE 4410-09-M

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Records Schedules; Availability

AGENCY: National Archives and Records Administration, Office of Records Administration.

ACTION: Notice of availability of proposed records schedules; request for comments.

SUMMARY: The National Archives and Records Administration (NARA) publishes notice at least once monthly of certain Federal agency requests for records disposition authority (records schedules). Records schedules identify records of sufficient value to warrant preservation in the National Archives of the United States. Schedules also authorize agencies after a specified period to dispose of records lacking administrative, legal, research, or other value. Notice is published for records schedules that (1) propose the destruction of records not previously authorized for disposal, or (2) reduce the retention period for records already authorized for disposal. NARA invites public comments on such schedules, as required by 44 U.S.C. 3303a(a).

DATE: Requests for copies must be received in writing on or before June 8, 1987. Once the appraisal of the records is completed, NARA will send a copy of the schedule. The requester will be given 30 days to submit comments.

ADDRESS: Address requests for single copies of schedules identified in this notice to the Records Appraisal and Disposition Division (NIR), National Archives and Records Administration, Washington, DC 20408. Requesters must cite the control number assigned to each schedule when requesting a copy. The control number appears in parentheses immediately after the name of the requesting agency.

SUPPLEMENTARY INFORMATION: Each year U.S. Government agencies create billions of records on paper, film, magnetic tape, and other media. In order to control this accumulation, agency records managers prepare records schedules specifying when the agency no longer needs the records and what happens to the records after this period. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. These comprehensive schedules provide for the eventual transfer to the National Archives of historically valuable records and authorize the disposal of all other records. Most schedules, however, cover records of only one office or program or a few series of records, and many are updates of previously approved schedules. Such schedules also may include records that are designated for permanent retention.

Destruction of records requires the approval of the Archivist of the United States. This approval is granted after a thorough study of the records that takes into account their administrative use by the agency of origin, the rights and interests of the Government and of private persons directly affected by the Government's activities, and historical or other value.

This public notice identifies the Federal agencies and their subdivisions requesting disposition authority, includes the control number assigned to each schedule, and briefly describes the records proposed for disposal. The records schedule contains additional information about the records and their disposition. Further information about the disposition process will be furnished to each requester.

Schedules Pending Approval

1. *Department of the Air Force (N1-AFU-86-66).* Force and Financial Program (F & FP) records (schedule provides for permanent retention of record sets of program documents).

2. *Department of Agriculture, Agricultural Research Service, Bureau of Human Nutrition and Home Economics (defunct) (N1-176-87-1).* Memoranda of understanding between experiment stations and state university home economics departments.

3. *Interstate Commerce Commission, Office of the Secretary, Dockets Branch (NC1-134-83-1).* Public dockets.

4. *Defense Logistics Agency, Office of Personnel Management (N1-361-86-6).* Records relating to personnel position management reviews.

NUCLEAR REGULATORY COMMISSION

[Docket No. 40-8027; DD-87-07]

Sequoyah Fuels Corp.; Gore Oklahoma Facility; Issuance of Director's Decision Under 10 CFR 2.206

Notice is hereby given that the Director of the Office of Nuclear Materials Safety and Safeguards has taken action with regard to five Petitions for action under 10 CFR 2.206 with respect to the Sequoyah Fuels Corporation's Gore, Oklahoma Facility.

By Memorandum and Order dated October 10, 1986, Judge Frye, the presiding officer in a proceeding to authorize operation of the Sequoyah Fuels Corporation (SFC) to convert depleted uranium hexafluoride (UF6) to depleted uranium tetrafluoride (UF4), referred several matters to the staff for consideration under 10 CFR 2.206. The matters referred to the staff were raised in a motion filed on June 8, 1986, by Barbara Synar in the UF6 to UF4 proceeding. In that motion, entitled "Response to Order of May 22, 1986." Ms. Synar requested that the NRC deny SFC's application for a UF4 facility, close the existing facility, and require the decommissioning of the SFC operator. As grounds for her request, she raised, among other matters, concerns regarding SFC's ammonium nitrate fertilizer program. Similar concerns regarding SFC's fertilizer program were raised in letters to the Commission by Native Americans for a Clean Environment (NACE) dated May 22; Paula Strachan, dated June 10; and David Singer Burtner, dated June 26 and September 23, 1986. All of these individuals requested that the Commission hold formal public hearings on SFC's fertilizer program.

In his October 10 Memorandum and Order, Judge Frye referred the portion of Ms. Synar's motion concerning SFC's ammonium nitrate fertilizer program and the above referenced letters to the staff for consideration under § 2.206.

On July 18, 1986, Ed Henshaw filed a motion in the UF6 to UF4 proceeding entitled "Motion to Accept Specific Compliants" in which, among other matters, he raised concerns regarding the adequacy of security at the Sequoyah Fuels facility. In his October 10th Memorandum and Order, Judge Frye referred this portion of Mr. Henshaw's motion to the staff for consideration under § 2.206.

Upon consideration of the Petitions, the Director of the Office Nuclear Safety and Safeguards has determined that the allegations raised do not provide an adequate basis for the relief requested. The reasons are fully described in the "Director's Decision under 10 CFR 2.206" (DD-87-07) which is available for public inspection in the Commission's Public Document Room located at 1717 H Street, NW., Washington, DC 20555, and in the local public document room for the Sequoyah Fuels Facility located at the Sallisaw City Public Library, 101 E. Cherokee, Sallisaw, Oklahoma 74955.

A copy of the Director's Decision will be filed with the Secretary for the Commission's review in accordance with 10 CFR 2.206(c).

Dated at Bethesda, Maryland, this 21st day of April 1987.

For the Nuclear Regulatory Commission.

Director, Office of Nuclear Material Safety and Safeguards.

BILLING CODE 7590-01-M

[Docket Nos. 50-266 and 50-301]

Wisconsin Electric Power Co.; Point Beach Nuclear Plant, Unit Nos. 1 and 2; Consideration of Issuance of Amendments to Facility Operating Licenses and Proposed No Significant Hazards Consideration Determination and Opportunity for Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of amendments to Facility Operating License Nos. DPR-24 and DPR-27, issued to Wisconsin Electric Power Company (the licensee), for operating of Point Beach Nuclear Plant, Unit Nos. 1 and 2, located in the Town of Two Creeks, Manitowoc County, Wisconsin.

The amendments would modify Technical Specification 15.5.3 to remove certain limitations on the repair of leaking fuel rods so long as the repairs proposed during a given outage can be justified by a cycle-specific reload analysis. The current Technical Specifications allow repair of a fuel assembly which is suspected of leaking by substitution of an inert rod for a leaking rod, or removal of the leaking rod leaving a vacancy or "water hole." This repair method is presently limited

to no more than one fuel rod in any single assembly and no more than six such modified assemblies may be in the core at any time. The proposed amendments would remove these limitations so long as a cycle-specific reload analysis is completed which justifies that safety limits would not be violated. Additionally, the proposed amendments would require that should filler rods be inserted into the vacancies, these rods will consist of either Zircaloy 4 or stainless steel in accordance with the licensee's applications for amendments dated March 12 and April 10, 1987.

Before issuance of the proposed license amendments, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act) and the Commission's regulations.

The Commission has made a proposed determination that the amendment request involves no significant hazards consideration. Under the Commission's regulations in 10 CFR 50.92, this means that operation of the facility in accordance with the proposed amendment would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety.

The Commission has provided guidance concerning the application of the standards for determining whether a significant hazards consideration exists by providing certain examples in 51 FR 7751. The examples of actions which involve no significant hazards consideration include Example (iii) which states: "For a nuclear power reactor, a change resulting from a nuclear reactor core reloading, if no fuel assemblies significantly different from those found previously acceptable to the NRC for a previous core at the facility in question are involved. This assumes that no significant changes are made to the acceptance criteria for the technical specifications, that the analytical methods used to demonstrate conformance with the technical specifications and regulations are not significantly changed, and that the NRC has previously found such methods acceptable."

The licensee is not proposing to load fuel assemblies significantly different from those already approved for their facilities by the NRC. The licensee is merely requesting to eliminate the restrictions currently in effect relating to the number of assemblies and rods per assembly which may be repaired in accordance with approved repair procedures. The licensee has also indicated that all applicable safety criteria and margins will be met as supported by a cycle-specific reload analysis.

The licensee has evaluated the proposed change in accordance with the criteria of 10 CFR 50.92 to determine if the proposed amendments involve a significant hazards consideration. A proposed amendment involves no significant hazards consideration if operation of the facility in accordance with the proposed amendment would not (1) involve a significant increase in the probability of consequences of an accident previously evaluated, (2) create the possibility of a new or different kind of accident from any accident previously evaluated, or (3) involve a significant reduction in a margin of safety.

The licensee has stated that the first criterion is met. The present Technical Specification allows for fuel rod substitution or vacancies. While the proposed change removes the limits specified for such cases, the requirement of satisfying a core-specific reload analysis remains in effect. By taking into account any fuel rod substitutions or vacancies, that analysis will verify that all applicable safety margins as defined in the licensing documents are not reduced. Therefore, there should be no increase in the probability or consequences of an accident.

The licensee also states that the second criterion is met. While fuel assemblies containing the rod substitutions or vacancies represent a change in the physical core configuration, it is not a significant change. Any such changes will be accounted for in the reload analysis. The proposed change states that rod substitutions or vacancies must be justified by reload analyses; therefore, the changes should not create the possibility of a new or different kind of accident.

The third criterion is also met for the same reasons described above. If the physical parameters of the reload core are evaluated as being within previously defined acceptance criteria, then a reduction in the margin of safety is precluded.

Based on the above, the staff proposes to determine that the amendments involve no significant hazards considerations.

The Commission is seeking public comments on this proposed determination. Any comments received within 30 days after the date of publication of this notice will be considered in making any final determination. The Commission will not normally make a final determination unless it receives a request for a hearing.

Written comments may be submitted by mail to the Rules and Procedures Branch, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Written comments may also be delivered to Room 4000, Maryland National Bank Building, 7735 Old Georgetown Road, Bethesda, Maryland, from 8:15 AM to 5:00 PM. Copies of written comments received may be examined at the NRC Public Document Room, 1717, H Street NW., Washington, DC. The filing of requests for hearing and petitions for leave to intervene is discussed below.

By May 27, 1987, the licensee may file a request for a hearing with respect to issuance of the amendments to the subject facility operating licenses and any person whose interest may be affecterd by this proceeding and who wishes to participate as a party in the proceeding must file a written petition for leave to intervene. Request for a hearing and petitions for leave to intervene shall be filed in accordance with the Commission's Rules of Practice for Domestic Licensing Proceedings" in 10 CFR Part 2. If a request for a hearing or petition for leave to intervene is filed by the above date, the Commission or an Atomic Safety and Licensing Board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel, will rule on the request and/or petition and the Secretary of the designated Atomic Safety and Licensing Board will issue a notice of hearing or an appropriate order.

As required by 10 CFR 2.714, a petition for leave to intervene shall set forth with particularity the interest of the petitioner in the proceeding, and how that interest may be affecterd by the results of the proceeding. The petition should specifically explain the reasons why intervention should be permitted with particular reference to the following factors: (1) The nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding on the petitioner's interest. The petition should also identify the specific aspect(s) of the subject matter of the proceeding as to which petitioner wishes to intervene. Any person who has filed a petition for leave to intervene or who has been admitted as a party may amend the petition without requesting leave of the Board up to fifteen (15) days prior to the

first prehearing conference scheduled in the proceeding, but such an amended petition must satisfy the specificity requirements described above.

Not later than fifteen (15) days prior to the first prehearing conference scheduled in the proceeding, a petitioner shall file a supplement to the petition to intervene which must include a list of the contentions which are sought to be litigated in the matter, and the bases for each contention set forth with reasonable specificity. Contentions shall be limited to matter within the scope of the amendments under consideration. A petitioner who fails to file such a supplement which satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, such to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing, including the opportunity to present evidence and cross-examine witnesses.

If a hearing is requested, the Commission will make a final determination on the issue of no significant hazards consideration. The final determination will serve to decide when the hearing is held.

If the final determination is that the amendment request involves no significant hazards consideration, the Commission may issue the amendments and make them effective, notwithstanding the request for a hearing. Any hearing held would take place after issuance of the amendments.

If the final determination is that the amendments involve a significant hazards consideration, any hearing held would take place before the issuance of any amendment.

Normally, the Commission will not issue the amendments until the expiration of the 30-day notice period. However, should circumstances change during the notice period such that failure to act in a timely way would result, for example, in derating or shutdown of the facility, the Commission may issue the license amendments before the expiration of the 30-day notice period, provided that its final determination is that the amendments involve no significant hazards consideration. The final determination will consider all public and State comments received. Should the Commission take this action, it will publish a notice of issuance and provide for opportunity for a hearing after issuance. The Commission expects that the need to take this action will occur very infrequently.

A request for a hearing or a petition for leave to intervene must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Docketing and Service Branch, or may be delivered to the Commission's Public Document Room, 1717 H Street NW, Washington, DC, by the above date. Where petitions are filed during the last ten (10) days of the notice period, it is requested that the petitioner promptly so inform the Commission by a toll-free telephone call to Western Union at (800) 325–6000 (in Missouri (800) 342–6700). The Western Union operator shoud be given Datagram Identification Number 3737 and the following message addressed to David Wigginton, Acting Project Director: petitioner's name and telephone number; date petition was mailed; plant name; and publication date and page number of this **Federal Register** notice. A copy of the petition should also be sent to the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555, and the Gerald Charnoff, Esq., Shaw, Pittman, Potts and Trowbridge, 2300 N Street NW, Washington, DC 20037, attorney for the licensee.

Nontimely filings of petitions for leave to intervene, amended petitions, supplemental petitions and/or requests for hearing will not be entertained absent a determination by the Commission, the presiding officer or the Atomic Safety and Licensing Board that the request should be granted based upon a balancing of factors specified in 10 CFR 2.714(a)(1)(i)–(v) and 2.714(d).

For further details with respect to this action, see the application for amendments which is available for public inspection at the Commission's Public Document Room, 1717 H Street NW, Washington, DC, and the Joseph P. Mann Library, 1516 Sixteenth Street, Two Rivers, Wisconsin.

OFFICE OF PERSONNEL MANAGEMENT

[G5–457]

Establishment of Prescribed Minimum Educational Requirements for the Soil Conservation Series

AGENCY: Office of Personnel Management.

ACTION: Notice.

SUMMARY: The Office of Personnel Management (OPM) has revised the prescribed minimum educational requirement for soil conservationists employed within the federal service. Soil conservation is a professional occupation and the revised requirements will facilitate the recruitment of qualified candidates for soil conservation in the Federal service. The minimum educational requirements for this occupation were last revised in 1970.

EFFECTIVE DATE: Notice effective February 1987.

ADDRESS: John E. Flannery, Division Chief, Qualification Standards Division, Career Entry Group; Office of Personnel Management, 1900 E Street NW., Washington, DC 20415.

FOR FURTHER INFORMATION CONTACT: John Flannery, (202) 653–5497.

SUPPLEMENTARY INFORMATION: In accordance with 5 U.S.C. 3308, OPM has established prescribed minimum educational requirements for soil conservationists employed within the Federal service. The requirements, the duties of the positions, and the reasons for OPM's decision that the requirements are necessary are set forth below: Soil Conservation Series, GS–457, GS–5 through GS–15.

Minimum Educational Requirements

Candidates for positions at all levels must show successful completion of paragraph A or B.

A. A full 4-year course of study in an accredited college or university leading to a bachelor's or higher degree with major study in soil conservation or closely related agricultural or natural resources fields such as agronomy, soil science, forestry, agricultural education, or agricultural engineering. The total course of study must have included 30 semester hours in an agricultural or natural resources field including at least 12 semester course hours in a combination of soils and crops or plant science. Of the 12 semester course hours, a minimum of 3 semester hours must be in soils, and 3 in crops or plant science.

B. A total of at least 30 semester hours of course work in one or more of the fields listed above in paragraph A, including 12 semester course hours in a combination of soils and crops or plant science. Of the 12 semester course hours a minimum of 3 semester hours must be in soils and 3 in crops or plant science. In addition to these requirements, candidates must have additional education or experience, which, when combined with the 30 semester hours of

course work, will total 4 years of education or 4 years of combined education and experience. The quality of such additional education or experience must have been sufficient to give the candidate professional and scientific knowledge equivalent to that normally acquired through the successful completion of a full 4-year course of study as described in paragraph A above.

Duties: Soil conservationists perform professional and scientific work in the conservation of soil and related environmental resources to achieve sound land use; and advise landowners, land managers, renters, and operators for farms, ranches, public land, commerical and residential acreage about planned treatment of property and how treatment can preserve, improve, and protect soil capabilities. Soil conservationists plan terraces and ponds, select cropping methods to reduce erosion, identify flood plains and acquifers for local governments, and develop conservation measures to reduce pollutants (sediment, pesticides, nutrients, organic wastes, salts, residue from saline soil and mine tailings) from reaching waterways. They advise community groups on the development of watershed projects that will lead to reduction of erosion, siltation, flooding, and the provision of recreational opportunities such as fishing, boating, and swimming.

Acquisition of Required Skills: Professional knowledge of the principles, concepts techniques, and practices of soil conservation or closely related agricultural or natural resource fields such as soil, agronomy, forestry, or agricultural engineering and of the underlying scientific concepts is essential for performing the work of soil conservation positions. The primary source for acquiring the necessary knowledge and preparation is through enrollment in a formal curriculum at an accredited college or university where professional instruction and guidance are available; where there are adequate scientific libraries, laboratories, and facilities for field study; where academic courses are arranged in a systematic, progressive sequence and where attainment of professional and scientific knowledge and skill may be competently assessed.

Reasons for Modifying Requirements: The revision in the minimum educational requirements increases the required academic course work in soils, crops, or plant science for those who apply for employment on the basis of education alone. The grouping of academic course work has been changed from the requirement described in the qualification standard published in 1970. This revision is designed to meet the need to assure fair and equitable consideration and placement for those who qualify on the basis of a combination of education and experience and for those who qualify on the basis of education alone. It also reflects the increased professional demands faced by soil conservationists resulting from current rural-urban land development and the corresponding need for complex technical soil and water conservation measures to minimize erosion losses as well as demands from new legislation extending soil conservation and water control requirements. OPM has decided, under the provisions of 5 U.S.C. 3308, that the duties of a professional soil conservationist position in the GS–457 series cannot be performed by an individual who does not have the minimum education prescribed above.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-24367; File No. SR-CBOE-87-11]

Self-Regulatory Organizations; Chicago Board Options Exchange, Inc.; Order Granting Accelerated Approval to Proposed Rule Change

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on March 20, 1987, the Chicago Board Options Exchange, Incorporated ("CBOE" or "Exchange") filed with the Securities and Exchange Commission the proposed rule change as described in Items, I, II and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Text of the Proposed Rule Change

By means of this rule change filing the Exchange requests approval to list a new Standard and Poor's 500 Stock Index (S&P 500) option contract, which contract (NSX) shall be the same as the Exchange's current S&P 500 option contract (SPX) with one exception: NSX's exercise settlement value shall be based on an index value derived from opening, rather than closing, prices on the last trading day prior to expiration. NSX's expiration months under Exchange Rule 24.9(b) shall be March, June, September, and December, each listed as soon as practicable after approval of this rule change filing.[1]

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

(A) Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

By means of this rule change filing, the Exchange seeks approval to list a new S&P 500 option contract (NSX), which would be the same as the current S&P 500 option contract (SPX), except that its exercise settlement value will be based on opening prices of each stock comprising the index on the last trading day prior to expiration. This value will be different than the current index value at any point in time, since the opening prices of the constituent stocks will be established at different times. NSX will have expiration months of March, June, September and December, the same expiration months as the S&P 500 futures contract.

The Exchange takes this action because the Chicago Mercantile Exchange (CME) has moved the S&P 500 futures contract's settlement value to opening prices on the delivery date. CBOE continues to believe that heightened volatility at expiration of index options and futures can better be addressed by improving procedures for information dissemination at the close of trading than by changing the terms of contracts to provide for exercise settlement based on opening prices. However, in light of the action of the CME, CBOE believes it should promptly provide investors in SPX an alternative contract valued on the same basis as the S&P 500 future. Introduction of NSX will provide investors with offsetting S&P 500 futures and SPX positions with a means of alleviating risk resulting from disparate valuation methods.

While a change to outstanding contracts would appear more straightforward than introduction of new contracts with changed terms, that

[1] The Exchange intends to review the results of the June expiration and determine whether to continue with the NSX contract. If the Exchange determines to retain the contract it will subsequently file for permanent approval of NSX for contracts beyond December 1987. This proposal will be subject to a full notice and comment period.

alternative is not available. The Options Clearing Corporation, out of justifiable concern for potential liability, has declined to alter the terms of outstanding contracts. Therefore, if a contract settling based on opening stock prices is to be available to investors for the June 1987 expiration, that can only be accomplished by introducing altered June contracts alongside outstanding June contracts.

CBOE recognizes that the existence of two S&P 500 options contracts in the same expiration month with different methods of valuation may give rise to confusion. However, CBOE believes that the potential for confusion should not be an obstacle to introduction of NSX. SPX is used primarily by institutional investors, who have indicated a need to have the option settle as the future does. In addition, the Exchange is developing and will implement an education program.

The statutory basis for the proposed rule change is section 6(b)(5) of the Securities Exchange Act of 1934 (the Act), in that the change will facilitate transactions in options on the S&P 500.

(B) Self-Regulatory Organization's Statement on Burden on Competition

The proposed rule change is designed to promote competition by permitting Exhange customers to choose between S&P 500 option contracts valued at opening (NSX) or at closing (SPX) prices for exercise settlement purposes.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

Written comments on this proposed rule change filing were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The Exchange requests that the proposed rule change be given accelerated effectiveness pursuant to section 19(b)(2) of the Act so that it can open June contracts for trading on Monday, April 20, following the April expiration. The proposed rule change must be effective prior to the commencement of trading in the June series of both the S&P 500 futures and current SPX option contracts in order for NSX to effectively parallel trading in the CME's S&P 500 contract.

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange, and in particular, the requirements of Section 6 and the rules and regulations thereunder. The proposed rule change will enable the CBOE to introduce an option contract that will settle based on the opening prices of component securities, while retaining the afternoon settlement procedures in its established SPX contract. NSX will provide investors with a means of offsetting positions in the CME's S&P 500 futures contract that will also settle based on opeing prices in component securities at the June expiration. NSX will have expiration months of June, September and December, the same months as the S&P 500 futures contract.

The Commission finds good cause for approving the proposed rule change prior to the thirthieth day after the date of publication of notice of filing thereof because of the need to introduce the contract prior to commencement of trading in the June S&P 500 contracts that is scheduled for Monday, April 20, 1987. As previsously noted, the Exchange intends to review the results of the June expiration and will then decide whether to file for permanent approval of NSX beyond the December contracts. Accordingly, the proposed rule change is hereby approved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW, Washington, DC. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted by May 18, 1987.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

Dated: April 17, 1987.

Shirley E. Hollis,

Assistant Secretary.

BILLING CODE 8010-01-M

[Release No. 34-24364; File No. SR-NASD-87-20]

Self-Regulatory Organizations; Proposed Rule Change by National Association of Securities Dealers, Inc. To Modify the Pilot Program Jointly Undertaken With the International Stock Exchange of the United Kingdom and the Republic of Ireland, Ltd.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on April 16, 1987, the National Association of Securities Dealers, Inc. ("NASD") filed with the Securities and Exchange Commission the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The National Association of Securities Dealers, Inc. ("NASD") is requesting that the Securities and Exchange Commission ("Commission") approve two modifications to the terms of the Pilot Program, contained in File No. SR-NASD-86-4, jointly undertaken by the NASD and the International Stock Exchange of the United Kingdom and the Republic of Ireland, Ltd. (the "Exchange"), formerly The Stock Exchange, London, England.

In its present form, the Pilot Program provides for an electronic exchange of market data between the NASD and the Exchange, without charge, on a group of securities of international interest. Such data is then retransmitted by the recipient (NASD or Exchange) to all subscribers of either the NASDAQ Level 2/3, TOPIC or TOPICLINE service. This proposed rule change will prospectively limit access to the subject market data, at no cost, solely to those NASDAQ market makers and Exchange dealers making markets in issues which are quoted in the linkage and traded in both marketplaces. Additionally, the rule change proposes to extend the term of the Pilot Program until June 3, 1989, a two-year period running from the

expiration of the Commission's interim approval order.[1]

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposal and discussed any comments it received on the proposal. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections (A), (B) and (C) below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

The purpose of this rule filing is twofold: (i) To obtain Commission approval of the NASD's Pilot Program with the Exchange for a full two years from the date of approval of this filing, and (ii) to permit continued access to linkage data at no additional cost only to those NASDAQ market makers and Exchange dealers making markets in one or more issues which are quoted in the linkage and traded in both market centers. Other parties wishing access to this data will have to pay the established fee for the NASD's National Quotation Data Service ("NQDS") or the Exchange's CRS Data Services.

Since the inception of the Pilot Program's historic quotation linkage in April, 1986, it has operated pursuant to a series of temporary approval orders issued by the Commission. The most recent order extended the Commission's approval of Pilot linkage only through June 3, 1987. This tentative approach has deterred commitment of additional resources to enhance automation capabilities in the areas of order handling and market surveillance. Moreover, this uncertainty has even prompted doubts about the viability of the Pilot Program itself. Accordingly, the NASD seeks Commission approval of the Pilot Program for a two-year term expiring on June 3, 1989. The NASD regards this as the minimum period needed to justify the application of further automation resources to the Pilot Program. In addition, approval for two years would encourage broader participation by international dealers, enhance opportunities for directing orders to the market offering the best price, improve liquidity in the markets for eligible securities, and promote complementary enhancements to international clearance and settlement processes. The NASD posits that a two-year extension of the Pilot Program is essential for a meaningful test of this historic experiment in the linkage of two world class securities markets.

As noted previously, the Commission has declined to grant permanent approval of the Pilot Program for a meaningful period. This hesitancy is not based on any regulatory concern arising from the day-to-day operation of the Pilot linkage. Rather, the Commission's stance relates to the fact that the broker/dealers able to access quotes disseminated via the linkage are not assessed a fee for that access. This issue was raised by one vendor of securities market information (hereinafter referred to as the "Vendor") during the Commission's notice and comment process on the original rule filing (File No. SR–NASD–86–4).[2] Vendor claimed that this aspect of the Pilot Program was anticompetitive because Vendor could not obtain access to linkage data (particularly market makers' quotations) from the NASD on the same terms as the Exchange and its member broker/dealers, *i.e.*, at no cost. Further, Vendor argued that the NASD was utilizing its status as a self-regulatory organization to impede competition from Vendor by virtue of the NASD's receiving quotation information from the Exchange on a preferential basis.

The NASD asserts that the competitive concerns raised by Vendor lack merit and appear based upon a misperception of the NASD's motivations in structuring member's access to Pilot Program data. The access parameters established in the original rule filing were intended to promote the broadest exposure of NASDAQ marketplace date among the Exchange's dealer firms (and vice versa). It was hoped that such breadth would stimulate trading interest in eligible securities among retail firms as well as dealers in the linked market centes. In sum, the structure of the original Pilot Program was designed to achieve a viable linkage between two distinct dealer markets in a limited group of securities traded internationally. That structure was not intended to disadvantage vendors of securities information nor to establish the NASD as a competitor of such vendors abroad.

The NASD and the Exchange remain committed to the concepts and goals underlying the structure of the Pilot Program. Achievement of those goals is dependent upon expanding applications of technology to the initial linkage. To allow this evolutionary process to continue, the NASD proposed to modify the Pilot Program's access terms respecting market data. This modification is designed to allay the competitive concerns previously raised by Vendor. The proposed modification will restrict access to linkage data without charge solely to those NASDAQ market makers and Exchange dealers making markets in issues that are quoted in the linkage and traded in both market centers.[3] With respect to the NASD's market makers, this is determinable by reference to the number of Level 3 terminals utilized by the participating firms that are capable of entering (and receiving) quotations in securities common to both markets. This limitation would result, for example, in approximately 109 NASDAQ market makers and 32 Exchange dealers in about 50 securities receiving data without charge, based on April 1987 usage data.[4] The aforementioned NASDAQ market makers could access quotations from the Exchange's dealers on approximately 1,634 NASDAQ Level 3 terminals.[5] Similarly, the Exchange's 32 dealer firms could access the NASDAQ market makers' quotes in the subject securities on approximately 1,400 terminals that receive TOPIC or TOPICLINE service and are located in the "dealing area" of those firms.[6]

[1] Securities Exchange Act Release No. 34–24292 (April 2, 1987).

[2] *See* letter from Daniel T. Brooks, Cadwalander, Wickersham & Taft, Counsel for Instinet Corporation, to John Wheeler, Secretary, Securities and Exchange Commission, dated April 16, 1986.

[3] For purposes of this limitation, the standard of a security "quoted in the linkage and traded in both market centers" would be satisfied where an ADR is quoted on NASDAQ and the underlying stock is quoted through the Exchange's TOPIC or TOPICLINE service.

[4] These numbers are subject to change as additional NASDAQ market makers and Exchange dealers commence market making activity in the linked securities common to both marketplaces.

[5] Assuming Commission approval of this rule change, both the NASD and the Exchange would require a brief period to implement the technical changes necessary to limit access to linkage data in accord with the revised terms set forth in this filing.

[6] The TOPIC/TOPICLINE terminals that will henceforth be authorized to receive information without charge are not directly comparable to NASDAQ Level 3 terminals. The Exchange dealers utilize the TOPIC/TOPICLINE terminals to receive other dealers' quotes as well as to disseminate their quotes. The SEAQ terminal, which is also used by Exchange dealers, basically serves as an input terminal and does not display the information covered by the Pilot Program. Since no equivalent exists to the NASDAQ Level 3 terminal, the Exchange conducted a survey to identify the number of TOPIC/TOPICLINE terminals that the subject firms use in conjunction with their dealer function. In this regard, the Exchange specifically

Continued

The concept underlying this proposal is that NASDAQ market makers and Exchange dealers in the linked securities constitute two separate market centers that are being joined by technology. The restrictions set forth in this proposal are intended to achieve reasonable equivalence in the information exchanged between two distinct marketplaces. The fact that these two markets provide for market making activities through electronic terminals, instead of conventional trading floors, should not preclude exchanging equivalent data without the formality of offsetting charges. The NASD posits that the limited sharing of information among market makers proposed in this filing equates to the communication of bids and offers on a physical exchange floor. Such activity is not a service offered in competition with vendors and is fully distinguishable from their distribution of market information to subscribers.

The conduct of the Pilot Program is completely distinguishable from but compatible with the vendors distributing information to the securities industry. Vendors complement the various marketplaces by disseminating certain securities information outside individual markets to a broad range of recipients that include the retail sales forces of brokerage firms, investment advisory and research firms, institutional and individual investors. However, the ability of any vendor to distribute this information requires securities information of sufficient value and integrity to warrant collection and processing by the marketplace for dissemination to the world through a diverse network of information providers.

What distinguishes the marketplace from a vendor are its functions in regulating all practices within the market relative to the integrity of quotations and the excution and reporting of transactions, and the developing of systems and services that will make the marketplace more efficient and economical for participants. The Pilot Program as modified by this filing is clearly a marketplace function and not a vendor function. To conclude otherwise would ignore several fundamental facts. The respective NASD and Exchange markets will not be providing information on the linked securities, without charge, to subscribers generally. Rather, they will only permit the exchange of information among the dealer firms for essentially equivalent value received in the form of comparable quotations. Moreover, the NASDAQ market makers or Exchange dealers receiving information on the limited group of securities from abroad are in fact required to pay a substantially higher price than the subscriber of a vendor. In the case of the NASDAQ market maker, the price paid for receipt of information from the Exchange is the continuous entry of quotations in one or more of those securities with the attendant economic risk inherent in market making. However, that price does not include access to the many other TOPIC services (or NASDAQ, from the perspective of Exchange dealers) which are beyond the scope of the Pilot Program.[7] Access to that information can be obtained only through subscription to the applicable service and payment of the customary fee.

In conclusion, the Pilot Program was created for the purpose of linking two world marketplaces through the application of technology. The linkage constitutes an important first step toward the establishment of regulatory programs of mutual benefit, the expansion of trading opportunities both here and abroad, the provision of more efficient markets and economic incentives to direct orders in linked securities to the best available market. Assuming Commission approval of this filing for a two-year term, a number of additional enhancements will be actively considered for implementation including: two-way dissemination of last sale reports in selected securities; linkage of the respective small order processing systems; development of a composite display of market makers' quotes from both market centers; and development of an automated confirmation procedure that will yield locked-in trades to facilitate clearance and settlement. Moreover, both markets will formulate appropriate refinements in their automated surveillance capabilities. Thus, much remains to be done for the Pilot Program to achieve its major contributions to the internationalization of the securities markets. Absent Commission approval of this rule change proposal, the internationalization process will suffer a major setback.

* * * * *

The NASD submits that the statutory bases for this filing are found in sections 11A(a)(1)(B) and (C), 15A(b)(6), and 17A(a)(1)(B) and (C) of the Securities Exchange Act of 1934 (the "Act"). Subsections (B) and (C) of section 11A(a)(1) set forth the Congressional goals of achieving more efficient and effective market operations, the availablility of information with respect to quotations for securities and execution of investor orders in the best market through the use of new data processing and communication techniques. Section 15A(b)(6) requires that the rules of the Association be designed "to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing inforamtion with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market. . . ." Section 17A(a)(1) expresses the Congressional goal of linking all clearance and settlement facilities and reducing costs involved in the clearance and settlement process through the use of new data processing and communications techniques. The NASD believes that SEC approval of the amended Pilot Program for a two year term will further these ends by providing the cooperative regulatory environment and operating experience necessary to achieve these advances in the international marketplace.

B. Self-Regulatory Organization's Statement on Burden on Competition

The NASD has consistently maintained that the operation of the Pilot Program was never intended to impose a burden on competition. To the contrary, the structure of the Pilot Program was fashioned to provide additional market making opportunities in the securities eligible for inclusion in the linkage. To date, only one party, Vendor, has objected to the operation of the Pilot Program based on competitive implications. Vendor's objection focuses upon a very narrow aspect of competition germane only to the information vendor community. Simply put, the concern is that vendors will be competitively disadvantaged if their subscribers can obtain the very limited market data information (approximately 300 issues from each partricipant) through the Pilot linkage without charge.

The NASD asserts that Vendor's arguments do not accurately reflect the nature and scope of the Pilot Program

requested that the firms tally the number of "screens" receiving TOPIC or TOPICLINE service, exclusive of those screens dedicated to research or retail usage. The figure of 1,400 terminals is a projection based upon responses received from approximately half the firms as of the date of this filing. Thus, if this proposal is approved, the remaining TOPIC/TOPICLINE terminals, estimated by the Exchange to be about 6,600 would no longer receive linkage data without charge.

[7] Presently, the universe of securities eligible for inclusion in the Pilot Program is approximately 600 issues, *i.e.*, about 300 from each respective market. In contrast, subscribers to the Association's National Quotation Data Service receive market makers' quotes in approximately 5,000 securities.

nor its benefits to the industry and investors as a whole. It is neither the NASD's intent nor in its best interest to function as a vendor of information abroad. Rather, the NASD believes that the interests of the NASDAQ marketplace are best served by the broadest possible dissemination of information and that independent vendors can provide that service.

Nonetheless, the NASD has proposed limitations on access to market data disseminated through the Pilot linkage to address the competitive concerns perceived by Vendor. Those limitations provide for access to linkage data without charge solely to those NASDAQ market makers and Exchange dealers who make markets in linked securities that are common to both market centers. These proposed access terms are intended to create a narrower market-to-market linkage. As such, equivalent information will be exchanged between markets (and market participants) and charges for the exchanged data would be essentially offset. Thus, NASD members of Exchange dealers whose market making does not stisfy the proposed criteria will be precluded from receiving data transmitted via the linkage absent subscription to and payment for the applicable service.

Moreover, the NASD believes that the proposed access terms may provide an incentive for firms to expand international market making activities in securities eligible to be quoted in the linkage. This result is consistent with the Commission's stated policy of facilitating international market linkages in furtherance of the Congressional findings respecting a national market system under section 11A(a)(1) of the Act. This expansion of market making acitivity has the potential to increase institutional investor interest in these securities and foster demand for market data in linkage securities, which data is distributed by vendors both here and abroad.

Based on the foregoing, that NASD reiterates that continued operation of the Pilot Program, as modified by this filing, will create no competitive burdens.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

Comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing For Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or as to which the self-regulatory organization consents, the Commission will:

A. By order approve such proposed rule change, or,

B. Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, are subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of the filing also will be available for inspection and copying at the principle office of the NASD. All submissions should refer to file number SR–NASD—87–20 and be submitted by May 18, 1987.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority, 17 CFR 200.30–3(a)(12).

Self-Regulatory Organizations; New York Stock Exchange, Inc.; Order Granting Accelerated Approval to Proposed Rule Change

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on April 13, 1987, the New York Stock Exchange, Inc. ("NYSE" or "Exchange") filed with the Securities and Exchange Commission the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

On March 13, 1987 the Exchange filed a proposed rule change to change the settlement pricing of expiring stock index options to the opening prices on expiration Friday. (*See* SR–NYSE–87–06 and 3/16/87 Letter to Sharon M. Lawson, Branch Chief, SEC, from Daniel P. Odell, Assistant Secretary, NYSE (collectively, the "Temporary Rule Filing") and Release No. 34–24276.) In particular, the Exchange modified the definition of "Current Index Group Value" in Rule 700(b)(17) to permit the Exchange to specify that the value upon exercise of options on the NYSE Composite Index and the NYSE Beta Index on expiration Friday is to be calculated from the opening prices for the constituent stocks on that day. The Exchange made conforming changes to the contract specifications for options on both indexes to make clear that trading ceases on the Thursday before expiration Friday.

The Temporary Rule Filing is effective only with respect to contracts expiring in June 1987. On April 3, 1987, the Exchange filed a proposed rule change to make permanent the rule changes proposed in the Temporary Rule Filing. (*See* SR–NYSE–11 (the "Permanent Filing").) Thereafter, it became evident that the publication, comment and approval procedures for the Permanent Filing would not be completed before the Exchange opens for trading its contracts expiring in July (the "July contracts"). Accordingly, the proposed rule change extends the Temporary Rule Filing to the July expiration date.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below and is set forth in sections A, B, and C below.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

(a) Purpose. The purpose of the proposed rule change is to ameliorate the impact of the concurrent expiration of index options and futures on the markets for individual stocks and on the stock market as a whole. The Exchange believes that settling index futures and options based upon the opening prices of the constituent stocks, and thereby permitting use of the Exchange's opening procedures in handling the accompanying stock volume, is the best strategy for addressing widely-held concerns about the actual and potential impact of the derivative products on the pricing mechanism and integrity of the stock market.

(b) Statutory Basis. The basis under the Act for the proposed rule change is section 6(b)(5), which requires that the rules of the Exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market, and, in general, to protect investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The proposed rule change does not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the 1934 Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

The Exchange has not solicited, and does not intend to solicit, comments regarding the proposed rule change. The Exchange has not received any unsolicited written comments from members or other interested parties.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The Exchange has requested that the proposed rule change be given accelerated effectiveness pursuant to section 19(b)(2) of the Act.

As noted in Item I, the Exchange's Temporary Rule Filing permits the Exchange to change the settlement pricing of expiring stock index options to the opening prices on expiration Friday only for contracts expiring in June 1987. The approval cycle for the Exchange's Permanent Rule Filing, which would lift the June "sunset", will not be completed before the Exchange opens its July contracts for trading. Accelerated approval of the proposed rule change will permit the Exchange to open its July contracts on a timely basis and subject to expiration valuation based upon the opening prices of the underlying stocks. This will maintain the continuity and order of the Exchange's marketplace.

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange, and in particular, the requirements of section 6 and the rules and regulations thereunder. The proposed rule change will enable the Exchange to implement procedures to base settlement of index futures and options on opening stock prices for the July 17, 1987, expiration Firday. The Exchange believes that index settlement based on the opening prices of constituent stocks, utilizing the Exchange's opening procedures, may best address the actual and potential impact of index expirations.

On certain occasions during the past two years, the concurrent expiration of index futures and options has been accompanied by significant price volatility. This volatility appears to have resulted in part from the liquidation of securities held as part of index arbitrages. Many market professionals have chosen to liquidate these positions at the close of trading in order to receive an execution price that will be consistent with the closing value of the index used in the cash settlement of index futures and options positions.[1]

The Commission believes that the NYSE's proposal, incorporating the use of quote indications (*e.g.*, opening procedures) to attract order flow to offset stock order imbalances related to index expirations, may help to ameliorate the price effects of index expirations. Moreover, the ability to disseminate a second quote indication where an influx of orders has substantially shifted any existing order imbalance increases the accuracy and usefulness of the information. Therefore, the dissemination of price information in the component stocks of indexes at the opening, along with notice of order imbalances, should provide investors with a more accurate picture of the market in the affected stocks.

The Commission believes that adequate steps are being taken to inform investors of the pending change. The Options Clearing Corporation ("OCC") recently had approved by the Commission a supplement to the Options Disclosure Document that would amend its disclosure of settlement procedures for index products, thereby notifying investors of the change in procedures. In addition, OCC has effected a rule change to its By-Laws to permit options exchanges to provide by rule that the settlement value of any index on which options are traded on a particular exchange will be determined by reference to the prices of the constituent stocks at times other than the close of trading. Moreover, the Commission expects that the NYSE and broker-dealers will take steps to fully inform investors of these changes.

It should be noted, however, that not all index products will settle based on opening prices at the June expiration. Currently no other options exchange has changed an index option contract to an opening price settlement. In contrast, the Commodity Futures Trading Commission ("CFTC") recently approved a proposal by the Chicago Mercantile Exchange to switch its Standard and Poors 500 Index future contract to an opening price settlement in June.

The Commission finds good cause for approving the proposed rule change prior to the thirtieth day after the date of publication of notice of filing thereof because of the Exchange's need to open July contracts for trading on a timely basis, subject to expiration valuation based upon the opening prices of the underlying stocks. These contracts will be open prior to the expiration of the notice and comment period to which the Exchange's filing for permanent approval is subject. Moreover, the Commission believes that acceleration is appropriate because it will preclude the need to change the settlement time on the July series of NYSE index options when they are outstanding. Accordingly, the proposed rule change is hereby approved.

[Release No. 34-24370; File No. SR-PHLX-87-13]

Self-Regulatory Organizations; Philadelphia Stock Exchange, Inc.; Order Granting Accelerated Approval to Proposed Rule Change

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on March 31, 1987, the Philadelphia Stock Exchange, Inc. filed with the Securities and Exchange Commission the proposed rule change as described in Items I, II and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Philadelphia Stock Exchange, Inc., ("PHLX" or "Exchange"), pursuant to Rule 19b-4 of the Securities Exchange Act of 1934 ("Act"), proposes to amend Exchange Rule 1000A(b)(8), by adding this Commentary thereto, as follows (new material is underlined):

. . . *Commentary .01 to Rule 1000A(b)(8)*

For any series of index options first opened after March 30, 1987, the Exchange may, in its discretion, provide that the calculation of the final index settlement value of any index on which options are traded at the Exchange will be determined by reference to the prices of the constituent stocks at a time other than the close of trading on the last trading day before expiration.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statements of the Purpose of, and Statutory Basis for the Proposed Rule Change

This rule change is designed to coincide with a rule change and Options Disclosure Document revision of the Options Clearing Corporation ("OCC").[1] The OCC has prepared changes to accommodate morning settlement of options on indices for those securities exchanges that have determined to alter the time at which the final index settlement value is calculated for expiring options.

The Exchange proposes this rule change to put its members and the public on notice that it may in the future alter the time at which the prices of constituent stocks would be reviewed for the purpose of calculating the final index settlement value for expiring index options. The proposal would give the Exchange the flexibility to move the calculation of the final index value for any series of options opened after March 30, 1987 from the close on the last trading day before expiration to the opening on such day. The Exchange understands that the OCC is concerned about the potential liability exposure of changing the terms of outstanding index options contracts and has therefore determined that it will only allow index options series not yet issued to provide for a morning rather than a closing settlement valuation time. However, the OCC rule is not automatic, and it would only be effective for index options contracts for which the relevant exchange has changed the settlement valuation time.

In this context, the Exchange seeks the option of moving its settlement valuation time from the close to the opening on the pertinent expiration day for any index option series first opened after March 30, 1987. This proposal would not require the Exchange to change the index option settlement terms for any index options contract at this time. But it would permit the Exchange to observe overall industry developments in this area and make a change to a morning settlement at some point in the future if the Exchange chose to do so. The Exchange also has notified the Commission that prior to altering the settlement time of any particular index contracts, it will file such proposal with the Commission pursuant to section 19(b) so that adequate notice of the alteration may be effectuated.[2]

The Exchange believes the proposal is consistent with section 6 of the Act, in particular section 6(b)(5). PHLX, like the other securities exchanges and the Commission, has spent considerable time studying the impact of index contract trading on the securities markets, particularly at expiration. By permitting the Exchange to continue to study the potential benefits of altering the time for calculating the final index settlement value of expiring options, the proposed rule change should promote fair and orderly markets and otherwise foster the protection of investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The PHLX does not believe that the proposed rule change will impose any burden on competition.

C. Self Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The Exchange requests that the proposed rule change be given accelerated effectiveness pursuant to section 19(b)(2) of the Act based on the Commission's recent approval of the rule change filed by the OCC regarding the settlement value of an index option. The PHLX intends to open the October series in its Value Line Index option on

April 20, 1987, and would like to have the authority to change settlement terms of this contract before the new series is introduced.

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange, and in particular, the requirements of section 6 and the rules and regulations thereunder. The proposed rule change will enable the Exchange to implement procedures to base settlement of its index option products after April 20, 1987.

The Commission believes that adequate steps are being taken to inform investors of the pending change. The OCC recently has filed with the Commission a supplement to the Options Disclosure Document that would amend its disclosure of settlement procedures for index products, therby notifying investors of the change in procedures. In addition, OCC has filed a rule change to its By-Laws to permit options exchanges to provide by rule that the settlement value of any index on which options are traded on a particular exchange will be determined by reference to the prices of the constituent stocks at times other than the close of trading. Moreover, the PHLX has assured the Commission that it will file with the Commission any specific proposals to permanently change the settlement procedures of any particular index product so that formal notice may be afforded to investors.

The Commission finds good cause for approving the proposed rule change prior to the thirtieth day after the date of publication of notice of filing thereof because of the PHLX's desire to notify members before it introduces new index options series that it may, in the future, alter the settlement procedures for index options traded on the Exchange.[3] Accordingly, the proposed rule change is hereby approved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, DC 20549. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted by May 18, 1987.

[3] The PHLX desires to enact the proposed rule change for its marketplace to ensure that it has the maximum flexibility to deal with future developments. The Commission, however, notes that OCC already has amended its rules and that broker-dealers have informed their customers of the possibility of such changed contract terms. Accordingly, the Commission does not believe that other markets would necessarily be required to make such conforming rule changes, apart from those rule changes necessary to amend the settlement times specified for options traded on their markets.

Santa Barbara Funding II, Inc.; Issuance of Variable and Floating Rate Mortgage-Backed Securities

April 17, 1987.

AGENCY: Notice of Application to Amend an Existing Order under the Investment Company Act of 1940 (the "1940 Act").

Applicant: Santa Barbara Funding II, Inc.

Relevant 1940 Act Section: Order under section 6(c) from all provisions of the 1940 Act.

Summary of Application: Applicant seeks to amend an existing order exempting it from all provisions of the 1940 Act in connection with its proposed issuance of variable and floating rate mortgage-backed securities.

Filing Date: The application was filed on May 15, 1986, and amended on June 5, 1986. An order was issued on the application on July 14, 1986 (Investment Company Release No. 15201). On April 14, 1987, Applicant filed an amendment to the application.

Hearing or Notification of Hearing: If no hearing is ordered, the application will be granted. Any interested person may request a hearing on this application, or ask to be notified if a hearing is ordered. Any requests must be received by the SEC by 5:30 p.m., on May 11, 1987. Request a hearing in writing, giving the nature of your interest, the reason for the request, and the issues you contest. Serve Applicant with the request, personally or by mail, and also send it to the Secretary of the SEC, along with proof of service by affidavit, or, for attorneys, by certificates. Request notification of the date of a hearing by writing to the Secretary of the SEC.

ADDRESSES: Secretary, SEC, 450 5th Street NW., Washington, DC 20549. Santa Barbara Funding II, Inc. 3908 State Street, Santa Barbara, California 93105.

SUPPLEMENTARY INFORMATION: Following is a summary of the application; the complete application is available for a fee from either the SEC's Public Reference Branch in person or the SEC's commercial copier (800) 231-3282 (in Maryland (301) 258-4300)).

Applicant's Representations

1. Applicant is a Delaware corporation and a wholly-owned, limited purpose finance subsidiary of Santa Barbara Savings and Loan Association, a California chartered savings and loan association. Applicant states that the SEC issued an order (Investment Company Act Release No. 15201, July 14, 1986) ("Existing Order") which pursuant to certain terms and conditions permits Applicant to issue one or more series of fixed rate bonds ("Bonds") secured primarily by mortgages that are first liens on single (one-to-four) family residences ("mortgages"), mortgage pass-through certificates ("GNMA Certificates"), which are fully guaranteed as to principal and interest by the Government National Mortgage Association, Mortgage Participation Certificates ("FHLMC Certificates") issued and guaranteed by the Federal Home Loan Mortgage Corporation and/or Guaranteed Mortgage Pass-Through Certificates ("FNMA Certificates") issued and guaranteed by the Federal National Mortgage Association. ("Federal Certificates" means GNMA Certificates, FHLMC Certificates and/or FNMA Certificates). Applicant also states that Federal Certificates included in the mortgage collateral pledged to secure the Bonds may or may not

represent the entire beneficial interest in the related mortgage pools.

2. Applicant seeks to amend the Existing Order to permit it to issue one or more series of variable and floating interest rate Bonds secured in whole or in part by mortgages, Federal Certificates and mortgage pass-through certificates which are neither issued nor are guaranteed by any agency of instrumentality of the United States and which evidence undivided interests in pools of mortgages that are first liens on single (one-to-four) family residences ("Private Certificates").

3. Each series of Bonds may contain one or more classes of variable or floating interest rate Bonds which will have a fixed maximum rate of interest ("interest rate cap") that will be payable on the Bonds. Any series of Bonds containing one or more classes of variable or floating interest rate Bonds will be structured with reference to the interest rate caps for that particular series to insure that the cash flow scheduled to be received by the Trustee from the mortgages, Federal Certificates and Private Certificates, plus reinvestment income thereon, and funds, if any, pledged to secure the Bonds will be sufficient to make all payments of principal of and interest on the Bonds, even if the interest rate on any class of variable or floating interest rate Bonds of such series climbed to the interest rate cap in the first interest period and remained constant throughout the life of the Bonds. See the application, for a complete discussion of such variable and floating interest rate Bonds.

4. Applicant asserts that the exemptive relief sought is both consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the 1940 Act. Applicant further asserts that its activities will facilitate the financing of mortgage loans to expand the availability of residential mortgages, a critical national need.

Applicant's Conditions

Applicant agrees that its future offerings of Bonds will be limited to offerings meeting the conditions set forth below:

1. Each series of Bonds will be registered under the Securities Act of 1933 ("Securities Act"), unless offered in a transaction exempt from registration pursuant to section 4(2) of the Securities Act.

2. The Bonds will be "mortgage related securities" within the meaning of section 3(a)(41) of the Securities Exchange Act of 1934, as amended. However, the mortgage collateral underlying the Bonds will be limited to mortgages, Federal Certificates and Private Certificates.

3. If new mortgage collateral is substituted, the substitute collateral must: (i) Be of equal or better quality than the collateral replaced; (ii) have similar payment terms and cash flow as the collateral replaced; (iii) be insured or guaranteed to the same extent as the collateral replaced; and (iv) meet the conditions set forth in paragraphs (2), (4) and (6) hereof. In addition, new mortgage collateral may not be substituted for more than 20% of the aggregate face amount of the mortgages initially pledged as mortgage collateral or for more than 40% of the aggregate face amount of the Federal Certificates initially pledged as mortgage collateral. New mortgages may be substituted for mortgages initially pledged as mortgage collateral only in the event of default, late payments or defect in the collateral being replaced. New Private Certificates may be substituted for Private Certificates initially pledged as mortgage collateral only in the event of default, late payments or defect in the collateral being placed. In no event will any new mortgage collateral be substituted for any substitute mortgage collateral.

4. All mortgage collateral, funds, accounts or other collateral securing a series of Bonds ("Bond Collateral") will be held by the Trustee or on behalf of the Trustee by an independent custodian (the "Custodian"). The Custodian may not be an affiliate (as the term "affiliate" is defined in Securities Act Rule 405, 17 CFR 230.405) of Applicant, or of the master servicer or originating lender of any mortgages that are pledged as mortgage collateral. If there is no master servicer, no servicer of those mortgages may be an affiliate of the Custodian. The Trustee will be provided with a first priority perfected security or lien interest in and to all Bond Collateral.

5. Each series of Bonds will be rated in one of the two highest bond rating categories by at least one nationally recognized statistical rating organization that is not affiliated with Applicant. The Bonds will not be considered redeemable securities within the meaning of section 2(a)(32) of the 1940 Act.

6. The master servicer of any mortgages (including any mortgages underlying Private Certificates) that are pledged as mortgage collateral may not be an affiliate of the Trustee. If there is no master servicer, no servicer of those mortgages may be an affiliate of the Trustee. Any master servicer and servicer of such mortgages will be approved by the "FNMA" or "FHLMC" as an eligible seller/servicer" of conventional, residential mortgage loans. The agreement governing the servicing of mortgages shall obligate the servicer to provide substantially the same services with respect to those mortgages as it is then currently required to provide in connection with the servicing of mortgage loans insured by FHA, guaranteed by the VA or eligible for purchase by FNMA or FHLMC.

7. No less often than annually, an independent public accountant will audit the books and records of Applicant and, in addition, will report on whether the anticipated payments of principal and interest on the mortgage collateral continue to be adequate to pay the principal and interest on the Bonds in accordance with their terms. Upon completion, copies of the auditor's report(s) will be provided to the Trustee.

8. The above representations regarding the variable or floating interest rate Bonds will be express conditions to the requested order.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

Jonathan G. Katz,

Secretary.

UMTA Revised Fiscal Year 1987; Section 9 Operating Assistance Limitations and Apportionment of Fiscal Year 1987 Section 16(B)(2) Funds

AGENCY: Urban Mass Transportation Administration (UMTA), DOT.

SUMMARY: The Federal Mass Transportation Act of 1987, enacted April 2, 1987, affected certain section 9 operating assistance limitations and the apportionment of section 16(b)(2) funds. The Act states that the operating assistance limitation for a new urbanized area is two-thirds of its first section 9 apportionment. In conformance with the new Act, the Fiscal Year 1987 operating assistance limitations for State Governors for use in urbanized areas below 200,000 in population have been determined, and this Notice provides the revised operating assistance limitations. In addition, this Notice contains the apportionment of Fiscal Year 1987 section 16(b)(2) funds to the States.

FOR FURTHER INFORMATION CONTACT: Edward R. Fleischman, Chief, Resource Management Division, (202) 366–2053, 400 Seventh Street, SW., Washington, DC 20590.

SUPPLEMENTARY INFORMATION: The Federal Mass Transportation Act of 1987, enacted April 2, 1987, affects certain of the section 9 operating assistance limitations and the apportionment of section 16(b)(2) funds.

Revised Section 9 Operating Assistance Limitations

The Federal Mass Transportation Act of 1987 revises certain of the section 9 formula program operating assistance limitations. The revision states that for this fiscal year an urbanized area that first became an urbanized area under the 1980 census or thereafter may use for operating assistance an amount not to exceed two-thirds of its section 9 apportionment. Previously, the operating assistance limitation was 40 percent of its apportionment. Therefore, this Notice provides revised operating assistance limitation tables which reflect this change in Fiscal Year 1987 for the State Governor to use in urbanized areas under 200,000 in population within each State. One limitation for operating assistance is provided to the State Governor. However, for technical assistance purposes, this Notice also contains the limitation attributable to the data for each urbanized area within the State.

The operating assistance limitations for urbanized areas over 200,000 in population were not affected by the new law and are still available as listed in the **Federal Register** Notice of December 10, 1986 (51 FR 44546).

Section 16(b)(2) Elderly and Handicapped Program

The Federal Mass Transportation Act of 1987 provides authorizations for the section 16(b)(2) elderly and handicapped program. Therefore, the apportionment of section 16(b)(2) funds to the States is contained in this Notice. A total of $35,089,520 is apportioned under this capital assistance program for transportation of the elderly and handicapped. Of this total, $35,000,000 is the Fiscal Year 1987 appropriation and $89,520 is prior year reapportioned funds.

Funding for the section 16(b)(2) program had not been available prior to this time. However, preliminary allocation figures had been made available, and States had been encouraged to continue with their program planning and development in anticipation of funds availability later. Funds apportioned to States under section 16(b)(2) in this Notice must be obligated by September 30, 1987.

Application for section 16(b)(2) funds should be submitted to the appropriate UMTA Regional Office in conformance with Circular 9070.1A, published May 14, 1985.

Issued on: April 22, 1987.

Ralph L. Stanley,

Administrator.

UNITED STATES INFORMATION AGENCY

A Grants Program for Private Not-For-Profit Organizations in Support of International Educational and Cultural Activities

The United States Information Agency (USIA) announces a program of selective assistance and limited grant support to non-profit activities of United States institutions and organizations in the Private Sector. The primary purpose of the program is to enhance the achievement of the Agency's international public diplomacy goals and objectives by stimulating and encouraging increased private sector commitment, activity, and resources. The information collection involved in this solicitation is covered by OMB Clearance Number 3116–0175, entitled "A Grants Program for Private, Not-For-Profit Organizations in Support of International Educational and Cultural Activities," announced in the **Federal Register** January 30, 1987.

Private sector organizations interested in working cooperatively with USIA on the following concept are encouraged to so indicate:

Effective Drug Abuse Prevention Strategies: An Inter-American Exchange

The Office of Private Sector Programs will assist in supporting a three-week travel/study program that will bring ten high-level drug abuse prevention specialists from Latin America to the U.S. for a professional exchange with U.S. counterparts. The program, which may be conducted in Spanish or English (with interpretation), will focus on exploring and comparing techniques for the design, implementation, and evaluation of more effective narcotics demand reduction programs throughout the hemisphere. School-based programs will be emphasized. The program design should include seminars and workshops as well as on-site visits. Participants will be selected by USIA representatives in Mexico, Colombia, Peru, Bolivia, Panama and Ecuador.

Your submission of a letter indicating interest in the above project concept begins the consultative process. This letter should further explain why your organization has the substantive expertise and logistical capability to successfully design, develop and conduct the above project.

Emphasis during the preliminary consultative process will be on identifying organizations whose goals and objectives clearly complement or coincide with those of USIA. Furthermore, USIA is most interested in working with organizations that show promise for innovative and cost-effective programming; and with organizations that have potential for obtaining third-party private-sector funding in addition to USIA support. Organizations must also demonstrate a potential for designing programs which will have a lasting impact on their participants. In your response, you may also wish to include other pertinent background information. To be eligible for consideration, organizations *must* postmark their general letter of interest within 20 days of the date of this notice.

This is not a solicitation for grant proposals. After consultation, selected organizations will be invited to prepare proposals for the financial assistance available: Office of Private Sector Programs, Bureau of Educational and Cultural Affairs, (Attn: Initiative Programs), United States Information Agency, 301 4th Street SW., Washington, DC 20547.

Dated: April 17, 1987.

Robert Francis Smith,

Director, Office of Private Sector Programs.

PAROLE COMMISSION

Record of Vote of Meeting Closure

Pursuant To The Goverment In The Sunshine Act (Pub. L. 94-409) (5 U.S.C. 552b)

I, Benjamin F. Baer, Chairman of the United States Parole Commission, presided at a meeting of said Commission which started at nine o'clock a.m. on Tuesday, April 21, 1987, at 5550 Friendship Boulevard, Chevy

Chase, Maryland 20815. The meeting ended at or about 5:00 p.m. The purpose of the meeting was to decide approximately 13 appeals from National Commissioners' decisions pursuant to 28 CFR 2.27. In addition, a portion of the meeting was closed to discuss personnel matters related to the Commission's 1987 budget request. Eight Commissioners were present, constituting a quorum, when the vote to close the meeting was submitted.

Public announcements further describing the subject matter of the meeting and certifications of General Counsel that this meeting may be closed by vote of the Commissioners present were submitted to the Commissioners prior to the conduct of any other business. Upon motion duly made, seconded, and carried, the following Commissioners voted that the adjudicative portion of the meeting be closed: Benjamin F. Baer, Saundra Brown Armstong, Cameron M. Batjer, Jasper Clay, Jr., Vincent J. Fechtel, Carol P. Getty, G. MacKenzie Rast, and Victor M.F. Reyes. The same Commissioners also voted that the budget portion of the meeting be closed. The Commissioners and a Parole Analyst attended.

In witness whereof, I make this official record of the vote taken to close this meeting and authorize this record to be made available to the public.

Dated: April 22, 1987.

Benjamin F. Baer,

Chairman, United States Parole Commission.

Introduction to the Unified Agenda of Federal Regulations

REGULATORY INFORMATION SERVICE CENTER

Unified Agenda of Federal Regulations

AGENCY: Regulatory Information Service Center.

ACTION: Introduction to the Unified Agenda of Federal Regulations.

SUMMARY: The Regulatory Flexibility Act (5 U.S.C. 602) requires that agencies publish semiannual regulatory agendas describing regulatory actions they are developing. Executive Order 12291 and OMB Bulletins implementing section 5 of the Executive order establish minimum standards for executive agencies' agendas, including specific types of information for each entry, and publication in a uniform format. All Federal regulatory agencies have chosen to publish their regulatory agendas as part of this **Unified Agenda of Federal Regulations.**

The following Parts in this issue of the **Federal Register** are the agency agendas, which together comprise the April 1987 edition of the semiannual **Unified Agenda of Federal Regulations.**

ADDRESS: Regulatory Information Service Center, Room 5216, New Executive Office Building, 726 Jackson Place, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: For further information about specific regulatory projects, please refer to the Agency Contact listed for each entry. To provide comment on or to obtain further information about the **Unified Agenda of Federal Regulations**, contact: Mark G. Schoenberg, Executive Director, Regulatory Information Service Center, Room 5216, New Executive Office Building, 726 Jackson Place, NW., Washington, DC 20503, (202) 395-6993.

About the Unified Agenda

The **Unified Agenda of Federal Regulations** is compiled by the Regulatory Information Service Center for the Office of Information and Regulatory Affairs, Office of Management and Budget. The Center provides information about Federal regulatory activity to the President and his Executive Office, the Congress, agency managers, and the public.

The Office of Information and Regulatory Affairs is responsible for overseeing the Federal Government's regulatory, paperwork, and information-management activities and for implementing President Reagan's Executive Orders 12291 (Federal Regulation) and 12498 (Regulatory Planning). Under EO 12498, OMB publishes the **Regulatory Program of the United States Government** each year.

The Regulatory Program is a policy document and a management tool that sets forth the priorities of the agency head and of the President regarding the Significant Regulatory Actions (SRAs) that will be conducted during the program year to which it pertains.

The Regulatory Program and the Agenda differ in several ways. The Unified Agenda includes more regulatory actions because it covers all Federal agencies that issue regulations and includes almost all the rulemakings under development of each. This year's Regulatory Program covers only 26 of the major Federal regulatory agencies, and includes only the most significant of all the regulatory actions that each agency plans to undertake. The Regulatory Program, however, describes each entry more thoroughly than the Unified Agenda.

Most of the regulatory actions described in the **Regulatory Program of the United States Government** are

included in this Agenda. In general, the Regulation Identifier Number (RIN) for the action is the same for both publications; however, occasionally, several Agenda entries are combined into one Program entry, and a new RIN is assigned to that entry in the Program.

This edition of the Unified Agenda includes 54 regulatory agendas from all Federal departments, agencies, and commissions that publish agendas. The Council on Environmental Quality and the National Capitol Planning Commission usually publish a regulatory agenda, but have nothing to report for this edition of the Unified Agenda. Agencies of the United States Congress are not included. The Unified Agenda provides uniform reporting of data on regulatory activities under development throughout the Federal Government.

The Unified Agenda is produced through a computer system designed by the Center with the advice and assistance of the Government Printing Office. The system was designed to save agencies time and money by automating the preparation and printing of their agendas in a uniform format and to make the Agenda easier to use. In order to further facilitate producing the Agenda, 26 agencies currently use computer terminals at their offices to enter agenda information into the Center's computer system.

This edition of the Agenda contains a Subject Index to help readers locate entries from various agencies that may affect a particular area of interest. The numbers in the index refer to the sequence numbers that appear before the title of each entry in the Agenda. All entries are numbered sequentially from the beginning to the end of the Agenda.

For those agencies that requested it, we provided a computer-produced Table of Contents that appears after the preamble of the agency's agenda. The agency Tables of Contents help readers locate quickly those entries within an agency that may be of most interest to them.

All agendas contain uniform data elements -- regulation title, significance, legal authority, CFR citation, abstract, legal deadline, timetable, small business effects, and agency contact. Agencies also include any additional information they consider important. If any of the data elements is not included, the agency either did not report the information or may provide an explanation in its preamble. For further information, please contact the individual agency.

The **Unified Agenda of Federal Regulations** is published in April and October of each year. We welcome comments on this edition and suggestions for improving future ones.

DATED: April 1, 1987.

Mark G. Schoenberg,

Executive Director.

How to Use the Unified Agenda

Each agency agenda appears as a separate Part in this edition of the **Federal Register.** The Parts are organized alphabetically in four groups: Cabinet departments, other executive agencies, joint authorities, and independent agencies. Departments are divided into agencies, which may in turn be divided into subagencies.

Each agency begins its agenda with a preamble providing information specific to its agenda. Each agency was asked to list its rules in four groups:

1. Prerule Stage -- actions agencies will undertake in the next 12 months to determine whether or how to initiate rulemaking. Such actions occur prior to a Notice of Proposed Rulemaking and include Advance Notices of Proposed Rulemaking and reviews of existing regulations.

2. Proposed Rule Stage -- actions for which agencies plan to publish a Notice of Proposed Rulemaking as the next step in their rulemaking process.

3. Final Rule Stage -- actions for which agencies plan to publish a final rule or take other final action as the next step in their rulemaking process.

4. Completed Actions -- actions or reviews the agency completed or withdrew since publishing its last agenda. This section also includes items that were begun and completed between issues of the Unified Agenda.

An agency may use a subheading to identify regulations that it has grouped according to a particular topic. When these subheadings are used, they appear above the title of the first regulation in the group.

A bullet (●) preceding an entry indicates that the entry appears in the Agenda for the first time.

The Agenda Sequence Number preceding the title of each entry identifies the location of the entry in this edition of the Agenda. The same number is used in the index to enable readers to find entries on specific subjects. Those agencies that chose to provide a Table of Contents at the beginning of their agendas also use the sequence number in their Table of Contents. Sequence numbers should help readers easily locate items of most interest to them, either by agency or by subject.

The regulatory activities included in the agency agendas are those currently planned for the next 12 months. The agendas do not include regulations excluded from review under EO 12291 such as military regulations and regulations related to internal agency management.

OMB Bulletin 87-6 states that entries describing regulations in the Agenda should contain, at a minimum, the following information:

- Title of the Regulation.
- Significance -- an indication of the significance of the entry that appears when:
  a. The action will be included in the **Regulatory Program of the United States Government** for the 1987 program year, or
  b. The agency otherwise considers the action a priority.

The Significance heading appears only if the entry is a significant action.

- Legal Authority -- the section(s) of the United States Code (U.S.C.) or Public Law (PL) or the Executive order that authorize(s) the regulatory action (agencies may provide common name references to laws in addition to U.S.C. or PL references).
- CFR Citation -- the section(s) of the Code of Federal Regulations that affect or will be affected by the action.
- Abstract -- a description of the problem the regulation will address; the need for a Federal solution; and, to the extent available, the alternatives that the agency is considering to address the problem and the potential costs and benefits of the action.
- Legal Deadline -- an indication of whether the rule is subject to a statutory or judicial deadline and, if so, the date of that deadline.
- Timetable -- the dates and citations (if available) for all past stages and at least the next future stage of rulemaking. If a date appears in this section as 00/00/00, it means the date of the action is presently undetermined. Similarly, 10/00/86 means the agency can predict the month and year the action will take place, but not the date it will occur.

- Effects on Small Businesses and Other Small Entities -- indicates whether the rule is expected to have a significant economic impact on a substantial number of "small entities" as defined by the Regulatory Flexibility Act (5 U.S.C. 601(6)).
- Agency Contact -- the name, title, address, and phone number of a person in the agency who is knowledgeable about the regulation.

Some agencies have provided other optional information at their discretion.

Data Limitations

Agencies prepared entries for this edition of the Unified Agenda to give the public notice of their plans to review, propose, and issue regulations. They have tried to predict their activities over the next 12 months as accurately as possible, but dates and schedules are subject to change. Agencies may withdraw some of the regulations now under development, and they may issue or propose other regulations not included in their agendas. Agency actions in the rulemaking process may occur before or after the dates they have listed. The Agenda does not create a legal obligation on agencies to adhere to schedules within it or to confine their regulatory activities to those regulations that appear in it. The information in this edition is accurate as of February 27, 1987, in the judgment of the submitting agencies, except as otherwise noted in individual agency preambles.

List of Abbreviations

The following abbreviations appear throughout this edition of the Agenda:

ANPRM -- An Advance Notice of Proposed Rulemaking is a preliminary notice that an agency is considering a regulatory action. The agency issues an ANPRM before it develops a detailed proposed rule, describing the general area that may be subject to regulation and asking for public comment on the issues and options being discussed. An ANPRM is issued only when an agency believes it needs to gather more information before proceeding to a formal regulatory proposal.

CFR -- The Code of Federal Regulations is an annual codification of the general and permanent regulations published in the **Federal Register** by the departments and agencies of the Federal Government. The Code is divided into 50 titles and each title covers a broad area of Federal regulatory law. The CFR is keyed to and kept up-to-date by the daily issues of the **Federal Register.**

EO -- An Executive order is a directive from the President to an executive agency, issued under Constitutional or statutory authority. Executive orders are published in the **Federal Register** and in Title 3 of the Code of Federal Regulations.

FR -- The **Federal Register** is a daily Federal Government publication that provides a uniform system for publishing Presidential documents, all proposed and final regulations, notices of meetings, and other official documents required by statute to be published.

FY -- The Federal fiscal year runs from October 1 to September 30.

NPRM -- A Notice of Proposed Rulemaking is the document an agency issues and publishes in the **Federal Register** that describes and solicits public comments on a proposed regulatory action. Under the Administrative Procedure Act, an NPRM must include, at a minimum:

- A statement of the time, place, and nature of the public rulemaking proceeding;
- A reference to the legal authority under which the rule is proposed; and
- Either the terms or substance of the proposed rule or a description of the subjects and issues involved.

PL -- A Public Law is a law passed by Congress and signed by the President or enacted over his veto. It has general applicability, as opposed to a private law that applies only to those persons or entities specifically designated. Public laws are numbered in sequence throughout the two-year life of each Congress; for example, PL 97-17 would be the seventeenth public law of the 97th Congress.

RFA -- A Regulatory Flexibility Analysis (RFA) describes the impact of a proposed rule on small entities, as required by the Regulatory Flexibility Act (5 U.S.C. 601). An RFA describes why the agency is considering the action; the objectives of and legal basis for the proposed rule; an estimate of the number of small entities that could be affected and the compliance requirements they would have to fulfill; any other duplicative, overlapping, or conflicting Federal rules; and alternatives to the proposed action. When required, an initial RFA accompanies an NPRM and a final RFA accompanies a final rule.

RIA -- A Regulatory Impact Analysis is required by EO 12291 for all major rules and other regulations designated by the Office of Management and Budget. An RIA is prepared to determine whether a proposed regulatory action meets the requirements of section 2 of EO 12291, namely that it:

- Be based on adequate information concerning the need for and consequences of the action;
- Not be undertaken unless the potential benefits outweigh the potential costs to society;
- Maximize net benefits to society;
- Entail the least net cost to society of the alternatives considered; and
- Take into account the condition of particular affected industries, the national economy, and contemplated future regulatory actions.

RIN -- The Regulatory Information Service Center assigns a Regulation Identifier Number to identify each regulatory action listed in the Agenda.

USC -- The United States Code is a consolidation and codification of all general and permanent laws of the United States. The USC is divided into 50 titles and each title covers a broad area of Federal law.

Semiannual Regulatory Agenda; Spring 1987

AGENCY: Office of the Secretary, USDA.

ACTION: Semiannual regulatory agenda.

SUMMARY: This agenda provides summary descriptions of major and non-major regulations being developed in agencies of the U.S. Department of Agriculture in conformance with Executive Order 12291, Federal Regulation. The agenda also describes regulations affecting small entities as required by section 602 of the Regulatory Flexibility Act, Pub. L. 96-354.

USDA has attempted to list all regulations and regulatory reviews pending at the time of publication except for minor and routine or repetitive actions; but some may have been inadvertently missed. There is no legal significance to the omission of an item from this listing. Also, the dates shown for the steps of each action are estimated and are not commitments to act on or by the date shown.

FOR FURTHER INFORMATION CONTACT: For further information on any specific entry shown in this agenda, please contact the person listed for that action.

ADDRESSES: Requests for copies of the Agenda should include a self-addressed, stamped envelope and be directed to: Regulatory Agenda, OBPA, Office of the Secretary, Room 148-E, U.S. Department of Agriculture, Washington, DC 20250, (202) 382-1270.

15. ● 1988-CROP HONEY PRICE SUPPORT PROGRAM

Significance: Agency Priority

Legal Authority: 7 USC 1446(b); The Agricultural Act of 1949, as amended, Sec. 201(b)

CFR Citation: 7 CFR 1434.26; 7 CFR 1434.27

Legal Deadline: None.

Abstract: Legislation requires that 1988-crop honey be supported at 95 percent of the 1987 level, or $0.5985 per pound. It also provides the Secretary the discretion to allow loan repayment at a lower rate. The objective of a lower repayment rate is to (1) minimize loan forfeitures, (2) avoid excessive stocks, (3) reduce Federal storage costs, and (4) maintain the competitiveness of honey in domestic and export markets. Alternatives to be considered are: the type of support to offer, whether loans, purchases, or loans and purchases, and whether to implement the lower repayment provision. Government costs under the lower repayment provision

would be expected to be under $60 million.

16. ● 1988 WOOL AND MOHAIR PROGRAM

Significance: Agency Priority

Legal Authority: 7 USC 1782 et seq; National Wool Act of 1954, as amended by; PL 99-198, Sec 201 The Food Security Act of 1985

CFR Citation: 7 CFR 1468; 7 CFR 1472

Legal Deadline: None.

Abstract: This action will encourage the continued domestic production of wool at prices fair to both producers and consumers in a manner that will ensure a viable domestic wool industry, by supporting the prices of wool and mohair by means of loans, purchases, payments, or other operations. The support level for wool is determined by statutory formula. The support level for mohair must be set at a level not more than 15 percent above, or below the comparable percentage of parity at which shorn wool is supported. The expected cost to Government will be between $100 and $200 million.

Significance: Agency Priority

Legal Authority: 7 USC 1312(a) et seq; The Agricultural Act of 1938, as amended, Sec 312-313

CFR Citation: 7 CFR 724

Legal Deadline: Statutory, March 1, 1988.

Abstract: Marketing quotas and acreage allotments are required by legislation. Their objective is to balance supply with demand at levels that ensure stable supplies for domestic and export use. This action is expected to result in a net receipt to the Government of approximately $8 million.

Significance: Agency Priority

Legal Authority: 7 USC 1423; Agricultural Act of 1949, Sec. 403; 15 USC 714c; Commodity Credit Corporation Charter Act, Sec. 5

CFR Citation: Not applicable

Legal Deadline: None.

Abstract: The Secretary of Agriculture is authorized to make appropriate adjustments in the support price for peanuts for differences in grade, type, quality, location, and other factors to ensure that price support levels are representative of the market values of the various types. The average of the price support levels must, as far as is practicable, equal the national average price support level as determined by legislation. Legal Authority: 16 USC 3801 to 3822; 16 USC 3841 to 3845; PL 98-198; Sections 1201-1223 and 1241-1245, The Food Security Act of 1985

CFR Citation: 7 CFR 703, (New)

Legal Deadline: Statutory, June 20, 1986.

Abstract: This action is needed to set forth the terms and conditions of the Highly Erodible Land and the Wetland Conservation Programs as required by the Food Security Act of 1985. Under these programs a producer who, after 12/23/85, produces an agricultural commodity on a field defined as highly erodible or on wetland converted after 12/23/85 will be ineligible for any designated USDA program benefits. However, during the period from 12/23/85 to the later of 1/1/90 or 2 years after a producer's field is mapped by SCS for purposes of classifying such land, such producer will not be ineligible for program benefits for highly erodible land that had been cultivated to produce any of the 1981-85 crops, or set aside, diverted or otherwise not cultivated under a USDA production adjustment program. Certain other exemptions from the ineligibility provisions will also apply. (ASCS 86-051)

Significance: Agency Priority

Legal Authority: 7 USC 1446; The Agricultural Adjustment Act of 1949, as amended, Sec 201

CFR Citation: 7 CFR 1435

Legal Deadline: None.

Abstract: Legislation requires the Secretary to support the price of domestically grown sugar beets and sugarcane through a nonrecourse loan program. This action will set forth (1) the loan rates applicable to 1987-crop sugar beets and sugarcane, and (2) the 1987-crop minimum price support levels that processors are required to pay to growers. No impact on Government outlays is expected. However, the cost to consumers and other users of sugar will likely exceed $2 billion.

CFR Citation: 7 CFR 1430

Legal Deadline: Statutory, October 1, 1987.

Abstract: Legislation requires that the price of milk shall be supported during the period 10/01/87 through 12/31/90 at $11.60 per hundredweight (cwt) for milk containing 3.67 percent milkfat. It also requires the termination of the $0.75/cwt reduction in the support price as of 09/30/87. Under certain circumstances, the support price may be changed for calendar years 1988-90. Any changes in the support price for calendar years 1988-90 will be covered in separate actions. The cost to Government is expected to be approximately $1 billion per year.

Abstract: The Department has been regulating the movement of outdoor household articles (OHA) out of those areas in the northeast which are

regulated for gypsy moth. The (OHA) regulations have been in place since 1983. The current program requires that no life stages of the pest be moved out of those areas. Owners of OHA can either inspect the articles themselves and remove any life stages found or can contact a qualified certified applicator (OCA) and pay for the services necessary to rid the articles of gypsy moth. The program, despite a massive educational campaign using various media, has not lived up to expectations. At best, the Agency is experiencing only 50 percent compliance. This information is based on random spot checks of moving vans leaving the infested northeast. The Agency is considering ways to improve the compliance rate to at least 70 percent. Alternatives being considered include mandatory inspection by qualified certified applicators; mandatory written certification of inspection by the owner of the OHA; and increased public notification and awareness. Abstract: An increased number of exotic pests have been introduced recently into the United States. Some of these pests may have arrived on importations of fruits and vegetables. Since these pests are capable of causing extensive economic damage, Plant Protection and Quarantine (PPQ) is considering the development of an improved system for determining the entry status of agricultural products, particularly fruits and vegetables. Significance: Regulatory Program

Legal Authority: 7 USC 150aa to 150jj; 7 USC 151 to 164

CFR Citation: 7 CFR 340, Proposed

Legal Deadline: None.

Abstract: Trade in organisms and products altered or produced through genetic engineering may introduce and disseminate plant diseases and pests in the United States which pose a threat to U.S. agriculture and the environment if the introduction and dissemination of these genetically engineered articles are not regulated. The articles themselves, the cultures in which they are transported, or their packaging may be contaminated with plant pests. Some genetically engineered organisms and products are plant pests or there is reason to believe such organisms and products are plant pests. It is necessary, therefore, to establish regulatory control over genetically engineered organisms and products which are plant pests or which there is reason to believe are plant pests. 53. UNIFIED GUIDELINES FOR BIOTECHNOLOGY RESEARCH

Legal Authority: PL 99-198 Food Security Act of 1985

CFR Citation: Not applicable

Legal Deadline: None.

Abstract: The purpose of these guidelines is to specify required laboratory, agricultural, and environmental practices for constructing, handling, and experimental testing of plants, animals, and selected microorganisms involved in agricultural biotechnology research. These guidelines are necessary to assure the safety of agricultural ecosystems in which genetically engineered organisms may be released from physical containment. Compliance with the guidelines will be obligatory for all entities which receive research support from USDA and it will be

Significance: Agency Priority

Legal Authority: 42 USC 1480; 5 USC 301; 7 CFR 2.23; 7 CFR 2.70

CFR Citation: 7 CFR 1951

Legal Deadline: None.

Abstract: FmHA proposes to revise regulations regarding the recapture of subsidy granted on Section 502 rural housing loans. This action is necessary as current FmHA regulations pertaining to same are confusing to the general public and our borrowers. The intended effect of this action is to shorten and simplify the method of calculating recapture.

Legal Authority: 42 USC 1480(j)

CFR Citation: 7 CFR 1944

Legal Deadline: None.

Abstract: The objectives are to address the following: (1) A congressional concern that the Agency is to provide prompt services for processing applications and loan management. Prompt services can be provided by utilizing the commercial services of technicians and specialists outside of the Agency, with the Agency providing oversight and monitoring. (2) An Administration's concern that the recipients of the specialized services

provided through the loan process begin to pay for these services. With the exception of nonprofit applicants, each applicant will be charged a fee for the services provided. The rate of 1/2 percent of the loan amount will capture the major expenses for services and most of the contractual costs provided by the Agency. (3) An Agency need to reduce the impact of technical services on the District and State staff resources. The State Director has been given the authority to use qualified contractors from outside the Agency under the requirements and limitations of a service contract and FmHA Regulations. To use contractors an established contract monitoring system must be established in the State. (FmHA 86-012)

Abstract: The purpose of these regulation changes are to alleviate problems created for tenants when rural rental housing borrowers prepay their loans and remove the housing from the low and moderate-income market. This will be done by requiring one-year leases in all projects; transferring rental assistance to projects to which displaced tenants are moving for use of these tenants; extending the notification period to tenants who will be affected by prepayment and the period in which they can apply for a letter of priority. None of these changes will require legislative change or additional allocation of funds.

Significance: Regulatory Program

Legal Authority: 7 USC 1989

CFR Citation: 7 CFR 1941; 7 CFR 1943; 7 CFR 1980

Legal Deadline: None.

Abstract: The Federal Government has had many different programs in an attempt to regulate the supply of agricultural commodities. The problem is to find a way to have an adequate supply of agricultural commodities without creating surpluses or shortages.

The Agency has changed its regulations to allow the Administrator of FmHA to restrict loans that will be used to increase the production of selected agricultural commodities - to be determined through objective criteria - when the United States Department of Agriculture is taking action to reduce production and/or has a program for supporting prices and/or has some other subsidy program for the selected agricultural commodity. This will save the applicant and the Agency the work, time, and the expense involved in processing applications for which a feasible plan of operation cannot be developed. The change in regulations will help eliminate the number of applications that have to be fully processed and then rejected. (FmHA 84-016)

Abstract: FmHA needs to fulfill the provisions of OMB Circular A-70 as they relate to FmHA's Business and Industrial (B&I) Guaranteed Loan program. Legal Authority: 7 USC 1989

CFR Citation: 7 CFR 1980

Legal Deadline: None.

Abstract: The general objective of the proposed action is to integrate Government and Private Sector resources in a continual effort to resolve financial difficulties in agriculture. The proposed action amends the debt adjustment program regulations for guaranteed OL and FO loans to clarify the dollar value equivalency of an interest rate reduction used in lieu of a required 10 percent minimum write down of the total principal and interest outstanding on loan(s) which a lender wants guaranteed; to reduce the minimum positive cash flow requirement under the DAP from 110 percent to 100 percent and to permit lenders to use a combination write down of principal of indebtedness along with an interest rate reduction which would equal the value of an upfront write down of existing indebtedness of at least 10 percent. The intended effect of this action is to provide additional financial assistance to both lenders and their farm borrowers in a time of financial difficulty. (FmHA 85-005)

CFR Citation: 7 CFR 246.2; 7 CFR 246.16(b); 7 CFR 246.16(d); 7 CFR 246.16(e)

Abstract: This regulation would set forth, in greater detail than in the regulations currently in effect, the formula to be used by FNS in allocating WIC food funds to State agencies. The objective of this action is to provide for the allocation of these funds on a basis that encourages State agencies to actively target program services to those persons who would benefit most from the program intervention. Such a formula would be used to allocate funds for Fiscal Year 1988 and thereafter.

Under the formula currently in use, each State agency is guaranteed a level of food funds based on its prior year level adjusted for anticipated inflation. This is the formula's stability component. In addition, State agencies serving a lesser proportion of their income eligible populations receive additional funding based on certain demographic measurements; this component is called growth funding. The proposed formula would incorporate provisions designed to promote targeting of benefits.

Abstract: This regulatory action is needed in order to promote efficient and effective use of limited WIC Program administrative funds. It would set forth, in greater detail than in the regulations currently in effect, the formula to be used by FNS in allocating WIC administrative funds to State agencies. The objective of this action is to provide for the allocation of these funds on a basis that rewards State agencies for managing their grants of WIC administrative funds in an efficient and effective manner. Under the formula currently in use, each State agency's administrative grant is calculated as a percentage of its food grant, thus providing little incentive to seek cost savings in either category.

Significance: Regulatory Program

Legal Authority: PL 99-641, Title IV

CFR Citation: 9 CFR 301 to 335

Legal Deadline: None.

Abstract: In November, 1986, PL 99-641 amended the Federal Meat Inspection Act to permit the Department to vary the manner and frequency by which it conducts inspection in establishments producing meat food products. All existing inspection regulations are based upon and reflect the previous statutory requirement that Federal inspectors be continuously present in such establishments. FSIS must develop new inspection procedures to allocate inspection resources among such establishments based on a variety of factors, including (1) the nature and frequency of the processing operations, (2) the adequacy and reliablity of the processing control and sanitary procedures, and (3) the establishment's history of compliance with inspection requirements. The meat inspection procedures will touch upon virtually all existing meat regulations concerning inspection of meat food products. Details of these new procedures and the specific proposed regulatory amendments will be developed upon the conduct in 1987 of a pilot program to test alternative procedures in selected plants.

99. STANDARD FOR FRANKFURTERS AND SIMILAR COOKED SAUSAGES

Significance: Regulatory Program

Legal Authority: 21 USC 601 et seq

CFR Citation: 9 CFR 319

Legal Deadline: None.

Abstract: USDA has been petitioned by the American Meat Institute (AMI) "to promulgate a standard of identity and composition for 'lite' sausage." The current cooked sausage standard includes various processed meat food products, such as frankfurters, hot dogs, weiners, viennas, bolognas, and knockwurst. The AMI petition requests a new standard for lower-fat "lite" sausage that would require not more than 22.5 percent fat and not less than 11.5 percent protein, as compared with 30 percent fat and 10 percent added water maximums in the existing cooked-sausage standard. FSIS proposed rule provides additional flexibility to enable industry to market lower fat products. The rule allows a combination of up to 40 percent added water and fat, with a 30 percent ceiling on fat content. The Agency also seeks comment on the option of deleting entirely the standard for cooked sausages. (FSIS 86-002)

Abstract: Sec. 153(a) of the Food Security Act of 1985 (ACT) provides that during the period beginning 60 days after the date of enactment of the Act and ending on September 30, 1989, the Commodity Credit Corporation (CCC) shall establish and operate an export incentive program for dairy products under Sec. 5 of the CCC Charter Act. The Food Security Act of 1985 requires that the Secretary of

Agriculture in each of the fiscal years ending September 30, 1986, September 30, 1987, and September 30, 1988 sell for export not less than 150,000 metric tons of dairy products owned by the CCC. Of this amount, not less than 100,000 metric tons shall be butter and not less than 20,000 metric tons shall be cheese. CCC will issue an announcement containing the terms and conditions of the program; an invitation for competitive bids specifying the eligible dairy products that may be sold to a foreign buyer and eligible destinations; and information on CCC-owned commodities which will be made available under the program as a bonus. Legal Authority: PL 96-487, Title V

CFR Citation: Not yet determined

Legal Deadline: None.

Abstract: December 2, 1980, the Alaska National Interest Lands Conservation Act was signed into Law. Section 501 (b) of the law requires that the Secretary of Agriculture promulgate regulations for the conservation of fish and wildlife and their habitats on the Chugach National Forest. The general National Forest System regulations and other existing laws governing management of National Forest System lands are applicable except as supplemental by these regulations or amended by the ANILCA, August 17, 1984. The new Chugach National Forest land management plan was appealed by 17 appellants. The settlement agreement specifies that subject to valid existing rights, the Forest Service will not allow timber harvest, road construction, surface occupancy for mineral leasing prior to publication of final regulations or completion of management area analysis for the Copper River Management Area. There are no alternatives to development of these regulations.

Abstract: Forest Service rules at 36 CFR 211.18 establish the process and procedures by which the public may appeal a National Forest System management decision. The regulation is being reviewed as required by EO 12291. The Forest Service recognizes the administrative appeal process as useful and worthwhile, and considers it to be a valuable tool in conducting business. However, there are opportunities to make the process more efficient and less burdensome on the public while maintaining a useful forum within which to administratively resolve conflict.

Review of the existing regulation will determine the need for licensed royalty payment and the need for changing reporting requirements from quarterly to annually. Abstract: The Federal Timber Sale Contract Payment Modification Act directs the Forest Service to require purchasers to make periodic payments on timber sales. As established by the act, the objective of periodic payments is to discourage speculative bidding on National Forest timber sales. A rule published 10/11/85 at 50 FR 41498 requires cash down payments and a periodic payment. However, to fully comply with the act, additional rules are required. This rule will be based on an evaluation of the effects of requiring annual payments, on consideration of procedures that would permit the pooling of payments, and on consideration of market-related contract

adjustments. There are no alternatives to issuing this rule; it is required by the Federal Timber Sale Contract Payment Modification Act. (FS 85-014)

Abstract: Timber may not be sold at less than appraised value. Skewed bidding enables bidders to tailor their bids to their competitive strengths. 125. MODIFY THE GENERAL PROHIBITION AGAINST USE OF VEHICLES IN EXCESS OF 40 INCHES IN WIDTH ON TRAILS

Legal Authority: 16 USC 551

CFR Citation: 36 CFR 261.12(e)

Legal Deadline: None.

Abstract: The objective of this action is to permit forest officers more discretion for controlling off-road vehicle use. Three factors have created the need to modify this regulation: (1) the general prohibition at 36 CFR 261.12(e) controls trail use by width of vehicle. Originally developed to control four wheel-drive vehicles on trails, this method uses a fairly arbitrary device (width) to control use; (2) off-road vehicle plans (36 CFR 295) use vehicle types to prescribe the vehicles that are permitted to use forest trails; (3) some recent models of trail vehicles (all terrain vehicles and snowmobiles) exceed the forty inch rule by one to five inches. The combination of the two methods of control with the larger model sizes has created confusion among users about ORV plan direction and created law enforcement difficulties. The proposed action would clarify the regulations and still maintain the tools necessary to control off-road vehicle use. (FS 86-007)

CFR Citation: 36 CFR 228, Subpart C

Legal Deadline: None.

Abstract: Whether a mineral deposit is a "common variety" determines whether or not it can be disposed of or sold by the Government under the 1947 Mineral Materials Act. Judicial and administrative interpretations defining common variety characterization determinations can only be made in court. Rulings in common variety cases are generally unpredictable, and the costs to both the Government and miner are high.

After a review of the legislative history of the 1955 surface Resources Act, which defined common varieties, we believe that Congress did not intend for certain minerals to be locatable under the Mining Laws; however, a failure to explicitly define the "common variety" term has led to misinterpretation and actions contrary to the original intent of the law. It is proposed that 36 CFR 228 Subpart C be amended to clarify this confusing classification situation. We believe PL 167 expressly provides for this action as it allows the Secretary of Agriculture to dispose of mineral materials "under such rules and regulations as he may prescribe."

Abstract: The present timber sale contract Form FS-2400-6 was developed in September 1973, and the Form FS-2400-6T was developed in October 1973. Since these dates several Acts, Laws, and policy changes have necessitated deletion of existing provisions and inserting supplemental provisions. The need to revise these documents has been recognized since the late 1970's. The revision will provide for clarification of provisions to reduce the potential for disputes between purchasers and the Forest Service. There will be no changes in the basic contract concepts except those dictated by law, regulation, and related policy. Comments from interested individuals and organizations will be utilized, as appropriate, in the formulation of the provision language.

Abstract: Regulations are needed to reduce confusion regarding the role of the Forest Service and its special-use authorization in permitting hydroelectric uses on National Forest System lands. The regulations objective will be to establish procedures, compatible with the procedures of the Federal Energy Regulatory Commission (FERC) for obtaining various approvals and involvement of the Forest Service in a timely manner.

Title V, Section 501 of the Federal Land Policy and Management Act of 1976 (FLPMA) requires that fees be paid for the use of NFS land; regulations have not yet been established to put these fees in effect. The objective is to establish a fee system for hydroelectric uses. A Notice of Proposed Policy was published 6/8/84 and comments were received. The proposed rule would take those comments into account.

Abstract: To facilitate the orderly development of locatable minerals on the National Forest System public domain in an environmentally sound manner. Since the regulations were promulgated in 1974, certain legal requirements have changed due to the provisions of the Wilderness Act and recent court decisions; some sections of the regulations no longer apply and revisions and updating are necessary. Major changes proposed will specifically address the requirements for wilderness operations and, secondly, will clarify the mechanism for administering locatable mineral activities not conducted on mining claims but which are nevertheless authorized by the 1872 mining law.

Abstract: Objectives are to set forth Forest Service procedures and role in the regulation of Indian allotments on National Forest System land. The Indian Allotment Act of 2/8/87, as by Section 31, Act of 6/25/10 authorizes the Secretary of the Interior to make allotments of National Forest System Lands to Indians for homesteading and agricultural and grazing purposes. The Forest Service has relied upon USDI rules and procedures at 43 CFR 2533 to govern its involvement in Indian allotment cases. Recent litigation and a decision by the Interior Board of Land Appeals indicate the need for the Forest Service to set forth its own regulations when the Forest Service determines that lands are not chiefly valuable for agricultural and grazing purposes. The only alternative is not to issue regulations. This is unacceptable since it leaves the Agency vulnerable to future IBLA appeals cases as well as future litigation.

Significance: Regulatory Program

Legal Authority: 16 USC 473; 16 USC 497; 43 USC 1761; 31 USC 9701

CFR Citation: 00 CFR None

Legal Deadline: None.

Abstract: The objective is to revise policies and procedures for administering special-use permits that authorize privately-owned recreation residences on National Forest System lands, including establishment of fees for recreation residences. The intended effect is to help resolve the longstanding controversy and permittee concerns over recreation residence fees and to gradually reduce Agency costs of administering recreation residence permits.

135. ● CREATE A NEW SUBPART C TO 36 CFR 264 ENTITLED NATIONAL SCENIC AND HISTORIC TRAIL SYMBOLS

Legal Authority: 5 USC 301

CFR Citation: 36 CFR 264

Legal Deadline: None.

Abstract: Objectives of this action are:

1. To establish a procedure for establishing official trail symbols for designated National Scenic and Historic Trails administered by the Forest Service.

2. To prescribe the conditions and terms for use of the symbols, including commercial use.

3. To establish the authorities to prosecute and revoke unauthorized use, and

4. To establish official symbols for several of the existing National Scenic and Historic Trails as required by law.

Two alternatives were evaluated--To protect these symbols and to not protect them. Protection was deemed to be in the best interest of the National Trails Program.

Significance: Regulatory Program

Legal Authority: 16 USC 551; 31 USC 483a; 43 USC 1901

CFR Citation: 36 CFR 222.53

Legal Deadline: None.

Abstract: Different grazing fee systems are used in the Eastern and Southern Regions of the Forest Service. The current system in the Eastern Region is market driven. The system in the Southern Region is based on a cost of livestock production/ability to pay methodology which currently results in below market fees. Two alternatives are being considered. The first would continue the two different fee systems in the eastern U.S. The second alternative would implement a uniform market driven fee system in both Regions. The advantages of this alternative over the first are:

(1) Competitive bidding with a minimum bid price would be fair and equitable to all parties, the livestock owners and the government.

(2) The fee system would be cost effective and economic to administer.

(3) The fee system would provide for investments in cost effective range improvements on National Forest System lands in the eastern states.

137. ● SKI AREA TERM PERMITS

Significance: Agency Priority

Legal Authority: PL 99-522, Sec 3(c)

CFR Citation: 36 CFR 251.50, (Revision)

Legal Deadline: Statutory, October 22, 1987. A one-year deadline is specified in the law.

Abstract: P.L. 99-522 provides new authority and direction for granting permits authorizing ski development and operation. It requires promulgation of rules within one year of enactment. Current direction for issuing special use permits including ski areas is contained in 36 CFR 251.50 through 251.64. While most of the current direction will continue to apply, revisions will be necessary to respond to the special provisions of the law relating to permit duration and acreage to be authorized.

The law has the effect of eliminating the current need and practice to issue two permits to authorize a single resort to use more than 80 acres. Further, it authorizes the issuance of 40 year permits instead of 30 which has been the maximum in the past.

Legal Authority: 16 USC 472; 7 USC 1011(f); 16 USC 1246(i); 16 USC 1133(c) to 1133(d)

CFR Citation: 36 CFR 261

Legal Deadline: None.

Abstract: Conflicts between National Forest users and bears, particularly the grizzly bear which is a threatened species, are occurring because of improper possession and storage of food or other materials that attract the bears. As the grizzly emerges from hibernation in March, it is critical that on-the-ground Forest officers have regulatory authority to require proper storage of food and refuse and to prohibit their possession and storage where grizzly-human conflicts are likely to result. The final rule will amend 36 CFR 261 to permit Forest officers to issue appropriate orders regulating possession, storage, and transport of materials that attract the bears. An interim final rule establishing these controls was published on April 17, 1986 and has proved effective. Without

the amendment, unacceptable risk to the public and to the government's efforts to recover the grizzly bear population will continue. For this reason, the alternative of "no action" is unacceptable. No other alternatives to achieve the objective have been identified.

141. ● PROHIBITIONS; FOSSIL COLLECTING

Legal Authority: 16 USC 551

CFR Citation: 36 CFR 261

Legal Deadline: None.

Abstract: In response to comments from the scientific and academic communities and in keeping with the recommendations of the National Academy of Sciences draft "Report on Guidelines for Paleontological Collecting," the Forest Service is clarifying its regulations concerning fossil collecting on National Forest System lands. The language on "paleontological resources" is being moved to a separate paragraph and the requirement for permits is being limited specifically to quarrying for fossils and for commercial activities. The no-action alternative would be to leave the regulation of paleontological resources the same as for archeological resources, with permits needed for all activities. Since there is no evidence of widespread problems, the permit process imposes unnecessary burdens on the casual collector and creates added paperwork for the Forest officer to manage.

Abstract: Forest Service rules at 36 CFR 211.18 establish the process and procedures by which the public may appeal a National Forest System management decision. CFR Citation: 36 CFR 228, Subpart C

Legal Deadline: None.

Abstract: Existing regulations allow noncompetitive sale of mineral materials not in excess of 100,000 cubic yards in any individual sale or 200,000 cubic yards in any one State for the benefit of any entity in any period of twelve consecutive calendar months. The proposal would give the Forest Service flexibility in meeting requests for noncompetitive sales of large amounts of mineral materials when public property, health, and safety are threatened or when competition is impractical. The proposal is similar to rules governing mineral material sales by the Bureau of Land Management. Interim rulemaking is sought to resolve a situation in California where the volume restriction for noncompetitive sales may interfere with a mining claimant's statutory rights regarding locatable minerals.

Semiannual Agenda of Regulations

AGENCY: Office of the Secretary, Commerce.

ACTION: April 1987 regulatory agenda.

SUMMARY: In compliance with Executive Order (E.O.) 12291, entitled "Federal Regulation," and the Regulatory Flexibility Act (Pub. L. 96-354), the Department of Commerce (DOC) in April and October of each year publishes in the **Federal Register** an agenda of the rulemaking actions covered by section 1 of E.O. 12291 that the Department plans to conduct or review over the next twelve months. Rulemaking actions are grouped according to prerulemaking, proposed rules, final rules, and rulemaking actions completed since the October 1986 agenda. The purpose of the agenda is to provide information to the public on regulations currently under review, being proposed, or issued by the Department. The agenda is intended to facilitate comments and views by interested members of the public.

DOC's April 1987 regulatory agenda includes regulatory activities that are expected to be conducted during the period April 1, 1987 through March 31, 1988.

FOR FURTHER INFORMATION CONTACT:

Specific: For additional information about a specific regulatory action listed in the agenda, contact the individual identified as the contact person.

General: Comments or inquiries of a general nature about the agenda should be directed to Michael A. Levitt, Assistant General Counsel for Legislation and Regulation, U.S. Department of Commerce, Washington, DC 20230, Telephone: (202) 377-3151.

SUPPLEMENTARY INFORMATION: On February 17, 1981, President Reagan signed Executive Order 12291. The E.O. requires all executive agencies to publish semiannually an agenda of those regulations that are under consideration pursuant to this Order. Office of Management and Budget (OMB) Bulletin No. 87-6, issued December 4, 1986 establishes guidelines and procedures for the preparation and publication of the April 1987 Unified Agenda of Federal Regulations for all Federal departments and agencies. E.O. 12291 and the OMB Bulletin require that each agenda report the following information on non-exempt regulatory activities being conducted or planned to be conducted by the agency during the twelve-month period succeeding publication: the title of the regulation; the name, title, address and phone number of an agency person who is knowledgeable about the regulation; whether the regulation has or is expected to have a significant economic impact on a substantial number of small entities; the section(s) of the Code of Federal Regulations which will affect or be affected by the action; the section of the United States Code, Public Law or Executive Order that authorizes the action; an indication of whether or not the entry is a significant regulatory action included in the Administration's Regulatory Program and if the agency considers it a priority action; an abstract describing the problem the regulation addresses, alternatives to the regulation being considered, and potential costs and benefits of the action; legal deadline, if any; and a timetable of dates and, if available, **Federal Register** citations for past stages of the action.

The Regulatory Flexibility Act requires agencies to prepare a regulatory flexibility analysis where there is a positive finding that a rule will have a significant economic impact on a substantial number of small entities. E.O. 12291 requires agencies to prepare a regulatory impact analysis for any regulation considered to be a "major rule" as defined in the Order.

Explanation of Information Contained in the Agenda

Within the Department, the Office of the Secretary and various operating units may issue regulations. Operating units such as the National Oceanic and Atmospheric Administration (NOAA), the Economic Development Administration, the International Trade Administration, National Bureau of Standards, and the Patent and Trademark Office issue the greatest share of the Department's regulations, while other operating units such as the United States Travel and Tourism Administration and the Minority Business Development Agency currently have no regulations in the agenda.

A large number of regulatory actions reported in the agenda are proposed or final Federal Information Processing Standards (FIPS), issued by the National Bureau of Standards (NBS) under Pub. L. 89-306. FIPS consist of standards and guidelines to improve Federal Government use and management of computers and information technology. The standards, while often of great use to industry and the public, apply only to the Federal Government. In developing the standards and guidelines, and in providing technical guidance and coordination to Federal agencies, NBS works closely with private industry standard-setting organizations.

Another large number of regulatory actions reported in the agenda deal with fishery management programs of NOAA's National Marine Fisheries Service (NMFS). To avoid repetition of programs and definitions, as well as to provide some understanding of the technical and institutional elements of the NMFS programs, a section on "Explanation of Information Contained in NMFS Regulatory Entries" is provided below.

Explanation of Information Contained in NMFS Regulatory Entries

The Magnuson Fishery Conservation and Management Act of 1976 (16 U.S.C. 1801 et seq.) (Act) governs the management of fisheries within the Exclusive Economic Zone (EEZ). The EEZ refers to those waters from the outer edge of the United States territorial sea to a distance of 200 miles. Fishery Management Plans (FMPs) are to be prepared for fisheries which require conservation and management measures. These FMPs regulate domestic and foreign fishing where permitted. Foreign fishing can be conducted in a fishery for which there is no FMP only if a preliminary fishing management plan has been issued to govern that foreign fishing. Under the Act, eight Regional Fishery Management Councils (Councils) prepare FMPs, or amendments to FMPs, for fisheries within their respective areas. In the

DOC

development of such plans or amendments and their implementing regulations, the Councils are required by law to conduct public hearings on the draft plans and to consider the use of alternative means of regulating.

The Council process for developing FMPs and amendments makes it difficult for NMFS to determine the significance of some regulatory actions under consideration at the time the semiannual regulatory agenda is published. Frequently NMFS does not have specific plan objectives or alternatives for management since the Councils may not have approved or submitted plans to the Secretary of Commerce for review, adoption, and implementation.

The DOC April 1987 regulatory agenda follows.

157. PUBLIC INFORMATION, FREEDOM OF INFORMATION (FEES)

Legal Authority: 5 USC 552

CFR Citation: 15 CFR 4

Legal Deadline: Statutory, April 25, 1987.

Abstract: The revised regulation would implement the amended fee provisions of the Freedom of Information Act (FOIA), P.L. 99-570. The amended FOIA, which was signed into law on October 27, 1986, requires a Government-wide uniform system for charging requests under the FOIA. The law specifies that agencies promulgate implementing regulations by April 25, 1987.

158. CONTRACT CLAUSES AND SOLICITATION PROVISIONS FOR THE COMMERCE AUTOMATED SOLICITATION SYSTEM

Legal Authority: 41 USC 251 et seq; PL 98-369; PL 98-577

CFR Citation: 48 CFR 1 to 53

Legal Deadline: None.

Abstract: The Department of Commerce is currently reviewing standardized contract clauses and solicitation provisions for inclusion in a planned Department wide automated solicitation system. A proposed amendment to the Commerce Acquisition Regulation (CAR) would illustrate and incorporate these standardized clauses and provisions. This should ultimately be less burdensome to Department contractors and potential contractors, since the clauses and provisions would be used uniformly throughout the Department.

Significance: Regulatory Program

Legal Authority: 22 USC 3101 to 3108 Int'l Investment & Trade in Svcs Survey Act

CFR Citation: 15 CFR 801

Legal Deadline: None.

Abstract: This action will provide for the conduct of a mandatory BE-20, Benchmark Survey of U.S. Services Transactions with Unaffiliated Foreign Persons, covering 1986, as required by the International Investment and Trade in Services Survey Act. The action will fill major gaps in data on international services transactions so the U.S. Government can better assess the size and impact of those transactions, more effectively formulate international economic policies and conduct negotiations to reduce the barriers to service trade, improve the recording of services transactions in the U.S. balance of payments accounts, and assist U.S. services businesses in identifying and evaluating market opportunities. It is anticipated that the benchmark survey will be followed by an abbreviated annual sample survey that will update the data from the benchmark survey. The annual costs to BEA of conducting the benchmark survey and the follow-up annual sample survey will be about $500,000. The cost to respondents of the benchmark survey will be about 100,000 manhours, or $3.0 million, and the cost of the annual sample survey will be about 55,000 manhours, or $1.6 million a year. Additional Information: ABSTRACT CONT: barriers to services trade, increased sales of services, and improved balance of payments statistics will far exceed costs. A notice of proposed rulemaking to bring existing BEA surveys of U.S. services transactions under 22 USC 3101 to 3108, as amended, and to conduct a BE-20 Benchmark Survey of U.S. Services Transactions With Unaffiliated Foreign Persons was submitted to OMB in August 1985, along with an information collection request for the benchmark survey. On 10/21/85, OMB disapproved the information request for the benchmark survey, largely because of respondent burden and the need to seek greater input from the business community in designing the survey. Subsequently, final rules -- 15 CFR Part 801 -- were approved covering the other existing surveys on U.S. services transactions. BEA has conducted a public outreach program to revise the BE-20 benchmark survey to meet OMB requirements. The action described herein will amend 15 CFR Part 801 to cover the revised BE-20 survey.

Legal Authority: 22 USC 3101 to 3108 Int'l Investment & Trade in Svcs Survey Act

CFR Citation: 15 CFR 806.17

Legal Deadline: Statutory. The survey must cover the year 1987.

Abstract: This action will amend existing rule 15 CFR Part 806.17 to provide for the conduct of the BE-12, Benchmark Survey of Foreign Direct Investment in the United States -- 1987, as required by the International Investment and Trade in Services Act, 22 USC 3101 to 3108 (see especially Sec 4(b) of the Act). The existing rule covers a similar survey for 1980, which has been completed and which the new survey will update.

Legal Authority: 22 USC 3101 to 3108 Int'l Investment & Trade in Svcs Survey Act

CFR Citation: 15 CFR 801

Legal Deadline: None.

Abstract: This action is contingent upon OMB approval of the BE-20, Benchmark Survey of Selected Services Transactions with Unaffiliated Foreign Persons--1986. It will amend 15 CFR 801 to bring existing BEA services surveys into conformance with the new BE-20 benchmark survey and its anticipated annual follow-on survey. Specifically, it will: (1) Amend 15 CFR 801.9(b)(3) to eliminate coverage of consulting services from the BE-47 survey. That survey now covers foreign contract operations of U.S. construction, engineering, architectural, and related consulting and technical services firms. Under the proposed action, consulting services would be covered on the BE-20 and annual follow-on survey rather than on the BE-47. (2) Amend 15 CFR 801.9(b)(4) to expand coverage of the BE-48 survey to include direct insurance as well as reinsurance transactions. In designing the BE-20 survey, it was decided to include direct insurance on the existing BE-48 survey rather than on the BE-20; heretofore, no data on direct insurance transactions with foreign persons have been collected. Additional Information: ABSTRACT CONT: (3) Make such other revisions to 15 CFR 801, including possible changes in exemption levels, as necessary to bring existing surveys into conformance with the BE-20 survey and its anticipated annual follow-on survey. This action is expected to have a negligible impact on reporter burden and on BEA operating costs.

Significance: Agency Priority

Legal Authority: 22 USC 3101 to 3108 Int'l Investment & Trade in Svcs Survey Act

CFR Citation: 15 CFR 801

Legal Deadline: None.

Abstract: This action is contingent upon OMB approval of the BE-20 Benchmark Survey of Selected Services Transactions with Unaffiliated Foreign Persons--1986. It will amend 15 CFR 801 by adding rules to implement a new annual follow-on survey to the BE-20 benchmark survey. The scope and coverage of the annual survey are expected to be more limited than that of the benchmark survey, with exact scope and coverage to be determined after analysis of preliminary results of the 1986 BE-20. Data from the annual survey will be used to derive universe estimates of covered services transactions in nonbenchmark years, thus updating the data collected in the benchmark survey. The first year of coverage will be 1987; the survey will not be taken for a year covered by the benchmark survey.

167. ● RULE TO CHANGE REPORTING CRITERIA FOR MINORITY-OWNED FOREIGN AFFILIATES ON FORM BE-11C OF THE ANNUAL SURVEY OF U.S. DIRECT INVESTMENT ABROAD

Legal Authority: 22 USC 3101 to 3108 Int'l Investment & Trade in Svcs Survey Act

CFR Citation: 15 CFR 806.14(f)(3)(iii), (Revision)

Legal Deadline: None.

Abstract: This action will revise 15 CFR 806.14(f)(3)(iii) by lowering the percentage of ownership above which a minority-owned foreign affiliate must be reported on Form BE-11C of BEA's Annual Survey of U.S. Direct Investment Abroad. The ownership cutoff now used on the BE-11C is 25 percent. However, foreign business enterprises owned between 10 and 25 percent by a U.S. person are, by definition, also considered foreign affiliates and are thus part of the universe of U.S. direct investment abroad. Experience has shown that some of these affiliates with low ownership interests are, nevertheless, very large. Without the type of information collected on the form, data for such affiliates and, thus, for the universe as a whole, cannot be accurately estimated.

For affiliates owned between 10 and 25 percent, probably only those with assets, sales, or net income equal to or greater than $50 million would be required to report. About 90 existing reporters, and no new ones, would be required to file for about 175 additional affiliates. Of the 90 reporters, roughly 65 percent would file for one additional affiliate, (cont)

Additional Information: ABSTRACT CONT: 20 percent would file for two additional affiliates, and 15 percent would file for three or more additional affiliates. The increase in burden for these reporters would be relatively small--about 3 hours, on average--because only a few major data items (total assets, annual sales, net income, U.S. merchandise exports and imports, employment, and employee compensation) are obtained on the BE-11C. Thus, the burden of providing the data would be small relative to the gain in accuracy of the resulting estimates.

Legal Authority: 22 USC 3101 to 3108 Int'l Investment & Trade in Svcs Survey Act

CFR Citation: 15 CFR 806

Legal Deadline: None.

Abstract: This action will raise the exemption levels for quarterly report forms BE-605 (Transactions of U.S. Affiliate, Except an Unincorporated Bank, with Foreign Parent) and BE-606B (Transactions of U.S. Banking Branch or Agency with Foreign Parent) from $10.0 million to $15.0 million. It will also raise the exemption levels for annual forms BE-133C (Schedule of Expenditures for Property, Plant, and Equipment of U.S. Direct Investments Abroad) and BE-133B (Followup Schedule of Expenditures for Property, Plant, and Equipment of U.S. Direct Investments Abroad) from $8.0 million to $10.0 million. The purpose of the action is to effect a reduction in the number of reports filed by U.S. companies, thus significantly reducing the reporting and processing burden.

The amendment will narrow the unfair competition requirements for a "702 Study" by raising the threshold amount of projects from $10,000 to $25,000. Also, the unfair competition exceptions have been expanded to apply to all EDA financial assistance programs. Certain projects are exempt from "702 Study" requirements and the definition of retention of capacity and employment has been changed by deleting the word "existing."

Legal Deadline: None.

Abstract: Based upon comments received, the legislative history, and agency policy, the final rule has been changed to cover business development projects as well as grants for construction, renovation, etc. under Titles I, IV, IX and Sec. 301(f) of Title III of the Public Works and Economic Development Act of 1965, as amended (Pub. L. 89-136 42 USC 3121 et seq). The final rule will include time limits, areas and employers covered. The interim final rule now in effect narrows the nonrelocation requirements to business development projects and limits the definition of financial assistance to loans and guarantees. The interim final rule will be grandfathered to apply to projects approved from 11/13/85 until the date of publication of the final rule.

Abstract: To eliminate duplicative and inconsistent debarment and suspension actions across the government. Private actions or actions by other levels of government would lack broad enough jurisdiction. This regulation will benefit the U.S. by eliminating duplicative and costly actions. Benefits have not been quantified at this time.

189. ADMINISTRATIVE OFFSETS FOR DEBTS OWED THE DEPARTMENT OF COMMERCE

Legal Authority: PL 97-365, Sec 10

CFR Citation: 15 CFR 2A, (New)

Legal Deadline: None.

Abstract: The proposed regulation will cover Department procedures for withholding money due individuals and businesses indebted to the Federal Government. Administrative offsets will be used by the Department when debtors have failed to make timely and adequate payments to satisfy such debts. Prior to collecting claims through administrative offset, debtors will be provided under the regulations with a notification of the amount and nature of the claim and the Department's intention to collect the claim through administrative offset, and explanation of the debtor's rights, an opportunity for the debtor to inspect and copy the agency's records relating to the claim, an opportunity for review of the claim by the agency if contested by the debtor, and an opportunity to enter into a written agreement with the agency for repayment of the amount due. These procedures will ensure the effective use of administrative offsets when appropriate, thereby increasing collections of amounts due the Federal Government. The result will be better cash management and a slight reduction in the need of the Federal Government to borrow funds in the capital market.

Legal Authority: 19 USC 81a et seq Foreign-Trade Zones Act of 1934

CFR Citation: 15 CFR 400

Legal Deadline: None.

Abstract: Revision of the regulation is needed to administer the Foreign-Trade Zones Act of 1934, as amended, to provide for the establishment, operation, and maintenance of foreign-trade zones in ports of entry of the United States. At the time the ANPRM was published the emphasis was on changing the rules to provide improved guidance to the public on procedures and criteria followed in making decisions concerning special-purpose subzones and operations detrimental to the public interest. Since that time, it has been decided to propose revisions to the entire 15 CFR 400 in order to update the language and conform it to current CFR format.

Abstract: Section 359.10(a) of the existing regulation requires that a report of an investigation be organized into several sections containing classified and unclassified information. Paragraph (c) of that section requires that the report (excluding confidential material) be published in the Federal Register. Paragraph (a) will be amended to delete the report organization requirement and paragraph (b) will be amended to permit publication of either the full report or a summary thereof. It is impractical, time consuming, and not cost effective to organize the report, and publish the full report, as now required by the regulation. Section 359.10(c) will also be amended to provide that a copy of the report will be available to the public from the Publications Distribution Office of the Department rather than at ITA's Freedom of Information Records Inspection Facility.

Abstract: On July 12, 1985, the Export Administration Amendments Act of 1985 (PL 99-64) extended and amended the Export Administration Act of 1979 (50 USC app 2401, et seq.)(EAA). Certain changes were made to the Short Supply provisions of Section 7 of the EAA. Accordingly, revision of the Short Supply provisions (15 CFR 377) and related licensing requirements (15 CFR 371 and 399) of the Export Administration Regulations (15 CFR 368-399) is necessary. An interim final rule was issued which included (1) elimination of the validated licensing requirement for exports of refined petroleum products so as to permit their export with certain restrictions under a general license; (2) a new definition of "crude oil" for purposes of the regulation; and (3) certain technical and housekeeping changes. There are no costs associated with this action which would promote the export of decontrolled products.

Abstract: FIPS 46, Data Encryption Standard (DES), will be reviewed to assess its adequacy in protecting unclassified computer information. FIPS 46 was approved for Federal government use in 1977 and reaffirmed in 1983. The DES specifies an algorithm to be implemented in electronic hardware devices and used for the cryptographic protection of computer data.

Legal Authority: 40 USC 759(f); EO 11717

CFR Citation: 00 CFR None

Legal Deadline: None.

Abstract: This standard will adopt a procurement specification developed by the Government Open Systems Interconnection Users Group. The specification will enable the Federal government to acquire computer network systems that conform to national and international standards for OSI. The specification addresses needs to acquire multivendor systems using available or soon-to-be-available standard products.

Abstract: This standard provides for reliable, transparent transfer of data between two heterogeneous or homogeneous computer systems. The standard is based on an international consensus and is compatible with the International Organization for Standardization (ISO) document ISO/TC97/SC 16 N 1169, class 2 and class 4. This is one of a family of computer network protocol standards which will make possible computer-to-computer communication of Federal ADP systems. It will enable Federal

agencies to select equipment based on cost and performance considerations and to interconnect equipment of different manufacturers.

Abstract: The revised rule will expand the coverage of established voluntary standards for grades of fishery products to include new products made from fish blocks. The standards will take into account new technology and equipment. These standards will be used in a voluntary program of fishery products inspection and certification by the NMFS. Industry has shown a high level of interest and support for the revisions. The timetable for this action is very tentative. Further research will be needed before the rule is published.

Significance: Regulatory Program

Legal Authority: Not Yet Determined

CFR Citation: Not yet determined

Legal Deadline: None.

Abstract: A marine fishery user fee system will provide a substantial and stable source of revenue to partially offset Federal fishery expenditures and information needed for effective fishery management. Fees would be collected from the sale of marine fish conservation permits and stamps, and from an assessment on landing or delivery of fish for commercial purposes. Revenues would be shared with the states for marine fishery conservation activities. Administration costs are estimated to be $7,500,000 annually, with net Federal revenues of approximately $40 million.

233. ● PERFORMANCE STANDARDS FOR TUNA SKIPPERS

Legal Authority: 16 USC 1361 to 1407 Marine Mammal Protection Act of 1972

CFR Citation: 50 CFR 216.24

Legal Deadline: None.

Abstract: During 1986 the overall annual quota for allowable incidental mortality of porpoise in the eastern tropical Pacific was reached in October and the U.S. tuna purse seine fleet was prohibited from fishing for tuna associated with porpoise. Industry representatives asserted that the quota was reached because a small fraction of vessel operators had exceptionally high kills. The industry representatives requested NMFS to develop sanctions to use against the certificates held by the offending operators to prevent their actions from penalizing the entire industry.

The NMFS does not now have porpoise mortality standards to serve as the basis for any permit action. The purpose of the proposed rule will be to establish appropriate standards which will improve the U.S. fleet's overall porpoise safety performance and identify individual poor performers for remedial action or, if necessary, elimination from the fishery.

238. DEVELOPMENT OF A FISHERY MANAGEMENT PLAN FOR SUMMER FLOUNDER

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conser and Management Act

CFR Citation: 50 CFR 653, (Reserved)

Legal Deadline: Statutory. 110 days after the amendment is submitted by the Fishery Management Council.

Abstract: Summer flounder is seasonably vulnerable to very large and varied commercial and recreational fisheries. Landings have declined in recent years and there is concern that overfishing may occur. The summer flounder crosses Council and Regional boundaries necessitating close coordination between the constituent agencies. The long-term benefits of higher production and revenue to the fishermen and processors are expected to outweigh any short-term limitations on catches in order to rebuild the stocks. Rebuilding the stocks to the maximum level, the efficiency of the fleet will improve as catches per unit of effort will correspondingly rise.

240. AMENDMENT FOR ALASKA GROUNDFISH AND HIGH SEAS SALMON FISHERY MANAGEMENT PLANS - CLOSE FCZ INTRUSION INTO STATE WATERS

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conser and Management Act

CFR Citation: 50 CFR 672

Legal Deadline: None.

Abstract: This amendment will implement the intent of current legislation that refers to the State of Alaska management of groundfish in Federal waters that intrude into the intercoastal waters of southeastern Alaska. It affects the Gulf of Alaska groundfish and High Sea salmon fisheries. The amendment to the Gulf of Alaska Groundfish Fishery Management Plan to redefine Sablefish Management Boundaries (RIN 0648-AB39) has been combined with this action.

Abstract: A mandatory reporting requirement for fishing vessel operators who harvest salmon in the fishery conservation zone (FCZ) off Alaska and who sell, transfer, or deliver salmon in the FCZ or to a U.S. port outside Alaska. The operator must submit a fish ticket to the Alaska Department of Fish and Game after each sale, transfer, or delivery. Receipt of this ticket is necessary to obtain timely data on salmon catches.

242. ENDANGERED FISH OR WILDLIFE; PERMITS FOR THE INCIDENTAL TAKING OF ENDANGERED MARINE SPECIES

Legal Authority: 16 USC 1531 et seq Endangered Species Act of 1973

CFR Citation: 50 CFR 220; 50 CFR 222

Legal Deadline: None.

Abstract: The proposed regulations implement Section 10(a)(1)(B) of the Endangered Species Act, as amended (ESA). The proposal provides, under limited circumstances, for issuance of permits allowing the incidental taking of endangered species. The proposal applies to certain Federal permit or license holders and to private entities or State local governments whose actions are not otherwise subject to Federal involvement or control. Prior to the 1982 amendments to the ESA, the taking of endangered species was prohibited except for scientific research or to enhance the propagation or survival of the species. Permits issued under the proposed regulations would

allow permit holders to conduct their activities without risk of prosecution for the incidental take of species authorized by such permits.

Additional Information: Potential cost to applicants is estimated at 2500. Cost per applicant is estimated at $10. Each applicant will be required to submit a conservation plan as part of the permit process. As part of their conservation plan, fishermen will have the option of voluntary use of the Trawling Efficiency Device which allows trapped sea turtles to escape from fishing nets. Selection of this option will result in an additional cost of approximately $400 per Device. NEPA, E.O. 12291 and RFA determinations have not been undertaken.

Abstract: Revision will implement P.L. 99-659 and accepted recommendations of the NOAA Fishery Management Study completed in 1986. The objective is to improve the process of fishery management under the Magnuson Fishery Conservation and Management Act. The Study analyzed alternatives to the existing system. Benefits include unquantifiable improvements in efficiency and resource conservation. Costs are expected to be absorbed by improved priorities in the Federal fishery program.

244. SPINY LOBSTER FISHERY OF THE GULF OF MEXICO AND SOUTH ATLANTIC - AMENDMENT 1

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conser and Management Act

CFR Citation: 50 CFR 641, (Revision)

Legal Deadline: Statutory. 110 days after the amendment is submitted by the Fishery Management Council.

Abstract: There is a high mortality of undersized lobsters used as live bait in traps, an increasing number of traps in the fishery, incompatible State and Federal regulations, and an excessive number of abandoned traps. New management measures include: a Federal permit to fish, commercial lobster season from April 1 to August 5th, minimum tail length of 5 inches, required onboard live well for carrying lobsters used as bait, a Federal permit to fish, modify the sportfishing possession limit, request modification of the State reporting requirements, require release of all egg-bearing lobsters, require a permit to separate lobsters at sea, limit possession of undersize lobster on board to 100, and require identification of gear and vessels. Estimated benefits are an increase in annual yield of 1.5 million pounds and an increase of $3.3 million to fishermen by 1987. The benefits will exceed the costs.

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt Act

CFR Citation: 50 CFR 650

Legal Deadline: Statutory. 110 days after the amendment is submitted by the Fishery Management Council.

Abstract: This Amendment will revise the management program for Atlantic sea scallops by the following possible changes: (1) modify the meat count measure to include a provision for seasonal changes reflecting size changes; (2) supplement the meat count measure with some type of gear specification measure designed to increase the size-selectivity of scallops harvested; and (3) establish seasonal closure provisions for certain areas having high densities of immature scallops.

Significance: Regulatory Program

Legal Authority: 16 USC 1531 et seq Endangered Species Act of 1973

CFR Citation: 50 CFR 222.41; 50 CFR 227.72(e)(3)

Legal Deadline: None.

Abstract: The NMFS is mandated by the Endangered Species Act of 1973 (ESA) to conserve and protect endangered and threatened species. Six species of marine turtles are listed as endangered or threatened under the ESA. Significant numbers of listed turtles are caught and drowned incidental to shrimp fishing operations in the Gulf of Mexico and the U.S. South Atlantic. To address this problem, NMFS developed the Trawling Efficiency Device (TED). When attached to a shrimp trawl, this excluder gear reduces the incidental capture of sea turtles by 97 percent in addition to reducing other unwanted by-catch associated with shrimp trawling. NMFS is now considering promulgating regulations that would require the use of TEDs in several significant geographical areas of the Gulf of Mexico and the U.S. South Atlantic.

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt Act

CFR Citation: 50 CFR 671

Legal Deadline: None.

Abstract: If this Secretarial Amendment to the Fishery Management Plan for the Commercial Tanner Crab Fishery off the Coast of Alaska (FMP) is implemented, it would repeal the FMP and its implementing regulations. The North Pacific Fishery Management Council is preparing a new FMP. However, during an interim period following repeal of the current FMP, and before implementation of a new FMP, the Tanner crab fishery would be managed to the extent that vessels are registered in the State of Alaska by the State. Repeal of the current FMP is necessary because it fails to provide for timely coordination with the State of Alaska's inseason management actions and may result in violation of National Standards 1, 2, 5, 6, and 7 of the Magnuson Act. While the current FMP allows for inseason actions to protect stocks of Tanner crab it does not permit inseason actions based solely on socioeconomic reasons. The new FMP in draft will contain Tanner crabs and King crabs and better defined frameworking mechanisms.

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt Act

CFR Citation: 50 CFR 630

Legal Deadline: Statutory. 110 days after the amendment is submitted by the fishery management council.

Abstract: Amendment 1 will address the continuing decline of large swordfish. U.S. fishery has changed dramatically in recent years. The larger, economically important swordfish are rarely found in nearshore fishery grounds that need to be productive. Fishermen have turned to tuna in these waters or are required to go to distant water for larger swordfish. The Councils will consider size limits, area closures and quota management in amendment 1 in an attempt to restore the nearshore swordfish fishery.

252. ● SAFETY OF UNITED STATES OBSERVERS ABOARD FOREIGN FISHING VESSELS

Significance: Regulatory Program

Legal Authority: PL 99-659

CFR Citation: 50 CFR 611.8

Legal Deadline: None.

Abstract: United States observers are required aboard foreign vessels permitted to fish in the U.S. Exclusive Economic Zone (EEZ). Conditions aboard these vessels can be hazardous to the safety of observers. To prevent injury to observers, the Department of Commerce intends to publish minimum safety standards that must be maintained aboard foreign fishing vessels before they will be permitted to fish in the U.S. EEZ.

The alternative to establishing U.S. standards is to accept flag-state standards as adequate. This solution will probably not be feasible because there is a wide variation in foreign safety standards and differing degrees of compliance with standards. In some cases, foreign fishing vessels meeting existing flag-state standards would not be suitable for U.S. observers.

Costs of this action will be borne by the owners of foreign fishing vessels. This action is beneficial in that it may prevent serious injury, including death, to observers during the performance of their duty.

Alternatives being considered are: Minimum size for sablefish, increased restrictions on incidental catches of halibut, closure of an area around unalaska islands to foreign fishing and domestic fishing for transfer to foreign processing vessels in an effort to assist domestic processors, closure of an area in the eastern Bering Sea to trawl fishing (May-July) to assist the local fishery for Pacific cod, increase the upper limit of optimum yield to domestic vessels, require reporting of the transfer of fish at-sea among domestic vessels, require reporting of foreign processed fish, require reporting of more economic data on catches, and allow the retention and sale of fish by research charter vessels.

260. ● NORTHEAST MULTISPECIES FISHERY MANAGEMENT PLAN

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt Act

CFR Citation: 50 CFR 651

Legal Deadline: Statutory. 110 days after the plan is submitted by the fishery management council.

Abstract: This plan will provide additional protection to groundfish resources in the North Atlantic beyond that provided by the current Northeast Multispecies FMP, which was implemented on an interim basis until September 30, 1987. The plan will be aimed at reducing fishing pressure on ten valuable fish species and rebuilding their stocks (cod; haddock; yellowtail; winter, windowpane, and witch flounders; pollock; redfish or ocean perch; American plaice; and white hake).

Abstract: NMFS is in the process of developing U.S. Standards for Grades of Mixed Fillet/Mince Fish Blocks and Revising Standards for Fillet Blocks and Minced Fish Blocks, as well as for Fish Sticks and Portions. Uniform labeling of frozen fish blocks, and fish sticks and portions is important to avoid confusion among processors, who buy fish blocks, and among consumers, who buy the fish sticks and portions.

Legal Authority: 15 USC 1801 et seq Magnuson Fishery Conservation & Mgmt. Act; 16 USC 773 et seq Northern Pacific Halibut Act of 1982

CFR Citation: 15 CFR 904

Legal Deadline: None.

Abstract: The existing regulations (15 CFR 904) provide uniform procedures for enforcement and civil proceedings under the various fishery and marine resource statutes administered by NOAA. The regulations are being revised to consolidate all aspects of NOAA's civil process which can be uniformly treated. The revised regulations will provide uniform permit processing procedures and sanction procedures; means of addressing the respondent's ability to pay in civil penalty proceedings; procedures for issuance and appeal of written warnings, summary forfeitures, and for selling seized perishable fish. The revisions will clarify for the public the procedures which NOAA follows in carrying out its enforcement responsibilities. The amendments thus are beneficial rather than burdensome to the public. These procedural regulations will not increase costs to the public or local governments. Nor will they have a significant adverse effect on competition, employment or industry. The alternative of not further consolidating the procedures was considered and rejected. There is no alternative to making the updating and housekeeping portions of the amendments.

271. U.S. GENERAL STANDARDS FOR GRADES OF SHRIMP

Legal Authority: 7 USC 1621 to 1630 Agricultural Marketing Act of 1946

CFR Citation: 50 CFR 265A

Legal Deadline: None.

Abstract: The final rule will establish general quality grading standards for all non-breaded forms of fresh or frozen shrimp. These grading standards will provide for the systematic differentiation of the quality of shrimp into four categories -- U.S. Grades A, B, C and Substandard. The proposed standards will be applied to all commercial species of fresh or frozen shrimp in raw or cooked states in all non-breaded market forms. The adoption of grading standards is expected to facilitate trade in shrimp of all commercial species, as consumers will be able to select shrimp on the basis of identified quality. Industry has shown great interest in and support for the standards. Timetable for next action is very tentative. Public comments received indicate a need for further research before the rule is published.

Abstract: This amendment will (1) authorize closing a regulatory area or district to directed fishing for sablefish to a specific gear type prior to the achievement of that gear's allocation of optimum yield but would allow sablefish to be taken as a bycatch, and (2) allow continued fishing for other species when the optimum yield for one species has been reached. Significance: Regulatory Program

Legal Authority: 16 USC 1361 et seq Marine Mammal Protection Act of 1972

CFR Citation: 50 CFR 216.24

Abstract: U.S. tuna purse seine fishermen operating in the eastern tropical Pacific have been subject to certain restrictions relating to the take of marine mammals, whereas other nations fishing in a similar manner that export tuna to the U.S. often do not impose similar constraints on their own industry. Therefore, the Marine Mammal Protection Act of 1972 was amended to require all such nations, prior to being allowed to import tuna, to provide documentary evidence that they have adopted a program governing the incidental taking of marine mammals that is comparable to that of the U.S. and that the average rate of incidental take in the fishery is comparable to the U.S. These regulations will implement this requirement.

Significance: Regulatory Program

Legal Authority: 16 USC 1456 Coastal Zone Management Act of 1972

CFR Citation: 15 CFR 930

Legal Deadline: None.

Abstract: On January 11, 1984, the U.S. Supreme Court issued its decision in Secretary of the Interior et al. v. California et al. No. 82-1326. The Court held that the sale of Outer Continental Shelf (OCS) oil and gas leases is not an activity "directly affecting" the Coastal Zone Management Act of 1972, as amended (CZMA), and therefore, that a consistency determination is not required under that section before such sales may be made. Section 307 (c)(1) required that Federal agencies conducting or supporting activities "directly affecting the coastal zone" must conduct or support those activities in a manner which is consistent to the maximum extent practicable with federally-approved state coastal zone management programs. NOAA engaged in rulemaking to revise certain CZMA regulations as a result of the Supreme Court decision. NOAA removed those references which identify OCS lease sales as activities covered by the Section 307(c)(1) requirements.

Significance: Regulatory Program

CFR Citation: 15 CFR 970, (Exploration Regulations); 15 CFR 971

Legal Deadline: None.

DOC—NOAA **Final Rule Stage**

Abstract: Under 15 CFR 970, prospective deep seabed miners may apply to NOAA for the exploration license needed to explore the deep seabed for manganese nodules. Under the new regulations (15 CFR 971), prospective miners will be able to apply to NOAA for a permit to commercially recover and process nodules to obtain strategic metals (nickel, copper, cobalt, manganese). These permits would provide security of tenure for applicants with respect to other U.S. citizens and other nations' permittees in accordance with applicable international agreements. Fees for securing and maintaining a permit will be based on the Government's processing costs. These fees would be an inconsequential portion of the cost of a commercial recovery operation. The cost of a commercial recovery operation is expected to exceed one billion dollars. Alternatives to the regulation would require amending the Deep Seabed Hard Mineral Resources Act, which would be considered in the context of the U.S. law of the sea policy.

282. U.S. GENERAL STANDARDS FOR GRADES OF FISH FILLETS

Legal Authority: 7 USC 1621 to 1630 Agricultural Marketing Act of 1946

CFR Citation: 50 CFR 263A; 50 CFR 263B; 50 CFR 263C; 50 CFR 263D; 50 CFR 263E

Legal Deadline: None.

Abstract: This revision would amend 50 CFR Subpart 263A and delete 50 CFR Subparts 263A, B, C & D. The revision will simplify the voluntary standards for the inspection/grading of fish fillets by industry and Government inspection personnel by incorporating general criteria for the standards. The timetable for this action is very tentative. Further research will be needed before publication of the rule.

283. AMENDMENT 10 TO THE TANNER CRAB FISHERY MANAGEMENT PLAN (FMP)

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conser and Management Act

CFR Citation: 50 CFR 671

Legal Deadline: Statutory. 110 days after the amendment is submitted by the Fishery Management Council.

Abstract: A major amendment to the existing Tanner crab fishery management plan which would expand the Alaska Regional Director's field order authority to adjust harvest levels and seasons (similar to the proposal contained in Amendment 9 which was partially disapproved by the Secretary). The amendment also may modify optimum yields, pot storage areas, and fishery management boundaries so that FCZ intrusions into State of Alaska waters would fall under State management. This amendment will be developed during the temporary one year suspension of Federal Tanner crab regulations. The amendment is to take effect November 1, 1987, when the new fishing year begins.

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conser and Management Act

CFR Citation: 50 CFR 661

Legal Deadline: Statutory. 110 days after the amendment is submitted by the fishery management council.

Abstract: This amendment (1) provides a formula for annual alteration of the escapement goal for Oregon coastal natural coho salmon based on stock abundance, (2) increases the flexibility of inseason management provisions to be more responsive to changing biological, social and economic conditions during the season and (3) modifies the allocation scheme for coho salmon south of Cape Falcon, Oregon to provide the optimum yield to recreational and commercial fisheries at varying stock abundance levels.

288. AMENDMENT 1 TO THE REEF FISH FISHERY OF THE GULF OF MEXICO FISHERY MANAGEMENT PLAN

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conser and Management Act

CFR Citation: 50 CFR 641, (Revision)

Legal Deadline: Statutory. 110 days after the amendment is submitted by the fishery management council.

Abstract: There is an increasing harvest of snappers and groupers by the longline fishery and some indications of growth overfishing. The recreational fishery continues to harvest many small red snappers. The alternatives are seasons and area closures for the longline fishery and control of recreational fishing for red snapper by area and season. The benefits are estimated to exceed the costs.

Legal Authority: 16 USC 1361 to 1407 et seq Marine Mammal Protection Act of 1972

CFR Citation: 50 CFR 228.11 to 228.14

Abstract: Based on a request from the marine geophysical exploration industry, NMFS is issuing regulations that would allow a small number of ringed seals to be taken incidentally as a result of seismic exploration on the ice in the Beaufort Sea from 1987 through 1991. The current regulations expired December 31, 1986. Section 101(a)(5) of the Marine Mammal Protection Act allows the taking of small numbers of marine mammals incidental to specified activities provided that certain findings can be made and regulations are established which set forth permissible methods of taking and requirements for monitoring and reporting.

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt Act

CFR Citation: 50 CFR 675

Legal Deadline: Statutory. 110 days after the amendment is submitted by the Fishery Management Council.

Abstract: Amendment to the existing fishery management plan for the groundfish fishery of the Bering Sea and Aleutian Islands area to provide framework measures to regulate bycatch of Tanner crab, king crab, and halibut in the joint venture and domestic trawl fisheries. Amendment 10 also would authorize reallocation within DAH, provide authority to implement conservation emergency closures through rule-related notices, and make minor changes to catcher/processor mothership reporting requirements.

Legal Authority: 47 USC 390 to 394; 47 USC 397 to 399b

CFR Citation: 15 CFR 2301

Legal Deadline: None.

Abstract: NTIA has administered the Public Telecommunications Facilities Program (PTFP) for two years under an interim revision of rules. These final rules are designed to reduce applicant burdens and simplify applications requirements. Deletions from prior rules include: local public notice and submission of site leases with initial applications. Grant recipients within the past ten years need not submit full eligibility documentation. Equipment inventories need only include the type(s) of equipment requested. NTIA seeks information on applicants' non-Federal financial support and capital replacement policies, and encourages applicants with the ability to increase their share of project costs. NTIA states its policy to prefer applicants requesting 50% or less PTFP funding for broadcast equipment replacements.

Abstract: This action will revise 37 CFR 404 to simplify the process by which US industry can obtain license to patented inventions owned by the Government. P.L. 99-502 is expected to increase industry interest in licensing inventions from Federal laboratories. The existing regulation was written by GSA on the basis of 1980 legislation. 298. RIGHTS TO INVENTIONS MADE BY NONPROFIT ORGANIZATIONS AND SMALL BUSINESS FIRMS

Legal Authority: 35 USC 206

CFR Citation: 37 CFR 401

Legal Deadline: None.

Abstract: 35 USC 206 as amended by PL 98-620, requires the Secretary to issue regulations implementing 35 USC 202-204 which deals with the rights in inventions to be provided to nonprofit organizations and small businesses that perform Government supported research and development. Previously this was the responsibility of OFPP which issued OMB Cir. A-124. The regulation is based on Cir. A-124 with such substantive changes as are necessary because of various amendments made by PL 98-620. No alternative is available since a major thrust of the statute was the development of a single regulation to replace the numerous regulations that were in effect prior to 1981. The statute and regulations will benefit contractors and the public by creating the certainty necessary for the early commercialization of inventions by the private sector. Compared to the pre-1981 situation this reduces administrative costs of both the Government and contractors.

Legal Deadline: Statutory. Three months after withdrawal of our reservation as to Chapter II of PCT.

Abstract: Public Law 99-616, enacted November 6, 1986, authorizes the U.S. Patent and Trademark Office to act as an International Preliminary Examining Authority and as an elected Office for international applicants under Chapter II of the Patent Cooperation Treaty. Chapter II provides for an International Preliminary Examination Report to be established and allows at least 30 months from the priority date for entry into the national phase. Regulations must be established to implement requirements and time periods for entry into the national phase and set fees to cover processing costs, including the cost covered by 35 USC 376 of searching and examining international applications with claims to different categories of invention in a single international application.

Improving Government Regulations; Semiannual Agenda of Regulations

AGENCY: Office of the Secretary, DoD.

ACTION: Publication of the consolidated semiannual agenda of DoD regulatory documents.

SUMMARY: The Department of Defense is publishing this consolidated semiannual agenda of regulatory documents for public information and comments under E.O. 12291, "Federal Regulation." This agenda incorporates the objective and criteria, when applicable, of the regulatory reform program under E.O. 12291, and other regulatory programs. It contains DoD issuances initiated by DoD Components that may have economic and environmental impact on state, local, public or private interests under the criteria of E.O. 12291. Although most DoD issuances listed in the agenda are of negligible public impact, their nature may be of public interest and therefore are published to provide notice of rulemaking and an opportunity for public participation in the internal DoD rulemaking process.

This agenda updates the report published on October 27, 1986 and includes regulations expected to be issued and under review over the next 12 months. The next agenda is scheduled to be published in October 1987. In addition to this agenda, DoD Components also publish rulemaking notices pertaining to their specific statutory administration requirements as required.

FOR FURTHER INFORMATION CONTACT: For information concerning the overall DoD regulatory improvement program and for general semiannual agenda information, contact Ms. Anne M. Jeffery, telephone 202-746-0664 or write to Directorate for Information Operations and Reports, Washington Headquarters Services, 1215 Jefferson Davis Highway, Suite 1204, Arlington, Virginia 22202-4302.

For questions of a legal nature concerning the agenda and its statutory requirements or obligations, contact the Office of the General Counsel, DoD, Washington, DC 20301, or call 202-697-2714.

For specific agenda items, contact the appropriate individual indicated in each DoD Component report.

SUPPLEMENTARY INFORMATION: This consolidated agenda is composed of the regulatory status reports from the Office of the Secretary of Defense and the Departments of the Army, Navy, and Air Force. Included also in this agenda is the regulatory report from the U.S. Army Corps of Engineers, whose civil works functions fall under the reporting requirements of E.O. 12291. Their agenda will reflect these requirements, with follow-on reporting actions taken, as necessary.

DoD issuances range from DoD Directives (reflecting departmental policy) to implementing instructions and regulations (largely internal and used to implement Directives). The OSD agenda section contains the primary Directives under which DoD Components promulgate their implementing regulations.

To ease identification and to clarify the differences among the variety of issuances reported, they are identified by their DoD internal numbering system, which denotes Component level of authority and type of issuance in addition to the required CFR number.

In addition, this agenda, although published under the reporting requirements of E.O. 12291, will continue to be the DoD single source reporting vehicle which will identify issuances that are currently applicable under the various regulatory reform programs in progress. Therefore, when applicable, DoD Components will identify those rules which come under the criteria of the:

a. Regulatory Flexibility Act;

b. Paperwork Reduction Act; and

c. GATT International Trade Agreement.

These DoD issuances which are directly applicable under these statutes will be identified in the agenda and their action status indicated. Generally, the reports in this agenda will contain three sections: (1) Current and projected rulemaking; (2) review of existing regulations; and (3) completed actions.

Although not a regulatory agency, the Department of Defense will continue to participate in regulatory initiatives designed to reduce the economic costs and unnecessary environmental burdens upon the public. Comments and recommendations are invited on the rules reported and should be addressed to the DoD Component representatives identified in each section.

Although sensitive to the needs of the public and regulatory reform, the Department of Defense reserves the right to exercise the exemptions and flexibility permitted in its rulemaking process in order to proceed with its overall defense-oriented mission.

Note: The publishing of this agenda does not waive the applicability of the military affairs exemption in title 5, section 553 and section 1 of E.O. 12291.

D. O. Cooke,

Deputy Assistant Secretary of Defense (Administration).

AGENCY: Office of the Secretary, DoD.

ACTION: This agenda updates the report published on October 27, 1986 and includes regulations expected to be issued and under review over the next 12 months.

SUMMARY: The regulatory material listed below is in 3 parts: (1) Current and projected rulemaking; (2) review of existing regulations; and (3) completed actions.

FOR FURTHER INFORMATION CONTACT: The Agency contact names and telephone numbers appear after each agenda entry. For other information on the agenda, contact Mrs. Patricia H. Means, Directives Division, Correspondence and Directives Directorate, Washington Headquarters Services, telephone 202-697-4111.

SUPPLEMENTARY INFORMATION:

E.O. 12291: None of the regulatory documents listed below is a "major rule" and no major rules are presently under development.

Regulatory Flexibility Action, section 610: The Office of the Secretary of Defense has screened its existing regulatory documents and has concluded that none of its regulatory documents cause significant impact on a substantial number of small entities.

Paperwork Reduction Act, Pub. L. 96-511: None of the DoD regulatory documents listed in the agenda require information collection reports affecting the public sector under the criteria of Pub. L. 96-511.

GATT Agreement: None of the DoD regulatory documents listed in this agenda impact upon foreign trade under the GATT Agreement.

The OSD agenda follows.

Abstract: Procedures for the protection of endangered species in the regulatory program of the Corps of Engineers. Because of the increased emphasis being placed on endangered species by the Federal and state resource agencies, the Corps identified a need to provide more definitive guidance on implementing the Endangered Species Act (ESA) in its regulatory program. The Corps is now developing counterpart regulations with the Department of Interior. The regulations will basically bring together various guidance used in the past by both the Corps and DOI. The regulations will include guidance on how the ESA Amendments impact applicants for Federal permits.

Legal Authority: 33 USC 403; 33 USC 1341; 33 USC 1413

CFR Citation: 33 CFR 326

Legal Deadline: None.

Abstract: The Corps of Engineers is proposing to amend 33 CFR Part 326 to reflect the sequence of enforcement actions, to clarify ambiguous procedures and language, and to provide district engineers with the flexibility needed to resolve violations in the most effective manner and to be able to concentrate existing staff resources on the most critical enforcement actions. Some procedures in this part would be revised to provide for a more practical approach to certain enforcement problems. These regulations, if finalized would reduce the costs of enforcing the regulatory program.

DEPARTMENT OF DEFENSE (DOD)
Department of the Air Force (AF)

AGENCY: Department of the Air Force, DoD.

ACTION: This agenda updates the report published on October 27, 1986, and includes regulations expected to be issued and under review over the next 12 months.

SUMMARY: The regulations listed on the agenda are existing or proposed regulations under internal review for revision or development and only apply to those regulations affecting the public. The Department of the Air Force has no "major rules" under development or review as defined by Executive Order 12291. Also, it has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 (Pub. L. 96-354) do not apply to these rules. These rules do not contain reporting or recordkeeping requirements under the criteria of the Paperwork Reduction Act of 1980 (Pub. L. 96-511) with the exception of 32 CFR Part 855 (OMB Control Number 0701-0050). These rules do not have an impact on international trade and therefore the provisions of the GATT Agreement do not apply.

Semiannual Regulatory Agenda

DEPARTMENT OF EDUCATION (ED)

DEPARTMENT OF EDUCATION

Office of the Secretary

34 CFR Subtitles A and B

Unified Agenda of Federal Regulations

AGENCY: Department of Education.

ACTION: Publication of the Semiannual Agenda of Federal Regulations.

SUMMARY: The Secretary of Education publishes a Semiannual Agenda of Federal Regulations as required by Office of Management and Budget (OMB) Bulletin 87-6 issued under the authority of section 6(b) of Executive Order 12291 (Federal Regulations). The purpose of the agenda is to encourage more effective public participation in the regulatory process by giving the public early information about pending regulatory activities.

FOR FURTHER INFORMATION CONTACT: Questions or comments related to specific regulations listed in this agenda should be directed to the contact person listed for that set of regulations. Questions or comments on the overall agenda should be directed to A. Neal Shedd, Director, Division of Regulations Management, Office of the General Counsel, Department of Education, Room 2131, FOB-6, 400 Maryland Avenue, SW., Washington, DC 20202. Telephone: (202) 732-2887.

SUPPLEMENTARY INFORMATION: Executive Order 12291, dated February 17, 1981, and the Regulatory Flexibility Act, Pub. L. 96-354, enacted September 19, 1980, require the Department of Education to publish, in October and April of each year, (1) an agenda of regulations that the Department expects to issue, and (2) currently effective regulations that are under review. The agenda includes both notices of proposed rulemaking (NPRMs) currently being drafted and pending final regulations.

Under the authority of Executive Order 12291, the Director of OMB has issued OMB Bulletin No. 87-6, dated December 4, 1986, prescribing the content and structure of the Unified Agenda of Federal Regulations. The Unified Agenda will be issued semiannually and will cover the succeeding 12 months from the date of publication.

For each set of regulations listed, the Agenda provides the title of the document, the type of document, a citation of any rulemaking or other action taken since publication of the most recent Agenda, and planned dates of future rulemaking. In addition, the Agenda provides the following information:

- An abstract, which includes a description of the problem to be addressed, any principal alternatives being considered, and potential costs and benefits of the action.
- An indication of whether the planned action is likely to have a significant economic impact on a substantial number of small entities as defined by the Regulatory Flexibility Act (5 U.S.C. 601(b)).
- A reference to where a reader can find the current regulations in the Code of Federal Regulations.
- A citation of legal authority.
- The name, address, and telephone number of the contact person at the Department from whom a reader can obtain additional information regarding the planned action.
- An indication if the action is priority and the criteria used in determining the priority status.

If the "Abstract" section of an entry refers readers to the preamble, it means that amendments to those particular regulations would be designed (1) to effect regulatory relief, including reducing paperwork and compliance burdens, improving cost effectiveness and, to the extent possible, vesting greater discretion in State and local agencies, and (2) if necessary, to clarify and simplify requirements governing that program.

This publication in the **Federal Register** does not impose any binding obligation on the Department with regard to any specific item on the agenda. Regulatory action in addition to the items listed is not precluded. Dates of future regulatory action are subject to revision in subsequent agendas.

DATED: March 19, 1987.

Wendell L. Willkie,

General Counsel.

364. UNIFORM ADMINISTRATIVE REQUIREMENTS FOR GRANTS TO STATE AND LOCAL GOVERNMENTS

Legal Authority: 5 USC 301

CFR Citation: 34 CFR 80; 34 CFR 74

Legal Deadline: None.

Abstract: This action will implement revised OMB Circular A-102 "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments." The current ED regulations codified at 34 CFR Part 74 were adopted to implement both Circular A-102 and a companion Circular A-110 which governs grants and cooperative agreements to recipients other than governments. To implement revised Circular A-102, ED will adopt regulations approved by OMB affecting grantees that are State, local, and Indian tribal governments in 34 CFR Part 80. Regulations for the grantees covered by Circular A-110 will be retained in an amended 34 CFR Part 74.

Regulatory Agenda

AGENCY: Department of Energy.

ACTION: April 1987 regulatory agenda.

SUMMARY: In furtherance of this Administration's commitment to make government more responsive to the citizens of the United States and to assist in fulfilling the President's mandate to lessen regulatory burdens, the Department of Energy (DOE) is publishing an agenda of regulatory activities that DOE either expects to undertake through March 1988 or has completed since October 1986. This agenda provides the Administration with an effective tool for monitoring and controlling the promulgation of regulations. It includes (1) all rules expected to be issued as proposed or final rules before April 1988, (2) all rules being reviewed within the Department to determine whether to propose modifications through rulemaking, and (3) all rules for which regulatory action has been completed since the October 1986 Regulatory Agenda. In addition, the agenda identifies each rule that DOE expects to propose or promulgate which is "likely to have a significant economic impact on a substantial number of small entities," and thus also serves as the Department's regulatory flexibility agenda. The agenda may not include all routine regulations or those that relate to internal agency management.

FOR FURTHER INFORMATION CONTACT:

General: For further information on the agenda in general, contact: Robert E. Morey, Department of Energy, Room 6B-144, Forrestal Building, 1000 Independence Avenue, SW., Washington, DC 20585, (202) 586-9507.

Specific: For further information about any particular item on the agenda, contact the individual listed under that item.

SUPPLEMENTARY INFORMATION:

Executive Order 12291, 46 FR 13193 (February 19, 1981), requires each Federal agency to publish, in April and October of each year, an agenda of proposed regulations that the agency has issued or expects to issue, and currently effective rules that are under agency review. Under the Executive Order, the Office of Management and Budget (OMB) sets forth standards and procedures for the preparation of these agendas.

There are important reasons for preparing this agenda. It is vital in this Administration's efforts to reduce the burdens of existing and future regulations, to increase agency accountability for regulatory actions, to provide for Presidential oversight of the regulatory process, to minimize duplication and conflict of regulations, and to insure well-reasoned regulations. This Administration has made considerable progress in these efforts.

For fiscal year 1987, the Department is committed to a target of at least a 5 percent reduction in the paperwork burden imposed by its information collections on the public. This goal again excludes the paperwork reduction effort of the Federal Energy Regulatory Commission, which is conducted independently by the Commission. However, it does include the ongoing efforts of the Energy Information Administration to reduce the burden of its energy information and statistical collections on the public. As in previous fiscal years, special attention will continue to be given to the paperwork burden of the Department's information collections imposed on its management and operating contractors, offsite contractors and grant recipients inasmuch as this is the largest element of the Department's overall paperwork burden load on the public.

Executive Order 12291 also provides that the regulatory agenda may be incorporated with the "regulatory flexibility agenda" required under the Regulatory Flexibility Act, 5 U.S.C. 602. The regulatory flexibility agenda must contain: (1) A brief description of the subject area and a summary of the nature of any rule which the agency expects to propose or promulgate which is "likely to have a significant economic impact on a substantial number of small entities;" (2) the objectives and legal basis for the issuance of the rule and an approximate schedule for completing action on any rule for which the agency has issued a general notice of proposed rulemaking; and (3) the name and telephone number of an agency official knowledgeable about each rule.

Appended to this notice is DOE's April 1987 Regulatory Agenda, reflecting the status of rules listed as of approximately February 15, 1987. Incorporated in this agenda is the regulatory flexibility agenda required under 5 U.S.C. 602.

The April 1987 Regulatory Agenda has been prepared in accordance with OMB Bulletin 87-6. Regulatory activities have been divided among categories according to their next stage: prerulemaking action, proposed rule, final rule, or completed action.

Regulations designated as "significant" are those which are also included in the Regulatory Program of the United States Government, prepared pursuant to Executive Order 12498, 50 FR 1036 (January 8, 1985). Significant regulations also include those which, while not of Government-wide interest or importance, nevertheless are priorities of the individual agencies.

Each item will contain the following information: (1) DOE office or administration (that is, the DOE organizational unit responsible for the regulation); (2) RIN number (that is, the Regulation Identifier Number assigned by OMB/OIRA); (3) title; (4) significance (that is, if the regulation also is included in the Regulatory Program or, if not, is a DOE priority regulation); (5) agency contact (that is, the name, title, address and telephone number of a person who is knowledgeable about the regulation); (6) effects on small businesses and other entities (that is, whether the action is likely to have a significant economic impact on a substantial number of "small entities" as defined by the Regulatory Flexibility Act); (7) CFR citation (that is, the section of the Code of Federal Regulations that will be affected); (8) legal authority (that is, a citation to the section of the United States Code (USC), Public Law (PL) or the Executive Order (EO) that authorizes the regulatory action); (9) abstract (that is, a description of the problem the regulation will address, the alternatives being considered for addressing the problem, and the potential costs and benefits of the action); (10) legal deadline (that is, the statutory or judicial deadline, if any); and (11) timetable (that is, the dates, and citations if applicable, for all past stages and at least the next stage of the rulemaking). In addition, each item regarding completed actions (that is,

DOE

regulations completed or withdrawn and reviews completed since the preceding agenda) states the date and citation, if appropriate.

On February 25, 1987, a draft of the agenda was transmitted to the Chief Counsel for Advocacy of the Small Business Administration for comment, if any, to fulfill the requirements of 5 U.S.C. 602(b).

DOE's next agenda will be published in October 1987.

Issued in Washington, DC on March 6, 1987.

J. Michael Farrell,

General Counsel.

CFR Citation: 10 CFR 436

Legal Deadline: None.

Abstract: Under the National Energy Conservation Policy Act, DOE has promulgated regulations establishing a methodology for estimating and comparing the life cycle costs of Federal buildings and for determining life cycle cost effectiveness. The Energy Security Act required that the regulations provide for the use of marginal energy costs in the life cycle cost analyses. DOE sought legislative revisions to authorize use of average energy costs rather than marginal costs. Appropriate legislative relief came with the Omnibus Budget Reconciliation Act of 1986. The Current rulemaking would incorporate a method for determining average energy costs into the life cycle costing analyses.

Legal Authority: 42 USC 6293

CFR Citation: 10 CFR 430.22

Abstract: Final test procedures for 13 types of appliances were established during 1978. The test procedures form the basis of manufacturers' representations on the Federal Trade Commission's EnergyGuide label. In February 1984, DOE proposed to establish test procedures for heat pump water heaters and to eliminate the need for the test procedure waiver granted to A.O. Smith for its water heater with a thermal compensatory dip tube. Based on the comments received pursuant to the February 8, 1984 NPRM, the Department is preparing a new NPRM. This NPRM will propose a single test procedure to cover gas, oil and electric water heaters as well as heat pump water heaters. In addition to the A. O. Smith matter, the rulemaking would eliminate the need for the test procedure waivers granted Bock Corp., Ford Products and Lockinvar Corp. for their high mass oil-fired water heaters.

Significance: Regulatory Program

Legal Authority: 42 USC 6295

CFR Citation: 10 CFR 430.32

Legal Deadline: Statutory. The NAECA requires DOE determinations on need to amend Federal appliance standards in a period from 7/1/89 to 1/1/94. Abstract: The National Appliance Energy Conservation Act of 1987 (NAECA) was enacted March 17, 1987. The NAECA extensively amends the Department's statutory authorities and responsibilities regarding energy efficiency standards for major household appliances. The NAECA establishes initial statutory energy-efficiency standard levels for most types of major appliances and generally requires the Department to undergo two subsequent rulemakings, at specified times, to determine whether the extant standard for a covered product should be amended. These products are: refrigerators, refrigerator-freezers, and freezers; room air conditioners; central air conditioners and central air conditioning heat pumps; water heaters; pool heaters; direct heating equipment; furnaces; dishwashers; clothes washers; clothes dryers; and kitchen ranges and ovens. Other appliances, including television sets, may be regulated by the Department essentially as provided for in prior law.

In prescribing any amended standards, the Department may not increase the maximum allowable energy use or decrease the minimum required energy efficiency of a covered product, although (cont)

Legal Authority: 42 USC 6321 to 6327

CFR Citation: 10 CFR 420, (Revision)

Legal Deadline: None.

Abstract: The Department of Energy (DOE) is proposing to ease some of the provisions regarding prohibited expenditures under the State Energy Conservation Program (SECP). DOE proposes to modify the prohibition on the use of SECP funds to purchase or install equipment or materials for building retrofit measures and to clarify certain other provisions in the existing rules. In doing so, DOE is attempting to resolve some issues which have been expressed as concerns of many states for several years. In addition, a U.S. District Court ordered DOE to consider a rulemaking on this subject. The major impact of the rule change would be to allow states greater discretion in spending oil overcharge monies on capital equipment benefiting their citizens.

CFR Citation: 10 CFR 456, (Revision); 10 CFR 458, (Deletion)

Legal Deadline: Statutory, August 28, 1986. Rules promulgated under section 212 of the National Energy Conservation Policy Act must be amended within the one hundred and eighty day period after the August 28, 1986, enactment of the Conservation Service Reform Act.

Abstract: The Conservation Service Reform Act of 1986 (Act) Requires changes to the Residential Conservation Service (RCS) and repeals the Commercial and Apartment Conservation Service (CACS) except for CACS plans approved before August 1, 1984. RCS and CACS required large electric and natural gas utilities to perform energy audits of their eligible customers upon request, and to provide other services. Required changes in the RCS program include deletion of some required services, program termination on June 30, 1989, provisions for alternative State plans, and for utilities to obtain waiver of plan requirements. Except for alternative State plans, these changes were made in a notice of interim final rulemaking because the rule reflects non-discretionary requirements which are explicitly set forth in the Act. Procedures for processing complaints about adequacy of implementation of alternative State plans, and for annual reports on any CACS State plan excepted from the general repeal of CACS involve discretion and were published in a notice of proposed rulemaking. Abstract: Final test procedures for 13 types of appliances were established during 1978. The test procedures form the basis of manufacturers' representations on the Federal Trade Commission's EnergyGuide label. Abstract: The Department of Energy, because of its mission involving nuclear weapons and special nuclear materials, requires a reliable and drug-free work-force. At present, thousands of people within the DOE-contractor work-force are in daily close proximity to nuclear weapons, weapons components, or special nuclear material without the benefit of a human reliability program (HRP). This action would develop an integrated screening and evaluation process for making suitability determinations for individuals applying for or currently holding jobs identified as HRP positions.

Significance: Agency Priority

Legal Authority: 42 USC 2201; 42 USC 2278.a

CFR Citation: 10 CFR 862

Legal Deadline: None.

Abstract: Regulation would enhance security at DOE nuclear sites by restricting unofficial aircraft landing and unofficial air delivery of persons or cargo. Exceptions are granted for emergencies with prior notification to DOE if possible. Impact on public would be minimal since activities restricted by regulations are not condoned by DOE currently.

Significance: Agency Priority

Legal Authority: 42 USC 7901 Uranium Mill Tailings Radiation Control Act of 1978

CFR Citation: Not yet determined

Legal Deadline: Statutory, March 31, 1990. DOE will propose to extend UMTRA authorization period to 9/30/93.

Abstract: PL 95-604 assigned the Department of Energy the authority to conduct remedial actions at 24 processing sites and associated vicinity properties. Section 104(d) states that the Department shall issue appropriate rules and regulations concerning annotation of land records where residual radioactive materials were located and when remedial action took place. Abstract: In response to the First Biennial Report of the President's Commission for the Study of Ethical Problems in Medicine and Biomedical and Behavioral Research, DOE along with all other affected Federal departments and agencies following the lead of DHHS will adopt and implement a uniform code of regulations for the protection of human subjects in Federal research projects. This will replace the prior regulations adopted by DOE in 1976 and make DOE requirements uniform with the DHHS policies.

Legal Deadline: None.

Abstract: The purpose of this action is to develop a basis for total fees to be paid by DOE Defense Programs into the Nuclear Waste Fund for the disposal of defense high-level waste in repositories to be constructed pursuant to the Nuclear Waste Policy Act of 1982. The Department will consider several options relating to the determination of total charges. Fee schedules will be established via the budgetary process.

Additional Information: The Department has eliminated the entry for this rulemaking, believing that the better method for seeking public comment on the fee-setting methodology was the nonregulatory Notice of Inquiry. The methodology will not have a binding, regulatory effect on any member of the public. The methodology is intended to be used to support budget requests from Congress, which may choose to provide appropriations based on its own methodology or other basis. Public comment was due by February 2, 1987, and will be considered in establishing the methodology.

516. STANDARD CONTRACT FOR DISPOSAL OF SPENT NUCLEAR FUEL AND/OR HIGH-LEVEL RADIOACTIVE WASTE; AMENDMENTS

Significance: Agency Priority

Legal Authority: 42 USC 10222

CFR Citation: 10 CFR 961, (Revision)

Legal Deadline: None.

Abstract: On April 18, 1983, the Department of Energy (DOE) published a rule which established the Standard Contract for Disposal of Spent Nuclear Fuel and/or High-Level Radioactive Waste (standard disposal contract) to be used by the DOE in furnishing disposal services to the owners or generators of spent nuclear fuel and/or high-level radioactive waste [48 FR 16590]. On December 6, 1985, the U.S. Court of Appeals for the District of Columbia Circuit ruled that the ongoing 1.0 mill per kilowatt hour (1M/KWH) fee in DOE's standard disposal contract should be based on net generation of electricity rather than gross generation of electricity as adopted in the final rule (Wisconsin Electric Power Co. et al. v. Hodel, Nos. 83-1066 and 84-8571). This notice publishes for comment amendments to Article I.13, Article VIII.A1 and B.1, and Appendix G of the standard disposal contract to be consistent with the court's ruling. This amendment is expected to reduce revenues from the ongoing fee by about 3 to 5 percent.

Legal Deadline: None.

Abstract: The regulation provides procedures and standards for obtaining a waiver of the Government's rights in inventions made under DOE research and development contracts with entities that are not small businesses or nonprofit institutions, and terms and conditions of such waivers. Currently, DOE waiver policy is provided in DOE Procurement Regulations (41 CFR 9-9.109-6). The proposed regulation places DOE patent waiver policy in a separate regulation, and also provides updates, revisions and clarifications to waiver policy as contained in 41 CFR 9-9.109-6.

534. FOREIGN GIFTS AND DECORATIONS

Legal Authority: 5 USC 7342 41 CFR 101-49.001-5

CFR Citation: 10 CFR 1050

Legal Deadline: None.

Abstract: The regulations need to be amended to reflect the increase in the dollar amount of "minimal value." (Whether a gift is of minimal value is a factor as to whether the regulations apply.) The dollar amount of minimal value is determined by the General Services Administration, by GSA regulation. Accordingly, the DOE regulations will reference the GSA regulation.

535. CLARIFICATION OF THE TERM BYPRODUCT MATERIAL

Legal Authority: 42 USC 2011 et seq (Atomic Energy Act of 1954)

CFR Citation: 10 CFR 962, (new)

Legal Deadline: None.

Abstract: This regulation will clarify the application of the term Byproduct Material, as defined in section 11(e) (1) of the Atomic Energy Act (42 USC 2014(e) (1)) to Department of Energy owned or produced radioactive waste substances, for the purpose of determining which of these waste substances are Byproduct Material under the Atomic Energy Act, and are therefore not "solid waste" as that term is defined in the Resource Conservation and Recovery Act (42 USC 6901 et seq).

537. ● CLASS PATENT WAIVERS

Legal Authority: 42 USC 2182; 42 USC 5908

CFR Citation: 10 CFR 785

Legal Deadline: None.

Abstract: The proposed regulation would provide for certain class waivers, serving to streamline and simplify procedures for DOE contractors to seek rights in inventions made under DOE research and development contracts.

Unified Agenda of Regulations

AGENCY: Department of Health and Human Services.

ACTION: Publication of unified agenda of regulations.

SUMMARY: The President's February 17, 1981, Executive Order (12291) and the Regulatory Flexibility Act of 1980 require the Department to publish an agenda of significant regulations being developed and an indication of those regulatory actions that are being analyzed for their effect on small businesses. The Department published its last agenda on October 27, 1986.

FOR FURTHER INFORMATION CONTACT: For further inquiries or comments related to specific regulations listed in the agenda, the public is encouraged to contact the appropriate responsible individual. Questions or comments on the overall agenda should be sent to: Glenn Kamber, Deputy Executive Secretary, Office of the Secretary, Department of Health and Human Services, 200 Independence Avenue, SW., Washington, DC 20201, Telephone: (202) 245-7699.

James J. Delaney,

Executive Secretary to the Department.

538. PRIVACY ACT REGULATION

Legal Authority: 5 USC 552a

CFR Citation: 45 CFR 5b

Legal Deadline: None.

Abstract: This will be the first complete update since 1975 of the Department's Privacy Act Regulation implementing the Privacy Act of 1974. It will facilitate individuals' access to information and records that the Department maintains about them in more than 400 designated Privacy Act Systems of Records, clarifying and promulgating at one time all the subparts of the regulation. It will also help Departmental personnel processing Privacy Act requests by providing them with an integrated regulation that is compatible with current procedures for processing such requests. The only alternative to this complete update is to continue to operate with a regulation that in the past has been revised on a piecemeal basis.

539. PRINCIPLES FOR DETERMINING COSTS AND COST ALLOCATION PROCEDURES APPLICABLE TO GRANTS, CONTRACTS, AND OTHER AGREEMENTS FOR WORK PERFORMED BY HOSPITALS

Legal Authority: 5 USC 501

CFR Citation: 45 CFR 74, Appendix E; 45 CFR 78

Legal Deadline: None.

Abstract: This action will revise the Department's current cost principles for research and development activities under grants and contracts with hospitals to make them clearer, more specific, and compatible with cost principles issued by OMB for educational institutions and nonprofit organizations. The revision will also broaden the coverage of the principles to include all grants, contracts and other agreements with hospitals (except the Medicare & Medicaid programs).

540. ENFORCEMENT OF NONDISCRIMINATION ON THE BASIS OF HANDICAP IN THE DEPARTMENT OF HEALTH AND HUMAN SERVICES

Significance: Agency Priority

Legal Authority: 29 USC 794

CFR Citation: 45 CFR 85.1-62

Legal Deadline: None.

Abstract: Implements the amendment made to Sec. 504 of the Rehabilitation Act of 1973 by Pub.L. 95-602 in 1978, which extended Sec. 504 to the Federal sector. The proposed Part 85 is modeled on Part 84 which implements Sec. 504 with respect to recipients of Federal financial assistance.

541. ADMINISTRATION OF GRANTS - IMPLEMENTATION OF OMB CIRCULAR A-102

Legal Authority: 5 USC 301

CFR Citation: 45 CFR 74

Legal Deadline: None.

Abstract: This action will implement revised OMB Circular No. A-102 "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments." The current HHS regulation codified at 45 CFR Part 74 was written by HHS to implement both Circular No. A-102 and a companion Circular A-110 which governs grants and cooperative agreements to recipients other than governments. Revised Circular A-102 will require us to adopt essentially verbatim a common regulation drafted by OMB and affecting governmental grantees only.

549. PUBLIC INFORMATION REGULATION

Legal Authority: 5 USC 552

CFR Citation: 45 CFR 5

Legal Deadline: None.

Abstract: This will be the first complete update since August 1974 of the Department's Public Information Regulation implementing the Freedom of Information Act. It will facilitate public access to information by making necessary revisions, clarifying, and promulgating at one time all the subparts of the regulation. It will also help Departmental personnel processing FOIA requests by providing them with an integrated regulation that is compatible with current procedures for processing FOIA requests and assessing search and copy fees that reflect the increased cost of such services. The only alternative to this complete update is to continue to operate with a regulation that in the past has been revised on a piecemeal basis.

CFR Citation: 42 CFR 1001; 42 CFR 1002; 42 CFR 455; 42 CFR 474; 42 CFR 489

Legal Deadline: None.

Abstract: This regulation incorporates Section 2333 of P.L. 98-369 which provides authority to exclude entities that employ practitioners convicted of Medicare or Medicaid related offenses who are serving in key management positions, or where individuals convicted of a program-related crime have a five percent or more ownership interest. This rule also makes substantive revisions and clarifications regarding certain legal issues in the existing OIG sanction regulations. In addition, this rule provides technical improvements in the civil money penalty and exclusion provisions resulting from P.L. 99-501.

Legal Authority: 42 USC 9901; 42 USC 300w; 42 USC 8621; 42 USC 300x

CFR Citation: 45 CFR 96

Legal Deadline: None.

Abstract: In a prior session of Congress, four of the Department's block grants were reauthorized and certain requirements imposed on the States and other recipients were changed. The block grants include those for Alcohol and Drug Abuse and Mental Health Services; Preventive Health and Health Services; Low-Income Energy Assistance and Community Services. In addition, Congress enacted the Single Audit Act of 1984 which substantially changes the Federal audit requirements imposed upon State and local governments and modifies Federal agency responsibility for oversight of those audits. These legislative changes necessitate changes in the Department's block grant regulation issued July 6, 1982. Alternative measures for addressing the problem are not being considered. None of the proposed legislative changes will involve substantial cost.

553. ADMINISTRATION OF GRANTS-IMPLEMENTATION OF OMB CIRCULAR A-88

Significance: Agency Priority

Legal Authority: 5 USC 301

CFR Citation: 45 CFR 74.62(b), (Revised)

Legal Deadline: None.

Abstract: This action will implement revised OMB Circular A-88 which is expected to be issued sometime this year. The Circular will provide governmentwide standards for non-Federal audits of college and university recipients of Federal grants and contracts. The Circular and these amendments will replace the audit requirements currently contained in OMB Circular A-110.

Significance: Agency Priority

Legal Authority: 5 USC 301; 31 USC 7505; PL 98-502, Sec 7505 Single Audit Act of 1984

CFR Citation: 45 CFR 74.62(a), (Revised); 45 CFR 74, Appendix I; 45 CFR 74, Appendix J

Legal Deadline: None.

Abstract: This action implements the Single Audit Act of 1984 and OMB Circular A-128 by requiring recipients that are governments to comply with Circular A-129. That Circular provides governmentwide standards for implementing the Act. The Act, Circular and these amendments replace Attachment P to Circular A-102. Attachment P contained the previous Federal policy on non-Federal audits of governmental recipients of Federal grants.

555. REIMBURSEMENT OF INDIRECT COSTS UNDER PROJECT GRANTS

Significance: Agency Priority

Legal Authority: 5 USC 301

CFR Citation: 45 CFR 74.105(a)(1)

Legal Deadline: None.

Abstract: The HHS Staff Manual on Grants Administration would be revised to implement a recommendation by the Office of Science and Technology Policy that all Federal agencies adopt the National Science Foundation's practices for the award and payment of indirect costs. Grants would no longer be subject to upward adjustment based on changing indirect cost rates or base amounts. In addition, rebudgeting of funds from direct to indirect costs would be subject to the prior approval of the awarding agency. These changes would reduce both government and grantee administrative effort and could result in annual savings up to $7 million of current obligational authority and $28 million of obligations against lapsed appropriations. Finally, peer review panels will be provided with the indirect as well as the direct cost portion of proposed grant budgets. 45 CFR 74.105 (a) (1) would be revised to include the prior approval requirement stated above.

559. ● IMPLEMENTATION OF THE EQUAL ACCESS TO JUSTICE ACT IN AGENCY PROCEEDINGS

Legal Authority: 5 USC 504(c)(1)

CFR Citation: 45 CFR 13

Legal Deadline: None.

Abstract: The Equal Access to Justice Act requires agencies to pay attorney fees to parties prevailing against the Government in certain types of administrative proceedings. It requires each agency to issue rules implementing the Act as it applies to these proceedings. As originally enacted, the Act had a sunset clause. A recent statutory amendment eliminated the sunset provision and made other changes in the Act. The instant regulation would amend 45 CFR Part 13 (HHS's regulation implementing the Act) to eliminate the corresponding sunset provision and to make other changes conforming with the statutory changes.

Abstract: The proposed regulation will revise the method for setting fees for representation. The current procedure has been criticized as too subjective and as resulting in excessively high fees. Also, Social Security Rulings on escrow accounts would be included. The regulations will result in a negligible administrative savings to SSA. There would also be a reduction in the amount of fees paid by beneficiaries.

Abstract: Section 4.00 of Appendix 1 of the Disability regulations (404.1501 through 404.159) describes cardiovascular impairments considered severe enough to prevent an individual from doing any gainful activity. We are reviewing this section of the Listing of Impairments and are anticipating the need for revising the criteria to bring them more up to date with current medical technologies and practice in this area of medicine which is advancing rapidly.

Abstract: Under present rules, disclosure to a law enforcement agency is allowed only when a violent crime has been committed and the subject of the information has been either indicted or convicted of that crime, or when relevant to the investigation or prosecution of criminal activity involving a social security program or other governmental health or income maintenance program. These rules severely restrict permissible disclosures. In view of the public interest in law enforcement SSA is considering a change in policy that will expand the circumstances in which information can be disclosed.

CFR Citation: 20 CFR 404; 20 CFR 416

Abstract: The Disability Program is a dynamic program that is subject to ongoing review and change. It is essential that certain actions be taken that ensure the rules under which the program operates (a) reflect legislative changes, (b) reflect technological changes, and (c) are complete. In addition, the public must have an opportunity to comment on these rules. More specifically our goals are as follows: (A) To implement PL 98-460, the Disability Benefits Reform Act of 1984, in a way that is consistent with legislative intent and administrative effectiveness. (B) To develop disability guidelines, procedures, and policies which can be consistently interpreted and applied throughout all levels of the disability process and are in compliance with P.L. 98-460, section 10, which requires uniform standards for disability adjudication to be published as regulations. (C) To assure that disability program policies and adjudicative criteria are consistent with the latest advances in medicine and vocation assessment and realistic in relationship to measurements available for assessing disability.

579. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE, BLACK LUNG, AND SUPPLEMENTAL SECURITY INCOME PROGRAMS; APPOINTING ALJ'S TO HEAR AND DECIDE CASES

Legal Authority: 42 USC 405; 42 USC 1302; 42 USC 1383; 30 USC 923; 30 USC 936

CFR Citation: 20 CFR 404.929; 20 CFR 416.1429; 20 CFR 410.630; 20 CFR 410.634

Legal Deadline: None.

Abstract: The current regulations on assigning ALJ's to hear and decide cases do not discuss (1) the assignment of ALJ's in rotation to hear and decide cases; or (2) the exceptions to assigning ALJ's in rotation. In addition, the current regulations provide that once an ALJ has been assigned to conduct a hearing, the case may be reassigned to another ALJ "if circumstances warrant." The regulations do not discuss the circumstances which would warrant (1) assigning another ALJ to conduct the hearing; or (2) assigning another ALJ to decide a case after the original ALJ has

conducted the hearing. The regulatory changes would clarify these matters by explaining the rotation system of assignment and the exceptions to assigning ALJ's to cases in rotation, and by explaining the circumstances which warrant reassignment of a case to a different ALJ from the one to whom the case was initially assigned.

CFR Citation: 20 CFR 416.1103; 20 CFR 416.1120; 20 CFR 416.1121

Abstract: Under current policy, payments received by a person as a result of a Home Equity Conversion (HEC) (e.g., reverse mortgage, sale lease back, etc.) are not considered income. The change in regulations would result in these payments being considered income. This change is being made in the realization that HEC's generate cash available for food, clothing, or shelter and meet the definition of income in 20 CFR 416.1102. Program costs and savings are considered insignificant.

Significance: Regulatory Program

Legal Authority: 42 USC 405; 42 USC 407; 42 USC 602; 42 USC 1302; 42 USC 1383(a)

CFR Citation: 20 CFR 404, Subpart U; 20 CFR 416, Subpart F

Legal Deadline: None.

Abstract: These proposed rules would revise 20 CFR 404.2040, which stipulates the use of benefit payments by a representative payee, explaining that retroactive and monthly title II benefits received by a representative payee who lives in the Aid to Families with Dependent Children (AFDC) Assistance Home, on behalf of a child who is a member of the AFDC Unit are income available to the AFDC Unit and may be used for other members of the Unit. If the representative payee does not live in the AFDC Home title II benefits are considered income for AFDC purposes and may be used for the unit only to the extent that the payee provides these funds to the AFDC household for the beneficiary's maintenance. Potential costs and benefits are not available at this time. We are also proposing direct payment to a beneficiary under age 18 if the beneficiary is within 7 months of attaining age 18 and is initially filing an application for benefits. This proposed revision represents a policy change and is an extension of the 4-month period in our current regulations.

Abstract: The proposed regulations include standards for obtaining consultative examinations, the types of consultative examination referrals to be made, and monitoring procedures for consultative examinations and the referral process. The proposed regulations also provide for evaluating all medical evidence of record and developing a 12-month medical history in most cases. References to "medical assessments" will be replaced by references to medical source statements as to what a person can still do despite his or her impairment(s). The regulations also set forth the standards to be used in evaluating the medical opinions of treating and other medical sources. Abstract: These proposed rules would change existing rules when a determination or decision affecting someone's rights may be reopened and revised. These changes would permit reopening more than 4 years after the date of the notice of the initial determination so that we can correct clerical errors or errors on the face of the evidence considered in making the determination or decision. We are proposing to make these changes so that we can correct erroneous determinations or decisions discovered more than 4 years after the date of the notice of the initial determination. Abstract: Sec. 2615 of Pub. L. 98-369 amended sec. 1127 of the Social Security Act to eliminate loopholes that permitted some people who were paid Old-Age, Survivors and Disability Insurance (OASDI) and Supplemental Security Income (SSI) benefits retroactively to receive more in total benefits for the same period than if they had been paid the benefits when regularly due. The two main changes are: (1) SSI benefits will be reduced where retroactive OASDI benefits have been paid before the SSI benefits. Under prior law, reductions could be made only in retroactive OASDI benefits and only when the retroactive SSI had been paid first. (2) OASDI or SSI benefits payable upon reinstatement following a period of suspension or termination will be reduced by the amount of SSI benefits that would not have been paid if the OASDI benefits had been paid when regularly due. We will amend our regulations to conform to the statutory changes. The program savings to SSA are estimated as $5 million a year.

Abstract: These proposed rules which implement section 2612 of Pub. L. 98-369 will limit the rate at which an overpayment may be recovered from an individual still receiving benefits (SSI or federally administered supplementary payments, or both) to 10 percent of the recipient's total income (countable income plus SSI and State supplementary payments) or the recipient's payment for the month, whichever is less. They will apply the 10 percent requirement only to recipients in current payment status. However, recovery of an overpayment by withholding from SSI payments due will be suspended when a recipient is subject to the $25 payment limitation (living arrangement D). The 10 percent limit will not apply in situations involving installment agreements, recovery by refund, cross program adjustment for individuals not in SSI current pay or where it is determined that the overpayment occurred because of recipient fraud or willful misrepresentation. They will, in negotiated cases, set a rate of withholding that is appropriate for the financial condition of the overpaid person after factual evaluation. Abstract: These proposed rules implement section 12113 of Pub. L. 99-272 (Consolidated Omnibus Budget Reconciliation Act of 1985) enacted April 7, 1986. That legislation establishes liability for recovery of a Social Security benefit overpayment in certain cases when the beneficiary is deceased. Abstract: This proposed regulation provides that assets held in any revocable or irrevocable trust or any other similar legal device including but not limited to gifts made in accordance with the Uniform Gifts to Minors Act, if available for the beneficiary's support and maintenance, will be a countable resource. It would include as a resource trust assets that are disbursed to the beneficiary either at the discretion of the trustees or at the direction of the trustor because such disbursement would adversely affect the beneficiary's eligibility for Supplemental Security Income benefits.

Legal Authority: 42 USC 402(d)(9)(B)

CFR Citation: 20 CFR 404.366(b)

Legal Deadline: None.

Abstract: Under present regulations, an insured person can be found to be providing one-half support to a claimant if he or she makes regular contributions for support and the amount exceeds one-half of the claimant's ordinary living costs. The proposed regulations change would more accurately reflect that the claimant's total income for support purposes is always considered in the support determination. Any income (from sources other than the insured person) is considered to be available for support whether or not that income is actually used for ordinary living costs. The change would more specifically address the situation where a claimant elects to invest or otherwise segregate his or her own income and claim one-half support from the insured person. This situation will most frequently arise in cases involving Government pension offset. There would be no significant costs/ savings since the policy is already being interpreted in this manner.

Legal Authority: 42 USC 405; 42 USC 1302; 42 USC 1395; 42 USC 1395(a)(2); 42 USC 1395hh; 5 USC 552

CFR Citation: 20 CFR 422

Legal Deadline: None.

Abstract: These interim regulations describe a new type of Social Security Ruling which is available to the public and which is applied at certain levels of the Social Security Administration's adjudicative process. These regulations will result in negligible program or administrative costs or savings.

Legal Authority: 25 USC 1407; 25 USC 1172; 25 USC 1176; 43 USC 1601ff

CFR Citation: 20 CFR 416, Subpart K, Appendix; 20 CFR 416.1236; 20 CFR 1234

Legal Deadline: None.

Abstract: Proposed changes will update the regulations to reflect the provisions of Pub.L. 97-458 and Pub.L 98-64, concerning exclusions from income and resources provided for Native Americans and clarify SSI treatment of funds and land distributed to Alaskan natives under Pub.L. 92-203, as amended. The regulatory change will result in Federal program savings of less than $1 million annually and administrative costs that would not be significant.

599. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE PROGRAM; REDUCTION BECAUSE OF ENTITLEMENTS TO OTHER BENEFITS

Legal Authority: 42 USC 405; 42 USC 407; 42 USC 1302; 42 USC 402

CFR Citation: 20 CFR 404.407, (Revision); 20 CFR 404.612

Legal Deadline: None.

Abstract: Section 202(k)(4) of the Social Security Act discusses simultaneous entitlement to retirement and disability insurance benefits (RIB/DIB) and provides that SSA will pay the higher benefit unless the claimant elects to be paid the lower. Section 223(a)(1) explains that an application for DIB may be filed by someone other than the number holder (NH) within 3 months after the month of the NH's death. Strict interpretation had been made of section 202(k)(4) so that no one other than the NH (or proper applicant on behalf of a living NH) could make the election described in section 202(k)(4). In section 404.612(d) of the CFR, the explanation of section 223(a)(1) is given. We have recently published new operating policy which explains that the same person who files an application pursuant to CFR section 404.612(d) may make the election described in CFR 404.407(c).

We are proposing to change CFR 404.407(c) to clarify that the person described in section 404.612(d) may make the election discussed in section 202(k)(4).

Additional Information: We foresee minimal costs from this change since the number of potentially affected beneficiaries is small and the period of

time during which they will receive the higher family maximum amount (based on the RIB) will only be for the months during which the deceased NH is simultaneously entitled to DIB. Also, this cost will be offset by administrative savings since overpayments will not be created and have to be recovered in situations where individuals are able to elect the lower family maximum (based on DIB) on behalf of the deceased NH.

Abstract: These proposed regulations add to our regulations procedures under which a Social Security component responsible for carrying out an administrative law judge hearing decision may recommend to the Appeals Council that the Appeals Council review the decision. Also, we are revising our regulations to make it clear that the Social Security Administration may reopen a final determination or decision on its own initiative. We are adding these rules to our regulations to make the public aware of these procedures and clarify any ambiguous issues.

The proposed changes will result in negligible program or administrative costs or savings.

Abstract: The regulations that we are proposing provide the necessary guidelines for the disability determination services when it is necessary to refer individuals with mental impairments for a work evaluation. Work evaluations are needed in certain disability cases (both title II and title XVI) when it is necessary to evaluate the individual's ability to carry out the mental requirements of past work or other work available in the economy.

Abstract: The proposed changes will clarify the meaning of the terms "illiteracy" and "inability to communicate in English" as they are used in the disability adjudication regulations. Since only the Secretary of the Department of Health and Human Services and his or her delegates are empowered to administer the title II and title XVI disability and blindness programs these changes must be made on a Federal level. Abstract: Section 112.00 of Appendix 1 to the Old-Age, Survivors, and Disability Insurance Disability Regulations 404.1501 through 404.1599 describe those mental impairments that apply only to the evaluation of impairments of persons under age 18. We are proposing comprehensive revisions to that section to ensure that the medical evaluation criteria are up to date and consistent with the latest advances in medicine. The Supplemental Security Income program incorporates by reference and uses the same medical criteria as the Old-Age, Survivors, and Disability Insurance program. The budgetary impact is unknown at this time.

Legal Deadline: None.

Abstract: If the court remands a case and the SSA Appeals Council remands it to an administrative law judge (ALJ), under current regulations the ALJ can make only a recommended decision on the case, and the Appeals Council must review that decision and take further action in every case before the decision becomes final. This can involve delay. The proposed regulation would permit the ALJ to make a decision which would become final unless, within 30 days after the decision is received, the claimant files exceptions or within that period requests an extension of time to file exceptions, or within 60 days after the date of the decision the Appeals Council takes jurisdiction. The change will permit prompter final decisions and some administrative savings. It will not affect program cost.

Abstract: In these proposed rules, we will state explicitly our policy of not withholding money from a claimant's retroactive SSI benefits to pay a fee directly to the claimant's representative. We believe that no authority exists under the Social Security Act for such withholding. Furthermore, such withholding is prohibited by the assignment provisions of section 207 of the Social Security Act. We expect no costs.

Abstract: We may pay benefits to a person applying for supplemental security income benefits on the basis of disability or blindness before making a formal determination when available information indicates a high probability that disability exists. These findings of presumptive disability and blindness may be made at the Social Security district offices only for specified impairment categories; at the State agencies, they may be made for any impairment category. We are proposing to add renal disease requiring dialysis on a regularly scheduled basis to these categories in view of the predictability that the disease will result in a finding of disability. We are also proposing a restructuring of our regulations to show more clearly that two of these impairment categories require confirming contacts before findings of presumptive disability may be made by district office.

Legal Authority: 42 USC 1382(a)(1)(B)

CFR Citation: 20 CFR 416.1201(a)

Legal Deadline: None.

Abstract: The proposed revision would provide that, for one calendar month following receipt, money paid by a medical or social services program to enable someone to pay for an approved service would not be a resource. If still unexpended after a month, the money would be considered available for basic living expenses and so would be a resource. This will allow people a reasonable time in which to pay for services without affecting their supplemental security income eligibility. (The change would not apply to money which simply reimburses a person for a service payment already made.)

Abstract: These regulations clarify the authority of the Appeals Council, as the highest adjudicatory body within the Social Security Administration, to review an administrative law judge decision or dismissal for any reason within 60 days after the date of a hearing decision or dismissal. The current regulations have been misinterpreted as limiting the scope of the Appeals Council review authority. The regulations also make it clear that where the Appeals Council grants a claimant's request to review an ALJ's decision, the Appeals Council reviews the entire record and may change the decision in its entirety, including those portions which were decided favorably to the claimant. Finally, these regulations make it clear that the Appeal's Council authority to reopen and revise an administrative law judge's decision is separate from and in addition to the Appeals's Council authority to review an administrative law judge's decision.

Legal Authority: 42 USC 402(x)(1); 42 USC 405

Legal Deadline: None.

Abstract: Existing regulations at 20 CFR 404.468(d) provide a vocational rehabilitation exception to the nonpayment of benefits to prisoners provision described at 20 CFR 404.468(a). Under the exception, the nonpayment provision does not apply if a prisoner who is entitled to benefits on the basis of disability is actively and satisfactorily participating in a rehabilitation program which has been specifically approved for the individual by court of law. In addition, the Secretary must determine that the program is expected to result in the individual being able to do substantial gainful activity upon release and within a reasonable time. No benefits will be paid to the prisoner for any month prior to the approval of the program. The proposed regulations would set out more definitive criteria for applying the exception and would define terms, such as "rehabilitation program", "court of law", and "reasonable time", for purposes of applying the exception.

Abstract: P. L. 98-21, the Social Security Amendments of 1983, changed the timing of crediting deferred compensation for Social Security purposes. It also changed the treatment of retirement pay depending upon whether it is paid under a qualified deferred compensation plan. Further, it excluded from coverage various fringe benefits and payments under a Simplified Employee Pension Plan (SEP). Finally, the amendments codify certain provisions pertaining to meals and lodging and tax-sheltered annuities. P. L. 99-514 excludes from coverage payments under a cafeteria plan as described in section 125 of the Internal Revenue Code of 1986 and employee achievement awards for Social Security purposes. It extends the exclusions of Educational Assistance Programs and Group Legal Service Plans and removes the exclusion of SEP payments. The regulations will be updated to reflect and implement these statutory provisions.

Abstract: This proposed regulation will establish rules on the burden of evidence SSA requires of those requesting correction of the Secretary's record of their earnings, under what conditions the Secretary will assist the requester in obtaining evidence that establishes such records as incorrect, and what types of evidence are required for this purpose. This proposed regulation will reduce the number of unproductive efforts the agency makes to investigate unsubstantiated assertions that the Secretary's records are incorrect and facilitate the correction process in many cases by relying more upon evidence readily available to the requester rather than requiring the agency to attempt to obtain evidence from employer records.

Legal Deadline: None.

Abstract: These rules reflect changes in the law which enable States effective for the 12-month period ending 6/82, to switch from the "maintaining of total expenditures" method of compliance with mandatory pass through provisions to the "maintaining of payment levels" method without first having to pass through to all current SSI recipients all the Federal cost-of-living benefit increases which have occurred since 12/76. States can meet the pass through requirements by maintaining the payment levels in effect in December of the latest preceding total expenditures period. The concept of "State Supplementary payment level" is changed to a concept of combined supplementary and SSI payment levels applicable to months after 3/83. Also, a State is permitted to reduce its 3/83 State Supplementary payment levels by an amount up to the difference between the amount of the 7/83 general increase in the Federal benefits in 7/83. Also reflected in the rules is a special method of compliance for States meeting the passalong requirements by the total annual expenditures test for the period 7/1/80 through 6/30/81. The total expenditures for that period need only equal or exceed the total (cont)

A State will not be found out of compliance for that period if in the period January 1, 1986 through December 31, 1986, its supplementary payment levels are not less than its supplementary payment levels in effect in December 1976 increased by the percentage by which the Federal Benefit Rate has increased after December 1976 and before February 1986.

Abstract: This proposed regulation reflects policies and procedures concerning agreements between States and the Secretary for Social Security coverage of State and local employees, payment of Social Security contributions, filing of wage reports by States, charging interest for late payments, etc. The current rules need to be organized into a logical sequence and to be updated to reflect many

policies which SSA has followed for many years. In preparing this regulation, we reviewed all policies to assess their impact on the trust funds and to reduce recordkeeping burdens. We also added the provisions of sections 103 and 342 of Pub. L. 98-21. Sec. 103 prohibits termination of existing coverage under the States' agreements. Sec. 342 changes payment of Social Security contributions from once a month to twice a month. When the regulations are published in final form, we will also add language to implement two provisions of Pub. L. 99-272 sec. 12110, which provides a uniform effective date for coverage agreements and modifications of agreements, and sec. 12114, which permits coverage of certain Connecticut State police, and a provision of sec. 9002 of the Omnibus Budget (cont)

Abstract: This regulation reorganizes, revises, and clarifies the rules on withholding, reducing, suspending, and terminating an SSI beneficiary's benefits. These regulations include changes in the present rules that are required by recent statutory enactments and, additionally, make the rules easier to read and understand. This regulation will have no impact on SSA programs and administrative costs.

Abstract: This regulation provides that deeming of parental income and resources to an eligible child ends when a child reaches age 18 and that a sponsor's income and resources are deemed to an alien for a period of three years after admission for aliens who first apply for SSI benefits after September 30, 1980. The regulation eliminates different treatment of children aged 18 to 21 depending on status as students, and assumes that sponsors will support aliens and sets more rigid rules for the sponsor to alien deeming than apply to other deeming categories.

Abstract: These rules should promote final resolution of cases at the hearing stage and help to reserve Appeals Council review for cases of a genuinely appellate nature. These rules specify that if a person files an application for benefits before the first month he or she meets all requirements for entitlement, we will allow the claim only if he or she meets all requirements before a hearing decision is issued (if a hearing is held) or if no hearing is held, before a final determination is made. These rules will generate program savings and administrative costs and savings. These rules also specify that where a claimant files a request for review of an ALJ hearing decision and submits additional evidence, the Appeals Council will consider the evidence only if it relates to the period ruled on by the ALJ.

Abstract: The proposed regulations revise SSA policy to provide that unless we have evidence that a missing person is alive, we will consider a State or Federal court determination of death as sufficient evidence to presume the death of the missing person. If we are not given a court determination of death, we will presume that a missing person is dead if that person would be presumed to be dead under the law applied by the courts of the State of the person's last known permanent home. If that home was not in a State, we will use the law of the District of Columbia. The new rules will apply only for purposes of determining entitlement to benefits for months beginning with the month of the final rules publication in the Federal Register. The current rules will apply for determining entitlement to benefits for prior months. The proposed changes will result in negligible program or administrative costs or savings.

Legal Deadline: None.

Abstract: This regulation consists of amendments to 5 rules on wage coverage under Social Security. These amendments are: (1) The value of the meals and lodging furnished for the convenience of the employer must be excluded from the employee's gross income; (2) With only limited exceptions, an employer may no longer exclude from an employee's wages, his or her payment of the employee's FICA tax; (3) Payments by an employer to an employee after the calendar year of the employee's entitlement to disability insurance benefits are not wages if paid in a period the employee did not work; (4) The scope of the entitlement to the deemed wages provided to internees of the camps for Japanese-Americans during World War II period is being broadened; (5) The scope of the entitlement to the deemed wages provided to members of the uniformed services is being narrowed. Only two regulations will have a cost impact. Amendment (1) above will reduce the Social Security benefits paid the affected employees but not by $100 million in any year. Amendment (2) will increase taxes paid by employers and employees but these increases are required by the statutory provisions.

Abstract: The proposed rules provide for the reopening and revising of Supplemental Security Income determinations within four years of the notice of the initial determination if we discover an error affecting a claimant's eligibility or benefit amount during this period through the use of information exchange and data gathering involving either our records or our records and those of other Federal or State agencies. This rule is being proposed because the two-year period in which we may reopen and revise a determination based on new and material evidence we acquire through data and exchange is often too short and often expires before the determination to correct errors revealed by the data can be made. The budgetary impact has not yet been determined.

Abstract: The provision of section 113 of Pub. L. 98-21 (the Social Security Amendments of 1983) eliminates the windfall that occurs when the heavy weighting in the benefit formula that is intended for workers with low wages goes instead to workers who spent many years in noncovered employment and worked only a few years in covered employment. This will be accomplished by modifying the benefit computation formula to consider a worker's pension from noncovered employment. This provision will decrease program costs by $1 million for 1983-89.

Abstract: Current regulations for the Supplemental Security Income program provide that if countable liquid resources and total countable resources (liquid and nonliquid) do not exceed certain limits, conditional payment is possible while disposing of excess nonliquid resources. This regulation will eliminate the limit on total countable resources and also eliminate an operating assumption that property has no value at all because it did not sell during a conditional payment period.

Abstract: These regulations implement Sec. 340 of Pub. L. 98-21--The Social Security Amendments of 1983--which provides a U.S. residence requirement that the dependent or survivor beneficiary must now meet if he or she is an alien outside the U.S. These provisions do not apply to the alien who is an old-age or disability beneficiary who is residing outside the U.S. for more than 6 months. The dependent or survivor beneficiary, however, who is an alien outside the U.S. will not be paid benefits effective January 1, 1985 unless he or she satisfies these new residence requirements. These provisions will effect negligible budget savings, i.e., $50 million for the period 1983-89. Also these regulations implement sec. 2661(g) of Pub. L. 98-369 by substituting a "45 hour" foreign work test for a "7 day" work test when imposing benefit deductions.

Abstract: The proposed regulations would codify section 101 of Pub. L. 98-21, as amended by sec. 4 of Pub. L. 98-118, which generally provides Social Security coverage for certain Federal employees and covers certain payments to retired Federal judges after 1985. Estimated increased revenues (resulting from this legislation) for 1984-1989 are $9.4 billion. Long-range savings are estimated at .28 percent of taxable payroll. Also, the proposed regulations would codify section 12112 of Pub. L. 99-272 which provides exemption from Social Security coverage for retired Federal judges on active duty. In addition, the proposed regulations would provide: 1) that Federal employees not otherwise subject to the Social Security tax are nevertheless subject to the Health Insurance portion of the tax under Pub. L. 97-248, and 2) that individuals covered by the Civil Service Retirement System may elect during a limited time to be covered under the Federal Employees Retirement System, which includes Social Security coverage.

Abstract: The proposed rule implements Berger which defines color of law for SSI purposes and sets out categories of aliens who are to be considered permanently residing in the U.S. under color of law. This will enable additional aliens to qualify for Supplemental Security Income benefits. Our preliminary estimates are that the proposed regulations could result in Federal SSI costs of between $7 million and $285 million in FY 1987 and between $9 million and $280 million in FY 1988. Our minimal estimated Medicaid costs for FY 1987, $370 million Federal and $295 million State, and for FY 1988,$420 million Federal and $355 million State.

Abstract: Our current regulations implementing section 1634 of the Social Security Act provide that SSA will make determinations for the State on whether aged, blind, or disabled people are eligible for Medicaid if the State's Medicaid requirements for these people are the same as SSI eligibility requirements. Sec. 2367 of Pub. L. 98-369 mandates that States require, as a condition of Medicaid eligibility, that a person assign to the State his or her rights (as well as the rights of any other Medicaid eligible person on whose behalf he or she has the legal authority to execute such an assignment of rights) to any medical care and support available under an order of a court or an administrative agency and any third-party payments for medical care (except Medicare). This is a Medicaid requirement that is different from SSI requirements. We plan to amend our regulations to provide that in making the Medicaid eligibility determination under a section 1634 agreement, SSA will also determine that the new assignment requirement has been met. The regulations will similarly allow for any other non-SSI Medicaid requirement mandated by Federal law, such as that added by sec. (cont.)

Abstract: These proposed rules which implement section 2 of Pub. L. 97-455, section 2 of Pub. L. 98-118 and section 7 of Pub. L. 98-460 provide the following groups with the option to elect to continue receiving benefits/payments pending reconsideration and/or a hearing before an administrative law judge on a medical cessation determination; recipients of disability insurance; adult child's, disabled widow's, disabled widower's, mother's and father's, or spouse's benefits based on having in care a disabled adult child; recipients of benefits based on having in care, a child under age 18 but over age 15, who is disabled and

receiving child's benefits; recipients of SSI benefits based on disability or blindness. Any continued payments are subject to recovery as overpayments, subject to the same waiver provisions now in current law and regulations where the medical cessation decision is upheld on appeal. The estimated additional costs not already funded are FY 1985--$80.1 million, FY 1986--$112.6 million.

Abstract: The proposed regulations reflect the provisions of section 8 of PL 98-460 by requiring that we make every reasonable effort to have a qualified psychiatrist or psychologist to complete the medical portion of the case review and any residual functional capacity assessment in unfavorable determinations in mental impairment cases. We are also explaining the qualifications necessary to be considered a qualified psychologist and what we will consider as reasonable effort to obtain the services of a qualified psychiatrist or psychologist. SSA must now make every reasonable effort to see that the services of qualified psychiatrists and psychologists are obtained through proper State administration including, where necessary, raising State fee schedules to provide compensation at the prevailing rates in the community. SSA may also contract directly for these services when the State is unable to provide them due to inadequate compensation or other impediments at the State level. Costs will increase by less than $5 million in the first year that the regulations are effective. These figures were derived from the number of additional physician hours needed for State (cont.)

Legal Authority: PL 98-369, Sec 2613

CFR Citation: 20 CFR 416

Legal Deadline: None.

Abstract: This proposed regulation reflects the provisions of section 2613 of P.L. 98-369 which provides for waiving recovery of an overpayment that is attributable solely to excess resources if the amount of the excess is $50 or less unless the overpaid recipient (and spouse if any) knowingly and willfully failed to report the value of his/her resources accurately and timely.

Significance: Regulatory Program

Legal Authority: 42 USC 405; 42 USC 421; 42 USC 1302; PL 98-460, Sec 17; 42 USC 1383

CFR Citation: 20 CFR 404; 20 CFR 416

Legal Deadline: None.

Abstract: The regulations deal with the operation of State agencies which make disability determinations for the Social Security Disability Benefits program and the Supplemental Security Income for the Aged, Blind, and Disabled program under regulations and other written SSA guidelines. The regulations implement recently enacted law which requires the Secretary to take definitive steps within specific time frames to assure the compliance of State agencies with SSA regulations and other written guidelines or proceed to determine their participation in the SSA administered programs. The regulations also make other changes to improve the disability determination process and to clarify and update other administrative requirements. Costs/savings cannot be estimated at this time.

Legal Deadline: None.

Abstract: Public Law 98-460 created 2 new provisions under which SSA will pay vocational rehabilitation (VR) agencies for the costs of services provided to disabled or blind social security beneficiaries or SSI recipients. Under the first new provision, SSA will allow payment to VRA's for the costs of VR services provided to individuals continuing to receive payment because they are participating in a VR program after their period of disability has ceased due to their medical recovery. The second new provision allows payment to VRA's for the costs of VR services provided to beneficiaries/recipients who refuse without good cause to continue or to cooperate in a VR program in such a way as to preclude their successful rehabilitation with such refusal resulting in the nonpayment of their disability or blindness payments. It is estimated that the first year costs of this program will be less than 1 million dollars.

Abstract: This provision of the law requires us to consider the combined effect of all of a person's impairments in determining disability regardless of whether any single impairment, if considered separately, would be of sufficient severity. If we do find a medically severe combination of impairments, the combined impact of the impairments must be considered throughout the disability determination process. We are revising regulations to reflect that we will now consider the combined effect of impairments to determine severity. When the combined effect is found to be severe, the person's impairments are evaluated under the full sequential evaluation process.

Abstract: We proposed revising our regulation on review of attorney fee determinations approved for services before the Social Security Administration (SSA) under titles II and XVI of the Social Security Act and under title IV of the Federal Mine Safety and Health Act. These revised rules, if adopted, would have allowed SSA, on its own motion, to review and revise attorney fee determinations which are clearly based on improper application of the law and regulations, or on an error of fact. In light of the numerous comments we received after the publication of the Notice of Proposed Rulemaking, we are currently reevaluating this regulation.

Abstract: SSA is amending its regulations to include a 20-day rule for distinguishing between liquid and nonliquid resources, and a first-of-the-month rule which states that changes in the value existence, or excludability of resources are not taken into account until the first moment of the next month. These policies were published in an NPRM reorganizing and rewriting the entire Subpart L on Resources. We do not plan at this time to publish the entire NPRM as a final rule. We are publishing final regulations on several significant policies which are being divided into two final regulations packages. We are finalizing these two rules at this time since they are needed for clarification. No costs concerning these clarified rules will be incurred since they are currently in effect in operational instructions and are not new policies.

Abstract: SSA is amending its regulations to include a rule that pension funds are not counted as resources for deeming purposes and a provision in its grandfathering rules that an "SSI benefit" means a Federal benefit only and does not include any State supplement. These rules were published in the Federal Register as an NPRM reorganizing and rewriting the entire Subpart L on Resources. We do not plan at this time to publish the entire NPRM as a final rule. Abstract: These regulations implement sections 12101 and 12104 of Pub. L. 99-272 (the Consolidated Omnibus Budget Reconciliation Act of 1985). Section 12101 of Pub. L. 99-272 extends the Secretary's waiver authority on demonstration projects in the title II disability insurance program which was originally provided for by section 505(a)(3) of the Social Security Disability Amendments of 1980 (Pub. L. 96-265). Section 12101 also effectively makes the waiver authority for title XVI demonstration projects permanent. Section 12104 of Pub. L. 99-272 amends section 202(d)(8)(D)(ii) (III) of the Social Security Act to provide that great-grandchildren of the insured individual may be entitled to child's insurance benefits as grandchildren currently are, applying the dependency test for legally adopted children.

Additional Information: The location of the confidentiality provisions for alcohol and drug abuse patient records has been transferred from one public law to another and has been changed in the United States Code. P.L. 98-24, the Alcohol and Drug Abuse Amendments of 1983, consolidates alcohol, drug abuse, and mental health authorities in Title V of the Public Health Service Act. Section 408 of the Drug Abuse Prevention, Treatment and Rehabilitation Act (21 U.S.C. 1175) is transferred to section 527 of the Public Health Service Act and is now codified at 42 U.S.C. 290ee-3. Section 333 of the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (42 U.S.C. 4582) is transferred to section 523 of the Public Health Service Act and is now codified at 42 U.S.C. 290dd-3. Sec. 106 of P.L. 99-401, the Children's Justice and Assistance Act of 1986, amends sections 523(e) and 527(e) of the Public Health Service Act (42 U.S.C. 290dd-3(e) and 290ee-3(e)) to permit reporting of suspected child abuse and neglect to appropriate State or local authorities in accordance with State law.

660. OBLIGATED SERVICE FOR MENTAL HEALTH TRAINEESHIPS

Legal Authority: 42 USC 242a

CFR Citation: 42 CFR 64a

Legal Deadline: None.

Abstract: This rule implements statutory service payback obligations of recipients of clinical traineeships in psychology, psychiatry, social work, or nursing. The NPRM would revise 42 CFR 64a to establish a uniform rate of interest for all individuals who receive clinical traineeships, clarify that funds owed to the government become a debt when the trainee fails to complete the obligation, require that training institutions conduct entrance and exit interviews with trainees to inform them of the seriousness of their service obligations, and provide guidelines for hardship deferrals. The option in existing regulations is to continue the potential for 50 different interest rates with disputes ensuing over what the maximum rate is within each jurisdiction. In addition the existing rule permits a 5-year interest-free period which the NPRM would reduce to 2 years. The NPRM will reduce costs to the government by reducing the interest-free period and by avoiding the expense of settling disputes concerning the correct interest rate for payback obligations.

661. IMPROVE STANDARDS FOR RESPIRATOR DEVICES

Significance: Regulatory Program

Legal Authority: 30 USC 801

CFR Citation: 30 CFR 11

Legal Deadline: None.

Abstract: There are three major problems that the proposed regulatory action is intended to solve. First, the current regulatory provisions in 30 CFR 11 in some instances date back almost fifty years. As a result the provisions are not current with many of the extensive changes in respirator technology. Second, the current regulations do not provide for testing of respirators under either actual or simulated use conditions prior to certification. Third, the resources required to conduct routine respirator certification testing has made it difficult for NIOSH to keep respirator performance standards current with advances in respirator technology and with new knowledge on respirator performance characteristics. Alternatives considered: (1) the Federal government could relinquish the field entirely to the private sector. (2) The Federal government could promulgate performance standards but not be involved in assuring compliance with those standards. (3) The Federal government could continue to be the certifier of respirators but have manufacturers conduct testing. (4) The Federal government could continue its present role of total operation of the respirator system. NIOSH (cont)

662. PROJECT GRANTS FOR HEALTH PROGRAMS FOR REFUGEES

Legal Authority: 8 USC 1522(b) Section 412(b)(5) Immigration and Nationality Act; PL 96-212 Refugee Act of 1980; PL 97-363 Refugee Assistance Amendments of 1982

CFR Citation: 42 CFR 51e

Legal Deadline: None.

Abstract: Regulations are required by Department policy for this project grant program administered by the Centers for Disease Control (CDC) under an intra-agency agreement with the Office of Refugee Resettlement (ORR). The project grants are awarded to State and local health agencies to assist them in providing initial health assessments to arriving refugees. These health assessments specifically address conditions of public health concerns, like tuberculosis, and also identify personal health problems that could impair the effective resettlement of the refugee. CDC has established the program requirements, guidelines, and standards for evaluation.

663. DISTRIBUTION OF REFERENCE BIOLOGICAL STANDARDS AND BIOLOGICAL PREPARATIONS

Significance: Regulatory Program

Legal Authority: 31 USC 9701 Independent Offices Appropriation Act of 1952; 42 USC 216 Sec 215, 58 Stat. 690, as amended; 42 USC 263 Sec 352 of the Public Health Service Act, as amended

CFR Citation: 42 CFR 7, (New)

Legal Deadline: None.

Abstract: This proposal initiates a program that would impose a user charge upon a private agency which requests reference biological standards or biological preparations for their own comparative performance tests to cover the cost to the Centers for Disease Control (CDC) of developing and distributing the products. CDC is proposing to impose an average user charge of $24 per unit distributed. The cost will vary, depending upon the type of preparation requested. CDC is not proposing to impose a user charge for State and local health departments, the World Health Organization, or international governments because these materials are provided to those agencies for public health reasons and not for the benefit of the requesters.

664. SPECIFICATIONS FOR MEDICAL EXAMINATIONS OF UNDERGROUND COAL MINERS

Legal Authority: 30 USC 843 Federal Mine Safety and Health Act of 1977

CFR Citation: 42 CFR 37, (Revision)

Legal Deadline: None.

Abstract: The National Institute for Occupational Safety and Health (NIOSH) administers an X-ray examination program for coal miners as mandated by the Federal Mine Safety and Health Act of 1977. The proposed amendment will provide additional specifications to enable X-ray readers in the Department's medical surveillance program for underground coal miners to interpret miners' chest X-rays more accurately to classify any existing or developing pneumoconiosis. The proposed changes are based on recommendations by NIOSH, the Mine Health Research Advisory Committee to NIOSH, and the American College of Radiology Task Force on Pneumoconiosis. The proposed rule will expand the specification for X-ray film size, specify film/screen combinations and speeds which can be used, and specify the method for obtaining a definitive interpretation of chest X-rays when two readers' interpretations do not agree.

CFR Citation: 42 CFR 34(b)(8), (New)

Legal Deadline: None.

Abstract: Dangerous contagious diseases, as defined under subsection 34.2(b), includes chancroid, gonorrhea, granuloma inquinale, lymphogranuloma venereum, infectious syphilis, infectious leprosy, and active tuberculosis. The proposed revision would add acquired immunodeficiency syndrome (AIDS) as the eighth disease on this list. It is proposed to add AIDS since it would be anomalous to have diseases such as the other sexually transmitted diseases (STD) on the list and not include AIDS. AIDS is a recently defined STD of significant public health importance.

667. ● DRUG EXPORTS

Significance: Regulatory Program

Legal Authority: PL 99-660 Drug Export Amendment Act of 1986

CFR Citation: Not yet determined

Legal Deadline: None.

Abstract: The Drug Export Amendment Act of 1986 authorizes the export for commercial marketing abroad of veterinary and human drugs not approved for marketing in the United States. Under previous law, the export of new human and animal drugs for marketing was confined to drugs that were approved by FDA for domestic use. The law establishes three separate pathways for the export of unapproved products. Under each pathway, FDA approval is required before export is permitted. As a prerulemaking activity, FDA is developing guidance material for manufacturers instructing them as to what information must be submitted to the Agency to obtain approval for the export of unapproved products. The guidance material will also identify FDA sources of information on Agency practices and policies concerning the implementation of the Drug Export Amendment Act of 1986. The Agency will then decide what, if any, regulations are necessary for the efficient implementation of the amendment, and establish timeframes for the development of those regulations.

CFR Citation: 21 CFR 606

Legal Deadline: None.

Abstract: FDA is responsible for issuing regulatory standards for blood and blood components to ensure the continued safety, purity, and potency of such products. Since 1975, CGMP regulations have been in effect that provide standards for facilities, personnel, and manufacturing procedures for blood and blood components. In accordance with the Regulatory Flexibility Act, FDA has conducted a retrospective review of its CGMP regulations for blood and blood components, to determine how the regulations may be revised to relieve regulatory burdens and increase flexibility without adversely affecting the public health. Part of the retrospective review of the CGMP will be completed through FDA's implementation of an efficacy review of blood and blood derivatives which responds to recommendations of a Committee of scientific experts--the Panel on Review of Blood and Blood Derivatives. To complete the remainder of the retrospective review program regarding the CGMP, FDA will issue a proposed rule to revise the CGMP regulations.

CFR Citation: 21 CFR 514.1; 21 CFR 514.8

Legal Deadline: None.

Abstract: Based upon an evaluation of an action issues report, the Agency has concluded that it will recommend that the Secretary propose revision of the existing regulations in a manner consistent with the current procedural regulations for human drugs where appropriate. The New Animal Drug Application (NADA) revisions would articulate general requirements in regulations containing performance standards and would complement them through detailed guidelines on, among other matters, appropriate ways of meeting requirements for submission of chemistry, pharmacology, and statistical data that would better address the intricate scientific issues involved. Although the guidelines would not establish regulatory requirements, persons would be able to rely on them with confidence that action taken under a guideline would be acceptable to the agency. The proposed rule would also provide for reporting requirements for marketed animal drugs.

Abstract: Acceptable evidence and information exists to show that a subgroup of asthmatics is at moderate to severe risk for a severe reaction upon exposure to sulfites. The agency's primary tool for handling a situation where population subgroups may be at increased risk from a food ingredient that is safe for most people is to use labeling to inform those persons who need or want to avoid the ingredient. The agency issued a final rule, effective January 7, 1987, that requires that when a sulfiting agent is present to a finished food at 10 parts per million or greater, the sulfiting agent must be declared on the label. In addition, FDA issued a final rule, effective August 8, 1986, prohibiting the use of sulfiting agents on raw fruits and vegetables intended to be served or sold raw to consumers (e.g., in salad bars). The agency is now considering what it options are with regard to the GRAS status of 1) sulfiting agents used on potatoes and 2) other food uses of sulfiting agents. Options being considered are: 1) affirming all uses of sulfiting agents as GRAS with specific limitation; 2) affirming most uses of (cont)

Significance: Regulatory Program

Legal Authority: 21 USC 351 Federal Food, Drug, and Cosmetic Act; 21 USC 352 Federal Food, Drug, and Cosmetic Act; 21 USC 355 Federal Food, Drug, and Cosmetic Act; 21 USC 371 Federal Food, Drug, and Cosmetic Act; 21 USC 374 Federal Food, Drug, and Cosmetic Act; 42 USC 262 Public Health Service Act

CFR Citation: 21 CFR 211; 21 CFR 310; 21 CFR 600

Legal Deadline: None.

Abstract: On July 3, 1986, the agency published a final rule that requires manufacturers, packers, and distributors of marketed prescription drug products that are not the subject of approved new drug or abbreviated new drug applications to report to the agency whenever the manufacturer, packer, or distributor receives information about any adverse event that is both serious and unexpected and that is associated with the use of any of its marketed drug products. FDA is taking this action based on events in which serious adverse reactions, which were associated with an intravenous drug product (no longer marketed) that was not the subject of an approved new or abbreviated new drug application, were not reported to the agency by the manufacturer, packer, or distributor. Under the agency's previous regulations, neither the manufacturer, packer, nor the distributor of such a product is expressly obligated to report serious safety problems to the agency. The agency is considering a separate proposed rule for biological products that would require reports of adverse experiences associated with the use of licensed biological products.

674. PROPOSED RULE TO IMPLEMENT THE ORPHAN DRUG AMENDMENTS TO THE FEDERAL FOOD, DRUG, AND COSMETIC ACT

Significance: Regulatory Program

Legal Authority: PL 97-414 Orphan Drug Act

CFR Citation: Not yet determined

Legal Deadline: None.

Abstract: The Orphan Drug Act is intended to provide incentives for drug companies to invest in the development of drugs for rare diseases or conditions. Certain incentives are necessary because "orphan drugs" are unlikely to be profitable. The agency is required to carry out provisions of the Orphan Drug Act, e.g., by designating a drug as an orphan drug, by providing protocol assistance, and by granting seven years of exclusive approval status. The proposed rule would establish procedures whereby drug sponsors can take advantage of the incentives to encourage development of orphan drugs. While several provisions of the Orphan Drug Act call for promulgation of regulations, the agency is considering the extent to which regulations will be needed to provide the framework and guidance for implementing a program of incentives to drug sponsors and manufacturers.

Significance: Regulatory Program

Legal Authority: PL 98-417, (Title I)

CFR Citation: Not yet determined

Legal Deadline: None.

Abstract: Until the passage of Title I of the "Drug Price Competition and Patent Term Restoration Act of 1984," abbreviated new drug application (ANDA) procedures were only available for generic products equivalent to pioneer drugs approved before 1962. Title I opened up the ANDA policy to generic copies of products approved after 1962. This rulemaking is intended to establish clear and uniform procedures for the review and timely approval of ANDAs. This should assist the generic drug industry by ending considerable confusion about the procedures governing review of ANDAs. In turn, with the availability of lower-cost generic products, it is estimated that consumers may save millions of dollars. The statute calls for promulgation of implementing regulations, however, the agency also expects to develop guidelines and other policy statements to assist in developing approvable applications. Revised target dates for this regulatory action are appropriate because many new issues have been identified in petitions and letters to the agency from trade associations and attorneys representing individual manufacturers concerning exclusivity, patent coverage, (cont)

Abstract: This proposed rule would permit applicants to file abbreviated new animal drug applications (ANADAs) for products identical to approved post-1962 drugs and to omit certain reports that are required in full NADAs to show safety and effectiveness of the product. It would apply only to certain drug products specified by FDA. If adopted, the proposed rule would reduce duplicative testing of drugs and also reduce the cost to the manufacturer of getting the affected drugs on the market.

Abstract: This proposed rule would permit veterinarians to obtain bulk new animal drug substances for compounding products for use in their own practice. A number of veterinarians have requested that the regulations be revised in order that bulk new animal drug substances may be legally obtained by them for use in their practices. Seventeen comments were received in response to the proposed rule, five from pharmaceutical companies, six from trade/professional associations, three from consultants, two from veterinary practitioners, and one from a Federal agency. Abstract: This proposed rule would revise extensively the IND rules to improve the efficiency of FDA's operations and to update and clarify its internal policies in reviewing and expediting applications for new drugs. These revisions are believed necessary to improve the efficiency of the drug review process. The result would be greater assurance that safe and effective new drugs are approved as promptly as possible. The undertaking reflects FDA's commitment to refine and improve the entire IND/NDA process. The IND/NDA rules were scheduled for retrospective review announced by FDA in its July 2, 1982 notice (47 FR 29004) establishing priorities for reviewing the agency's existing rules under the Regulatory Flexibility Act and Executive Order 12291. Abstract: The proposed rule would initiate a program that would require drug manufacturers (as beneficiaries of special services that the agency provides) to bear the costs that the agency incurs in reviewing and approving new drug and antibiotic applications, abbreviated new drug applications, new device applications, and certain supplemental applications. The agency would set fees for different types of applications. The benefit

accruing to an applicant under the agency's new drug and antibiotic application review and approval activity is that the applicant may lawfully market its new drug or antibiotic upon gaining agency approval. Review by the agency also benefits applicants by helping ensure that they will market only safe and effective drug products. This, in turn, enhances public confidence in applicant's drug products. Congress has prohibited FDA from implementing user charges. Legislation will be proposed in the 100th Congress to implement user charges for both drugs and devices.

Abstract: Substantial progress has been made in reducing the number of provisionally listed additives and only 3 color additives remain on the provisional list. The agency is presently reviewing petitions to list these color additives permanently. Because FD&C Red No. 3 animal feed studies have shown a treatment-related increased incidence of tumor bearing animals, the agency considered the use of quantitative risk assessment as a basis for assessing the safety of this color additive in external drugs and cosmetics. As a preliminary step in its consideration of this approach, the agency formed a scientific peer review panel of government scientists to consider whether it is possible to quantify the risk presented by the use of FD&C Red No. 3 based on the scientific data available to the agency and, if so, what level of risk is presented by the use of this color additive. The agency has received the report from the scientific review panel in which the panel estimates the risk of cancer from use of FD&C Red No. 3 in external drugs and cosmetics. Furthermore, for FD&C Red No. 3 the industry has postulated a secondary mechanism for the observed (cont)

Additional Information: ABSTRACT CONT: tumorigenic response in the animal feeding study. The agency has asked a second scientific peer review panel of government scientists to consider data relating to the issue of a possible secondary mechanism and implications for risk assessment. The panel has also been asked to determine what, if any, further studies or analyses may be necessary to resolve the issues. D&C Red Nos. 33 and 36 present concern about their possible carcinogenicity, as well as concern about carcinogenic impurities. Although not found to be carcinogenic in animal testing, these colors are similar in structure to D&C Red No. 9, which was found to be safe based upon a de minimis interpretation of the statute, using conservative risk assessment techniques.

Abstract: On February 21, 1986, the agency proposed to require that each unit of blood and blood components be tested and found nonreactive by a licensed serologic test for antibody to human T-lymphotropic virus type III (HTLV-III). HTLV-III is believed to be the causative agent of acquired immunodeficiency syndrome (AIDS). The agency believes that the routine testing of blood by an approved serologic test for antibody to HTLV-III should decrease the risk of transmitting AIDS by the transfusion of blood and blood components and by the parenteral use of certain plasma derivatives.

Abstract: On July 11, 1986, the agency proposed regulations to implement the patent term restoration provisions (Title II) of the Drug Price Competition and Patent Term Restoration Act of 1984 (Pub. Patent term restoration, extending patent life, is available for certain patents related to human drug products, and to medical devices, food additives, or color additives subject to regulation under the Federal Food, Drug, and Cosmetic Act.

Abstract: The proposed rule would provide a mechanism that will allow relevant, truthful, and nonmisleading claims about cholesterol and fatty acid on product labeling for consumers. This proposed rule resulted from the medical and consumer interest in the association between dietary fat and cholesterol and the occurrence of coronary heart disease, the leading cause of death and disability in the United States today. The proposed rule would allow industry voluntarily to provide consumers with cholesterol and fatty acid information currently prohibited by regulations by permitting the use of meaningful descriptors of the cholesterol content of foods as established by regulation (e.g., "cholesterol free," "low cholesterol," and "reduced cholesterol"). Additionally, the proposal would allow the use of comparative claims (e.g., 50 percent less cholesterol than our original product) provided quantitative cholesterol content information is supplied.

Legal Deadline: None.

Abstract: Methylene chloride is used as a flame suppressant in aerosol cosmetic products (hair sprays). Recent carcinogenicity bioassay studies, however, have shown that methylene chloride is an animal carcinogen. These studies indicate that the continued use of methylene chloride, in functional amounts, in such cosmetic products may pose a significant risk to the public health, especially in specific segments of the population that are continually exposed to aerosol cosmetics containing methylene chloride. Methylene is also used as a solvent to extract caffeine from green coffee beans. However, all but a very small portion of the methylene is removed during processing. The agency has been informed of voluntary efforts by the cosmetic industry to replace methylene chloride but believes that prohibiting its use in cosmetics is the only approach that will assure that the public health will be fully safeguarded from all such products, both foreign and domestic.

Abstract: In 1980, FDA published a regulation (21 CFR 102.33) to require the declaration of the percent of juice contained in all diluted juice beverages. This regulation was published to extend the percent juice declaration required for diluted orange juice beverages (21 CFR 102.32) to all other diluted juice beverages. These two regulations were developed to provide consumers with information as to the various amounts of juice in the diluted juice beverages offered for sale. The regulation regarding percentage juice declaration for diluted orange juice beverages had been in effect for several years and functioning well before the regulation addressing all other diluted juice beverages was published. With publication of 21 CFR 102.33, a controversy developed over the applicability of the regulation to diluted cranberry juice beverages. The controversy centered around the fact that cranberry juice is a high acid juice and is not normally consumed as a single strength juice. Due to this unresolved controversy, 21 CFR 102.33 has not been made effective. The Agency proposed to exempt diluted cranberry juice beverages from the (cont)

Abstract: The Indian Self-Determination Act, Public Law 93-638 Regulations published November 1975 need to be revised and updated in light of 10 years of experience. Some provisions are now obsolete and others may impose unnecessary burden, restrictions, and require clarification. The proposed revision in effect would streamline the contract process, delete obsolete provisions, reduce unnecessary paperwork, strengthen accountability requirements and provide opportunities to strengthen autonomy and provide greater flexibility to Public Law 93-638 contractors.

Abstract: This is a revision to implement a policy to charge interest and penalties on delinquent debts. This is in compliance with Department of the Treasury's guidelines pertaining to debt collection activities and the joint regulations issued on April 17, 1981, by the Attorney General and the Comptroller General and is consistent

with the Debt Collection Act of 1982 (P.L. 97-365). This will require a change to the Department's Indian Health Service (IHS) P.L. 93-638 regulations to include a new contract/grant clause.

Legal Authority: 42 USC 216; 42 USC 297-1

CFR Citation: 42 CFR 57, Subpart F (Proposed)

Legal Deadline: None.

Abstract: These rules implement section 831 of the Public Health Service Act to make grants to public or private nonprofit institutions to cover the costs of traineeships for the training, in programs which meet such requirements as the Secretary shall by regulation prescribe and which are accredited by an entity or entities designated by the Secretary of Education, of licensed registered nurses to be nurse anesthetists. The President's FY 1988 budget requested no funding for this program.

Significance: Regulatory Program

Legal Authority: 42 USC 216; 42 USC 300r; 42 USC 300s; 42 USC 300s-6

CFR Citation: 42 CFR 124, Subpart F

Legal Deadline: None.

Abstract: As a condition of receiving construction assistance under Titles VI and XVI of the PHS Act, health care facilities are required to give assurance that they will make available in the facility constructed or modernized with that assistance, a reasonable volume of services to persons unable to pay. The existing regulations at 42 CFR Part 124, Subpart F establish detailed procedural requirements that facilities must follow in order to fulfill their obligations as recipients of this assistance. The proposed final regulations will retain the basic policies of the current rules but will provide increased flexibility to obligated facilities and reduce the administrative burden while protecting the interests of intended beneficiaries.

Significance: Regulatory Program

Legal Authority: 25 USC 13 (Snyder Act); 42 USC 2001 to 2004 (Transfer Act)

CFR Citation: 42 CFR 36, Subparts A, B & C

Legal Deadline: None.

Abstract: The Indian Health Service (IHS) and the Health Resources and Services Administration (HRSA) have been reviewing potential approaches for strengthening the management and allocation of IHS resources to most effectively serve program beneficiaries. The eligibility criteria for IHS program beneficiaries represent a primary focus of the review, particularly in view of recent trends among service recipients. For example, more people with a claim of Indian descent are using IHS services than ever before even though alternative medical care is available. This situation has arisen from greater awareness of possible eligibility, the availability of improved care, greater acceptance of the program by Indian people, and increased costs of medical care outside of IHS. The various special programs established by Congress to provide health services to the Indian people are a direct outgrowth of treaties and the resulting Federal trust relationship. Thus, any changes in these programs require Federal regulatory action. The NPRM will address such matters as tribal affiliation, residency requirements, and blood quantum.

Abstract: A notice of proposed rulemaking (NPRM) was published on December 19, 1980 to revise the existing regulations to incorporate provisions of Pub. L. 95-626. Because of administrative changes and new policy directions, including the passage of the Primary Care Block Grant (PCBG) authority, finalization of the NPRM was delayed to determine if it was needed. The Community Health Center regulation is being revised for publication in final, to incorporate P. L. 95-626 changes, other relevant policy

changes and to simplify the existing regulation. On April 24, 1986, P.L. 99-280 repealed the PCBC authority.

Legal Authority: 42 USC 241; 42 USC 289b

CFR Citation: 42 CFR 50

Abstract: Recipients of Public Health Service research and research training funds do not presently have sufficient guidance regarding their responsibility to investigate and report possible misconduct in PHS-funded research or research training. While many institutions have voluntarily established procedures for dealing with misconduct in science, they are not required to do so and in many recent instances the lack of defined procedures has delayed or compromised awardees' investigations. Institutional policies regarding reports to funding agencies vary considerably. The proposed regulation will define the point at which funding agencies are notified and will require awardees to develop procedures for dealing with misconduct in science. Section 493 of the PHS Act requires that the HHS Secretary issue regulations.

Legal Authority: 42 USC 216; 42 USC 286; 42 USC 286b-2; 42 USC 286b-3; 42 USC 286b-5; 42 USC 286b-6; 42 USC 284

CFR Citation: 42 CFR 4; 42 CFR 59a; 42 CFR 63; 42 CFR 64

Legal Deadline: None.

Abstract: All of the regulations are being substantially clarified and reduced in size by eliminating out of date or otherwise available information. The regulations at 42 CFR Part 4 pertain to the access of facilities and library collections. Those at 42 CFR Part 59a deal with NLM extramural programs. Part 59a is being amended to remove the requirement that photocopies of biomedical material be provided without charge to users. The regulations at 42 CFR Part 63 deal with both NIH and NLM traineeships. Part 63 is proposed to be revised to reflect authority in section 405, PHS Act. The regulations at 42 CFR Part 64 govern the training grants of NIH and NLM.

739. ● REVISIONS TO MEDICARE APPEALS RIGHTS

Legal Authority: 42 USC 1395ff

CFR Citation: 42 CFR 405.701; 42 CFR 405.801

Legal Deadline: None.

Abstract: The proposed rule would revise current Medicare regulations to provide that beneficiaries may obtain an administrative law judge hearing under Part B of the Medicare program if the amount in controversy is $500 or more and judicial review if the amount in controversy is $1,000 or more. In determining the amount in controversy the regulations would allow two or more claims to be aggregated if the claims involved the delivery of similar or related services to the same individual or involve common issues of law and fact arising from services furnished to two or more individuals. This rule also would allow provider representation of beneficiaries during appeals and appeal of technical denials. These revisions reflect provisions of the Section 9341 of the Omnibus Budget Reconciliation Act of 1986.

Abstract: This regulation would implement changes with respect to Medicaid eligibility groups and coverage criteria made by the Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA). Most of these changes affect the provisions of September 30, 1981 regulations concerning Medicaid eligibility for the medically needy, published as a result of the Omnibus Budget Reconciliation Act of 1981. The regulations would also respond to public comments received on the September 30 regulations and make some administrative changes to clarify policy and enhance the efficient operation of the Medicaid program (for example, clarification of policy on establishing the medically needy income level for one person).

Abstract: These regulations would implement provisions of section 948 of P.L. 96-499 and section 2307 of P.L. 98-369. This legislation deals with certain problems that have arisen in the Medicare program with respect to payment for physicians in the teaching setting. Specifically addressed by Congress is the problem of distinguishing between the services a physician furnishes to individual patients as a teaching provider and services furnished to the provider, as well as the method of reimbursement for these services. This proposed rule sets forth the conditions under which physicians in teaching settings would be reimbursed on a reasonable cost basis or, alternatively, on a reasonable charge basis. It also describes the methods used to determine the customary charges for the services of those physicians. This rule would also clarify related issues of physician reimbursement.

Abstract: Currently, hospital-based and independent laboratories are subject to varying State Licensure requirements and to Medicare regulations that vary from requirements of private accreditation entities and from regulations governing laboratories performing tests under interstate commerce. The result is that many laboratories may be required to submit to surveys by more than one authority and be adjudged in compliance with different standards. Inconsistent standards create confusion regarding necessary credentials and performance levels. This proposed rule would identify common standards and propose other revisions to rules aimed at reducing direct and indirect costs of clinical laboratories and at increasing quality of output.

758. ASSIGNMENT AND REASSIGNMENT OF PROVIDER-BASED HOME HEALTH AGENCIES AND HOSPICES TO DESIGNATED REGIONAL INTERMEDIARIES

Significance: Regulatory Program

Legal Authority: 42 USC 1395h(e)

CFR Citation: 42 CFR 421.3; 42 CFR 421.117; 42 CFR 421.128

Legal Deadline: None.

Abstract: This regulation requires all home health agencies and hospices to be served by designated regional intermediaries, instead of permitting provider-based HHAs and hospices to use the intermediaries their parent providers use. This reduces the number of intermediaries serving the HHAs and hospices, thus resulting in more consistent payment determinations and more effective and efficient administration.

Abstract: These proposed regulations would make explicit in the regulations HCFA's policy on the relationship between State Medicaid eligibility determinations based on disability and disability determinations by SSA under the Supplemental Security Income Program. The regulations would incorporate the conditions under which the State agency must make independent determinations of disability and the effect of only SSA determination on Medicaid eligibility. The proposed regulations would also conform the Medicaid provisions on composition of medical review teams, required information, and the time limit for making determinations more closely to those used by SSA in making SSI determinations. Because of numerous questions raised and litigation, it is necessary to clarify our policy on the controlling nature of SSI disability determinations on Medicaid eligibility.

Abstract: This proposed rule would implement sections 9121 and 9122 of Pub. L. 99-272. Specifically, under section 9121, Medicare participating hospitals with emergency departments would be required to provide upon request medical examinations and treatments for individuals with emergency medical conditions and women in active labor. Hospitals failing to meet those requirements may have their Medicare provider agreements suspended or terminated. In addition, the hospital and the responsible physician may each be subject to a civil money penalty for each such violation. Under section 9122, Medicare participating hospitals would be required to accept CHAMPUS and CHAMPVA payment as payment in full for services provided to CHAMPUS and CHAMPVA beneficiaries.

Legal Authority: 42 USC 1395bb

CFR Citation: 42 CFR 482.27; 42 CFR 405.1310ff

Legal Deadline: None.

Abstract: This notice proposes that the Health Care Financing Administration recognize the accreditation program of the College of American Pathologists for clinical laboratories participating in the Medicare program. As a result of HCFA's recognition, these laboratories would not ordinarily be subject to an inspection by State survey agencies to determine their compliance with Federal requirements. They would be "deemed" to meet the Medicare Conditions of Participation for Hospital-Based Laboratories (42 CFR 482.27) or independent laboratories (42 CFR 405.1310ff).

Legal Authority: 42 USC 1320c-13

CFR Citation: 42 CFR 466.110

Legal Deadline: None.

Abstract: This proposed rule would implement section 9401 of Pub.L. 97-272, which provides that, under Medicare, a physician must request from the Professional Review Organization (PRO) preadmission review for certain inpatient elective surgical procedures and preprocedure review for certain outpatient elective procedures. Under section 9401, if the PRO determines that the procedure is not appropriate and medically necessary, the PRO will deny payment under Medicare. If the PRO cannot determine whether a surgical procedure is medically necessary and appropriate, the beneficiary may obtain an opinion from a second physician, or where the opinion of the second physician differs from the first physician, an opinion from a third physician.

Abstract: This rule proposes changes to the Medicare regulations to provide for the following: (1) elimination of the requirement that investment income of both nonprofit and proprietary hospitals from gifts, grants, and endowments be held separately and that if not held separately, it be offset against allowable interest expenses; (2) extension of the list of exceptions to the interest expense reduction provision; and (3) elimination of the requirement that prior to suspension of payment, carriers or intermediaries make determinations that suspension of payments to providers is needed to protect the program against financial loss. Legal Deadline: None.

Abstract: These conditions would replace the existing separate conditions for SNFs participating in the Medicare program, and SNFs and ICFs participating in the Medicaid program. Although some essential distinctions imposed by the statute remain, these new conditions reflect common needs in SNFs and ICFs. The purpose of these revisions is to focus on actual facility performance in meeting residents' needs in a safe and healthful environment, rather than on the capacity of a facility to provide appropriate services. The result of this change in focus will be to enforce requirements from the perspective of quality of care and life for long term care patients, not only under Medicare and Medicaid, but generally since most of these requirements pertain to all patients of a SNF or ICF. These revisions are also expected to simplify Federal enforcement by using a single set of conditions, which apply to activities common to all facilities.

CFR Citation: Not yet determined

Legal Deadline: Statutory, October 1, 1987. The statute requires that section 1138(b) be implemented such that only certified OPAs will be eligible for Medicare or Medicaid payments for the cost of organs procured on or after October 1, 1987. This implies that a Final Rule on OPA certification must be published by October 1, 1987.

Abstract: The Omnibus Budget Reconciliation Act of 1986 (P.L. 99-509) amends Title XI of the Social Security Act by inserting a new Section 1138, "Hospital Protocols for Organ Procurement and Standards for Organ Procurement Agencies (OPAs)." Section 1138(b) specifies that an organ procurement agency may not receive Medicare or Medicaid payments unless it has been certified or recertified within the previous two years by the Secretary as conforming to the standards as described in section 371(b) of the Act. A certified OPA must be a member of and abide by the rules, medical practices and organ distribution policies of the Organ Procurement and Transplantation Network, and must meet the performance standards prescribed by the Secretary. The regulations will identify the standards and criteria to which OPAs must conform in order to be certified and the procedures to be used by the Agency in conducting certifications.

Legal Deadline: None.

Abstract: These regulations implement sections 930(n) and (p) of the Omnibus Reconciliation Act of 1980. The regulations require home health agencies participating in Medicare to meet conditions, including bonding or establishment of escrow accounts to ensure the financial security of the Medicare program. They exclude from Medicare reimbursement any costs incurred by an HHA in connection with bonding or establishing an escrow account and any interest payments made by an HHA that are charged on amounts borrowed to repay Medicare overpayments. The intent of these additional requirements is to assure the availability of funds to repay overpayments, and thereby ensure the financial security of the Medicare program.

Abstract: This regulation alleviates problems encountered by States in calculating patient income to be applied to the cost of care in institutions. It is intended to permit States greater flexibility in administering their programs (Regulatory Reform). These regulations also implement a provision of Pub. L. 99-272. This provision requires that when States elect to use a special income standard for institutionalized individuals, Medicaid eligibility must begin with the first day of a period of not less than 30 consecutive days of institutionalization.

Abstract: This regulation eliminates application of the lesser of costs or charges aggregation method for determining payment for services furnished under Part A or Part B of Medicare effective with cost reporting periods beginning on or after October 1, 1984 (section 2308(a) of Pub.L. 98-369). We also eliminate the accumulation and carryover of unreimbursed costs to subsequent cost reporting periods applicable with cost reporting periods beginning on or after the effective date of the final rule. It revises the nominal charge provisions for providers that furnish services either free of charge or at a nominal charge in accordance with section 2308(b) of Pub.L. 98-369. It also revises the payment provisions for durable medical equipment furnished by home health agencies effective on or after July 18, 1984.

Abstract: This regulation would revise the rules used to compute Medicare payment to certain providers of covered health care services as follows: (1) the allowance for a return on equity capital, which currently applies to all proprietary health care providers, will apply only to proprietary hospitals and skilled nursing facilities. Further, the allowance is reduced for skilled nursing

facilities and outpatient hospital services, is being phased out for inpatient hospital services, and is eliminated for all other providers and services; and (2) the exception to the home health agency cost limits for new agencies is eliminated. The rules pertaining to a return on equity implement the provisions enacted in section 9107 of Pub.L. 99-272.

Abstract: This final rule clarifies Medicare's policy on adjusting the hospital-specific portion of the prospective payment rate for inpatient hospital services as the result of adjustments to a hospital's target amount for events occurring in the year following its base year. It clarifies that exemptions, exceptions, or adjustments granted under section 1886(b)(4) of the Act or 42 CFR 413.30 or 413.40(e)-(h) for periods subsequent to the base year have no effect on the hospital-specific portion of the prospective payment rates. It would also clarify the PPS regulations explaining the administrative and judicial review of payment amounts. In particular, this rule clarifies the effect of successful appeals of base year costs on the hospital-specific portion of the prospective payment rate.

Abstract: This rule revises the format and content of the standards for intermediate care facilities for the mentally retarded and persons with related conditions (ICFs/MR). The new format will be that of "conditions of participation" and will make the regulations for ICFs/MR consistent with the organization of the Medicare and Medicaid regulations for skilled nursing facilities. Revisions to the content of the regulations are intended to shift the focus away from facility-oriented requirements to client-oriented requirements. Thus, the rule is designed to increase the focus on the provision of active treatment services for clients, clarify Federal requirements, and maintain essential client protection.

826. APPLICATION FEES FOR HEALTH MAINTENANCE ORGANIZATIONS (HMOS)

Significance: Regulatory Program

Legal Authority: 31 USC 9701

CFR Citation: 42 CFR 110.604, (revised); 42 CFR 110.101; 42 CFR 417.406; 42 CFR 417.407; 42 CFR 417.494; 42 CFR 434.2

Legal Deadline: None.

Abstract: The proposed regulation provided for charging an application fee for each of the following: (1) an entity that seeks qualification as a Federal Health Maintenance Organization or certification as a Competitive Medical Plan; (2) a Federal Health Maintenance Organization that seeks expansion of its service area or qualification of a regional component; (3) a Competitive Medical Plan that seeks expansion of its geographic area. These fees would help offset the costs to the Federal Government incurred in these determinations. After considering public comments, a final rule will be developed and published.

Legal Deadline: None.

Abstract: These final regulations provide States additional options under which an ICF/MR found to have substantial deficiencies that do not pose an immediate threat to the clients' health and safety may remedy those deficiencies. The regulations provide the State Medicaid agency with options to submit written plans either to correct the necessary staff and physical plant deficiencies, and all other deficiencies, within 6 months of the approval date of the plan, or to reduce permanently the number of beds in certified units within 36 months of the approval date of the plan. These regulations are necessary to implement section 9516 of P.L. 99-272.

Significance: Regulatory Program

Legal Authority: 42 USC 1395x(v)(1); 42 USC 1395yy

CFR Citation: 42 CFR 413.30

Legal Deadline: None.

Abstract: This notice would set forth a revised schedule of limits on skilled nursing facility inpatient routine service costs that are reimbursed under Medicare. This schedule would apply to cost reporting periods beginning on or after October 1, 1987. The proposed limits retain the same methodology and essentially the same provisions as in the current limits; however, the most recent SNF cost data will be used for calculating the limits, as well as the most recent projections of the rates of increases in the costs included in the SNF market basket.

CFR Citation: 42 CFR 405.332; 42 CFR 405.334; 42 CFR 405.336

Legal Deadline: None.

Abstract: The purpose of this notice is to inform the public that P.L. 99-272 provides for the use of an administrative mechanism, commonly known as the favorable presumption, for skilled nursing facilities and home health agencies during a limited period of time. This means that the decision to make or deny payment for some noncovered services will be made with the use of a presumption as to whether the skilled nursing facility or home health agency did not know or could not be expected to know that furnished services were noncovered. In addition, this notice should inform the public that PL 99-509 extends both the limitation of liability provision and the use of the favorable presumption to: (1) hospices and (2) services furnished by home health agencies that are not covered because the individual was not confined to his or her home or did not need skilled nursing care on an intermittent basis.

Legal Authority: 42 USC 1396b(d)

CFR Citation: 42 CFR 433.32 to 35; 42 CFR 433.112; 42 CFR 433.116; 42 CFR 433.300 to 322

Abstract: These regulations specify the requirements and procedures under which States are allowed 60 days following the date of discovery of an overpayment to a Medicaid provider to recover or attempt to recover the overpayment before the Federal share must be credited to HCFA. The Federal Government will share in any overpayments that the State documents it is unable to recover because the debts of the provider have been discharged in bankruptcy or the provider is out-of-business. The regulations, which implement section 9512 of the Consolidated Omnibus Budget Reconciliation Act of 1986, are intended to aid in recovering improperly spent Federal funds expeditiously.

Legal Authority: 42 USC 1395g

CFR Citation: 42 CFR 413.60

Legal Deadline: Statutory, July 1, 1987.

Abstract: These regulations would implement provisions of section 9311 of PL. 99-509, which deals with payment of periodic interim payments (PIPs) to providers. This legislation eliminates PIP for prospective payment hospitals except for certain hospitals that serve a disproportionate share of low-income patients and hospitals with 100 or fewer beds that are located in a rural area. Hospitals that are excluded from the prospective payment system, hospitals receiving payment under a State reimbursement control system that incorporates payment on a PIP-basis and all other providers may continue to elect PIP payments. In addition, the legislation provides that a prospective payment hospital may continue to receive PIP payments until its fiscal intermediary demonstrates that it has complied with prompt payment requirements for at least three consecutive months. If at any time the intermediary fails to meet these requirements for three consecutive months, the hospital may again request PIP.

Legal Authority: 42 USC 1395ww(d)(5)(F)

CFR Citation: 42 CFR 412.63; 42 CFR 412.106; 42 CFR 412.118

Abstract: We would amend the Medicare regulations concerning prospective payments for large rural hospitals that serve a disproportionate share of low-income patients. The payment adjustment factor for a hospital that meets the criteria as a rural disproportionate share hospital of 500 beds or more would be calculated as the lesser of 15 percent or 2.5 percent plus one-half the difference between the hospital's disproportionate patient percentage and 15 percent.

Significance: Agency Priority

Legal Authority: 42 USC 1102; 42 USC 606

CFR Citation: 45 CFR 233.20(a)(2); 45 CFR 233.20(a)(2)(V); 45 CFR 233.120(b)(3)

Legal Deadline: None.

Abstract: This proposed rule would clarify certain provisions in the Aid to Families with Dependent Children program under title IV-A of the Social Security Act. This clarification is being issued in order to prevent Federal funds from being used to provide a separate standard of need based on the type of housing in which an AFDC family resides and to prevent Emergency Assistance funds from being used to meet ongoing needs.

865. ● CASH ASSISTANCE, MEDICAL ASSISTANCE, AND STATE ADMINISTRATIVE COSTS FOR ASSISTANCE PROVIDED TO REFUGEES

Significance: Agency Priority

Legal Authority: 8 USC 1522(a)(9)

CFR Citation: 45 CFR 400

Legal Deadline: None.

Abstract: This NPRM will provide special programs of refugee cash assistance (RCA) and refugee medical assistance (RMA) for the 12-month period beginning with the first month a refugee entered the United States. The regulation will define the reasonable State administrative cost of providing cash and medical assistance to refugees as the lowest of: (a) The State's administrative cost (expressed as a percent of total assistance cost) under its program of aid to families with dependent children (AFDC); or (b) the national mean average percentage cost under the AFDC program; or (c) the actual identifiable administrative cost of providing assistance to refugees.

Abstract: This NPRM rule, which implements section 20 of the Child Support Enforcement Amendments of 1984 (Pub. L. 98-378) specifies that in any case where the collection or increased collection of support under title IV-D of the Social Security Act contributes wholly or partly to a family's ineligibility for AFDC, the family is deemed, but only for the purpose of Medicaid eligibility, to be receiving AFDC for a period of four calendar months after the last month of AFDC eligibility. This applies only to families who receive AFDC in three of the six months immediately preceding the month of ineligibility. "Received" includes those individuals denied an AFDC payment solely because the payment amount is under $10, the recoupment of an overpayment, or because the payment is determined to be zero as a result of rounding. The estimated costs are: FY 1985--$30 million, FY 1986--$45 million, FY 1987--$50 million, and FY 1988--$55 million.

Semiannual Regulatory Agenda

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT (HUD)

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

24 CFR Subtitles A and B

[Docket No. N-87-1680]

Semiannual Agenda of Regulations

AGENCY: Department of Housing and Urban Development.

ACTION: Semiannual agenda, under Executive Order 12291 and the Regulatory Flexibility Act, of regulations expected to be issued and under review.

SUMMARY: In accordance with section 5 of Executive Order 12291, "Federal Regulation," the Department is publishing its agenda of proposed regulations already issued or expected to be issued, and of currently effective rules that are under review. Also, under section 602 of the Regulatory Flexibility Act, the Department has prepared a regulatory flexibility agenda of regulations expected to be proposed or promulgated which are likely to have a significant economic impact on a substantial number of small entities. As permitted by Executive Order 12291 and the Regulatory Flexibility Act, the two agendas are combined for publication.

FOR FURTHER INFORMATION CONTACT: Grady J. Norris, Assistant General Counsel for Regulations, Department of Housing and Urban Development, Room 10276, 451 Seventh Street, SW., Washington, DC 20410, (202) 755-7055. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: Executive Order 12291, "Federal Regulation," issued on February 17, 1981 (46 FR 13193), requires each agency to publish semiannually an agenda of regulations that the agency has issued or expects to issue and of currently effective regulations that are under agency review.

The Regulatory Flexibility Act, 5 U.S.C. 601-612, requires each agency to publish semiannually a regulatory flexibility agenda of rules expected to be proposed or promulgated which are likely to have a significant economic impact on a substantial number of "small entities," meaning small businesses, small organizations, or small governmental jurisdictions.

Executive Order 12291 and section 605 of the Regulatory Flexibility Act each permit incorporation of the agenda it requires with any other prescribed agenda. Accordingly, the agenda set out below combines the information required by the Executive Order and by the Regulatory Flexibility Act. In addition, the agenda contains certain information not required by either the Executive Order or by the Act which the Department considers useful, both better to inform the public and to enhance the Department's own inventory control over its body of regulations.

For purposes of Executive Order 12291, "regulation" or "rule" is defined as "an agency statement of general applicability and future effect designed to implement, interpret, or prescribe law or policy or describing the procedure or practice requirements of an agency," subject to certain exceptions. The agenda published below concentrates upon regulatory material contained, or expected to be contained, in the Code of Federal Regulations (CFR) (or incorporated therein by reference) following publication in the **Federal Register**. As appropriate, however, issuances in the nature of general statements of policy may be published in the **Federal Register** but not for codification in the CFR.

The Department also is subject to certain requirements involving congressional review of rulemaking actions, including publication of an agenda. Section 7(o) of the Department of Housing and Urban Development Act (42 U.S.C. 3535(o)) requires that the Secretary transmit to the congressional committees having jurisdictional oversight (the Senate Committee on Banking, Housing and Urban Affairs and the House Committee on Banking, Finance and Urban Affairs) a semiannual agenda of all rules or regulations which are under development or review by the Department. A rule appearing on the agenda cannot be published for comment before or during the first 15 calendar days of continuous session of Congress after transmittal of the agenda. If, within such period, either Committee notifies the Secretary that it intends to review any rule or regulation or portion thereof which appears on the agenda, the Secretary must submit to both Committees a copy of the rule or regulation, in the form it is intended to be proposed, at least 15 calendar days of continuous session before it is published for comment. The Semiannual Agenda appearing hereinafter is the agenda transmitted to the Committees in compliance with the foregoing requirement.

The agenda items are divided first by program office. Within each program office, the agenda items are divided into four groups: (i) Prerulemaking actions, (ii) publications or other implementations of notices of proposed rulemaking, (iii) publications or other implementations of final rules, and (iv) completed actions. Within each grouping, rules are listed in chronological order by the Part number of the CFR affected. Where a rule affects multiple parts of the CFR, the rule is listed by the first affected Part number. Priority rules include all regulations designated for priority development by the Department.

Items listed in this agenda are from the following Offices within the Department: Office of the Secretary; Office of Housing; Office of Public and Indian Housing; Office of Community Planning and Development; Office of Fair Housing and Equal Opportunity; Office of Administration; and Government National Mortgage Association.

DATED: February 25, 1987.

Carolyn B. Lieberman,

Deputy General Counsel (Operations).

Significance: Regulatory Program

Legal Authority: 42 USC 3535(d)

CFR Citation: 24 CFR 10; 24 CFR 15; 24 CFR 1720

Legal Deadline: None.

Abstract: The Department is reviewing its procedural rules to determine to what extent they need to be updated. This includes the rules the Department uses in developing new rules or amending existing regulations, and the procedures the public may use in commenting on a rulemaking or must use to obtain information from HUD under the Freedom of Information Act as well as procedures applicable to the Interstate Land Sales Registration Program. It is the Department's intention to streamline procedures, to make procedures more uniform, to clarify procedures for public petition for rulemaking, and to be more explicit about the kinds of rulemaking that will be subject to public participation and the circumstances under which rules may receive expedited treatment.

879. PROTECTION OF HUMAN SUBJECTS IN RESEARCH (S-6-83; FR-1807)

Legal Authority: 42 USC 3535(d)

CFR Citation: 24 CFR 46

Legal Deadline: None.

Abstract: In response to a Presidential Commission, an Interagency Task Force on the Protection of Human Subjects in Research has proposed that all Federal agencies adopt a common policy and uniform regulations for the protection of human subjects in research.

HUD has agreed to adopt the policy and to issue a regulation based on a model to be promulgated by the Office of Science and Technology Policy.

Timetable:

Action	Date	FR Cite
Next Action Undetermined		

Small Entity: No

Additional Information: Compliance costs for HUD's adoption of the model regulation will be minimal, because almost all research conducted by HUD falls within categories exempted from the requirements of the model regulation. The infrequent projects that may not be exempt (perhaps one every two years) have in the past been proposed by organizations already subject to the Department of Health and Human Services regulation, and thus would not have any incremental compliance costs for the organization, other than the actual project requirements.

Costs would be slight.

Affected Sectors: Profit and Non-profit Research Organizations.

Levels of Government Affected: only HUD itself.

The Executive Order will be published for public comment and then promulgated with changes, if any, resulting from public comment.

880. PROCEDURE FOR FLOODPLAIN MANAGEMENT AND THE PROTECTION OF WETLANDS. IMPLEMENTATION OF EXECUTIVE ORDERS 11988 AND 11990 (S-7-84; FR-865)

Legal Authority: EO 11988; EO 11900; 42 USC 3535(d)

CFR Citation: 24 CFR 50; 24 CFR 55; 24 CFR 58; 24 CFR 200

Legal Deadline: None.

Abstract: This regulation sets forth the policy, procedure and responsibilities of the Department of Housing and Urban Development to implement and enforce Executive Order 11988, Floodplain Management, and Executive Order 11990, the Protection of Wetlands. This regulation replaces a general statement of Departmental policy (44 FR 47623; August 14, 1979) implementing these Executive Orders. In addition, this rule

would revise HUD's Minimum Property Standards for One and Two Family Dwellings to accord with Executive Order 11988.

Legal Authority: 42 USC 4321; PL 95-557

CFR Citation: 24 CFR 50

Legal Deadline: None.

Abstract: This rule proposes revisions in the regulations governing HUD's consideration of environmental factors in decision-making under HUD programs other than the Community Development Block Grant, Urban Development Action Grant, Rental Rehabilitation, and Housing Development Grant Programs. The rule is intended to reduce regulatory burdens and procedural details based on experience under the existing regulations; reflect field office reorganization; and implement sec. 535 of the Housing Act of 1949, as amended.

Legal Deadline: None.

Abstract: This rule would implement HUD's responsibilities under the Flood Disaster Protection Act of 1973. It would add a new Part 56 to specify HUD's responsibilities to require that flood insurance be obtained for eligible properties. This part would then be cross-referenced in the rules governing programs involving mortgage insurance, loans and grants.

Abstract: 24 CFR Part 15 contains HUD's rules for the disclosure of information and production of any material in its possession or acquired by an employee or former employee as a part of the performance of his official duties or because of his official status. The current rule prohibits such disclosure or production, "in response to a demand of a court or other authority," without the prior approval of the Secretary. 24 CFR 15.72. Filling a gap in the current rule, this final rule describes the situations in which the Secretary will permit the testimony of current and former HUD employees in judicial, quasi-judicial, and legislative proceedings concerning information acquired as part of the performance of their official duties or because of their official status. In addition, the rule prohibits, subject to waiver by the Secretary, any employee or former employee from being called as an expert or opinion witness, by any party other than the United States, as to matters related to his duties or the functions of the Department, including the meaning of departmental documents.

Abstract: Section 214 of the Housing and Community Development Act of 1980, as amended by section 329 of the Housing and Community Development Amendments of 1981 and by the Immigration Reform and Control Act of 1986, prohibits the Secretary from making financial assistance available under certain HUD programs for the benefit of any alien who is not a lawful resident of the United States under the Immigration and Nationality Act. The programs affected are public and Indian housing, the Section 8 Housing Assistance Payments programs, the Housing Voucher program, the Rent Supplement program, the section 235 assisted homeownership program, and the section 236 rental housing program.

These laws require that an applicant or participant in the programs declare whether he or she is a citizen or alien and if an alien must submit documents to show eligible status. Alien status will be verified with the Immigration and Naturalization Service.

Additional Information: This rule was removed from the agenda when the final rule was published in April of 1986. It was first expected to be made effective in July, and then in September. Now that there is a new law to be implemented, the Immigration Reform and Control Act of 1986, and the Department has been prohibited from spending appropriated funds to enforce the April 1986 rule in fiscal year 1987, it is clear that (1) the rule will be revised before taking effect; and (2) the effective date will not be announced until after October 1, 1987.

Legal Authority: 12 USC 1709

CFR Citation: 24 CFR 203

Legal Deadline: None.

Abstract: 24 CFR 203.366 requires mortgagees to convey good marketable title, accompanied by title evidence satisfactory to the Commissioner. Despite this regulation and the fact that mortgagees are partially reimbursed for the costs, estimates indicate that at least six percent of all pieces of title evidence to HUD will require some form of corrective action. In many instances, this causes delays in marketing a property or closing a sale and results in additional expenses to HUD. With field staffs having the responsibility to review and approve all title evidence, arranging for correction to title problems creates additional burdens in view of increasing inventories and other priorities.

HUD believes that these problems will persist unless some form of punitive action is taken against mortgagees who fail to provide good marketable title.

Significance: Regulatory Program

Legal Authority: 42 USC 5401

CFR Citation: 24 CFR 3280

Legal Deadline: None.

Abstract: In the Notice, HUD requests a private organization to develop and maintain the Federal Manufactured Home Construction and Safety Standards (FMHCSS) (24 CFR Part 3280). HUD published a Notice in the Federal Register of July 7, 1982 (47 FR 29605) that announced HUD's interest in having a nationally recognized building code or standards which could replace, by reference, all of the HUD standards now in the FMHCSS. HUD would retain the responsibility and authority to promulgate and enforce revisions to the FMHCSS, after formal notice and comment rulemaking. Model standards incorporated by reference in the FMHCSS would then become preemptive and be enforced as HUD standards.

Legal Authority: 12 USC 1701 to 1715a-18

CFR Citation: 24 CFR 200

Legal Deadline: None.

Abstract: This proposed rule would amend the regulation relating to the applicability of the chemical and bacteriological standards of local health authorities to HUD-insured one- and two-family dwellings. This proposal provides that in the absence of local standards, those of the appropriate State agency would apply. This revision would simplify the requirements for water supply systems while furthering the Department's policy of relying on acceptable State and local building codes.

913. ● REV. OF UMB 44D TO ALLOW THE USE OF CARPET IN BATHROOMS & KITCHENS OVER A CONCRETE-MASONERY FLOORING SYSTEM AND A NEW CLASSIFICATION SYSTEM FOR CARPET (H-20-87)

Legal Authority: Technical Suitability of Products Program of the Nat'l Hsg Act

CFR Citation: 24 CFR 200.935

Legal Deadline: None.

Abstract: A revised standard for carpet was issued on June 23, 1986 as Use of Materials Bulletin No. 44d to recognize the use of wall-to- wall carpet as a technically suitable material for finished flooring. The value of carpet is included in HUD mortgage insurance programs. A typical life for carpet of 8 years was used to compare the replacement cost of carpet versus other materials used as flooring such as ceramic tile, or vinyl tile or sheet flooring. Any reduction in the life expectancy that would increase the replacement cost of carpet also would not be a reasonable economic justification for including the cost of carpet under HUD's mortgage insurance program. The American Textile Manufacturers Institute has recommended the use of carpet in bathrooms and kitchens provided that they are composed of nylon of textures A,B, or C Type I Class 2 or polypropylene of textures A or B Type I Class 2, and is maintained properly. 915. FILING PERIOD FOR RESUBMISSION OF DENIED CLAIMS (H-43-86)

Significance: Agency Priority

Legal Authority: 12 USC 1703

CFR Citation: 24 CFR 201.54

Legal Deadline: None.

Abstract: It is the responsibility of lending institutions to submit complete and accurate loan files so that the Department can process the Title I Application for Loss in a timely manner and proceed with debt collection efforts. Inordinate delays of more than a year can often occur between the time a claim is returned to the lender because of regulatory violations or incomplete submissions and the lender's making an appeal of the denial. At present, there is no control on the refiling period.

If the appeal is approved for payment, debt collection efforts can be impaired by the often lengthy time between default on the loan and the initiation of collection efforts by the Department. Also, much staff time is spent in reviewing resubmitted claims which are being irresponsibly and repeatedly returned by lending institutions. This rule would control the time period during which appeals could be filed, the number of resubmitted claims, and the quality of the submissions. (CONT'D)

921. ELIMINATION OF CLOSING COSTS AS AN ITEM ELIGIBLE FOR INCLUSION AS PART OF AN FHA INSURED SINGLE FAMILY MORTGAGE (H-10-86; FR-2203)

Significance: Regulatory Program

Legal Authority: 12 USC 1709; 12 USC 1715y

CFR Citation: 24 CFR 203; 24 CFR 220; 24 CFR 221; 24 CFR 234

Abstract: Current HUD policy is to allow a percentage of closing costs associated with the financing of single family homes to be included as part of the insurable mortgage amount. This results from the HUD treating closing costs as part of the appraised value or cost of acquisition of a single family property. It is proposed that HUD regulations be revised so that "appraised value" is defined in a manner that would prohibit the inclusion of closing-related costs.

Abstract: This proposed rule would authorize the Secretary of HUD to waive any amounts of $50 or less determined to be due either the mortgagee or HUD in connection with a single family insurance claim. Abstract: This proposed rule would revise the existing administrative criteria for acceptability of insured 10-year protection Plans (Plans). The Department began this proceeding by publishing a Notice informing the public that HUD intended to revise the criteria. This rule describes, among other things, criteria related to Plan acceptability, insurance and financial backing, Plan coverage, and methods for determining Plan obligations.

HUD acceptance of these Plans is a prerequisite to reduced inspection requirements on a property accepted for mortgage insurance before the commencement of construction. It is also a prerequisite to high loan-to-value insured financing for existing one-to-four family dwellings that are less than one year old and that were not approved and inspected by HUD or the Veterans Administration before the start of construction.

Such an MIP calculation would assume that FHA were required to maintain, sufficient reserves to withstand Moody's 10-year depression stress test, earn a market return on an imputed tax rate on its "earnings", etc. Pending approval of a legislative amendment removing the present cap on FHA premiums, this regulation will be deferred.

Legal Authority: 42 USC 1439

CFR Citation: 24 CFR 791

Legal Deadline: None.

Abstract: The rule revises HUD's regulations for the allocation of housing assistance funds to conform with statutory changes made by the Housing and Urban-Rural Recovery Act of 1983. It contains an explicit description of the allocation formula, including some modifications to the factors making up the formula; deletes specific requirements on allocating funds in accordance with approved Housing Assistance Plans; and eliminates the requirements for local consultation in the allocation process. Part 791 would also be amended to consolidate local government submission requirements and HUD criteria for review of applications for housing.

Legal Authority: 42 USC 3535(d)

CFR Citation: 24 CFR 882; 24 CFR 887

Legal Deadline: None.

Abstract: Under the Section 8 housing program, housing assistance payments are made to owners on behalf of eligible families. Generally, the Department administers this program through public housing agencies (PHAs). In exchange for providing the administrative support for the program, PHAs receive an administrative fee. This rule will revise two aspects of the administrative fee element of the program. First, the Department proposes to revise the base Fair Market Rent used to compute the Administrative Fee and second, the Department proposes to make the amount uniform for the Section 8 Certificate and Housing Voucher programs. This rule will also implement the revisions previously listed in RIN: 2502-AD40; FR2212, namely, commenters on proposed Fair Market Rents (FMRs) would have to submit data showing that the current or proposed FMRs are not adequate for the area. Portions of this rule will require intervening legislation before promulgation.

Legal Authority: 42 USC 1437

CFR Citation: 24 CFR 882; 24 CFR 888

Legal Deadline: None.

Abstract: This rule would effect miscellaneous changes in the Section 8 Existing Housing Program aimed at promoting efficiency and uniformity in the several subprograms under Section 8. This proposal will make changes in the procedures associated with Annual Adjustments to rent, to facilitate downward adjustments in the annual adjustment factors where relevant indices of costs and prices call for such adjustments. The rule would also adjust administrative fees payable to PHAs under the Certificate program to make them conform to the manner in which fees are determined in the Housing Voucher program. The rule will also address uniformity issues between Certificates and Vouchers in the areas of Vacancy Payments, and would tighten existing standards for approving exceptions rents.

Legal Authority: 42 USC 5401

CFR Citation: 24 CFR 3280.504

Legal Deadline: None.

Abstract: This interpretative bulletin will propose to interpret 24 CFR 3280.504, a provision of the Federal Manufactured Home Construction and Safety Standards, as prohibiting the use of ventilation systems using ceiling vents that discharge inside conditioned air into the attic/ceiling cavity. Section 3280.504 (a) currently requires ceilings to have a vapor barrier having a permeance not greater than 1 perm (dry cup method) installed on the lining side of the roof cavity. This proposed interpretation will clarify that ceiling-vent systems as described above violate section 3280.504(a) by intentionally allowing air migration into the ceiling cavity.

Abstract: Medium density fiberboard is not currently covered by the standards but is a major emitter of formaldehyde. It is used extensively in cabinet construction and can cause problems similar to particleboard or plywood, materials already regulated by the standards.

Second, the Department has received a number of complaints concerning the language and posting requirements of the health notice. Consideration will be given to different notice requirements if the manufactured home meets more than the minimum standard of formaldehyde levels.

Third, the current rule requires recertification of plywood and particleboard following treatment with a product containing formaldehyde.

Abstract: The rule will implement statutory amendments established by Section 461 of the Housing and Urban Rural Recovery Act of 1983 (Pub.L.98-181). The amendments address a problem identified as "controlled business" and the manner in which Section 8 of the Real Estate Settlement Procedures Act (12 USC 2607), the kickback prohibition of RESPA, is to be applied to such arrangements. No alternatives are being considered because of the statutory mandate. The potential costs cannot be accurately projected but are believed to be incidental. 966. HUD-OWNED MULTIFAMILY PROJECTS-MANAGEMENT AND DISPOSITION (H-69-78; FR-432)

Significance: Regulatory Program

Legal Authority: 12 USC 1715z-16; 12 USC 1701z-11; 12 USC 1701z-12; 12 USC 1713; 12 USC 1715b

CFR Citation: 24 CFR 290; 24 CFR 886

Legal Deadline: None.

Abstract: Would conform current regulation more closely to Section 203 of the Housing and Community Development Act of 1978, as amended; decrease reliance on project-based Section 8 subsidies as a means of maintaining availability of units for low- and moderate-income persons. (Changes included in the proposed rule that would conform the rental structure in HUD-owned properties to statutory housing programs are being implemented by separate final rule.)

967. HOUSING DEVELOPMENT GRANT PROGRAM (H-26-84; FR-1902)

Legal Authority: 42 USC 1437o

CFR Citation: 24 CFR 850

Legal Deadline: None.

Abstract: Implements the Housing Development Grant Program established by Section 301 of the Housing and Urban-Rural Recovery Act of 1983. Under this Program, the Secretary is authorized to make grants to cities and urban counties and to States acting on behalf of units of general local government to support new construction or substantial rehabilitation of residential rental housing. At least 20 percent of the units in a project assisted under this Program must be leased to, or made available for occupancy by, lower income families for a period of 20 years. The rent for these units cannot exceed 30 percent of the adjusted income of a family at 50 percent of area median income. Assisted projects must be located within eligible areas, special purpose areas or neighborhood preservation areas.

Legal Authority: 42 USC 1437f; 42 USC 3535d

CFR Citation: 24 CFR 880; 24 CFR 881

Legal Deadline: None.

Abstract: This final rule will permit eligible applicants and tenants to share housing units with other eligible applicants or tenants in Section 8 New Construction and Substantial Rehabilitation projects. A proposed rule that included these types of projects was published in 1984. A final rule was published for one of the programs covered by the proposed rule, the Section 8 Certificate program, on June 11, 1986 (51 FR 21300).

Abstract: This rule would amend the corrective and remedial actions available against grant recipients who fail to perform properly. One of the actions to be taken is to require recipients to reimburse their program account Letter of Credit in any amounts improperly expended. This amendment would allow the recipient to make such reimbursement through an in-kind contribution if sufficient cash is not available. In addition, it would allow alternative, non-cash transfer remedies to prevent a recurrence of the previous problems.

Legal Authority: PL 99-500, Sec 101(g)

CFR Citation: 24 CFR 575

Legal Deadline: Statutory, October 8, 1987. Final rule must be published within one year of date of enactment

Abstract: This rule implements the Emergency Shelter Grant Program enacted in Part C of the Homeless Housing Act of 1986. Under this program HUD initially provides grants to States, metropolitan cities and urban counties and may also provide grants to units of general local government and private nonprofit organizations. These grants are to be used to assist the homeless through (1) renovation, major rehabilitation or conversion of buildings to be used as emergency shelters; (2) provision of essential services; and (3) payment of specified cots related to operating emergency shelters.

Legal Deadline: None.

Abstract: This rule make a technical change in 24 CFR 390 to accommodate the new automated system for handling the issuance of commitments to guarantee mortgage-backed securities. The current rule requires that mortgage in a pool of mortgages backing the issuance of guaranteed securities have a date for the first scheduled monthly payment of principal and interest, or date of purchase from an Association that is no more than twelve months before the date of issuance of the GNMA commitment. This rule revises this requirement to provide that the date for the first scheduled monthly payment of principal and interest could be no more than 24 months before the issue date of the securities. Notice of effective date for the final rule will be published when automated system is operational.

1038. INCREASE IN SINGLE PERSON OCCUPANCY LIMITS (P-48-84; FR-2063)

Legal Authority: 42 USC 1437a

CFR Citation: 24 CFR 812; 24 CFR 912

Legal Deadline: None.

Abstract: Implements Section 202 of the Housing and Urban-Rural Recovery Act of 1983 to permit the Secretary to increase from 15 percent to 30 percent the number of units that may be occupied by single persons and that is within the jurisdiction of any public housing agency. In addition, this rule would revise the procedures for HUD's approval of single person occupancy for affected dwelling units.

Legal Authority: 42 USC 1437

CFR Citation: 24 CFR 941

Legal Deadline: None.

Abstract: Part 941 contains the procedures for the development of public housing. This proposed rule would amend these application procedures to reflect the requirements of Section 201(c) of the Housing and Urban-Rural Recovery Act of 1983. This section amended Section 6 of the United States Housing Act of 1937 by adding new subsections 6(h), (i) and (j).

Semiannual Agenda of Rules Scheduled for Review or Development

AGENCY: Office of the Secretary, Interior.

ACTION: Semiannual agenda of rules scheduled for review or development.

SUMMARY: This notice provides the semiannual agenda of rules scheduled for review or development between April and October 1987. An agenda is required by the Regulatory Flexibility Act and Executive Order 12291.

ADDRESS: Unless otherwise indicated, all Agency Contacts are located at the Department of the Interior, 18th and C Streets, NW., Washington, DC 20240.

FOR FURTHER INFORMATION CONTACT: All comments and inquiries with regard to these rules should be directed to the appropriate Agency Contact. General comments relating to the agenda should be directed to the Division of Directives and Regulatory Management, Office of Information Resources Management, Department of the Interior, at the address above or on 202-343-6191.

SUPPLEMENTARY INFORMATION: With this publication the Department satisfies the requirement of Executive Order 12291 that the Department publish in April and October of each year an agenda of rules that have been issued or are expected to be issued, and currently effective rules that are scheduled for review.

Simultaneously the Department meets the requirement of the Regulatory Flexibility Act (5 U.S.C. 601 et seq.) that an agenda be published in April and October of each year identifying rules which will have significant economic effects on a substantial number of small entities; those rules which will have such effects are specifically identified in the agenda.

This agenda also identifies rules determined to be "significant" under Executive Order 12498 and which are included in this Department's 1987 regulatory program. A more comprehensive discussion of this program and the rules are contained in the Regulatory Program of the United States Government, which is published by the Office of Management and Budget.

DATED: March 2, 1987.

Joseph W. Gorrell,

Principal Deputy Assistant Secretary of the Interior.

1055. NATURAL RESOURCE DAMAGE ASSESSMENT - TYPE A PROCEDURES

Significance: Regulatory Program

Legal Authority: 33 USC 9651(c)(1) Comp Envir Rspnse, Compnstn & Liabty Act 1980

CFR Citation: 43 CFR 11

Legal Deadline: Judicial, February 4, 1987. Statutory deadline 12/11/82. Judicial deadlines require NPRM by 05/05/86 and final rule by 02/04/87.

Abstract: CERCLA allows trustees of natural resources which have been damaged by a release of a hazardous substance to bring a claim against the responsible party. Section 301(c) requires the development of two sets of

regulations. The Type A regulations will be composed of simplified procedures which require minimal field investigations. Type B regulations will include alternative protocols for the testing, sampling, and valuing of natural resource damages. This submission covers the Type A procedures.

Abstract: The Indian Land Consolidation Act (Act) was enacted on January 12, 1983, and changes existing law regarding the descent of Indian trust and restricted lands. The Act provides that certain undivided fractional interests in such lands can now be acquired by the tribe instead of descending by intestacy or devise. Existing regulations governing the probate of Indian lands by Indian Probate Judges must therefore be amended to conform with the Act.

Additional Information: SMALL BUSINESSES CONT: Small entities likely to be affected by these rules include some sporting goods stores, hardware stores, motels and hotels, restaurants, clothing stores, boat and marine equipment stores, marinas, gasoline stations, private hunting clubs, land owners' leasing hunting rights, and mail order houses selling hunting equipment and supplies. Originally scheduled: April 1985. E.O. 12291: These rules are major because of the economic values associated with migratory game bird hunting; however, the need to obtain and consider the latest population data for these migratory birds requires that the regulatory schedule be shortened. The regulatory impact analysis, as required by E.O. 12291, and the small entity flexibility analysis, as required by 5 U.S.C. 601 et seq., have been combined into one analysis as provided for by both authorities. Legal Deadline: Statutory. In accordance with 16 U.S.C. 1533, the Service must take action (list, withdraw, or extend the rulemaking for six months) on a proposed listing no later than one year after such proposal.

Abstract: Regulations will be developed which would list, reclassify, or delist, as appropriate, certain species of fish, wildlife, and plants under the Endangered Species Act, and where prudent, would identify critical habitat for endangered and threatened species. Such actions are taken upon determination that species are endangered, threatened, or neither and are based solely on the biological information available to the Department.

1090. SOUTHERN SEA OTTER EXPERIMENTAL POPULATION

Legal Authority: 16 USC 1531 et seq

CFR Citation: 50 CFR 17

Legal Deadline: None.

Abstract: Regulations will be proposed to identify an experimental population for the southern sea otter (Euhydra lutris nereis) as provided by Section 19(j) of the 1982 amendments to the ESA. The experimental population designation will increase management flexibility to enhance the recovery effort for this species.

1091. ENDANGERED AND THREATENED WILDLIFE AND PLANTS

Legal Authority: 16 USC 1531 to 1543

CFR Citation: 50 CFR 17

Legal Deadline: Statutory. In accordance with 16 U.S.C. 1533, the Service must take action (list, withdraw, or extend the rulemaking for six months) on a proposed listing no later than one year after such proposal.

Abstract: Regulations will be developed which would list, reclassify, or delist, as appropriate, certain species of fish, wildlife and plants under the Endangered Species Act, and where prudent would identify critical habitat for endangered and threatened species. Such actions are taken upon determination that species are endangered, threatened, or neither and are based solely on the biological information available to the Department.

Legal Authority: 16 USC 1382(a)

CFR Citation: 50 CFR 18

Legal Deadline: None.

Abstract: The Service will propose rules that would require the marking, tagging, or otherwise identifying of raw parts of certain lawfully taken marine mammals, including those taken by Alaska Natives for purposes of subsistence or the creation and selling of authentic native articles of handicrafts and clothing. Except for scientific research purposes, the rules would also prohibit exportation of raw parts of these marine mammals from Alaska and the sale of such parts, other than those that are edible, to persons other than resident Alaska Natives. These rules are necessary for management purposes.

Legal Authority: 16 USC 668(dd) National Wildlife Refuge System Admin Act

CFR Citation: 50 CFR 29.32, (Revision)

Legal Deadline: None.

Abstract: Existing regulations will be revised to provide more comprehensive guidance on the procedures to be followed by persons conducting mineral exploration and/or development on National Wildlife Refuge System (NWRS) lands where the mineral rights are vested in other parties. Such operations were conducted on 47 NWRS units in 11 states during 1984. The purpose of the new rule will be to protect NWRS resources to the maximum extent possible without infringing upon the rights of the subsurface owners. Similar regulations of the National Park Service (36 CFR 9.30) and the Forest Service (36 CFR 251.15) will be considered in developing the NWRS regulations.

Legal Authority: 5 USC 301; 40 USC 486(c)

CFR Citation: 48 CFR 1489; 48 CFR 1452.289; 48 CFR 1453.2; 48 CFR 1453.3

Legal Deadline: None.

Abstract: The proposed regulation would establish Bureau-specific solicitation provisions, contract clauses and prescriptions for their use. These are necessary to supplement and implement the Federal Acquisition Regulation and the Department of the Interior Acquisition Regulation. This will provide standard contractual language for provisions and clauses not otherwise available in the Federal or Interior regulations that are needed by our operational contracting activities. This action should result in cost savings as this development and standardization will relieve the individual contracting activities of the responsibility of developing their own.

Legal Authority: 16 USC 3 et seq NPS Organic Act; 16 USC 1901 et seq Mining in the Parks Act of 1976

CFR Citation: 36 CFR 9, Subpart A

Legal Deadline: None.

Abstract: As mandated by the "Mining In The Parks Act of 1976," the NPS promulgated its existing regulations to assure that operations on valid mining claims within units of the National Park System are conducted so as to prevent or minimize damage to park resources. The experience gained by the application of these regulations over the past eight years indicates that certain adjustments are now necessary to clarify and simplify the existing regulatory language and to improve the management of mineral resources within NPS units. Specifically, several sections of the current regulations either have proven difficult to interpret or pertain to a surface disturbance moratorium that expired in 1980 thus rendering them obsolete.

1146. CRITERIA FOR DETERMINATIONS OF ADVERSE IMPACT UNDER SECTION 165(D)(2)(C)(II) AND (III) OF THE CLEAN AIR ACT

Significance: Regulatory Program

Legal Authority: 42 USC 7475(d)

CFR Citation: Not yet determined

Legal Deadline: None.

Abstract: Under the Clean Air Act, the Department of the Interior, as Federal Land Manager, has the affirmative responsibility to protect the air quality related values of its class 1 areas and to consider whether proposed new major sources of air pollution will have an adverse impact on these values. The Department has developed and applied "working" criteria for making adverse impact determinations in several cases since 1982. Both industry and environmental groups have commented on the "working" criteria and requested further rulemaking action on the criteria. In response to these requests, this rulemaking action would solicit public input on the working definitions as well as related technical and legal issues.

The Notice of Intent will ask several questions. The answers to these questions will be useful in determining alternatives and potential costs and benefits.

1162. MINERALS MANAGEMENT NONFEDERAL OIL AND GAS RIGHTS

Legal Authority: 16 USC 1 et seq; 31 USC 9701; 5 USC 301

CFR Citation: 36 CFR 9B

Legal Deadline: None.

Abstract: Several sections of the regulations were ambiguously written which has caused confusion in interpreting the existing regulations during site specific implementation. NPS wants to make technical revisions to clarify requirements for both applicants and the NPS, such as: updating terms for consistency with existing policies and practices; setting bond limits consistent with existing reclamation costs; allowing NPS to collect administrative fees for issuing permits consistent with cost reimbursement requirements of Congressional and Executive direction; clarifying compliance issues associated with different access conditions; and, making the regulations applicable to all non-federal oil and gas operations within affected units of the NPS consistent with the enabling acts of affected units.

These are technical revisions to the regulations governing non-federal oil and gas activities within affected units of the National Park System. The existing authorities are 16 U.S.C. 1, et seq. and 31 U.S.C. 9701, 5 U.S.C. 301; and enabling legislation of the affected units.

1163. MINERALS MANAGEMENT NONFEDERAL RIGHTS OTHER THAN OIL AND GAS

Significance: Agency Priority

Legal Authority: 16 USC 1 et seq; 31 USC 9701; 5 USC 301

CFR Citation: 36 CFR 9C

Legal Deadline: None.

Abstract: Extensive nonfederal mineral rights exist within units of the National Park System. Two hundred twenty-four park units contain privately owned mineral rights totaling over 5.9 million acres and 96 park units contain split estates (surface is federally owned and the subsurface is privately owned) totaling 1.2 million acres. The extent of the minerals associated with nonfederal mineral rights is less well defined. Currently, few nonfederal mineral rights, other than oil and gas, are being developed within NPS units. The Service expects this relatively inactive development trend to continue. However, when such rights are proposed for development, the Service is charged by Congress to ensure that approved activities within park boundaries are consistent with the purposes for which the units were established. The proposed regulation would establish procedures and standards for the exercise of nonfederal mineral rights, for minerals other than oil and gas, to ensure that development activities are conducted in a manner to protect affected park units until such time the Service has sufficient funds to acquire the mineral right.

1173. APPEALS FROM ADMINISTRATIVE ACTIONS

Legal Authority: 5 USC 301; 25 USC 2; 25 USC 9

CFR Citation: 25 CFR 2

Legal Deadline: None.

Abstract: The present administrative appeal regulations are ambiguous and misleading. It is difficult to tell what issues may be appealed and to whom the appeal should be sent. Most deadlines are uncertain. Those that are certain are often unrealistic. It is also unclear when a final decision will be rendered by the Interior Board of Indian Appeals and when it will be rendered by the Assistant Secretary for Indian Affairs. Alternatives will be developed by reviewing the existing appeal regulations of other agencies. Consideration will be given to specifying which types of appeals go to the Assistant Secretary and which to the Board. The alternative of providing for the Assistant Secretary to make a case-by-case decision whether or not to refer the matter to the Board will also be considered. The primary benefit should be reduced frustration for both appellants and the BIA officials who handle the appeals. The greatest cost may be that both appellants and BIA officials may have to comply with more specified procedures and meet more deadlines in order for the system to work.

Abstract: The Bureau is amending existing Financial Assistance and Social Services Program regulations to further define the adult care services provided to Indian people. These proposed regulations define the extent of the program, establish eligibility requirements, and establish adult care services as a social services program separate and distinct from the general assistance program. The Bureau is also amending miscellaneous assistance provisions to conform with the congressional directive in Public Law 98-473. Miscellaneous assistance will be revised and defined as burial assistance. Emergency assistance previously provided under miscellaneous assistance has been transferred to general assistance by revision of CFR 20(c) on September 30, 1985.

Abstract: The Bureau of Indian Affairs proposes to revise certain sections of 25 CFR 152 which involve the issuance of fee patents, removal of restrictions, certificates of competency and the sale of certain Indian land. These regulations preclude the sale and/or exchange of tribal land except through special authorized legislation. The Indian Land Consolidation Act, Public Law 97-459, enacted on January 12, 1983 and subsequently amended on October 30, 1984, enables Indian tribes to sell or exchange tribal land for the express purpose of consolidating tribal landholdings. Additional Information: In May 1982, the District Court for the District of Arizona invalidated the regulation of 25 CFR 167 and ordered the Bureau to publish new regulations. The Bureau published interim regulations on Hopi partitioned lands on September 8, 1982. During the past year several meetings have been held with the Navajo Tribe to obtain concurrence to include Navajo partitioned land in the regulations. The Navajo Tribe expressed the desire for separate regulations and Bureau has drafted a new regulation for Navajo Partitioned Land within the existing 25 CFR Part 167.

1197. ROADS OF THE BUREAU OF INDIAN AFFAIRS

Significance: Agency Priority

Legal Authority: 25 USC 13; 25 USC 318(a); PL 97-424, Sec 105(a)(3); 23 USC 109(o); 23 USC 112(b); 23 USC 114(c); 23 USC 202(e); 23 USC 204; 23 USC 217

CFR Citation: 25 CFR 170

Legal Deadline: None.

Abstract: Indian reservation road construction is funded from the Highway Trust Fund. Other provisions include a requirement for proper maintenance of roads, applications of the "Buy Indian" and Indian Self Determination Acts, and joint program management by the Secretaries of Interior and Transportation. These changes in the law make changes in regulations imperative. The no-action alternative would leave program managers with outdated guidelines. Cost of the action will be minimal and it imposes no burden on the public. Benefits will be a better ordered road construction and maintenance program on Indian reservations, greater management efficiency, and clarity of procedures for federal managers, legislators and tribal officials. This part is also scheduled for review.

Legal Authority: 5 USC 301; 62 Stat. 273

CFR Citation: 25 CFR 175; 25 CFR 176; 25 CFR 177

Legal Deadline: None.

Abstract: This action consolidates Parts 175, 176 and 177 into Part 175 to provide consistent administration of the electric power portion (utilities) of the Colorado River, Flathead, and San Carlos irrigation projects, respectively, as well as other existing and future utilities within the Bureau of Indian Affairs. Additionally, new procedures are established for adjusting electric power rates and service fees, including public involvement in the rate setting process, and updating the policy, practices, and procedures of the utilities as needed. Part 175 would be retitled, "Electric Power Utilities" and Parts 176 and 177 would be removed.

Abstract: The proposed rule would add a new part 179 to Title 25 of the Code of Federal Regulations to set forth the authorities, policy, and procedures to be followed in the administration of life estates and future interests on Indian land. These regulations are being proposed to address the need for a clearly stated uniform policy. At the present time, there are no regulations dealing with life estates and future interests, even through these have become increasingly prevalent in the activities of Indians and the Bureau of Indian Affairs.

Significance: Regulatory Program

Legal Authority: 25 USC 81; 25 USC 415; 25 USC 301

CFR Citation: 25 CFR 287

Abstract: The Bureau of Indian Affairs proposes to revise the rule concerning the circumstances under which the Bureau of Indian Affairs, in the performance of the Federal Government's trust responsibility to Indian tribes, may, in its discretion, provide Departmental funds to an Indian tribe or other Indian organization for the payment of a private attorney's legal services. The proposed revisions would not change the underlying policy of the current rule which is to pay for private counsel to represent Indian tribes only in exceptional circumstances. The principal changes involve representation in child custody proceedings, services of tribal court personnel, and non-litigation services. The proposed revision would also

provide that when trust resources are involved, tribes and individual Indian allottees are eligible to apply for and receive Federally appropriated funds under 25 CFR 89.

Legal Authority: 5 USC 301; 25 USC 323 to 328

CFR Citation: 25 CFR 169

Legal Deadline: None.

Abstract: The Bureau of Indian Affairs intends to amend several sections of its rights-of-way regulations which impose a variety of specific requirements on grantees of rights-of-way over Indian lands. These requirements were intended to implement public laws enacted around the turn of the century which authorized the Secretary of the Interior to issue rights-of-way for various specific purposes. In 1948 Congress gave the Department comprehensive authority to grant rights-of-way for any purpose or any term of years without the antiquated restrictions of the older statutes. The regulations continue to reflect the old requirements and the result has been inconsistent application of the 1948 Act. The removal or revisions of these sections would end that practice.

CFR Citation: 25 CFR 249

Legal Deadline: None.

Abstract: It is proposed that 25 CFR 249, Subpart B, Fraser River Convention Sockeye and Pink Salmon Fishery, be removed as a result of the United States and Canada entering into a new treaty on January 28, 1985, which terminated both the 1930 Convention and the International Pacific Salmon Fisheries Commission (IPSFC). Based on the 1985 treaty, there is no longer a need for this subpart. In 1986, and thereafter, the fishery will be governed by the regulations adopted by the Fraser River Panel and approved by the State Department and by Tribal regulations that are consistent with the Fraser River Panel regulations.

Legal Authority: 30 USC 1701 et seq

CFR Citation: 30 CFR 216.40; 30 CFR 218.40

Legal Deadline: None.

Abstract: Current assessments, in some instances, are out of line with costs and the nature of the error. This burden on industry must be relieved as soon as possible. The assessment regulations in 30 CFR 216.40 and 218.40 reserve to the Minerals Management Service (MMS) the discretion whether or not to assess a reporter. However, the existing regulations do not give MMS any flexibility in determining the amount of assessment per line--it must be $10. After experience in making such assessments, MMS has determined that it must be able to vary the amount of the assessments. Therefore, MMS is amending the regulations that relate to the Auditing and Financial System (AFS) reporting in 30 CFR 218.40 and the regulations that relate to the Production Accounting and Auditing System (PAAS) reporting in 30 CFR 216.40 to provide that the assessment will be an amount "up to $10" for each report as defined in the respective regulations.

Abstract: Amendments to the DOI Air Quality regulation for oil and gas operations will be proposed for Outer Continental Shelf areas adjacent to California. The changes would provide additional safeguards for those pollutants which could be critical to air quality in the region. A determination of potential costs and benefits cannot be made until responses to the Advance Notice of Proposed Rulemaking are analyzed. The DOI has conducted a conflict assessment to determine the likelihood of the interested and affected parties being able to reach an agreement on an air quality regulatory program. If the affected parties involved can develop a mutually agreeable set of requirements, then DOI will initiate rulemaking based on that agreement.

1236. ● CHANGE EFFECTIVE DATE OF ADOPTED MODIFICATIONS TO NTL-5

Legal Authority: 30 USC 1701 et seq

CFR Citation: 30 CFR 206

Legal Deadline: None.

Abstract: The Minerals Management Service (MMS) published a Notice in the Federal Register on July 25, 1986 (51

FR 26759), to modify Notice to Lessees Number 5 (NTL-5) to provide more flexibility in valuing for royalty purposes, natural gas produced from onshore Federal and Indian leases. The modification was effective on August 1, 1986. However, MMS has received many complaints from industry that the prospective August 1, 1986, effective date of the modification, in some cases, leads to results which are unreasonable and contrary to applicable mineral leasing laws. Consequently, MMS proposes to make the effective date retroactive to a date to be established based on comments received.

Legal Deadline: None.

Abstract: Regulation for providing information and claiming rewards is needed to implement section 113 of the Federal Oil and Gas Royalty Management Act of 1982. No procedures are established on rewards. Rules would be developed to provide a process whereby persons having information on royalty or other payments owed to the United States could provide information and claim rewards. Alternatives considered are no action, issue a policy statement and no rule, or perform an extensive study. Very few information submissions and claims for rewards are expected as there is minimal interest to date. Therefore, costs are expected to be insignificant. Benefits would be assurance that the requirements of section 113 are being implemented and informants can provide information on amounts owed to the United States. Additional revenue is expected to be recovered.

Abstract: The Minerals Management Service (MMS) is proposing to amend 30 CFR 218 to change the threshold from $50,000 to $10,000 for royalty, bonus, and rental payments required to be made by Electronic Fund Transfer (EFT). This action would accelerate the collection and deposit cycle for MMS since payments under $50,000 are now made in the form of checks. Abstract: Proposes the desirability of new regulations to govern exploration on the Outer Continental Shelf (OCS) for minerals other than oil, gas, and sulphur under the authority of the OCS Lands Act; and requests comments and recommendations from interested parties. Alternative is to specify requirements in a permitting document rather than in regulations. Legal Authority: 43 USC 1863; 43 USC 1331 et seq; 42 USC 2000d to 2000e

CFR Citation: 30 CFR 271

Abstract: There are no provisions in current Minerals Management Service regulations which provide a mechanism for remedy of unlawful discrimination in Outer Continental Shelf (OCS) employment. Rules would be developed to provide a process whereby persons who believed they had been denied employment because of unlawful discrimination would have a forum. These rules would implement the purposes of section 604 of the OCS Lands Act Amendment of 1978. Alternatives considered are no action, issuance of a policy statement and no rules, and proposal of extensive affirmative action rules similar to those rescinded in the past. Very few complaints are expected to arise as there has been no evidence of discrimination to date. Therefore, costs are expected to be minimal. Benefits would be the assurance that the requirements of section 604 are being fully carried out.

1246. OIL AND GAS AND SULPHUR OPERATIONS ON THE OUTER CONTINENTAL SHELF (OCS)

Significance: Regulatory Program

Legal Authority: 43 USC 1334

CFR Citation: 30 CFR 250, (Revision)

Legal Deadline: None.

Abstract: The rules at 30 CFR 250 will be revised by consolidating regulations, OCS Orders, Notices to Lessees, and related offshore operating requirements into a unified body of regulations; eliminating burdensome and counterproductive requirements; adding performance standards; and simplifying and streamlining these rules to the maximum extent practicable. Other alternatives considered were not revising the regulations and revising only those regulations identified by industry.

Legal Authority: 43 USC 1331 et seq

CFR Citation: 30 CFR 250.45(c), (new)

Legal Deadline: None.

Abstract: Proposes to establish procedures to obtain testimony from witnesses or persons who have knowledge of serious accidents, fires, blowouts, or spills that occurred during oil and gas and sulphur operations in the Outer Continental Shelf. The testimony would help accident investigation panels to determine the cause or probable cause of an accident under investigation. The procedures would facilitate meetings of investigatory panels and would reduce legal challenges to future Minerals Management Service fact-finding investigations. The alternative would be not to have procedures. The proposed rule is procedural in nature; therefore, it does not imply cost.

1248. REPORT OF CESSATION OF PRODUCTION

Legal Authority: 43 USC 1331 et seq

CFR Citation: 30 CFR 250.93

Legal Deadline: None.

Abstract: The Minerals Management Service (MMS) proposes to add the requirement for a report of cessation of production for leases in their extended term which have ceased production. This proposed regulation addresses a situation created by the elimination of the Monthly Report of Operations. Without the Monthly Report of Operations, MMS does not have timely information concerning the status of a lease. The alternative is to continue collecting the Monthly Report of Operations.

Legal Authority: 30 USC 1701 et seq; 43 USC 3160

CFR Citation: 30 CFR 206

Legal Deadline: None.

Abstract: Regulation to modify 30 CFR 206.100 is needed to reference Bureau of Land Management (BLM) regulations on the prevention of waste of oil and gas. Regulations at 30 CFR 206 are inconsistent with BLM regulations. Rules would be modified to make the MMS rule, to be effective retroactive to 10/22/84, consistent with BLM rule. Alternative considered is no action. Costs are expected to be minimal. Benefits would be the assurance that MMS regulations and BLM regulations are consistent in the valuation of wasted or avoidably lost production for oil and gas. Guidance to industry would be improved.

Abstract: The Minerals Management Service is considering direct payment of minerals royalties to Tribes or allottees. Annually, about $175 million is distributed to approximately 20,000 individual allottees and Tribes. The payments are sent by the payor to MMS and from MMS to the Bureau of Indian Affairs for distribution. The present system increases the risk of making late or wrong payment and is extremely expensive and inefficient to administer. Also, accountability is difficult to establish under the present system.

1256. BOREHOLE ABANDONMENT

Legal Authority: 43 USC 1331 et seq

CFR Citation: 30 CFR 250.44

Abstract: There are no provisions in current Minerals Management Service regulations which address the requirements for the temporary abandonment of a borehole. This revision allows an operator to temporarily abandon a borehole in an environmentally sound manner. There are no potential additional costs as the rule reflects current industry practice. The benefits are an operator may be able to utilize a drilled well at a later point rather than immediately abandoning it, thereby reducing the cost of operations. The requirements in the amendment will ensure that the temporarily abandoned wells will not constitute a hazard to navigation or other uses of the ocean, or to the environment.

Abstract: Revisions to 30 CFR 290 are needed to assure that the administrative appeals procedures are compatible with the newly adopted civil penalty regulations of 30 CFR 241, are in accord with current organizational configurations, and contain new provisions concerning filing dates and the submission of confidential information. Persons exercising administrative appeals rights would be required to identify information that they claim is exempt from public disclosure and to provide second copies of appeals documents. The procedural revisions should increase efficiencies in processing appeals and reduce risks of inadvertent disclosure of private information. The maximum estimated total cost of the proposed revisions is not expected to exceed $5,000 per year for all affected persons.

1259. ● TERMINATION OF JURISDICTION UNDER SMCRA

Significance: Regulatory Program

Legal Authority: 30 USC 1201 et seq

CFR Citation: 30 CFR 700.11

Legal Deadline: None.

Abstract: The Surface Mining Control and Reclamation Act (SMCRA) does not specifically define the cutoff point at which a person's reclamation obligations are absolved, therefore a rule is needed to specify when liability is terminated. The significant and sensitive nature of this issue warrants rulemaking to resolve the issue of when a person's liability under SMCRA ends. The regulations in question are specific to the responsibilities of the Depart. of the Interior, OSMRE, and they implement SMCRA. No other Federal agency is authorized to undertake this action on behalf of the Department. OSMRE has never addressed this issue in a rulemaking. The regulatory authority will issue a written determination ending liability under the Act where the following conditions apply. For permanent program operations it proposes to terminate an operator's liability under the Act at the time of final bond release where all applicable regulatory program requirements have been met. For initial program operations, liability will end where all requirements of the Act and regulations have been met. In addition, for both categories of operations, there (cont)

Significance: Agency Priority

Legal Authority: 30 USC 1201 et seq

CFR Citation: 30 CFR 700.5

Legal Deadline: None.

Abstract: The rule will codify the definition of the phrase "in connection with" as used in the definition of surface coal mining operations at 30 CFR 700.5. The definition of "in connection with" will clarify which

activities are associated with surface coal mining operations and therefore subject to the requirements of the Surface Mining Control and Reclamation Act.

Significance: Regulatory Program

Legal Authority: 30 USC 1201 et seq

CFR Citation: 30 CFR 701.5; 30 CFR 785.19(d)

Legal Deadline: None.

Abstract: This proposed rule would respond to a ruling by the District Court for the District of Columbia which stated that the definition of farming and agricultural activities were not equal as it related to Alluvial Valley Floors as defined in OSM's regulations. The Court ordered that the definition be repromulgated in a manner consistent with Congressional intent. Pursuant to the Court ruling, additional guidance would be provided as to what the "essential hydrologic functions" are of AVFs.

Legal Deadline: None.

Abstract: The regulation will address the sections that were remanded back to OSM by the action of the Court and modify some provisions that are confusing in the existing file. The changes will provide additional guidance to the surface coal mine operator in fulfilling the performance standards of the Act. Costs will not be increased because the regulations will amplify existing requirements.

Significance: Regulatory Program

Abstract: The proposed rule would clarify the applicability of the prohibitions in section 522(e)(4) and (5) of the Surface Mining Control and Reclamation Act to the surface impacts of underground mining. The issue of the relationship between section 522(e) and mining related subsidence will be addressed in the proposed rulemaking. The rulemaking will seek to clarify whether OSM's rules have the effect of prohibiting underground mining operations related to the features and facilities within the distance limitations enumerated in sections 522(e)(4) and (5) of the Act. The proposed rulemaking will address the issue of what is a "Surface Impact" incident to an underground mine.

Additional Information: The Office of Surface Mining has determined that the proposed rulemaking constitutes a major Federal action requiring an EIS to meet the requirements of the National Environmental Policy Act. OSM has also made the determination that the proposed rule may be significant within the meaning of E.O. 12291. Precise cost/price impacts cannot be determined prior to further development of the regulation, but such costs are anticipated to be significant in terms of E.O. 12291 and the Regulatory Flexibility Act. 1264. PERMANENT REGULATORY PROGRAM DEFINITIONS

Legal Authority: 30 USC 1201 et seq

CFR Citation: 30 CFR 701.5

Legal Deadline: None.

Abstract: The proposed rulemaking is in response to a court order of the District Court for the District of Columbia which remanded the portion of OSM's definition of "affected area" relating to the description and inclusion of roads in "affected areas." The proposed regulation will address alternative definitions and descriptions of roads as part of the definition of "affected areas" and clarify the relationship of these terms to various provisions of the Surface Mining Control and Reclamation Act of 1977. OSM is unable at this time to determine precisely what additional costs would be associated with the rule. It should be minimal, however, as this rule is intended only to identify the limitations on roads to be included in surface mining operations.

Significance: Agency Priority

Legal Authority: 30 USC 1201 et seq

Abstract: The proposed rule will amend the definition of the term support facilities as a result of the District Court for the District of Columbia's opinion of July 6, 1984. The proposed regulation would bring additional support facilities under the Permanent Program Regulations of the Surface Mining Control and Reclamation Act and amend the definition of support facility to connote a functional relationship with a regulated facility. This proposed rule would impose only minor costs to the coal industry since relatively few operations will be affected.

Legal Authority: 30 USC 1201

CFR Citation: 30 CFR 702

Legal Deadline: None.

Abstract: The Surface Mining Act exempts mining operations that extract other minerals where coal does not exceed 16 2/3 percent of tonnage of minerals removed for sale. Evidence of abuse of this exemption has been identified. Proposed regulations would establish procedures to administer the exemption. The costs of compliance for these operations are undetermined. Benefits would be to the public in terms of protection of health, safety, and environment from detrimental effects of mining. Legitimate noncoal operators would be able to compete fairly with those operations now using the exemption to undersell their legitimate competitors.

Legal Authority: 30 USC 1202; 30 USC 1211; 30 USC 1278

CFR Citation: 30 CFR 707

Legal Deadline: None.

Abstract: The current limiting language in 30 CFR Part 707 can have at least three adverse results for the Abandoned Mine Lands (AML) Program. The inability to remove incidental amounts of coal encountered during reclamation activities can result in: 1) the loss of a valuable energy resource, 2) a no-cost subsidy of a future mining operation, and 3) a windfall profit to the mineral owner. In addition, the Federal and State governments are unable to reduce the costs of their AML projects. Participation in the incidental recovery of coal and resulting reduction in reclamation costs would allow the Federal and State AML programs to accomplish more reclamation at a substantial saving. To correct these deficiencies and to allow greater flexibility for the AML Program to remove incidental amounts of coal encountered during AML-financed reclamation activities, the clarification and expansion of the scope of Part 707 is being proposed.

1268. REQUIREMENTS FOR COAL EXPLORATION--PERMIT REQUIREMENTS FOR EXPLORATION REMOVING MORE THAN 250 TONS OF COAL

Significance: Agency Priority

Legal Authority: 30 USC 1201 et seq

CFR Citation: 30 CFR 772.11; 30 CFR 772.12

Legal Deadline: None.

Abstract: The proposed rule would comply with a court order of the District Court for the District of Columbia which remanded OSM reporting requirements for surface coal exploration. The proposed rule would revise existing requirements to include the filing of a notice by all individuals or operators planning coal exploration, and specify the information required on applications for coal exploration. The obligation to report is a standing requirement of existing regulations. This rule would expand the requirement to report. Because affected States already have the expanded requirement in place, no additional costs or benefits are expected to be associated with the rule.

Abstract: The rule sets a life of permit as the parameter for the determination of the probable hydrologic consequences (PHC) of the proposed operation upon the quality and quantity of surface and groundwater under seasonal flow conditions for the proposed permit and adjacent areas. The rule re-promulgates the suspended 1983 rules with an expanded preamble and record to support the rule language. This was requested by the Court as a result of litigation. 1278. PERMANENT REGULATORY PROGRAM - MOUNTAINTOP REMOVAL

Significance: Agency Priority

Legal Authority: 30 USC 1201 et seq

CFR Citation: 30 CFR 785

Legal Deadline: None.

Abstract: The proposed rule amends the rules for "Permits for Special Categories of Mining -- Mountaintop Removal Mining." This action will correct an inadvertent error whereby certain substantive provisions concerning mountaintop removal mining in the Surface Mining Control and Reclamation Act of 1977 (the Act) were not included in previous implementing regulations. These provisions include a finding for permit issuance that the applicant has presented specific plans for the proposed postmining land use and has made appropriate assurances for the use. The addition of these provisions will make the rules for mountaintop removal mining consistent with the Act, as well as with the Secretary's brief In Re: Permanent Surface Mining Regulation Litigation II, (round III). The requirements of the proposed rule will ensure that all the substantive provisions of the Act are applied to mountaintop removal coal mining operations.

Significance: Agency Priority

Legal Authority: 30 USC 1201 et seq

CFR Citation: 30 CFR 785.13

Abstract: The proposed rule would revise the permit application requirements applicable to experimental practices as provided by section 711 of SMCRA. Section 711 allows for departures from the environmental protection performance standards of section 515 and 516 of the Act. The rule would be revised to encourage advances in mining and reclamation practices and special alternative postmining land uses. No additional costs to the environment would occur because experimental practices cannot be authorized if they are not as environmentally protective as the requirements of section 515 and 516. The rule revision may provide coal mine operators the ability to utilize more cost efficient mining and reclamation practices.

Abstract: This rule is being proposed in response to an order of the U.S. District Court remanding several aspects of OSM regulations concerning revegetation which has inadequate support in the administrative record. OSM will propose rules concerning replanting of trees as a normal husbandry practice, the period for revegetation success, and rills and gullies control as a normal conservation practice. Abstract: The regulation will address the issue addressed in a district court challenge to OSM regulations. The rule will address the problem of combination spillways and will specify a spillway configuration that must be installed to safely pass the designed precipitation event. In some cases, the rule may allow one spillway to serve as a combination principal and emergency spillway. 1288. ● COLLECTION OF AML FEES - MOISTURE CONTENT OF COAL

Significance: Regulatory Program

Legal Authority: 30 USC 1201 et seq

CFR Citation: 30 CFR 870

Legal Deadline: None.

Abstract: The present regulations require the weight of coal (for the purpose of calculating the tonnage upon which the AML fee is calculated) to be determined at the point of first sale. This weight includes not only that of the saleable coal, but also that of the extraneous material including the moisture content. Recent action by the Internal Revenue Service (IRS) issued a revenue-ruling for the Black Lung Tax to allow for the deduction of a moisture content allowance from the tonnage upon which the Black Lung Tax is collected. The IRS decision to make this change in its regulations was based on a Federal court decision. Taft Coal Co. v. U.S., 605 F. Supp. 366, (N.D. Ala. 1984). OSMRE proposes to change the existing regulations to create a standard moisture allowance which would be consistent with that allowed by the IRS for the Black Lung Tax program. Regulations dealing with the basis upon which a tax or fee is assessed should be consistent for administrative convenience and equity to the coal operator. Federal action is required since OSMRE is directly responsible for collecting the AML fee and for establishing the regulations promulgating (cont)

Legal Authority: 30 USC 1201 et seq

CFR Citation: 30 CFR 874

Legal Deadline: None.

Abstract: The proposed rule would clarify what land is eligible for abandoned mine land reclamation funding. Under existing regulations, abandoned mine land reaffected after August 3, 1977, the date of enactment of Surface Mining Control and Reclamation Act, is ineligible for reclamation funding. The Office of Surface Mining Reclamation and Enforcement believes that non-eligibility for reclamation funding places an undue hardship on surrounding communities. The rule would allow expenditure of Abandoned Mine Land Reclamation Funds if such projects meet certain specific criteria in order to restore affected environments.
